BARRELS, BARREL BUSHINGS, BARREL LINKS

Bar-Sto 1911 Semi-Drop-In Barrels

Installation of a Bar-Sto barrel can result in accuracy of 1-1/2" or better at 25 yards using match grade ammo. Barrels are machined from stainless steel bar stock which has been heat treated to 180,000 psi tensile strength. Bushing, link and pin are included. May require minor fitting.

Commander	Twist	Length	Finish	Product #	Price

Bar-Sto 1911 Match Target Barrels

Bar-Sto Match Target Barrels have exterior dimensions that are oversized and must be fitted to your gun to provide the tightest fit possible. These barrels will improve accuracy up to 1-1/2" or better at 25 yards using match grade ammunition. Bushing, link and pin are included. Requires fitting and installation by a qualified gunsmith.

Ed Brown 1911 Semi-Drop- In Barrels

These barrels start as a 3 pound bar of certified pure T-416 stainless steel and are cut to precise standards before being heat and cold treated for maximum strength and stress relief. This deep cut, broached rifling gives superior accuracy with all types of bullets, including cast lead. The dimensions are cut to the maximum tolerances on the outside of the barrel which means less fitting work and more accuracy. Barrel bushing, barrel link and link pin are included. May require minor fitting. Note: Ramped barrels require gunsmith installation.

Nowlin 1911 Government Match Grade Barrels

Nowlin barrels are hammer forged for strength and integrity. Precise machining, unique rifling and attention to detail all help to create highly accurate barrels with long service lives. These barrels feature oversize hoods and feet for exact fitting to your slide. All barrels except the Pre-Fit model are short-chambered, allowing you to finish chamber them to your exacting specifications. Pre-Fit barrel is designed to be drop-in, though fitting to the bushing will be required. Non-Ramped barrels are for standard 1911s with a frame ramp. Requires fitting and installation by a qualified gunsmith.

STI 1911 Government Barrels

STI barrels are made from 416 rifle grade stainless steel. The bore is button rifled and air gauged to the most exacting size and most consistent twist available. Barrels are short chambered and must be finish reamed for each particular caliber. Barrels also feature a Nowlin-Wilson style ramp. The Bull Barrels require no barrel bushing, and the Bushing Barrels include the barrel bushing, link pin and barrel link. Requires fitting and installation by qualified gunsmith.

1911 Recoil Buffers

Recoil Buffers eliminate damage to critical components by preventing the metal to metal contact of the slide with the frame. Made from a high density polyurethane formulated for maximum shock-absorbing characteristics, the recoil buffer is a drop-in part. For Government and Commander models only.

Description	Quantity	Product #	Price
Buffer Technologies	8	531-663	\$8.99
Ed Brown	6	740-502	\$5.89

1911 Recoil Spring Plugs

Standard 1911 all-steel recoil spring plugs. Briley Plugs have "ears" that fill in the gap under bull barrels that do not have bushings. Plugs in the white will require finishing, and some plugs will require fitting or gunsmith installation.

STI 1911 Recoilmaster

The STI Recoilmaster is a complete kit that produces significant reductions in muzzle climb and recoil. This gives the shooter more consistent performance and brings the gun back to point of aim more quickly than conventional recoil assemblies. Light Recoilmaster is for 9mm Luger and 38 Super, while the Heavy is for 40 S&W, 10mm Auto and 45 ACP. Both include a takedown tool. Requires installation by a qualified gunsmith.

GUIDE RODS, PLUGS, RECOIL BUFFERS (CONTINUED)

Wilson Combat 1911 Group-Gripper Kit

The Group Gripper is a modified recoil spring guide and barrel link that uses heavy spring tension to force the rear of the barrel up into the locking lugs in the slide. This makes your handgun go into battery exactly the same each time, squeezing the utmost accuracy from your stock barrel. Available as a Recoil Spring Guide only or as a 2-Piece Guide Rod. Minor fitting required. Fits Government models.

Recoil Spring Guide Only.....	Stainless Steel...	201-519	\$26.99

CONVERSION KITS, UPPER ASSEMBLIES

Advantage Arms 1911 22 Long Rifle Conversion Kits

Machined aluminum slides combined with stainless steel barrels create an affordable way to practice with your 1911. Unlike many other conversions, this slide locks open on the last shot for fast tactical reloads. Target model features a slide that moves independently of sights for fast, accurate shooting. Both models include Millett adjustable sights. One 10-round magazine included. Anodized aluminum finish on the slide and a black oxide finish on the barrel.

Kimber 1911 Rimfire Target Conversion Kits

Convert your 1911 to fire rimfire ammunition in just minutes. Fits most 1911-style, single stack handguns chambered in 45 ACP. (Not compatible with ramped barrel.) These drop-in units require no modifications to your gun and do not require changing mainsprings. Conversion units will fit compact models, but the magazine will protrude slightly below the grip. Includes adjustable sights, travel case and a 10-round magazine. Kimber strongly recommends using only premium ammunition with plated bullets. Non-plated lead bullets may cause malfunctions.

Marvel 22 Long Rifle Conversion Kits

Conversion to 22 Long Rifle is quick and simple with no fitting required. The barrel is machined from a Shilen blank and the slide is made from 7075 aluminum with a hardened-steel breech insert to avoid any steel-to-aluminum contact. Aluminum parts are anodized and steel parts are blued for corrosion resistance. Includes one 10-round steel magazine and a foam-padded, soft-side nylon case.

FRAME PARTS (CONTINUED)

1911 Magazine Releases and Buttons

Replacing the magazine release in your 1911 will provide positive magazine releases for carry or competition situations. Factory Releases replicate the standard 1911 part. Ambidextrous Releases can be activated from either side of the frame. Tactical/Extended Releases are extended about .06" for more positive magazine changes without the fear of snagging on clothing or holsters. Oversize Buttons and Threaded Releases are available for the fastest magazine changes possible. Perfect for target or competition shooting. Oversize Releases are not recommended for carry situations. These steel parts are drop-in.

HAMMERS, SEARS, TRIGGERS (CONTINUED)

Cylinder & Slide 1911 Series 80 Trigger Pull Reduction Kit

These parts are coated with titanium nitride and will reduce trigger pull by approximately 1 lb. Kit contains hammer pin, sear pin, trigger lever, firing pin lock and firing pin lock plunger lever. May require minor fitting. Fits Series 80 1911s.

302-636\$45.99

Nowlin 1911 Action Kits

Nowlin Action Kits are designed to improve the overall quality of your 1911 trigger pull. Each kit includes a disconnector, 19-1/2 lb main spring, a sear spring and hammer. The Factory Enhanced kit includes the Factory Enhanced Sear, all other kits include the S-7 Machined Sear. These kits give you a smooth 3-1/2 to 4 lb trigger pull with no creep. Kits require fitting and installation by a qualified gunsmith.

Wilson Combat 1911 Beavertail Grip Safety Fitting Jig

The perfect fitting jig for installing the Wilson Beavertail Grip Safety with its unique compound radius. The jig attaches to the hammer and thumb safety holes for perfect indexing. The jig guides you as to how much and where the metal has to be removed from the frame for a perfect fine fit. Not for use when installing grip safeties that specify a .250 radius.

Wilson Combat 1911 Government Complete Spring Set

A set of all the springs necessary to construct, rebuild or recondition your 1911. These springs are built from high tensile spring steel, assuring a consistently smooth action, positive ignition and proper timing. Set includes sear spring, 18-1/2 lb heavy-duty recoil spring, extra-power firing pin return spring, plunger spring, magazine release spring and mainspring.

# 207-411.....	\$14.99
----------------	---------

Wilson Combat 1911 Government Spring Caddy

The Spring Caddy is a handy roll-up organizer containing the most commonly needed 1911 Government springs and accessories. For the serious shooter, this compact accessory kit is extremely valuable to keep on hand at all times. Kit contains: Bushing wrench, four Shok-Buff buffers, firing pin spring, six recoil springs (9, 10, 12, 15, 17 and 18-1/2 lb) and a nylon pouch.

# 631-660.....	\$31.49

45 ACP.....	576-439.....	\$16.49

SPRING PACKS (CONTINUED)

Wolff 1911 Recoil Spring Calibration Packs

Recoil Calibration Packs are offered to allow the shooter a choice of recoil springs to calibrate the recoil function when the correct spring rating is not known. The shooter starts with the strongest spring and works down until the desired recoil function is obtained. Each Pack contains several recoil springs and offers a savings over buying them individually. Three power firing pin/striker springs are also included.

Commander	Product #	Price
Reduced Power	491-364	\$28.99
12, 13, 14, 15 and 16 lb conventional recoil springs and 3 extra power firing pin springs.		
Reduced Power Variable	730-288	\$52.99
10, 11, 12, 13, 14, 15, 16, 17 and 18 lb variable weight recoil springs and 3 extra power firing pin springs		
Extra Power	614-391	\$28.99
18, 20, 22, 24 and 26 lb conventional recoil springs and 3 extra power firing pin springs.		
Government	Product #	Price
Ultra Light Reduced Power	729-065	\$28.99
5, 6, 7, 8 and 9 lb variable recoil springs and three extra power firing pin springs		
Reduced Power	121-433	\$28.99
11 lb, 12 lb, 13 lb, 14 lb and 15 lb conventional recoil springs and 3 extra power firing pin springs.		
Reduced Power Variable	993-134	\$39.99
9, 10, 11, 13, 14, 15 and 16-1/2 lb reduced power variable recoil springs and 3 extra power firing pin springs.

Schuster AR-15 Knurled Thread Protector

This steel thread protector features 1/2 x 28 threads to fit most AR-15 barrels. Protects barrel threads from damage when not in use.

469-030\$12.99

BARRELS

DPMS AR-15 Barrels

Pre-Ban barrels feature a threaded muzzle and bayonet lug on the front sight assembly. Other barrels feature target crowns. All barrels feature 6-groove button rifling and include either a gas block or an A2 front sight assembly. Stainless steel barrels are sandblasted to a natural gray matte finish and the chrome moly barrels are sandblasted with a phosphate finish applied.

BOLT COMPONENTS

DPMS AR-15 Bolt Components

These DPMS bolt components are completely Mil-Spec. Chrome plated parts feature a tough chrome finish that reduces wear and friction while extending the service life of critical components. Titanium nitride (TiN) is an even tougher finish that resists scratching and corrosion. TiN also gives the components a unique gold finish.

JP Enterprises AR-15 Tactical Bolt Carrier

The bore of the Stainless Bolt Carrier has a roller burnished finish for frictionless operation with no chance of peeling chrome as in standard Mil-Spec carriers. The exterior bearing surfaces are hand polished. Features a 100% increase in bearing surface for smoother operation and improved alignment with less wear on the upper receiver. Comes with the key installed and is milled from 416 stainless steel.

# 580-179.....	\$164.99

FLASH HIDERS/COMPENSATORS

DPMS AR-15 3 Prong Flash Hider

This steel 3 prong design is simple and effective. Features 1/2 x 28 threads to fit threaded AR-15 barrels. Parkerized.

# 487-530.....	\$7.49
----------------	--------

DPMS AR-15 5-1/2" Flash Hider

Extra long steel flash hider stabilizes the muzzle for fast follow up shots. Slip Over model can be used on 16" barrels to give the "shorty" look. 1/2 x 28 threads.

Description.....	Finish.....	Product #.....	Price
Slip Over.....	Parkerized.....	529-331.....	\$16.49
Standard (Pictured).....	Parkerized.....	275-983.....	\$16.49

DPMS AR-15 Branson Muzzle Brake

Similar to the standard issue A2 brake, with no slots in the bottom. This increases muzzle control and reduces dust signature when shooting prone. The end is also blocked to reduce felt recoil. 1/2 x 28 threads. Matte.

# 550-170.....	\$32.99
----------------	---------

DPMS AR-15 Fabio Muzzle Brake

Features holes in the rear and slots in the front to direct expanding gas upward, reducing muzzle climb and felt recoil. 1/2 x 28 threads. Matte.

# 110-866.....	\$40.99
----------------	---------

DPMS AR-15 Levang Linear Compensator

This steel compensator reduces muzzle blast by directing escaping gasses forward and away from the shooter, while reducing muzzle climb. 1/2 x 28 threads. Matte.

# 524-840.....	\$31.49
----------------	---------

DPMS AR-15 Miculek Muzzle Brake

Six large side ports direct gas to the sides of the gun, stabilizing the barrel and reducing felt recoil. Includes jam nut for indexing. 1/2 x 28 threads. Matte.

# 942-876.....	\$30.49
----------------	---------

DPMS AR-15 Mil-Spec Flash Hiders

Mil-Spec steel A1 and A2 flash hiders are effective and give your AR an authentic look. 1/2 x 28 threads.

Description.....	Finish.....	Product #.....	Price
A1 Flash Hider.....	Parkerized.....	518-884.....	\$6.49
A2 Flash Hider (Pictured).....	Parkerized.....	343-064.....	\$5.49

FLASH HIDERS/COMPENSATORS (CONTINUED)

DPMS AR-15 Compensators AK-74 Style

Steel Compensator offers the effective muzzle control of the AK-74 muzzle brake. Set Screw version has mounts for .700" diameter post-ban AR-15 barrels, while the Threaded version features 1/2 x 28 threads.

Description	Finish	Product #	Price
Set Screw (Pictured)	Matte	555-602	\$29.49
Threaded	Matte	860-229	\$19.79

DPMS AR-15 Muzzle Brake and Recoil Reducer

Features a small hole design in concentric circles around the muzzle. Reduces muzzle climb for better control and faster follow up shots. 1/2 x 28 threads. Matte.

# 852-485	\$41.49
-----------	---------

DPMS AR-15 Panther Muzzle Brakes

These steel muzzle brakes direct gas to the side of the gun, stabilizing the barrel and reducing muzzle climb. 1/2 x 28 threads.

HANDGUARDS AND FOREND GRIPS

Badger Ordnance AR-15 Stabilizer Handguards

This flat bottom aluminum handguard is specifically designed to provide a stabilized shooting platform. The Stabilizer features Dragunov style cooling slots along its length. The Tactical version features 3 removable Picatinny rail sections that can be positioned along the sides and bottom to accommodate a variety of tactical rifle accessories. Handguards are standard length.

Description	Color	Product #	Price
Handguard	Black	107-015	\$129.99
Handguard with Target Rail Slot and Handstop	Black	315-292	\$203.99
Tactical Handguard with Three 2-1/2" Removable Picatinny Rails (Pictured)	Black	637-569	\$172.99

Clark AR Free Float Tubes

Carbon fiber tube free-floats the barrel and weighs only 6 oz. 2" outside diameter. Gunsmith installation required. Tubes are standard length.

Description	Color	Product #	Price
AR-15 Rifle	Black	255-200	\$99.99
Armalite AR-10, DPMS LR 308, SR-25 Rifle	Black	156-271	\$119.99

DPMS AR-15 Tuber Extended Free Float Tube with End Cap and Grip

An aluminum barrel shroud with endcap and modified M203 grip. Fits 16 inch post-ban barrels. Gives a "suppressed" look. Black.

672-184\$109.99

DPMS AR-15 AP4 Carbine GlacierGuards Handguard

This Carbine Handguard features 15 internal, polymer fins that replace the traditional aluminum heat shield. The external ridges are also spaced closer together than on standard handguards. Black.

468-923\$25.99

DPMS AR-15 4 and 6 Rail Free Float Tubes

Aluminum anodized free float handguard tubes with integral Picatinny rails. Vented for improved cooling and "indexable" for correct positioning. Gunsmith installation required.

