

2006 PONTIAC G6

G6 is more than a new Pontiac. It is a new way of thinking. Innovation by innovation, and detail by detail, G6 reshaped old standards to create a new and more personal definition of performance for the 21st century. Its design is taut and contemporary, shaped to outlast fickle twists of style. Its responses are crisp and immediate but always instinctive and composed. Its functional systems are technically advanced, tuned to feel solid and rewarding at first drive. A machine that makes the refinement formerly exclusive to expensive imports accessible to an entirely new group of driving enthusiasts.
