

Stanley's demolition lineup is turning more than a few heads.

Why? Because we make demolition tools that are more than just tough and strong. Our Wonder Bars® have been engineered to make pulling and prying easier. Our claw bars and nail pullers fit

comfortably in the hand and have added length for better leverage. And new for this year, we're applying our patented AntiVibe® technology to our line of demolition hammers. We've invented a completely new type of tool in the industry, the FatMax® Xtreme™ Utility Bar, as well as a brand new line of cold chisels and punches.