4 Rail Tube	Finish	Product #	Price

Round	Black	881-062	\$1.59
Triangular	Black	126-536	\$1.59

DPMS AR-15 DCM Competition Free Float Handguard Assembly

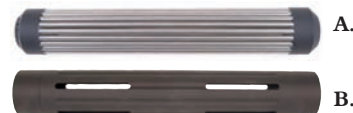

Polymer construction with steel inserts.

This handguard looks like the original round A2 handguard, but an internal free-float tube isolates the barrel from pressures caused by a sling or bipod. Legal for DCM competition and great for shooters who want the original look with improved performance. Includes swivel rivet. Assembly is standard length and requires gunsmith installation.

228-798\$123.99

DPMS AR-15 Free Float Handguard Tubes

This standard length, anodized aluminum free float tube from DPMS removes stresses caused by bipods, slings or rests. Hot Rod Handguards consist of a series of steel rods inserted into 2 aluminum end caps. Gunsmith installation required.

Carbine	Color	Product #	Price
Hot Rod	Black/Stainless Steel	216-417	\$78.99

ERGO Grip (B)	Polymer	285-499	\$54.99

Command Arms AR-15 Handguard Sets

The M-33 handguard features 2 mounting rails that accept any Picatinny or Weaver-style accessories. The M-44 has four Picatinny rails for virtually unlimited mounting options. These lightweight polymer handguards have no additional bulk or weight because the rails are designed to be an integral part of the unit. Thermal rail covers enhance the shooter's grip and protect the rails when not in use, and a metal heat shield dissipates the heat during sustained fire sequences. No gunsmithing required for installation.

Handguard Sets	Color	Product #	Price
M-33S Carbine (Pictured)	Black	413-777	\$74.99

Command Arms AR-15 G-27 Tactical Grip

The G-27 Tactical Grip has a unique grip base that offers integral finger grooves. It features a readily accessible secured storage area and increases control while minimizing slippage. Black polymer.

863-581\$30.49

HANDGUARDS AND FOREND GRIPS

John Masen AR-15 Vertical Foregrip with Attachment Bar

Bar attaches with 2 screws to standard handguard holes. Nylon vertical foregrip mounts to attachment rail or any Weaver-style or Picatinny rail.

124-046.....\$16.29

JP Enterprises AR Modular Handguards

Modular Handguards feature floating studs for complete flexibility in bipod positioning and extra studs for proper tactical sling position. The ventilated, fluted design is 20% lighter than standard tubes and offers excellent heat dissipation. The rubber O-ring separating the tube and nut makes it easy to index and tension. Posi-grip center assures non-slip grip. Handguard will cover gas block for 16" barrels, other lengths will have exposed gas blocks.

Wilson Combat AR-15 Upper Receiver

Forged anodized aluminum Flattop Receiver includes a Picatinny rail mount.

# 693-448	\$147.99
-----------------	----------

Answer: Bullet swaging

Bullet swaging is the process of making a bullet by using intense pressure to shape the lead at room temperature. Unlike casting, no heat is used to melt the lead.

See pages 109-139 for complete line of swaged bullets.

UPPER RECEIVER COMPONENTS

DPMS AR-15 Upper Receiver Components

Upper Receiver Components from DPMS are perfect for upgrading your AR, replacing worn parts or building one from scratch. Chrome plated parts feature a tough chrome finish that reduces wear and friction while extending the service life of critical components.

ACCESSORIES

DPMS AR-15 Field Repair Kit

Contains an extractor, firing pin, retainer pin, extractor spring, hammer spring, trigger spring, disconnect spring and ejector spring. Perfect for repairs in the field.

# 120-759	\$23.49
-----------------	---------

ACCESSORIES (CONTINUED)

DPMS AR-15 Brass Catchers

Brass Catchers collect spent cases as they are ejected, eliminating the need to collect brass after a shooting session. The Wook model attaches to the handguard of your Flattop AR, and the Levang model attaches to the magazine for use with any AR rifle or carbine.

Description	Product #	Price
Levang Brass Catcher	266-320	\$32.49
Wook Brass Catcher (Pictured)	387-725	\$41.49

DPMS AR-15 M-7 Bayonet

This is a Mil-Spec M-7 field bayonet, featuring a sturdy high carbon steel blade with a durable parkerized finish. The scabbard is constructed of a black polymer.

Description	Product #	Price
Bayonet	620-048	\$20.99
Scabbard	521-284	\$11.79

John Masen AR-15 Shell Deflector

Constructed of hardened nylon polymer and designed to deflect hot brass from the shooter. For A1 or A2 upper receivers. Easy to install and remove. Instructions included.
919-620\$4.69

Tubb SpeedLock Systems AR-15 "CWS" Carrier Weight System

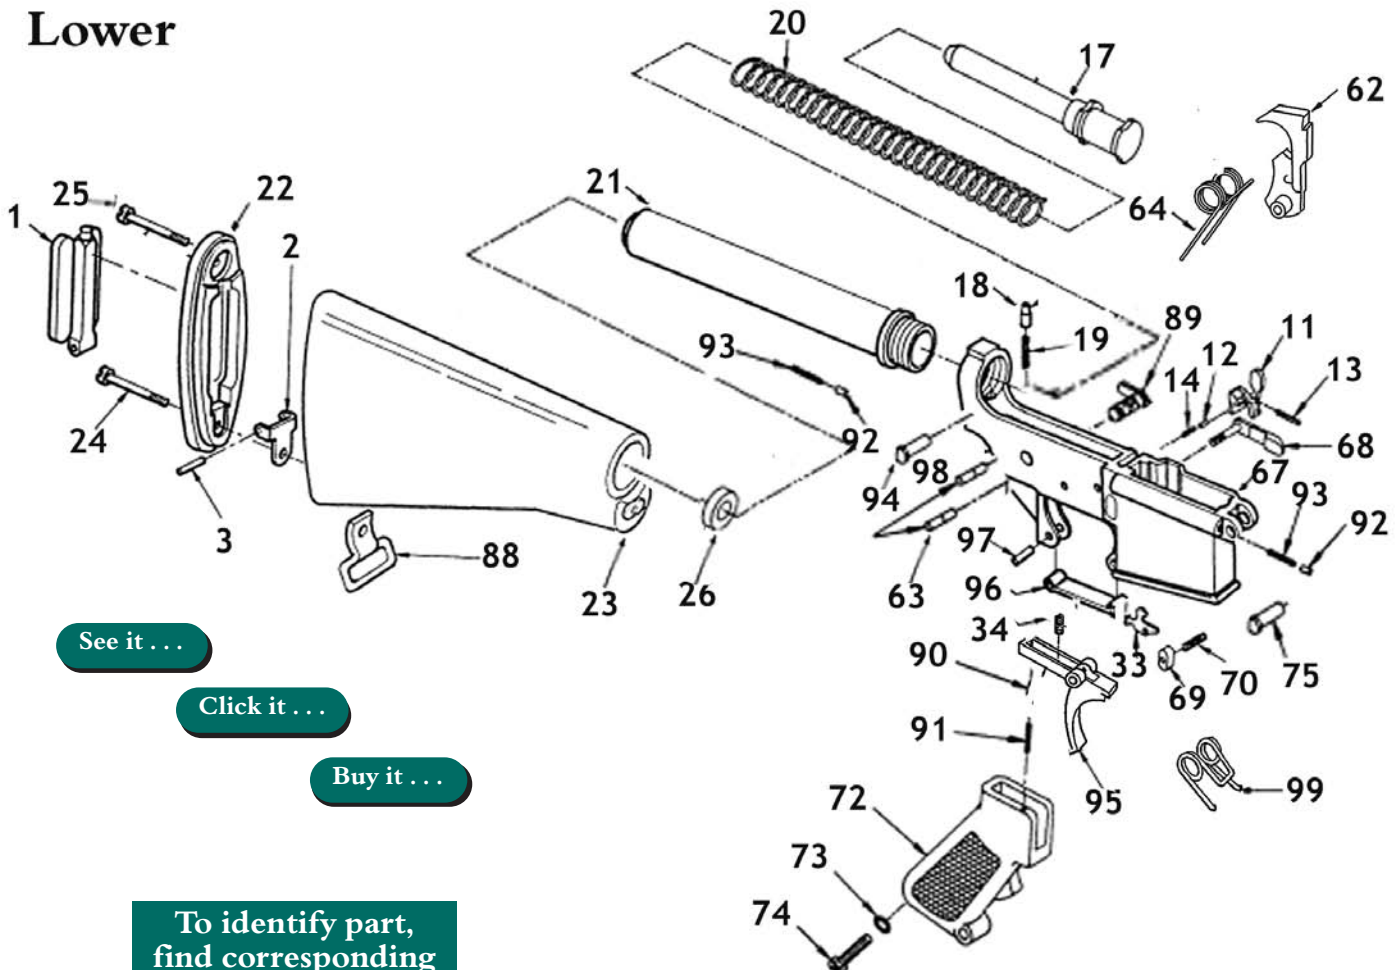

The addition of a slip-in weight to the carrier slows the action cycling which keeps the rifle locked a little longer. The result is much better brass life, fewer pressure problems and greater flexibility in velocities, especially with the heavier bullets used in High Power Rifle competition. A flange, 0.080" thick, reduces the distance the carrier must return to engage the bolt stop which extends the life of this part. Designed to be used with the Speedlock Systems buffer spring (#588-583, sold separately). Instructions included.

598-476\$57.99

DPMS AR-15 Lower Receiver Components

Lower Receiver parts from DPMS are perfect for upgrading your AR, replacing worn parts or building one from scratch. Chrome plated parts feature a tough chrome finish that reduces wear and friction while extending the service life of critical components. Titanium nitride (TiN) is an even tougher finish that resists scratching and corrosion. TiN also gives the components a unique gold finish.

Buffer Technologies AR-15 BattleGrip

The BattleGrip is made of nylon and glass-filled resin for strength, comfort and control. A built in compartment is designed to store 2 button cell batteries and two AA or 123 Series Lithium batteries. Grip comes with an installation tool, battery spacers and instructions. Batteries not included. Fits any firearm that uses an AR-type grip.

719-648.....\$24.99

Choate AR-15 E-2 Buttstock

This stock adds 3/4" to the standard A2 buttstock, and features more storage space as well. The underside features a grasping hook that allows the off hand to help stabilize the gun when using a bipod or front rest. Uses the standard A2 buttplate (not included). Made from a durable black polymer with a lifetime guarantee.

143-416.....\$38.99

Crimson Trace AR-15 Lasergrip

Lasergrips provide a pinpoint accurate laser each time you naturally grip the firearm, no fumbling for switches or buttons. Features windage and elevation adjustment, a clear bright beam, weatherproof construction with comfortable overmolded rubber and easy installation. Powered by one #2032 lithium battery (included), it produces a 1/2" dot at 50'. This Lasergrip fits AR-15s with a carry handle only, and will not work for flattop receivers. Covered by a manufacturer's three-year full warranty.

TRIGGER COMPONENTS

Chip McCormick AR-15 Super Match Trigger Groups

These completely self-contained trigger group assemblies are factory tuned for a super match grade trigger pull with minimum take-up and overtravel. The innovative design provides unprecedented control, ergonomics and consistency. Constructed of an aluminum outer casing for reduced weight and steel internal parts for dependable operation. Pre-set trigger pull is 3 to 3-1/2 lbs. Requires installation by a qualified gunsmith. Fits Small Pin (.154") AR-15 only.

DPMS AR-15 Trigger Components

Trigger Components from DPMS are perfect for upgrading your AR, replacing worn parts or building one from scratch. Chrome plated parts feature a tough chrome finish that reduces wear and friction while extending the service life of critical components. Titanium nitride (TiN) is an even tougher finish that resists scratching and corrosion. TiN also gives the components a unique gold finish.

TRIGGER COMPONENTS (CONTINUED)

Jard AR-15 Triggers

Provides many advantages over other triggers. The primary advantage is the sear engagement location. With the sear farther behind the hammer pivot there is less force against the sear allowing for a lighter trigger pull. Adjustable Trigger features adjustable sear engagement, overtravel and disconnecter. Gunsmith installation is required.

2, 3, 4, 4-1/2 and 5 lb Springs

Jewell AR-15 Triggers

This quality two-stage trigger allows sear engagement and trigger pull weight adjustment from the top of the lower receiver without disassembly of the firearm. Adjusts from 1-1/2 to 6 lbs to suit every shooting need. Includes trigger, trigger spring, disconnecter, hammer and hammer spring. Not recommended for use with military ammunition. Careful adjustment required, adjustment tools and detailed instructions included. Gunsmith fitting recommended.

Description	Product #	Price
Small Pin	709-049	\$209.99
Large Pin	129-509	\$209.99

JP Enterprises AR-15 Speed Hammers

This low mass hammer is specially shaped and drilled for a 50% reduction in lock time. Compatible with JP Enterprises adjustable trigger. Hammer only, will not enhance the trigger pull. Fitting required.

Description	Product #	Price
Small Pin	405-978	\$49.49
Large Pin	626-706	\$49.49

JP Enterprises AR-15 Competition Triggers

Triggers come with a trigger spring, disconnecter and hammer spring. Trigger Kits add a hammer and 2 oversize anti-walk pins. These triggers offer a crisp single stage 3 lb pull and should be installed by a qualified gunsmith. Adjustment tool included.

Trigger Kit	Product #	Price
Small Pin	483-268	\$179.99
Large Pin	193-169	\$179.99

Tubb SpeedLock Systems AR-15 CS Trigger Spring Kits

These Trigger Springs are constructed from high quality chrome silicon wire, instead of the usual music wire. The result is a lighter trigger pull and decreased lock time. The National Match version is made specifically for two stage triggers, and allows the user to increase the first stage weight and decrease the second stage weight while maintaining required service rifle match specifications for trigger pull. Gunsmith installation is required.

Description	Product #	Price
National Match	913-480	\$148.99
Standard	280-609	\$24.79

ACCESSORIES

Armforte AR-15 Counterpoise System

Enhances the accuracy of the AR-15 rifle by reducing felt recoil up to 50%, spreading the recoil impulse over a greater length of time and eliminating the slap of the bolt against the recoil tube. A hydraulic recoil buffer and recoil spring replace the standard equipment. System includes a rebound weight that is installed in the rear of the bolt carrier as well as polymer D-ring that enhances the function of the extractor. Note: The gas port must be enlarged by a qualified gunsmith when installing this system. For standard, non-collapsible stocks only.

Description	Product #	Price
Counterpoise System	586-931	\$188.99
Replacement D-Ring	242-478	\$12.49

Arredondo AR-15 Slip-On Extended Magazine Base Pad

This nylon base pad turns your AR magazine into a makeshift monopod. Protects your magazine from damage if dropped. Magazines not included. Black.

# 946-198	\$9.99
-----------	--------

Buffer Technologies AR-15 Recoil Buffer

Recoil buffers are an easy and inexpensive way to eliminate damage of critical components by preventing the metal to metal contact as the action cycles. Made from a high density polyurethane formulated for maximum shock-absorbing characteristics, the recoil buffer is a drop-in part.

# 780-109	\$8.99
-----------	--------

DPMS AR-15 Accu-Wedge

This rubber wedge fits between the upper and lower receivers to prevent movement. The increased tension helps improve accuracy.

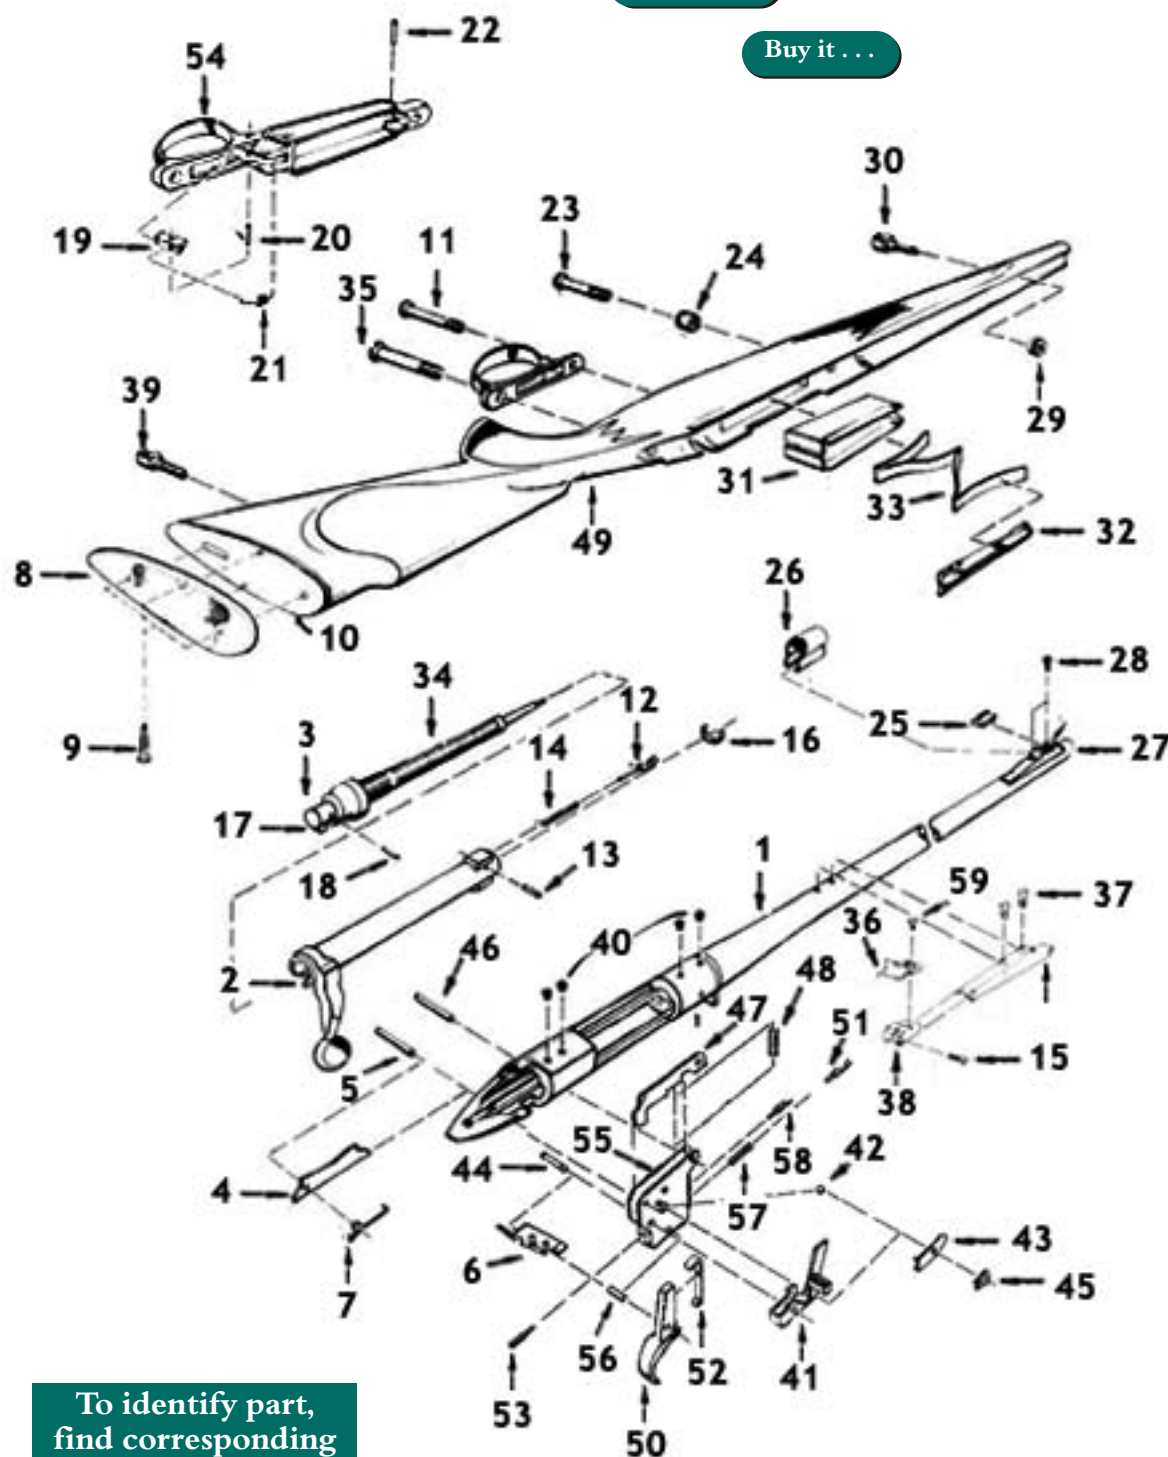

# 698-479	\$4.99

BARRELS

Shilen Remington 700 Barrels

Shilen Remington 700 barrels are pre-threaded, short-chambered and crowned. Barrel exteriors are polished to a 180-grit finish. The bores of stainless steel barrels are hand lapped. Both barrel types require installation and finish chambering by a qualified gunsmith. CM = Chrome Moly, SS = Stainless Steel

RECEIVER ASSEMBLY

Holland's Remington 700 Oversized Accelerated Firing Pin Kits

Holland's Oversized Firing Pin eliminates primer flow and cratering. A great upgrade for anyone shooting hot loads. The 19-1/2 lb spring decreases lock time by up to 25%. Requires fitting and installation by a qualified gunsmith.

Description	Product # ..	Price
Short Action.....	427-856	\$39.99
Long Action	556-423	\$39.99

Callahan Remington 700 Firing Pin Assemblies

These traditional Firing Pin Assemblies have T-6 aluminum bolt shrouds that are 60% lighter than the factory shroud. They also include an extra power firing pin spring to reduce lock time. Does not include Integrated Security System (ISS) bolt shroud. Assemblies include firing pin, firing pin spring, bolt shroud and cocking piece. Installation requires disassembly of the bolt, but no modifications are required.

Bell and Carlson Remington 700 Medalist Stocks

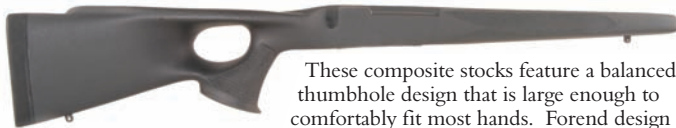

The Medalist stock combines the stability and durability of Bell and Carlson's proprietary composite material with an integral aluminum bedding system. The bedding system is CNC machined out of aircraft grade 6061-T6 aluminum to eliminate the need for conventional bedding. This process assures perfect fit, aligns the barreled action and stiffens the forend. Stocks feature a wide forend for stability and offer a lifetime warranty on materials and workmanship. Fits Remington 700 BDL only.

Fajen Remington 700 Ace Varminter Stocks

A Fajen Ace Varminter laminated stock is the perfect start to a great varmint rifle. With a comfortable palm swell, a comb designed for high rings, a barrel channel that free-floats the entire barrel, rubber rifle pad and cooling vents in the forend, the stock is loaded with features. Stocks fit Remington factory varmint barrels as well as Adams & Bennett F54 and Shilen #17 contour barrels. They are finished and offer a drop-in fit.

Hogue Remington 700 OverMolded Stocks

Hogue Stocks have fiberglass skeletons OverMolded with the same permanently bonded rubber coating used on Hogue's popular handgun grips. The non-slip coating is quiet and durable. The grip and forend have a cobblestone texture for a sure grip. All stocks come with recoil pads and Uncle Mike's swivel studs. Bedding is aluminum.

Knoxx Remington 700 BDL CompStock Rifle Stocks

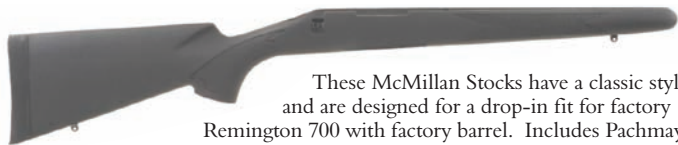

The Knoxx CompStock dramatically reduces felt recoil, making even the heaviest magnums a delight to shoot. Based on a Hogue Overmolded stock, the CompStock features a Recoil Reduction System housed inside the butt. This assembly consists of a roller, cam lever and extension spring. When the rifle is fired, the inner section of the buttstock moves rearward into the outer section of the buttstock, dampening felt recoil. Stocks also feature a straight comb, ambidextrous palm swells and a varmint forend. May require minor fitting.

Holland's Remington 700 Trigger Spring Kits

The Standard Kit contains one reduced power trigger return spring and one reduced power bolt stop spring. The Deluxe Kit adds an extra power firing pin spring and reduced power ejector spring. The trigger return spring provides a reduced trigger pull and the lighter ejector spring offers smoother operation. The bolt stop spring reduces the effort required to remove the bolt. The extra power firing pin spring offers faster lock time. Gunsmith installation is required.

Jard Remington 700 Triggers

Available in two models, a Varmint (V) model up to 20 oz and a Hunter (H) model up to 32 oz. Pull weight of this two lever system approaches weights previously achievable only with a four lever system, but the two lever system is less susceptible to malfunction from moisture and freezing temperatures than a four lever system. Uses factory screws for overtravel and sear engagement. Requires fitting and installation by a qualified gunsmith.

BARRELS

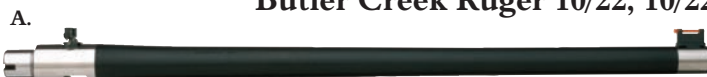

Adams & Bennett Ruger 10/22 Barrels

These exceptionally accurate barrels are made from 4140R Chrome Moly or 416R stainless steel and are precision reamed, button rifled and air gauged. Barrels feature a recessed match-style crown. Note: Adams & Bennett Ruger 10/22 barrels are not recommended for use with CCI Stinger ammunition.

Description	Contour	Twist	Length	Finish	Product #	Price
22 Long Rifle	920 Dia.	1 in 16"	18"	Blue	305-251	\$94.99
22 Long Rifle	920 Dia.	1 in 16"	18"	Stainless Steel	118-472	\$109.99

Butler Creek Ruger 10/22, 10/22 Magnum Carbon Fiber Barrels

Carbon Fiber barrels combine stainless steel muzzles and breeches with an advanced carbon fiber material wrapped around a strong inner core to produce a lightweight barrel well suited for long days of shooting. 920 Diameter barrels do not have sights and are designed for use with scoped rifles. Factory contour barrels include front and rear sights.

Ruger 10/22	Contour	Twist	Length	Finish	Model	Product #	Price
22 Long Rifle with Factory Sights (A)	Factory	1 in 16"	16-17 1/2"	Black	Ultra-Lite	974-027	\$139.99

22 Long Rifle with Tri-Port (B)	920 Dia.	1 in 16"	18"	Black	Featherweight	814-253	\$159.99

BARRELS (CONTINUED)

Butler Creek Ruger 10/22, 10/22 Magnum Target Barrels

These Target Barrels feature Bentz Match chambers and recessed crowns. Tri-Port models feature an integral compensator that reduces muzzle flip, keeping you on target for fast follow-up shots. Fluted models feature machine fluting that reduces weight and promotes cooling.

Ruger 10/22	Contour	Twist	Length	Finish	Product #	Price
22 Long Rifle	920 Dia.	1 in 16"	20"	Blue	191-164	\$104.99

Hart Ruger 10/22 Barrel

Hart Rifle Barrels are produced with the highest grade of stainless steel. Barrels are button rifled with six grooves and contoured on a CNC lathe, then hand lapped to ensure the best possible interior finish. Hart guarantees that the groove will not vary more than .0001" from breech to muzzle. Every barrel is measured with an air gauge and examined with a borescope to ensure that there are no tool marks or other defects which can affect accuracy.

Description	Contour	Twist	Length	Finish	Product #	Price
22 Long Rifle	920 Dia.	1 in 16"	21"	Stainless Steel	432-543	\$379.99

John Masen Ruger 10/22 Barrel Band with Sling Swivels

Steel barrel band for the Ruger 10/22. Includes 1" swivel on band and rear wood mount sling swivel. Fits factory wood stock and barrel only.

Description	Product #	Price
Blue	565-831	\$16.29
Stainless Steel	631-661	\$18.79

STI Ruger 10/22 Threaded Barrel

This barrel is manufactured by Lothar Walther from the highest quality LW 6 stainless steel and has a progressive twist rifling that ends with 1 in 16". Please note: This barrel is threaded to match STI 10/22 receivers with 3/4 x 16 threads. Thread shank may be turned down or can be removed to fit non-threaded receivers. Requires fitting by a qualified gunsmith.

Description	Contour	Twist	Length	Finish	Product #	Price
22 Long Rifle	920 Dia.	1 in 16"	21-1/2"	Stainless Steel	227-531	\$161.99

Lilja Ruger 10/22, 10/22 Magnum Barrels

These steel barrels are precision reamed, button rifled and air gauged. The bores have been hand-lapped and are guaranteed free of machining marks. Drop-in.

Ruger 10/22	Contour	Twist	Length	Finish	Product #	Price
22 Long Rifle (Pictured)	920 Dia.	1 in 16"	21"	Stainless Steel	632-305	\$343.99

BARRELS (CONTINUED)

Volquartsen Ruger 10/22, 10/22 Magnum Barrels

These barrels feature match grade chambers and hand lapped bores. Stainless steel

barrels feature match bore and chamber dimensions, and THM Tension Barrels feature either a carbon fiber or aluminum sleeve "tensioned" on the barrel to provide a very rigid, lightweight barrel. Each barrel is digitally measured to ensure exact tolerances so that the groove and bore diameters will vary no more than +/- .0001" from breech to muzzle. Barrels are drilled and tapped to accept Volquartsen's Barrel Mount Scope Base (sold separately). Please note: The 17 Hornady Mach 2 barrels will require the installation of a 17 Hornady Mach 2 Bolt (sold separately) for proper feeding and safe operation.

Ruger 10/22	Contour	Twist	Length	Finish	Product #	Price

BOLTS AND BOLT ASSEMBLIES

Power Custom Ruger 10/22 Titanium Extended Bolt Handle Assembly

This titanium bolt handle is 1/2" longer than the factory handle. It is much easier to operate without a change of head position. Makes any rifle cycle faster and feed better. Drop-in fit. Does not fit Ruger 10/22 Magnum.

490-731\$50.99

STI Ruger 10/22 Bolt

This all-steel, match quality Ruger 10/22 bolt exceeds all Ruger factory specifications.

747-989\$79.99

Volquartsen Ruger 10/22 17 Hornady Mach 2 (HM2) Bolt Assembly

This Bolt Assembly is needed to convert your Ruger 10/22 to fire the 17 Hornady Mach 2 (HM2). Bolt is CNC machined, hardened and tuned, and features a titanium firing pin for faster lock time. Includes a black target knob, recoil rod and spring. Drop-in fit. Will not work for 10/22 Magnum. Barrel sold separately.

619-184\$199.99

Volquartsen Ruger 10/22 Extended Bolt Handle Assembly

Featuring the same machined bolt handle as their custom bolt assemblies, this Extended Bolt Handle is .25" longer than the factory bolt handle for a secure and comfortable grip. Recoil rod and rod spring are included. Silver.

546-577\$28.49

Volquartsen Ruger 10/22 Competition Bolt Body

This CNC-machined bolt features a round firing pin and a Volquartsen Exact Edge Extractor for ultimate ignition and extraction. Bolts also include a new recoil rod and spring for ease of installation. Bolt handle is ribbed stainless steel with a silver finish. Does not fit Ruger 10/22 Magnum.

145-687\$178.99

Volquartsen Ruger 10/22 22 Short Conversion Kit

Convert your 10/22 in 22 Long Rifle to shoot 22 Short ammunition. Drop-in kit includes a Teflon coated alloy bolt, removable bolt handle, titanium firing pin, EDM extractor, recoil rod and spring as well as one 10-round steel magazine.

The **Biggest Selection** Of World Class Custom Parts For
Ruger® 10/22s®, MKIIs and MKIIs Comes From...

Volquartsen Custom

The Rimfire Specialist... And More.

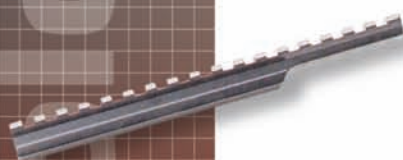

New! Volthane MKIII Target Grips

Ultra-comfortable two-piece rubber target grips tailor made for the new MKIII. They feature a thumbrest, heelrest and finger grooves.

New! 10/22® Extended Bolt Handle & Recoil Rod Assembly

Easy installation. The new extended bolt handle has been extended .25" for fast, easy manipulation. The recoil rod is polished, hardened and specially coated for improved feeding and ejection.

New! Picatinny-Style Scope Rail for 10/22® Receiver

This no-gunsmithing mount is CNC machined from an aluminum alloy. Its extra length and seventeen machined cross slots make it one of the most universal scope mounts for the 10/22®.

A complete selection of Volquartsen's performance-enhancing Ruger® parts and accessories is available through Midway, including:

Match barrels and compensators

Trigger groups

Actions

Bolts

Safeties and mag releases

Accurizing kits

Stocks and grips

Hammers

Scope mounts

DISCONNECTORS

Power Custom Ruger 10/22
Disconnecter Shims

Reduce the amount of play between the trigger and disconnector with this set of 10 shims for the Ruger 10/22. Requires disassembly of the rifle for installation.

596-914.....\$15.99

Volquartsen Ruger 10/22
Target Disconnecter

An EDM processed disconnecter made of hardened A2 tool steel. Designed to be used with a target sear and hammer for a very light crisp trigger pull. Does not fit Ruger 10/22 Magnum.

585-648.....\$23.49

EXTRACTORS

Ruger 10/22, 10/22 Magnum Extractors

The Power Custom Titanium Extractor is lighter and sharper than the factory design. Steel Extractors will hold their edge longer than the factory extractor for extended service life. Both designs provide more positive extraction and include an extractor spring. Extractors fit Ruger 10/22, Ruger 10/22 Magnum, Ruger Mark 1 and Mark 2.

FIRING PINS

Power Custom Ruger 10/22 Firing Pins

Steel Pin is wire EDM cut from A-2 Tool Steel and features extra mass for reduced incidence of misfires caused by light primer strikes. The Titanium Pin is 40% lighter with a larger impact area and allows for faster lock time with less chance of misfires for a more positive ignition. Note: Titanium Pin may cause misfires if used with a Volquartsen Accurizing kit as they use a lighter spring.

RECEIVERS

Receivers may only be purchased by individuals with a current, signed FFL on file with MidwayUSA. An Adult Signature is required for delivery. Please call our toll free number for more information.

STI Ruger 10/22 2200 Receivers

This 10/22 Receiver is constructed from durable, lightweight aluminum. The No Mount model replicates the factory receiver, with similar mounting holes on top. Lo Mount and Hi Mount models feature integral Weaver-style rails that offer a completely rigid base for scopes or red dot sights. Receivers are threaded for STI 10/22 barrels, but will also accept any standard push-fit Ruger 10/22 factory or aftermarket barrel.

Volquartsen Ruger 10/22
Stainless Steel Receiver

This Stainless Steel Receiver is completely CNC machined, allowing Volquartsen to create a burr-free product held to incredibly tight tolerances. They then add a Weaver-style base for a wide variety of mounting options and a recoil buffer to reduce felt recoil and action noise. This receiver will accept both Ruger factory and Volquartsen aftermarket parts. 22 Long Rifle only.

124-000.....\$329.99

RECEIVERS (CONTINUED)

Receivers may only be purchased by individuals with a current, signed FFL on file with MidwayUSA. An Adult Signature is required for delivery. Please call our toll free number for more information.

Volquartsen Ruger 10/22 Superlite Receivers

These Superlite Receivers are CNC machined from solid aircraft aluminum to eliminate the burrs and rough areas that are associated with cast receivers. The locking V-block and takedown screw are constructed of hardened steel for durability. Built to accept both Ruger factory parts and Volquartsen custom components, these receivers feature a durable, lubricating finish that reduces friction and wear. A Weaver-style base is included, pre-installed.

Power Custom Ruger 10/22, 10/22 Magnum Titanium Trigger

A special contour allows better finger placement for improved control with less pressure. Built from titanium for low weight and includes an overtravel screw for faster follow-up shots. Disassembly of the trigger assembly is required for installation.

120-041\$49.99

STI Ruger 10/22 Trigger Assemblies

The Match and Super Match are both two-stage trigger designs. There is a light pull of the trigger (take up) to a stopping point, with just a bit more of a pull required to break or fire. The Match Trigger has an 8 oz take up and a 24-26 oz adjustable break, and the Super Match has a 9 oz take up and a 15-16 oz adjustable break. Both trigger bodies are manufactured out of 6061 aircraft aluminum and have an anodized finish that provides corrosion resistance. Will fit the Ruger 10/22 without any modifications.

Description	Finish	Product #	Price
Match	Silver	167-054	\$299.99
Super Match	Silver	315-834	\$299.99

Volquartsen Ruger 10/22, 10/22 Magnum Trigger Assemblies 2000

This complete Trigger Assembly is CNC machined from a billet of aircraft aluminum and equipped with precision EDM parts. It features an internal pretravel adjustment and a hammer that is precision ground from 440C stainless steel and hardened to 58 RC. The sear and disconnecter are made of A2 hardened tool steel with tolerances of +/- .0002", complete with custom tuned springs. The trigger is black anodized, equipped with an overtravel adjustment screw and is reset internally to eliminate any dragging or inconsistencies caused by a conventional trigger plunger. An automatic bolt release and an extended magazine release are also included.

Hastings Paradox Beretta A-390 Rifled Shotgun Slug Barrels

With six lands and grooves, the Hastings Paradox produces increased slug stability and amazing accuracy. Barrels are hammer forged, CNC machined from 4140 chrome moly steel and proof tested. The cantilever scope mount utilizes Weaver-style rings and ensures consistent scope to barrel alignment. For best performance, Hastings recommends you use Winchester or Federal sabot ammunition.

CONVERSION KITS

Beretta 92, 96 22 Long Rifle Conversion Kit

Designed for practice shooting and training, this kit converts your Beretta 92 or 96 to shoot inexpensive 22 Long Rifle ammunition. Features fixed front, adjustable rear sights and comes with one 10-round magazine. Drop-in. Matte.

974-943\$366.99

OTHER PARTS

Beretta 92, 96 Guide Rods

These 1-piece, steel guide rods replace the 2-piece and plastic Beretta factory guide rods to improve function and durability. The Buffer Technologies design includes a stainless steel guide rod, slide bushing and two recoil buffers. Buffers absorb the shock from the action operating, rather than having metal to metal contact at the end of the slide travel. Drop-in installation.

Wolff	Black	557-390	\$22.99
Wolff	Silver	151-417	\$22.99
Buffer Technologies	Stainless Steel.....	172-414	\$22.49

SPRINGS

Wilson Combat Beretta 92F/G Custom-Tune Spring Kit

Designed to improve the action and functionality of your handgun, this quality spring kit features springs made from high-tensile spring wire for the finest possible action tuning jobs. Kit includes a reduced power mainspring, extra power firing pin spring, 15 lb extra power recoil spring and 10 lb reduced power recoil spring.

774-554\$14.29

Wolff Beretta 92, 96 Replacement Springs

These replacement springs fit all full-size and compact Beretta 92 and 96 models, as well as the 40 S&W Centurion.

Wolff Extra Power Beretta 680 to 687 Shotgun Hammer Springs

Replacement hammer springs for the Beretta 680 to 687 Series over and under shotguns. Package of 2 extra power springs, as required for a single gun.

128-630\$9.99

Wolff Beretta Recoil Springs

Recoil springs fit over your handgun's guide rod and control how the slide functions. In general, heavy loads need heavy springs and lighter loads need lighter springs. There is no hard and fast rule as to how much "spring" a handgun needs. Too light a spring and the handgun opens and closes early and hard, increasing the felt recoil and battering the frame. Too heavy a spring, the slide is hard to open and may not cycle completely, jamming the firearm. Includes an extra power firing pin spring. Installation requires removal of the slide.

Wolff Beretta 92, 96 Taurus PT92, PT99 Trigger Conversion Units

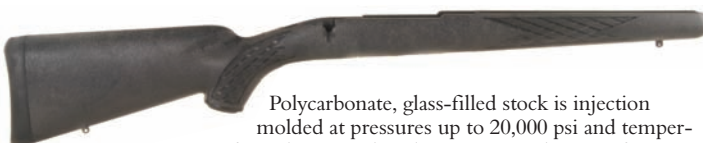

These units were developed for Federal Law Enforcement agencies and produce a smoother trigger pull and improved trigger staging. These replacement coil spring trigger return units eliminate trigger spring breakage and require no modification to the gun. Please note that these units will not function in the latest Beretta 92 or 96 handguns with polymer triggers.

EXTRACTORS

Cylinder & Slide Browning Hi-Power Extractors

CNC machined from spring steel alloy, which produces an extractor with superior wear resistance. These extractors have been radiused correctly for complete reliability. Standard Extractor is a drop-in part. Internal Extractor is for early Browning Hi-Powers and Canadian and English Hi-Power models. Requires proper tensioning of the extractor to the slide. Blue.

HAMMERS

Cylinder & Slide Browning Hi-Power Commander-Style Chamfered Hammers

Machined from 4140 steel and hardened to 47 RC. The size of the ring is the same as the Colt Commander hammer which reduces the chance of hammer bite on the web of the hand. Requires fitting and installation by a qualified gunsmith.

Description	Product #	Price
Blue (Pictured)	184-066	\$61.99
Hard Chrome.....	119-399	\$61.99

Cylinder & Slide Browning Hi-Power Commander-Style Hammer 4-Piece Sets

Set includes Commander-Style hammer, hammer spring, sear and firing pin spring. The edges of these hammers are chamfered for comfortable, no-sag carry. The No Bite Hammer is specifically designed to reduce the possibility of the hammer pinching the web of your hand, and all excess weight has been removed from the Skeleton Hammer for the fastest possible lock times. All Duty sets have a 26 lb firing pin spring, and the Target sets have a 22 lb firing pin spring. Requires fitting and installation by a qualified gunsmith.

SEARS

Cylinder & Slide Browning Hi-Power Light Trigger Pull Sear Lever

This Sear Lever reduces trigger pull by approximately 1-1/2 to 2 lbs by changing the leverage of the trigger on the sear. Fits the Browning Hi-Power Mark 3 only. Steel. Requires fitting and installation by a qualified gunsmith.

# 810-988.....	\$31.99
----------------	---------

Cylinder & Slide Browning Hi-Power Machined Sear

EDM cut from heat treated tool steel, this sear dramatically outlasts the factory sear and produces a clean, crisp trigger pull. It is recommended that a Cylinder & Slide Commander-style hammer be used with this sear in order to produce the best possible trigger pull. Requires fitting and installation by a qualified gunsmith.

# 849-605.....	\$35.99
----------------	---------

EGW Browning Hi-Power Hard Sear

This Hard Sear is heat treated to 55 RC for a precise, durable engagement surface. Requires fitting and installation by a qualified gunsmith.

# 386-749.....	\$29.99
----------------	---------

SLIDE STOPS

Browning Hi-Power Extended Slide Stops

This extended slide stop is designed to allow the shooter to be able to release the slide after reloading with the thumb of the shooting hand without shifting the grip. May require minor fitting.

Includes 4 different reduced power springs and 1 factory spring.

Wolff Browning Hi-Power Recoil Springs

Conventional Recoil Springs have evenly spaced coils and are excellent for use as factory replacements. Variable Power Recoil Springs have less space between coils at one end and more space between coils at the other end and are beneficial with compensated handguns or when using light target loads with less recoil energy. These Recoil Springs include an extra power firing pin spring. Installation requires removal of the slide.

Hastings Browning Paradox Rifled Shotgun Barrels

With six lands and grooves, this unique rifled barrel produces increased slug stability and amazing accuracy. Barrels are hammer forged, CNC machined from 4140 chrome moly steel and proof tested. The cantilever scope mount utilizes Weaver-style rings and ensures consistent scope to barrel alignment. A tapered exit bore allows uniform sabot separation for improved accuracy. For best performance, Hastings recommends you use Winchester or Federal sabot ammunition.

BARRELS

Bar-Sto Glock Semi-Drop-In Barrels

With a Bar-Sto Barrel, groups of 1-3/4" to 2" at 25 yards are possible with match grade ammunition. Barrels are machined from stainless steel bar stock which has been heat treated to 180,000 psi tensile strength. Accuracy is excellent even when compared to target grade barrels. May require minor fitting.

CONVERSION KITS

Advantage Arms Glock 22 Long Rifle Conversion Kits

These conversion kits allow you to shoot inexpensive 22 Long Rifle ammunition in your Glock handgun. The Law Enforcement Kit retains the squared look and feel of the factory slide which makes it perfect for long training sessions with a service handgun. The Target Kits features high visibility, elevated target sights and turns your Glock into a capable target handgun. Both feature CNC machined T6 aluminum slides, recoil spring and guide rod and one polymer 10-round magazine. Drop-in with no modification required.

MAGAZINE RELEASES

JP Enterprises Glock Extended Magazine Release Buttons

Magazine Release Button comes installed on a standard Glock magazine release with a 4 x 40 Allen head screw. The back of the Button is serrated to match the stock magazine release and to prevent shifting once installed. Button is perfect for competition or speed reloading without a shift in grip. Drop-in, no gunsmithing required. Steel.

Description	Finish	Product #	Price
Small Frame	Blue	744-562	\$24.49
Large Frame	Blue	391-874	\$24.49

OTHER PARTS

JP Enterprises Glock Magazine Well

Magazine Well is CNC machined from 6061 aluminum and is a drop-in part that requires no modifications to the frame. Features a matte black anodized finish and is compatible with nearly all after market base pads. For Glock Models 17, 22, 24, 34 and 35.

# 711-471	\$59.99
-----------	---------

Nowlin Glock Tactical Lanyard Plug

This plug quickly and easily installs into the void in the Glock frame behind the magazine. Plug provides a tactical attachment point for a lanyard. Fits all Glocks except Models 29 and 30. Nylon and steel construction. Black.

# 179-498	\$18.99
-----------	---------

RECOIL BUFFERS

Glock Recoil Buffers

Recoil Buffers should be replaced every 1,000 rounds to prevent the slide from battering the frame during recoil. Fits all Glocks except the Sub-Compacts. Drop-in part.

Description	Quantity	Product #	Price
Buffer Technologies	1	691-091	\$8.99
Wilson Combat (Pictured)	1	139-564	\$9.99

SLIDE LOCK

Ranch Glock Extended Takedown Slide Lock

This Extended Takedown Slide Lock is .040" longer than the factory part and constructed of heat treated steel. Note: This is not an extended slide release, this is the takedown which passes through the slide and protrudes from both sides of the frame. Drop in, no gunsmithing required.

# 693-510	\$8.99
-----------	--------

SPRINGS

Glock Recoil Spring Assemblies

Factory replacement Recoil Spring Assemblies ensure proper, reliable extraction and feeding.

BARRELS

Criterion M1 Garand Barrel

This button rifled, match grade replacement barrel is made from chrome moly steel with a standard military contour and is timed for Mil-Spec actions. It is short chambered and requires finish chambering and installation by a qualified gunsmith.

Description	Twist	Length	Finish	Product #	Price
30-06 Springfield.....	1 in 10"	24"	Parkerized.....	969-531.....	\$199.99

Douglas Premium XX M1 Garand Barrels

These chrome moly, match quality barrels are machined from Douglas Premium XX blanks. They have a heavy contour under the rear handguard and are pre-chambered .025" short so they may be properly finished chambered by a qualified gunsmith. CM = Chrome Moly.

Description.....	Contour.....	Twist	Length	Finish	Product #	Price

Krieger M1 Garand Barrels

Krieger M1 barrels are completely turned and threaded. Barrels are short chambered with approximately .010" to .020" left on the barrel shoulder. The gas port is located in the rifling groove, not on a land; and the gas cylinder, receiver threads, feed ramps and the extractor groove are timed off this groove. Barrels qualify for use with service rifles under NRA rules. Installation requires removal of a slight amount of wood from the forearm and upper handguard. Gunsmith installation required. CM = Chrome Moly.

GAS PLUGS

Schuster M1 Garand, M1A Adjustable Gas Plugs

With this 1-piece adjustable gas plug you can control the volume of gas and change the harmonic balance of the barrel, the speed of the operating rod and reduce group size. Plugs work to soften the impact on the operating rod and ease wear on the bolt lugs. Includes instructions and Allen wrench. Made from hardened tool steel and Parkerized. DCM Plug is approved for DCM matches.

GAS PLUGS (CONTINUED)

Schuster M1A Vented and Bored Gas Plug

This plug is vented and bored to 58% greater volume. Greater volume and venting produces 2600 psi less pressure on the operating rod. This modification is Service Rifle Legal. Includes cleaning drill bit and tip cleaning wire.

772-177\$42.99

RECOIL BUFFER

Buffer Technologies M1A, M14 Recoil Buffer

Recoil buffers are an easy and inexpensive way to eliminate damage of critical components by preventing the metal to metal contact of the breech block with the frame. Made from a high density polyurethane formulated for maximum shock-absorbing characteristics, this recoil buffer is a drop-in part for the M1A and M14 rifles.

176-087\$13.99

SPRINGS

Tubb SpeedLock Systems M1 Garand, M1A CS Operating Rod Spring and Hammer Spring

These chrome silicon springs are designed to solve many of the most common issuers with the M1A series of rifles. The result is more dependable feeding, more consistent trigger pull and faster lock time.

BARRELS

Adams & Bennett Mauser Series 2 and 3 Barrels

Specified Barrel Dimensions

Barrel Contour	A	B	C	D	E	F
F14	21"	6.00"	1.500"	1.140"	.750"	.550"
F34	24"	3.586"	.750"	1.200"	.877"	.650"
F44	24"	3.500"	1.500"	1.200"	.974"	.725"
F54	24"	3.500"	1.500"	1.200"	.974"	.830"

Adams & Bennett Series 2 and 3 barrels are made from premium quality 4140 chrome moly or stainless steel. They are precision-reamed, button-rifled, air-gauged, threaded and short-chambered. Chambers are cut a nominal .05" short to allow for establishing correct headspace. Chrome Moly barrels are furnished in the white and require finishing after installation. Installation of these barrels is well within the realm of a "bench top" project, machinery such as a lathe is typically not required, but they are not a drop in. The specialized tools, such as chambering reamers, required to complete the project can all be "hand powered." Jerry Kuhnhausen's book "Mauser Bolt Actions: A Shop Manual" (# 661-999) is a superbly illustrated reference for this project.

MAUSER ILLUSTRATIONS

Series 2 (93/94/95/96) — 1-1/4" front receiver ring and 7-5/8" center to center on the trigger guard screws. This series includes most Model 93, 94, 95, 96 rifles and carbines.

Series 3 (98 Large Ring) — 1-3/8" front receiver ring and 7-7/8" center to center on the trigger guard screws. This series includes most large ring, long action Mauser 98 rifles, as well as the Centurion, FN, Interarms Mark X, Parker Hale 1200, and Santa Barbara.

BOLT SHROUDS

Dakota Mauser 98 Bolt Shroud

Fully machined shroud features a Model 70-style 3-position safety that keeps all of the gas deflecting advantages of the Mauser shroud. Steel in the white. Requires fitting and installation by a qualified gunsmith.

877-219\$144.99

NECG Mauser Bolt Shroud with Three Position Safety

These Model 70-style Shrouds offer a three position safety lever provides positive and safe operation of the action. Available with a safety lever lock that locks the safety lever in the rearmost position so it cannot be accidentally disengaged. Shrouds are steel in the white and require fitting and installation by a qualified gunsmith.

Description	Product #	Price
with Safety Lock.....	769-394.....	\$239.99
without Safety Lock (Pictured)	452-710.....	\$229.99

Sunny Hill Mauser FN-Style Bolt Shrouds Without Safety Cut

The perfect companion for a trigger with a side safety, like those sold by Timney and Bold. These shrouds have excellent gas deflection properties and will give your Mauser a custom look. Requires fitting and installation by a qualified gunsmith.

Description	Finish	Product #	Price
Mauser 96.....	Steel in the White	615-418	\$45.99

Bell and Carlson Mauser Medalist Stocks

The Medalist Stock combines the stability and durability of Bell and Carlson's proprietary composite material with an integral aluminum bedding system. The bedding system is CNC machined of aircraft grade 6061-T6 aluminum to eliminate the need for conventional bedding. This process assures perfect fit, aligns the barreled action and stiffens the forend. These stocks feature a wide forend for stability with no cheek piece. The Medalist Stock weighs 2-1/2 lbs and includes a Pachmayr Decelerator recoil pad. The Medalist Varmint/Tactical Stock weighs 3 lbs and includes a Bell and Carlson Premium recoil pad. Stocks offer a lifetime warranty on materials and workmanship.

Bell and Carlson Mauser 98 Premier Thumbhole Stocks

These composite stocks feature a balanced thumbhole design that is large enough to comfortably fit most hands. Forend design is slightly square for better stability from a rest, and the integral palm swell provides a sure, comfortable grip. Features a high, straight comb with a Monte Carlo cheekpiece for comfortable use with a scope. Stocks offer a lifetime warranty on workmanship and materials.

Bell and Carlson Mauser 98 Varmint/Tactical Stocks

This composite polymer stock features a slight beavertail forend that offers an excellent compromise between the thin forend of a sporter stock and the wide forend of a true varmint stock. Features include a heavy barrel channel, sling swivel studs, a premium recoil pad, baked-on epoxy finish and lifetime warranty on materials and workmanship.

Boyd's Mauser JRS Classic Stocks

These stocks feature slender, somewhat open grips that are well defined, but do not extend too far below the toe line. The comb is parallel to the bore, which aids scope use and is more comfortable during recoil. The cheekpiece blends perfectly with the overall shape of the buttstock, and the forend is flat and well proportioned to complement barrels 22" to 26" long. Stocks are Finished, Semi-Drop-In. May require inletting to specific action.

Boyd's Mauser Varmint Thumbhole Stock

This stock features a large rollover cheek piece, hand-conforming thumbhole and a heavy forend with side cooling vents. This combination offers both varmint and target shooters the utmost in stability and comfort for maximum accuracy. This stock is Unfinished, Semi-Drop-In and may require inletting to specific action. Fits Large Ring Mausers with light sporter barrel contours. Nutmeg Laminate.

# 633-157.....	\$93.99
----------------	---------

Boyd's Mauser Ross Thumbhole Sporter Stock

Stock features a large rollover cheek piece, teardrop grip and hand conforming thumbhole. Stock is Finished, Semi-Drop-In and may require minor inletting to specific action. Fits Large Ring Mausers with light sporter barrel contours. Nutmeg Laminate.

Boyd's Mauser RIA Sportsman Stocks

Boyd's RIA Sportsman stock features a Monte Carlo design with pronounced check piece, oval pistol grip, fluted comb and slim forend. These stocks are Unfinished, Semi-Drop-In and may require inletting to specific action.

Description	Color	Product #	Price
Mauser 93, 95, 96 Small Ring	Walnut	117-448	\$76.99
Mauser 98 Large Ring	Walnut	617-562	\$76.99

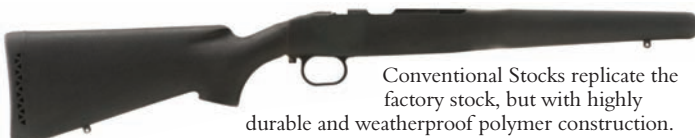

Butler Creek Mauser Classic Style Stocks

These stocks have a classic bolt action look and are molded with a custom fiberglass resin that is extremely strong. The lightweight design features a straight comb for reduced felt recoil and proper sight alignment. Steel pillars ensure snug stock to metal fit. They are impervious to wet weather or humidity and offer a smooth surface for your face on the cheek piece. Includes recoil pad and sling swivel studs. Manufactured for a drop-in fit.

Description	Contour	Color	Product #	Price
Mauser 98 (Pictured)	Military	Black	646-850	\$125.99

Choate Mauser Conventional Stocks

Conventional Stocks replicate the factory stock, but with highly durable and weatherproof polymer construction. The glass filled fiberglass will not warp or crack and is impervious to moisture. These stocks feature a military barrel channel, but can be inletted for other contours. Stocks come with trigger guard and blind magazine box. All Choate stocks carry a lifetime warranty.

Description	Color	Product #	Price
Mauser 95, 96	Black	465-399	\$89.99

Unfinished	F54	Midnight	740-062	\$124.99

Fajen Mauser 98 Walking Varminter Stocks

Fajen's Walking Varminter Stock is great for the shooter who wants a heavy barreled rifle in a stock that is light enough to be carried in the field. Made from laminated birch, this beautifully crafted stock features a varmint-style forend for a solid platform when using a rest, yet is trim enough to be comfortable for offhand shooting. The high cheek piece is designed for use with a scope and the front of the comb has been notched out for a long bolt throw. The stock has a 13-3/4" length of pull, weighs approximately 44 oz and is completely finished with a rubber butt pad installed. Stock is finished with a drop-in fit except for the bolt handle notch, which must be rasped for final fit.

Coffee	F54	229-662	\$140.99
Midnight (Pictured)	F54	791-132	\$140.99

Hogue Mauser 98 OverMolded Stocks

Hogue stocks have fiberglass skeletons OverMolded with the same permanently bonded rubber coating used on Hogue's popular handgun grips. The non-slip coating is quiet and durable. The grip and forend have a cobblestone texture for a sure grip. All stocks come with recoil pads and Uncle Mike's swivel studs. Bedding is aluminum.

Description	Contour	Color	Product #	Price
Full Length Bedding	Sporter	Black	843-161	\$194.99
Pillar Bedding	Sporter	Black	480-661	\$99.99

Knox Mauser 98 CompStock Rifle Stock

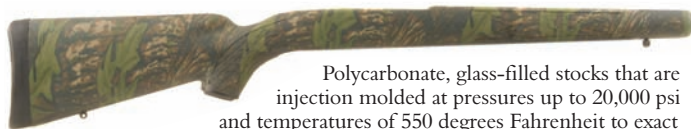

The Knox CompStock is a replacement stock that dramatically reduces felt recoil. An internal system of rollers and springs reduces peak recoil by over 50 percent, making even the heaviest magnums manageable to shoot. Based on a Hogue overmolded stock, the CompStock features a fiberglass skeleton and over-molded rubber surface that make it durable and comfortable. Fits long action Mauser 98.

BARRELS

Mossberg 500 12 Gauge to 50 Caliber Muzzleloader Conversion Shotgun Barrels

These conversion barrels turn your Mossberg 500 12 gauge into a 50 Caliber muzzleloading rifle, perfect for conicals or sabot bullets. This barrel system requires no gunsmithing to install. Simply remove the factory barrel on any 6 shot 12 gauge Mossberg 500 and replace with this muzzleloading barrel. Uses 209 primers for ignition and includes a brass-tipped ramrod.

Description	Length	Finish	Product #	Price
Rifle Sights	24"	Blue	861-787	\$104.99

Mossberg Shotgun Barrels

Increase the flexibility of your shotgun by adding a factory replacement barrel. One shotgun can now do everything with the right barrel combination.

CONVERSION UNITS

Knoxx Mossberg Sidewinder Shotgun Conversion Kits

The Sidewinder Conversion System is a unique accessory for your Mossberg 12 gauge shotgun. This kit allows you to use 6 or 10 round magazines without the need to permanently alter your shotgun. Simply remove the barrel, unscrew the factory magazine tube and install this custom tube and forend. With the Sidewinder installed, you can instantly reload your shotgun by dropping the empty magazine and inserting a full one. Perfect for the Mossberg 500, 590, 590A1 or Maverick 88. Use with the 590 or any 8-shot 20" barrel will require the purchase of an adapter (sold separately). Simple installation, no permanent modification of the shotgun is required. Black.

Butler Creek Mossberg 500, 590 Shotgun Pistol Grip

This polymer Pistol Grip is designed to help control the recoil of the Mossberg 500 shotgun. The angle allows for a strong wrist position along with raised checkering and finger grooves for control. 12 gauge only. Black.

944-820\$19.99

STOCKS AND FORENDS (CONTINUED)

Butler Creek Mossberg 500, 590 Protector Folding Shotgun Buttstocks

The folding mechanism of these Butler Creek Stocks are engineered to provide years of dependable use under a wide range of field conditions. The stock locks firmly in both the open or folded position. The pistol grip comes with a cap that allows conversion to cruiser style carry. The shell carrier version includes space for 3 extra shotshells held securely in the buttstock. Butler Creek recommends replacing the factory forearm with a short version if it interferes with the stock in a folded position.

Choate Mossberg Buttstocks and Forends

Choate Stocks and Forends all feature tough construction, made from a fiberglass reinforced polymer to withstand heavy use. Conventional stocks and forends are designed to replicate the factory wood, but are made with weatherproof polymer. Pistol grip models offer a secure grip, while the skeletonized version features an inletted design that minimizes weight without sacrificing strength. Side Folding designs offer compact storage when space is at a premium. All Choate stocks feature a lifetime guarantee.

Knoxx Mossberg SpecOps Recoil Reducing Shotgun Stock

The SpecOps stock features an adjustable length of pull coupled with the Knoxx Dual Recoil Compensation System. This sturdy stock is instantly adjustable for length (up to 4" of adjustment), making the shotgun comfortable for people of any height or shape, including Law Enforcement personnel who use body armor. Polymer and aluminum construction. Fits the Mossberg 500, 590, 590A1, 835 and Maverick 88. 12 gauge only. Black.

# 974-135.....	\$109.99
----------------	----------

Hogue Mossberg Shotgun OverMolded Buttstocks and Forends

Hogue Shotgun Stocks are molded from a fiberglass-reinforced polymer assuring stability and accuracy. Non-slip stocks are durable, weatherproof and extremely comfortable with a standard length of pull of 14-1/4" or with a shorter 12" length of pull for small shooters or for use with body armor. The grip of the stock and the entire forend are OverMolded with soft rubber for outstanding handling. Features ambidextrous palm swells and a soft recoil cushioning buttpad. The adapter nut is needed when installing Hogue OverMolded forends on Mossberg 6-3/4" forend tubes.

----------------	---------

Knoxx Mossberg COPStock Recoil Reducing Folding Shotgun Stock

The Knoxx COPStock combines a folding, wire frame buttstock with a recoil reducing pistol grip. The result is a tactical buttstock that tames even the heaviest magnum loads. The COPStock folds for compact storage, yet instantly unfolds with a simple squeeze of the stock. Recoil is reduced so dramatically that the shotgun is completely controllable, even with the stock folded. Fits the Mossberg 500, 590, 590A1, 835 and Maverick 88. 12 gauge only. Black.

# 134-134.....	\$89.99
----------------	---------

STOCKS AND FORENDS (CONTINUED)

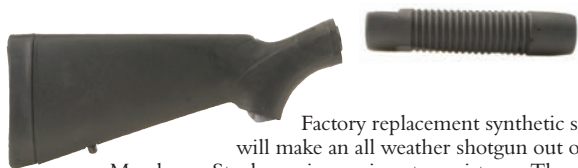

Knoxx Mossberg CompStock Recoil Reducing Stock Set

The Knoxx CompStock is a replacement stock that dramatically reduces felt recoil. An internal system of rollers and springs reduces peak recoil by over 50 percent, making even the heaviest magnums a delight to shoot. Based on a Hogue overmolded stock, the CompStock features a fiberglass skeleton and overmolded rubber surface that make it as durable as it is comfortable. Fits Mossberg models 500, 590, 590A1 and 835; forend is included. 12 Gauge only. Black.

744-311\$99.99

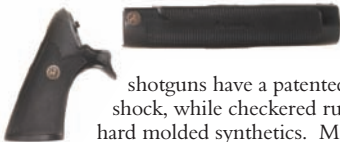

Mossberg Shotgun Synthetic Buttstocks and Forends

Factory replacement synthetic stocks will make an all weather shotgun out of your Mossberg. Stocks are impervious to moisture. The Magazine Tube model holds 4 extra rounds of 12 gauge ammunition. Buttstock and Forend sold separately.

Speedfeed Mossberg 500, 590 Tactical Shotgun Buttstocks and Forends

The Speedfeed 4 is a solid stock that features a thick rubber recoil pad and a pistol grip. The glass filled polymer construction makes this stock almost indestructible, perfect for tactical situations. The Tactical 4-S model features the same polymer construction and pistol grip as the Speedfeed 4 stock, but the length of pull has been shortened to 13". This makes the stock much easier to maneuver in tight places, especially in tactical situations when body armor is used.

Speedfeed Mossberg 500, 590 Buttstocks and Forends

The Speedfeed 1 is a durable polymer stock that was designed for Law Enforcement use but is ideal for sporting applications. It holds 4 extra shells in the buttstock for easy access. Shells are held in twin magazine tubes located just behind the grip, one on each side of the stock. A steel spring in each tube holds the rounds in the magazine until they're needed. The Speedfeed 3 has the same shell-holding design as the Speedfeed 1, but a pistol grip has been added for better control.

SHOTGUN

BARREL ASSEMBLIES

Hastings Remington Metro Shotgun Barrel Extension

The Metro system is a barrel extension that is specially ported to reduce muzzle noise by half. The 32" extension installs easily by threading on in place of a choke tube. No modification to the gun is necessary, and the Metro will even accept your gun's original choke tubes. Blue. Fits 12 Gauge Rem Choke shotguns only.

832-774\$194.99

John Masen Remington 870 Heat Shield

Heat shield is made from Zytel fiberglass resin and easily attaches to the barrel. Fits 12 Gauge only. Black.

272-877\$13.49

BARREL ASSEMBLIES (CONTINUED)

Hastings Paradox Remington Rifled Barrels

With six lands and grooves, these unique rifled barrels produce increased slug stability and amazing accuracy.

Cantilever scope mounts use Weaver-style rings (sold separately) and ensure consistent scope to barrel alignment. Rifle sights are fully adjustable for windage and elevation. Models with Controlled Sabot Discharge (CSD) have a muzzle brake with 12 exhaust ports to reduce recoil and muzzle jump along with a tapered exit bore that allows for uniform sabot separation. Drop-in.

MAGAZINE ASSEMBLIES

Choate Remington Shotgun Magazine Tube Extensions

Choate Magazine Extensions offer extra capacity with minimal modification to your shotgun. These quality steel tubes are perfect for competition or home defense. Newer Remington shotguns have 2 dimples in the factory magazine tube that must be removed with a file or drill in order for the extended magazine spring and follower to function.

Butler Creek Remington 870 Classic Style Buttstock and Forend

Stock holds up in tough weather conditions while reducing the shotgun's weight. The special

blend of fiberglass injection-molded polymer ensures a quality featherweight stock with maximum quietness and unsurpassed strength. Includes forend and buttstock with recoil pad and Uncle Mike's swivel stud installed. Fits 12 Gauge only. Black.

590-349.....\$46.49

STOCKS AND FORENDS (CONTINUED)

Butler Creek Remington 870 Protector Folding Stocks

These Folding Stocks lock firmly in both the open or folded position. The pistol grip also comes with a cap that allows conversion to cruiser style carry. The shell carrier version includes space for 3 extra shotshells held securely in the buttstock. Buttstock only, forend sold separately. Please note: The factory forend may need to be replaced with a shorter version if it interferes with the stock in a folded position.

Description.....	Gauge.....	Color	Product # ...	Price
without Shell Carrier.....	12 Gauge.....	Black.....	770-239	\$82.99
with Shell Carrier (Pictured)	12 Gauge.....	Black.....	343-345	\$76.99

Butler Creek Remington 870 Pistol Grip

Butler Creek Pistol Grips are designed to help control recoil. The angle allows for a strong wrist position along with raised checkering and finger grooves for control. Fits Remington 870 in 12 Gauge only. Black.

751-835\$19.99

Choate Remington Buttstocks and Forends

Choate Stocks and Forends all feature tough construction, made from a fiberglass reinforced polymer to withstand heavy use. Conventional stocks and forends are designed to replicate the factory wood, but are made with weatherproof polymer. Pistol grip models offer a secure grip, while the skeletonized version features an inletted design that minimizes weight without sacrificing strength. Side Folding designs offer compact storage when space is at a premium. All Choate stocks feature a lifetime guarantee.

Hogue Remington 870 OverMolded Buttstocks and Forends

Molded from a fiberglass reinforced polymer, these stocks are durable, weatherproof and extremely comfortable. They have either a standard 14-1/4" length of pull or a shorter 12" length of pull for smaller shooters or for use with body armor. The grip of the stock and the entire forend are OverMolded with soft rubber for non-slip handling even in poor weather. Stocks feature ambidextrous palm swells and a soft recoil cushioning butt pad. Fits Remington 870 only.

Forend (A)	12 Gauge.....	Black.....	924-090	\$12.79
Pistol Grip (B)	12 Gauge.....	Black.....	852-654	\$17.49

Knoxx Remington 870 CompStock Recoil Reducing Stock Set

The Knoxx CompStock is a replacement stock and forend set that dramatically reduces felt recoil. An internal system of rollers and springs reduces peak recoil by up to 50%. Based on a Hogue overmolded stock, the CompStock features a fiberglass skeleton and overmolded rubber surface that make it as durable as it is comfortable. 12 Gauge only. Black.

372-771\$99.99

Knoxx Remington 870 COPStock Recoil Reducing Folding Stock

The Knoxx COPstock combines a folding, wire frame buttstock with a recoil reducing pistol grip. The result is a tactical buttstock that tames even the heaviest magnum loads.

The COPstock folds for compact storage, yet instantly unfolds with a simple squeeze of the stock. Recoil is reduced so dramatically that the shotgun is completely controllable, even with the stock folded. 12 Gauge only. Black.

617-038\$89.99

STOCKS AND FORENDS (CONTINUED)

Knoxx Remington 870 SpecOps Recoil Reducing Shotgun Stock

The SpecOps stock features an adjustable length of pull coupled with the Knoxx Dual Recoil Compensation System. This sturdy stock is instantly adjustable for length (up to 4"), making the shotgun comfortable for people of any height or shape, including Law Enforcement personnel who use body armor. Polymer and aluminum construction. 12 Gauge only. Black.

420-928\$109.99

Pachmayr Remington 870 Vindicator Pistol Grip and Forend

Vindicator pistol grips and forends have a patented air pocket recoil chamber to reduce shock and checkered rubber to provide a more comfortable grip than hard, molded synthetics. Reduces felt recoil and improves accuracy. Fits Remington 870 only.

Scattergun Technologies Remington Buttstocks and Forends

High quality polymer buttstocks and forends, perfect for a tactical or all weather shotgun. Shortened buttstocks are available for young shooters or for use with tactical vests.

Speedfeed 1 Remington Stock Sets with Integral Magazine Tubes

The Speedfeed 1 is a durable polymer stock that was designed for Law Enforcement use

but is ideal for sporting applications. It holds 4 extra shells in the buttstock for easy access. Shells are held in twin magazine tubes located just behind the grip, one on each side of the stock. A steel spring in each tube holds the rounds in the magazine until they're needed.

STOCKS AND FORENDS (CONTINUED)

Speedfeed 2 Remington 870 Stock Sets

This solid stock features rugged polymer construction that is weatherproof and nearly indestructible. Designed for the shooter who needs a no nonsense stock at a great price. Fits Remington 870 only.

Description.....	Gauge.....	Color.....	Product #...	Price
Buttstock and Forend.....	12 Gauge.....	Black.....	897-830.....	\$51.99
Buttstock.....	12 Gauge.....	Black.....	724-833.....	\$48.49

Speedfeed 3 Remington Tactical Stock Sets with Integral Magazine Tubes

The Speedfeed 3 has the same shell-holding design as the Speedfeed 1, but a pistol grip has been added for better control. Like the Speedfeed 1, this stock holds 4 extra shells in the buttstock, and features durable polymer construction and a thick rubber recoil pad.

Speedfeed 4 Remington Tactical Stock Sets

The Speedfeed 4 is a solid stock that features a thick rubber recoil pad and a pistol grip. The glass filled polymer construction makes this stock almost indestructible, perfect for tactical situations.

Speedfeed 4-S Remington Short Tactical Stock Sets

The Tactical 4-S model features the same polymer construction and pistol grip as the Speedfeed 4 stock, but the length of pull has been shortened to 13". This makes the stock much easier to maneuver in tight places, especially in tactical situations when body armor is used. If an even shorter length of pull is needed, the recoil plate (sold separately) can be installed in place of the recoil pad, reducing the length of pull by another inch. This stock is also perfect for young or small framed shooters.

Buttstock and Forend.....	Gauge.....	Color.....	Product #...	Price

Speedfeed Sport Shotgun Stock Sets

The Speedfeed Sport model is made of a durable polymer and features a thick rubber butt pad. Raised checkering and classic styling make this a great choice for anyone who is looking for a replacement stock set. The youth model features a shortened 13" length of pull, perfect for small shooters or for use with body armor. The Sport Forend replicates the size and style of the factory forend, and the Law Enforcement Forend is smaller for improved tactical use.

Power Custom Ruger Mark 1, 2 Titanium Firing Pin

This Titanium Pin is 40% lighter than the factory pin and features a larger impact area. This results in faster lock time with less chance of misfiring. Note: Misfires may result if this firing pin is used with a Volquartsen Accurizing kit due to the lighter spring. Drop-in with no modification required.

591-914.....\$26.49

Power Custom Ruger Mark 1, Mark 2 Titanium Bolt Racker

This part makes it possible to operate the bolt on a Ruger Mark 1 or Mark 2 with one finger. Attaches quickly and easily to the rear of the bolt. Titanium construction for strength, reduced weight and corrosion resistance. Ambidextrous. No modification required for use with Mark 2. Older Mark 1 models will require minor modification to the rear of the receiver.

168-510.....\$37.99

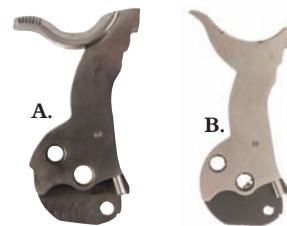

Power Custom Ruger Single Action Free Spin Pawls

Installing a Free Spin Pawl will allow the cylinder to rotate in either direction when the loading gate is open. Makes for faster reloading if the cylinder is over-indexed. A must-have for handgun hunters or Cowboy Action shooters. The Single Action Pawl fits the Ruger Vaquero, Blackhawk and Super Blackhawk. Requires fitting by a qualified gunsmith. Instructions included.

Power Custom Ruger Single Action Hammer and Trigger Kits

This Trigger and Hammer Kit offers a 2-1/2 to 3 lb trigger pull for all New Model Large Frame Single Action Blackhawks, Super Blackhawks and Vaqueros. When on half-cock with the loading gate open, the chambers line up for no fumble reloading. A Wolff Spring Kit is included with three different reduced power hammer springs (17 lbs, 18 lbs and 19 lbs), a reduced power trigger spring and 1 extra power cylinder latch pin spring. Includes detailed instructions. Minor modifications are required to some factory parts, gunsmith installation is recommended.

COMPENSATORS

Volquartsen Ruger Mark 2 Compensators

Large, single chamber stainless steel compensator with six separate ports gives controlled release of muzzle gas for almost recoil-free rimfire shooting. Inner, rubber O-ring gives a positive gas seal. Installs easily by removing factory front sight and using existing hole. Fits models with .875" bull barrel (4", 5-1/2", or 6-7/8"). It does not fit the 10" model. The Flat-Side fits the Competition Model Mark 2 Flat-Side, and the Round Side fits Mark 2, Mark 3 and 22/45. Weighs 4 oz.

CYLINDER AND FRAME COMPONENTS

Belt Mountain Ruger Single Action Base Pins

Belt Mountain Ruger Base Pins are hardened, centerless ground to .2495" diameter and handsomely finished. Locking pins have an Allen set screw in the head to hold the pin in place against recoil. #5 Keith-Style base pins are patterned after the pin that Elmer Keith designed for his famous #5 Single Action 44 Special in 1927. The pin head is made of concentric layers of increasingly larger and smaller discs that add to the beauty of the single action sixgun along with great functionality. Installation instructions are included. On many guns these pins drop-in with no modification.

Power Custom Ruger Single Action Oversize Cylinder Latch

Manufactured from heat treated A-2 tool steel with a stainless steel stud. Fits Blackhawk, Vaquero, Bisley and the Single Six. Will not fit Bearcat. Should be used with an oversized base pin properly fitted to cylinder and frame. Part is oversized in profile and thickness and requires fitting and installation by a qualified gunsmith.

718-624.....\$24.99

Power Custom Ruger Revolver Base Pin Bushing Kit

Bushing is machined into cylinder to eliminate cylinder end-shake for improved accuracy in single action revolvers. Bushing has an inside diameter of .248". Kit includes four .002" endshake bearings (extra bearings sold separately). Requires fitting and installation by a qualified gunsmith.

697-676.....\$33.99

These Actions may only be purchased by an individual with a current, signed FFL on file with MidwayUSA. An Adult Signature is required for delivery. All orders with Handgun Actions must be shipped UPS Next Day Air. Please call our toll free number for more information.

Volquartsen Ruger Mark 2 LLV Tensioned Barreled Actions

This unit consists of an upper receiver and a match-chambered barrel for the Ruger Mark 2. This Action is machined, not cast, from aircraft aluminum and features a 6" tensioned and match-crowned barrel. An integral Weaver-style mount offers solid support for a scope or red dot sight.

CYLINDER AND FRAME COMPONENTS

Power Custom Ruger Revolver Endshake Bearings

Endshake Bearings are basically ultrathin, .002" thick, washers that are inserted in front of the cylinder. They set the cylinder back slightly to reduce wobble and generally tightening up the action of the revolver. Installation is simple and reversible with no gunsmithing required. Fits Ruger Six Series, GP, Redhawk and Super Redhawk. Includes instructions. Package of 10.

519-485\$16.29

Qualite Ruger Single Action Ejector Rods

These Ejector Rods fit Ruger Single Actions as well as Colt Single Actions and clones with barrel lengths of 4-5/8", 5-1/2" and 7-1/2". They are designed to help the shooter eject spent cases quickly and easily without your finger slipping off, even while wearing gloves. The Bull's-Eye ejector is styled after the original early Colt Single Action Army ejector and provides a sure grip. The Crescent Button ejector rod is patterned after the later Colt Single Action Army and is contoured around the barrel so it will not get hung up in your holster. May require minor fitting to particular gun.

Ruger Single Action Steel Ejector Rod Housings

Replace the factory aluminum ejector rod housing with this high grade steel housing. The cam cut-style keeps the ejector button against the barrel while allowing the rod to pivot out for easier ejection. The 3/16" fits Vaquero, Bisley Vaquero, Single Six, Super Single Six, (most) Blackhawks, new model Blackhawks and new model Super Blackhawks. The 1/4" fits older Super Blackhawks and some 41 and 45 caliber old and new model Blackhawks. Please measure the housing screw head diameter in your revolver before ordering. Will not fit Bearcat or 357 Maximum caliber guns. Fitting may be required.

RUGER RIFLES

BARRELS

Hart Ruger 77/22 Barrel

Hart Rifle Barrels are button rifled and contoured on a CNC lathe, then hand lapped to ensure the best possible finish. Hart guarantees that the groove will not vary more than .0001" from breech to muzzle. Every barrel is measured with an air gauge and examined with a borescope to ensure that there are no tool marks or other defects, which might affect accuracy.

Bell and Carlson Ruger Carbelite Classic Stocks

Bell and Carlson stocks are mounted to actions before they are finished so the fit is guaranteed. Made of hand-placed layers of Kevlar and fiberglass over graphite, the Carbelite provides the ultimate in strength and durability. Features include Uncle Mike's sling swivel studs, checkering on the grip and forend area, premium recoil pad, baked on epoxy finish and lifetime warranty on materials and workmanship. The barrel channel is designed for the factory profile but can be adapted to other contours.

STOCKS (CONTINUED)

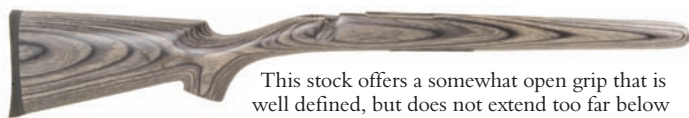

Bell and Carlson Ruger 77 Premier Thumbhole Stocks

These composite stocks feature a balanced thumbhole design that is large enough to comfortably fit most hands. Forend design is slightly square for better stability from a rest, and the integral palm swell provides a sure, comfortable grip. Thumbhole Stocks also feature high, straight combs with Monte Carlo cheekpieces for a comfortable shooting position. For the Long Action Ruger 77 with tang safety only. Stocks are covered under a limited lifetime warranty.

Boyd's Ruger 77 Mark 2 JRS Classic Rifle Stock

This stock offers a somewhat open grip that is well defined, but does not extend too far below the toe line. The comb is parallel to the bore, which aids scope use and is more comfortable during recoil. The flat forend is well proportioned to complement barrels 22-26" long. Stock has a pepper finish with a semi-drop-in fit. Fits long action only. May require inletting to specific action.

712-044\$141.99

Boyd's Ruger 77 Mark 2 Varmint Thumbhole Rifle Stocks

Boyd's Varmint Target stocks feature a large rollover cheek piece, hand-conforming thumbhole and a heavy forend with side cooling vents. This combination offers both varmint and target shooters the utmost in stability and comfort for maximum accuracy. Stocks are Finished Semi-Drop-In. May require inletting to specific action.

Butler Creek Ruger Mini-14, Mini-30 Sporter Stock

This precision molded stock features a free-floated barrel channel, longer than stock trigger pull and raised positive grip checkering. Excellent shooting comfort is achieved with the slimmer pistol grip area, double palm swells for right or left handed shooters and a smooth non-stick buttstock surface. Includes a quality recoil pad and Uncle Mike's QD swivel studs. This stock fits the 181 series and newer rifles, and will not fit the 180 series. Black. # 993-520\$54.99

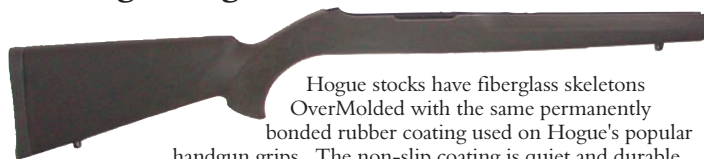

Choate Ruger Mini-14, Mini-30 Stocks

Conventional Stocks replicate the factory stock, but with highly durable and weatherproof polymer construction. Dragunov Stocks feature a lightweight skeletonized design that offers a natural and comfortable grip and comes with a 1" buttpad and 1/2" spacer included. Side Folding designs offer compact storage when space is at a premium. All stocks are constructed of glass filled fiberglass that will not warp or crack and is impervious to moisture. All Choate stocks carry a lifetime warranty.

STOCKS (CONTINUED)

Knoxx Ruger 77 Mark 2 CompStock Rifle Stocks

The Knoxx CompStock dramatically reduces felt recoil, making even the heaviest magnums manageable to shoot. Based on a Hogue Overmolded stock, the CompStock features a Recoil Reduction System housed inside the butt. This assembly consists of a roller, cam lever and extension spring. When the rifle is fired, the inner section of the buttstock moves rearward into the outer section of the buttstock, dampening felt recoil. Stocks also feature a straight comb, ambidextrous palm swells and a varmint forend. May require minor fitting.

BARRELS

Adams & Bennett Savage 110 Series Barrels

Adams & Bennett Savage Barrels are finish chambered and ready to install and headspace. All that is required is a set of headspace gauges in the appropriate caliber, a Savage barrel nut wrench and a barrel vise (all sold separately). An action wrench may also be necessary if the nut does not break free easily. Make sure your conversion choice is suitable for the action and bolt you are working with. These chrome moly barrels are blued to match the factory finish.

BENCH REST FOLLOWERS

Score High Savage Bench Rest Followers

No more scratched cases, battered bullet noses or fumbling around trying to load your bolt action rifle one round at a time. Simply insert the Bench Rest Follower in your magazine on top of the factory follower and spring. No gunsmithing required. It serves as a tray to hold the cartridge directly in line with the chamber for smooth, trouble free loading. Perfect for any serious target, varmint or silhouette shooter.

Boyd's Savage 10 Varmint Thumbhole Stocks

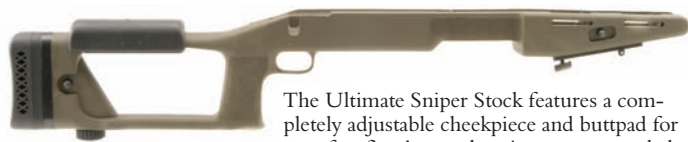

Boyd's Varmint Target stocks feature a large rollover cheek piece, hand-conforming thumb-hole and a heavy forend with side cooling vents. This combination offers both varmint and target shooters the utmost in stability and comfort for maximum accuracy. Stocks are finished Semi-Drop-In and may require minor inletting to specific action. For short action, right hand models only. Barrel channel fits factory barrel contour, but can be opened up to accept a varmint contour.

BARRELS

Bar-Sto Sig Sauer Semi-Drop-In Barrels

Installation of a Bar-Sto barrel can improve accuracy up to 1-3/4" at 25 yards using match grade ammo. Barrels are machined from stainless steel bar stock which has been heat treated to 180,000 psi tensile strength. Due to close tolerances and variances in handguns some barrels may require fitting.

Wolff Sig Sauer Recoil Springs

In general, heavy loads need heavy springs and lighter loads need lighter springs. Each recoil spring comes with an extra power firing pin spring. Variable Power Springs are beneficial with compensated handguns and when using light target loads where less recoil energy is available. Conventional Power springs are more uniform and are excellent for heavy loads. Installation requires disassembly and reassembly of the slide.

Power Custom Colt Single Action Universal Base Pin Bushing Kit

Bushings are machined into cylinder to eliminate cylinder endshake for improved accuracy in single action revolvers. Kit includes a .500" long bushing and 4 .002" endshake bearings with .250" inside diameters. Bushings require gunsmith installation. Endshake bearings are basically .002" washers used in front of the cylinder in a revolver. These stainless steel bearings set the cylinder back slightly, reducing wobble and generally tightening up the action of the revolver. Disassembly of revolver is required to install. Fits 1st and 2nd Generation Colt Single Actions.

Bushing Kit.....	724-006.....	\$33.99
Endshake Bearings Pack of 10.....	524-674.....	\$16.29

CYLINDER COMPONENTS

Belt Mountain Colt Single Action Army Base Pins

Belt Mountain Colt Base

Pins are .2515" diameter, the head flange is slightly larger than standard and has a relief cut for clearance of the barrel. This flange prevents the rotation of the pin in the frame, a cause of frame wear in Colt sixguns. #5 Keith-Style base pins are patterned after the pin that Elmer Keith designed for his famous #5 Single Action 44 Special in 1927. The pin head is made of concentric layers of increasingly larger and smaller discs that add to the beauty of the single action sixgun along with great functionality. Installation instructions are included. On some guns these pins drop right in so no alteration of the pin is necessary.

OTHER COMPONENTS

Cylinder & Slide S&W Extra Length Firing Pin

Increased length helps eliminate misfires. Fits new style S&W J, K, L and N frame revolvers. Requires fitting by a qualified gunsmith.

926-136.....\$10.79

Ed Brown S&W Oversized Thumb Latch

Designed for faster revolver reloads in competition, this thumb latch is cut to clear any speedloader. Fits Smith & Wesson K, L and N-frame revolvers. Fitting may be required. Stainless steel.

471-976.....\$23.99

Power Custom S&W Endshake Bearings

Endshake bearings are basically ultra-thin washers used in front of the cylinder in a revolver. These bearings set the cylinder back slightly, reducing wobble and generally tightening up the action of the revolver. Useful for competition and for tightening guns for best "feel." Installation is simple and reversible. Disassembly of revolver required in order to install the bearing, reassemble and test. Instructions are included.

Description.....	Product #.....	Price
J-Frame .002".....	496-342.....	\$16.29
K, L, N-Frame .002".....	392-482.....	\$16.29
K, L, N-Frame .004".....	480-193.....	\$16.29

Power Custom S&W Oversize Hand

Precision ground from tool steel to final dimensions that are oversized in key areas to allow precise fitting needed to make the cylinder carry up on double actions before the hammer falls. Requires fitting by a qualified gunsmith. Fits S&W K, L and N-Frame revolvers.

731-977.....\$24.99

Power Custom S&W Sideplate Shims

These shims reduce the amount of side-to-side play that the trigger has in the frame. The less play you have, the more consistent the trigger pull. To install, you will need to disassemble your revolver, install a bearing, reassemble and test. Instructions are included. For K, L and N-Frame series.

Description.....	Quantity.....	Product #.....	Price
Hammer Shims.....	10.....	598-967.....	\$16.29
Trigger Shims.....	10.....	600-154.....	\$16.29

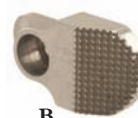

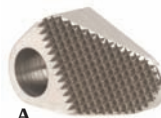

Power Custom S&W Yoke Bearings

Yoke bearings are used in conjunction with endshake bearings to eliminate excessive yoke endplay and help with alignment and accuracy. Bearings are .002" and work with the S&W K, L and N-Frame series. Package of 10.

626-179.....\$18.79

SDM S&W K, L, N-Frame Thumb Latches

Same size and shape as the original factory part but with greatly improved gripping surface. Fully CNC machined from barstock steel with 30 lpi checkering. New style is tapered, old style is rounded. Minor fitting required.

New Style.....	Product #.....	Price

BARRELS

Bar-Sto Springfield XD Semi-Drop-In Barrels

With a Bar-Sto Barrel, groups of 1-3/4" to 2" at 25 yards are possible with match grade ammunition. Barrels are machined from stainless steel bar stock which has been heat treated to 180,000 psi tensile strength. Accuracy is excellent even when compared to target grade barrels. May require minor fitting.

19 lb Extra Power Spring and Guide Rod	546-357	\$27.99
21 lb Extra Power Spring and Guide Rod	161-821	\$27.99
Recoil Calibration Spring Pack	149-872	\$17.29

Contains one each 17, 19 and 21 lb recoil springs and 3 extra power striker springs. Springs must be used with a Wolff recoil guide rod (not included).

STOCKS AND HANDGUARDS

Bell and Carlson Springfield 1903A3 Carbelite Classic Stock

Bell and Carlson stocks are mounted to actions before they are finished so the fit is guaranteed. Made of hand-placed layers of Kevlar and fiberglass over graphite, the Carbelite provides the ultimate in strength and durability. Features include Uncle Mike's sling swivel studs, checkering on the grip and forend area, premium recoil pad, baked on epoxy finish and lifetime warranty on materials and workmanship. The barrel channel is designed for the military profile but can be adapted to other contours. Black.

# 438-456	\$159.99
-----------	----------

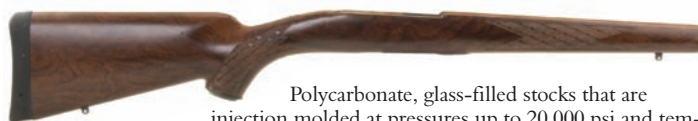

Boyd's Springfield 1903A3 C Stock and Handguard

A great upgrade to your old 1903A3. Precision CNC machined from American walnut, semi-inletted and unfinished. Does not include metal parts.

TRIGGERS

Timney Springfield Featherweight Triggers

Featherweight Triggers are precision machined and hand-fitted to provide a crisp trigger pull that is adjustable from 1-1/2 to 4 lbs. Featherweight triggers do not include a safety; Deluxe Featherweight triggers include a side safety. These triggers feature a blue steel trigger with a red trigger housing and will require fitting by a qualified gunsmith.

Timney Springfield 1903, 1903A3 Sportsman Trigger

Timney Sportsman Triggers are lightweight, rugged and durable. The trigger pull is adjustable from 2 to 4 lbs and is adjustable for creep, backlash and overtravel. These triggers require the use of the original safety. Minor fitting may be required. Blue.

551-288.....\$37.99

Answer: 1975

Established in 1975, the Institute for Legislative Action (ILA) is the lobbying arm of the National Rifle Association of America. The NRA/ILA is committed to preserving the rights of all law-abiding individuals to purchase, possess and use firearms and ammunition. In 1992 MidwayUSA began the NRA "Round-Up" program by asking our customers to "Round-Up" the total of each order and donate the change to the NRA/ILA. Since that time, together we have been able to raise more than \$3,000,000 to protect our 2nd Amendment Rights.

If you would like to become a member of the National Rifle Association to help protect your 2nd Amendment Rights, see page 835 for more information.

These Frames may only be purchased by an individual with a current, signed FFL on file with MidwayUSA. An Adult Signature is required for delivery. All orders with Handgun Frames must be shipped UPS Next Day Air. Please call our toll free number for more information.

Thompson Center G2 Contender Frames

These G2 Contender frames will accept a wide variety of interchangeable barrels, grips and forends to adapt to any shooting situation. The G2 differs from the original Contender in that it provides a better, more ergonomic grip and incorporates several subtle design improvements, such as an automatic hammer block safety. You can also cock, lower and re-cock the hammer without the need to open and shut the action. The G2 will accept original Contender barrels and forends, but grips and buttstocks are not interchangeable.

Bell and Carlson Thompson Center Contender Carbelite Classic Thumbhole Buttstocks and Forends

Bell and Carlson stocks are mounted to actions before they are finished so the fit is guaranteed. Made of hand-placed layers of Kevlar and fiberglass over graphite, the Carbelite provides the ultimate in strength and durability. Features include Uncle Mike's sling swivel studs, checkering on the grip and forend area, premium recoil pad, baked on epoxy finish and lifetime warranty on materials and workmanship. Thumbhole buttstock can be used by either right or left-handed shooters. These two-piece stocks fit the Contender only. Will not fit G2 Contender or Encore.

STOCKS, GRIPS AND FORENDS

Pachmayr Thompson Center Contender Grips and Forends

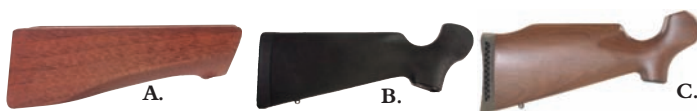

Decelerator Grips are 50% softer than a regular grip and feature a patented air cell to protect the web of your hand. Gripper Grips are made from a specially formulated rubber compound and feature a slight palm swell and fully checkered sides.

Presentation Grips have a classic style with deep checkering for improved control. Grips and forend fit Contender only. Will not fit G2 Contender.

B.

Thompson Center Encore Frames

The Thompson Center Encore is a classically designed single shot break open firearm that will accept any number of interchangeable barrels, stocks and forends. Built a bit larger than the Contender, the Encore is designed to handle large rifle and handgun calibers for increased versatility in the field. Perfect for the challenge of single shot hunting or for long range target shooting.

HAWKEN/RENEGADE

BARRELS

Green Mountain Thompson Center Muzzleloader Interchangeable Barrel System

The Green Mountain Interchangeable System is designed to fit the Thompson Center Hawken or Renegade as well as some copies of these models. These button rifled barrels feature an octagonal contour and come complete, ready to drop into your stock with little or no modification. Note: these replacement barrels do not fit CVA or Traditions muzzleloaders because they employ a different breech ignition system.

COCKING PIECE

Tubb SpeedLock Systems Winchester 70 Cocking Piece

This cocking piece is different from the factory version in several key areas. The result is more reliability, less chance of cracking or breakage and a universal fit for all Winchester 70 variants. Requires fitting by a qualified gunsmith. Steel as machined.

225-856.....\$49.99

EXTRACTORS

Williams Firearms Winchester 70 Extractors

Each extractor is CNC machined from high quality steel to maintain strict tolerances, then polished and heat treated for hardness. Magnum Extractors work for 300 Winchester Short Magnum (WSM), 375 H&H Magnum and similar cases. Standard Extractors work for 308 Winchester, 30-06 Springfield and similar cases. Drop-in.

FIRING PINS

Tubb SpeedLock Systems Winchester 70 Post-64 Firing Pins and Springs

Speedlock pins and springs are lighter than factory for faster lock time. The chrome silicon springs are heat treated, stress relieved and shot peened. The result is a durable, consistent firing pin assembly that will increase the functionality of your rifle.

Steel in the White.....	697-145.....	\$48.99

FOLLOWERS

Score-High Winchester 70 Bench Rest Follower

No more scratched cases or damaged bullet noses trying to load your rifle 1 round at a time. This follower inserts on top of the factory follower and spring with no gunsmithing required. It serves as a tray to hold the cartridge directly in line with the chamber for smooth, trouble free loading. Perfect for varmint and target shooters. Fits Post-64 Winchester 70 chambered in 222 Remington and 223 Remington.

STOCKS

A. The walnut Golden Hunter stock features a hand-rubbed oil finish and laser checkering. The Golden Sporter features a classic design with a straight cheek piece and a laminated finish for beauty and weather resistance. Both include a Pachmayr Old English recoil pad and a full-length aluminum barrel system that free floats the barrel and promotes increased accuracy. Fits Post-64 Model 70 only. May require minor inletting to specific action.

Bell and Carlson Winchester 70 Carbelite Classic Stocks

Bell and Carlson stocks are mounted to actions before they are finished so the fit is guaranteed. Made of hand-placed layers of Kevlar and fiberglass over graphite, the Carbelite provides the ultimate in strength and durability. Features include Uncle Mike's sling swivel studs, checkering on the grip and forend area, premium recoil pad, baked on epoxy finish and lifetime warranty on materials and workmanship. Fits factory barrel contour, but can be adapted to others.

Bell and Carlson Winchester 70 Short Action Medalist Stocks

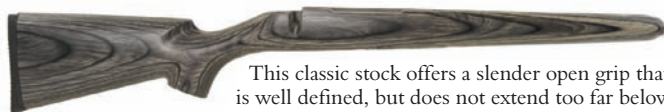

The Medalist stock combines the stability and durability of Bell and Carlson's proprietary composite material with an integral aluminum bedding system. The bedding system is CNC machined out of aircraft grade 6061-T6 aluminum to eliminate the need for conventional bedding. This process assures perfect fit, aligns the barreled action and stiffens the forend. Winchester Varmint stocks feature a wide forend for stability with no cheek piece. Stocks are covered under a lifetime warranty.

Boyd's Winchester 70 JRS Classic Rifle Stocks

This classic stock offers a slender open grip that is well defined, but does not extend too far below the toe line. The comb is parallel to the bore, which aids scope use and is more comfortable during recoil. The cheekpiece blends with the overall shape of the buttstock, and the forend is flat and well proportioned to complement barrels 22-26" long. Stocks are Finished Semi-Drop-In. Fits long action, Post-64 Model 70 only. May require inletting to specific action.

Choate Winchester 70 Ultimate Varmint Stocks

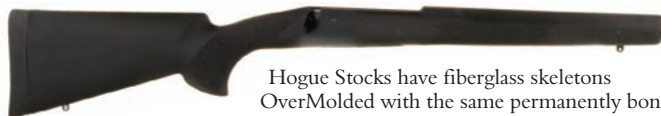

The Ultimate Varmint Stock is an excellent platform for stationary hunting or target shooting. A 2-7/16" wide forearm provides a stable rest, while a rear elevation screw allows precise elevation adjustment. The cheek piece and 1" thick butt pad are adjustable for a perfect fit, and stocks come with three spacers for length of pull adjustment. The trigger guard is oversized for use with heavy gloves. An aluminum bedding block free-floats the barrel. Durable polymer construction with a lifetime guarantee.

Knox Winchester 70 CompStock Rifle Stocks

Based on a Hogue Overmolded stock, the CompStock features a Recoil Reduction System housed inside the butt. This assembly consists of a roller, cam lever and extension spring. When the rifle is fired, the inner section of the buttstock moves rearward into the outer section of the buttstock, dampening felt recoil. Stocks also feature a straight comb, ambidextrous palm swells and a varmint forend. Fits Post-64 models only. May require minor fitting.

STOCKS AND FORENDS

Butler Creek Winchester 1200, 1300 Protector Folding Buttstocks

Buttstock locks firmly in both the open or folded position, and the pistol grip comes with a cap that allows conversion to cruiser style carry. The shell carrier version includes space for 3 extra shotshells held securely in the buttstock. Butler Creek recommends replacing the factory forend with a short version if it interferes with the stock in a folded position.

Description.....	Gauge.....	Color	Product #...	Price
Protector (Pictured).....	12 Gauge.....	Black.....	184-202	\$82.99
Protector with Shell Carrier.....	12 Gauge.....	Black.....	417-605	\$76.99

Butler Creek Winchester 1200, 1300 Pistol Grip

Butler Creek Pistol Grips are designed to help control the recoil of 12 gauge shotguns. The angle allows for a strong wrist position along with raised checkering and finger grooves for control.

# 378-360.....	\$19.99
----------------	---------

Hogue Winchester 1300 OverMolded Shotgun Buttstocks and Forends

Hogue Shotgun Stocks are molded from a super tough

fiberglass reinforced polymer assuring stability and accuracy. These non-slip stocks are durable, weatherproof and extremely comfortable with a standard length of pull of 14-1/4" or with a shorter 12" length of pull for small shooters or for use with body armor. The grip of the stock and the entire forend are OverMolded with soft rubber for outstanding handling even in poor conditions. Features ambidextrous palm swells and a soft recoil cushioning butt pad.

Choate Winchester 1200, 1300, 1400 Buttstocks and Forends

Choate Stocks and Forends all feature tough construction, made from a fiberglass reinforced polymer to withstand heavy use. Conventional stocks and forends are designed to replicate the factory wood, but are made with weatherproof polymer. Pistol grip models offer a secure grip, while the skeletonized version features an inletted design that minimizes weight without sacrificing strength. Side Folding designs offer compact storage when space is at a premium. All Choate stocks feature a lifetime guarantee.

Pistol Grip Buttstock.....	12 Gauge.....	Black.....	641-814	\$41.99
Pistol Grip.....	12 Gauge.....	Black.....	330-977	\$17.49

John Masen Winchester 1200 Forend

Tough synthetic replacement forend. Features a black finish with a ribbed design for a secure grip.

# 817-102.....	\$12.79
----------------	---------

Knoxx Winchester 1300 CompStock Recoil Reducing Stock Set

The Knoxx CompStock is a replacement

stock that dramatically reduces felt recoil. An internal system of rollers and springs reduces peak recoil by over 50 percent, making even the heaviest magnums a delight to shoot. Based on a Hogue overmolded stock, the CompStock features a fiberglass skeleton and overmolded rubber surface that make it as durable as it is comfortable. Also fits the FN Herstal; forend is included. 12 Gauge only. Black.

# 321-088.....	\$99.99
----------------	---------

Which measurement of weight is equivalent to one grain?

- 3 grams • 1/7000 pound
- 1/5000 kilogram • 1/90 milliliter

See page 665 for answer.

1200, 1300, 1400 (CONTINUED)

STOCKS AND FORENDS (CONTINUED)

**Knoxx Winchester 1300, FN Herstal
COPStock Recoil Reducing Folding Stock**

The Knoxx COPStock combines a folding, wire frame buttstock with a recoil reducing pistol grip. The result is a tactical buttstock that tames even the heaviest magnum loads. The COPStock folds for compact storage, yet instantly unfolds with a simple squeeze of the stock. Recoil is reduced so dramatically that the shotgun is completely controllable, even with the stock folded. 12 gauge only. Black.

820-109\$89.99

**Pachmayr Winchester 1300 Vindicator Grip
and Forend**

Vindicator pistol grips and forends have a patented air pocket recoil chamber to reduce shock, while checkered rubber provides a vastly better grip than hard molded synthetics. Makes recoil feel less intense, improving accuracy on follow-up shots.

**Ram-Line Winchester 1200, 1400 Syntech
Buttstock and Forend Sets**

Replace a fragile wood stock with a synthetic shotgun stock from Ram-Line. Made of super toughened glass filled nylon, foul weather has no effect on them. Installs in minutes and without modification. Stocks include a premium quality recoil pad.

**Speedfeed Winchester 1200, 1300 Tactical
Buttstocks and Forends**

The Speedfeed 1 is a durable polymer stock that holds 4 extra shells in the buttstock for easy access. The Speedfeed 3 has the same shell-holding design as the Speedfeed 1, but a pistol grip has been added for better control. The Speedfeed 4 is a solid stock that features a thick rubber recoil pad and a pistol grip, and the Speedfeed Tactical 4-S is a shortened version for use with tactical vests or other padded clothing.

888-066\$22.49

**Speedfeed Winchester 1200, 1300 Monte Carlo
Shotgun Buttstock and Forend**

Durable polymer construction, a thick recoil pad and functional checkering make this an excellent choice. The Monte Carlo stock also features a raised cheekpiece, perfect for use with iron sights or with a scope.

**Speedfeed Winchester 1200, 1300 Sport
Shotgun Buttstocks and Forends**

The Speedfeed Sport model is made of a durable polymer and features a thick rubber butt pad. Raised checkering and classic styling make this a great choice for anyone who is looking for a replacement stock set. The youth model features a shortened 13" length of pull, perfect for young or small-framed shooters.

Check out these great features on MidwayUSA.com . . .

The screenshot shows the MidwayUSA website interface. At the top, there's a navigation bar with links like Home, Reloading, Bullet Casting, Ammo, Shooting, Muzzleloading, Cleaning, Grips, Holsters & Magazines, Gunsmithing, Gun Parts, Optics, Books & Videos, and a 'See All' link. Below this is a search bar with the text 'Search All Products for' and a 'Go' button. The main content area is divided into several sections: 'You are here: Homepage', 'Shopping Cart' (showing 0 items and a \$0.00 subtotal), 'Product Promotions' (Best Sellers, Weekly Specials, New Products, This Month's Specials, Inventory Reduction), 'Product Brands' (Looking for Products With a Specific Brand?, Browse Products by Brand), 'Product Types' (Reloading Equipment & Components, Metallic Reloading..., Brass & Bullets, Shotgun Reloading..., Hulls, Wads, Shot..., See More..., Bullet Casting, Bullet Molds, Bullet Lubes, Furnaces & Access...), 'Brand Of The Week' (GERBER KNIVES TOOLS GEAR), 'GunTec TV' (Content, Sponsors and Air Times!, Read About GunTec TV), and 'Sign Up for Eblast' (Be the First to Know About the Newest Products and Biggest Sale Prices!, Enter your Email Address, Sign Up, What is Eblast?). There are also several promotional banners: 'Just About Everything for Your Ruger 10/22!' with a 'View Our Clickable Schematics' link, 'View MidwayUSA November Flyer' with a 'View MidwayUSA November Flyer' link, and 'Hornady V-Max Bullets 20 Caliber (204 Diameter) 40 Grain Box of 100' with a 'Sale! \$xx.xx Add to Cart' button and a 'More Hornady Products...' link.

<i>Reduced power mainspring, reduced power wire-type sear/bolt spring, extra power base pin spring and stainless steel hand ejector spring.</i>		

Wolff Ithaca Single Barrel Extra Power Striker Spring

Replacement striker springs make the striker move faster and hit harder to reduce misfires and decrease lock time. To the shooter, the faster the firing pin strikes the primer, the tighter the group. For Ithaca Single Barrel Trap shotguns under SN 400,000.

# 711-535.....	\$3.29
----------------	--------

Wolff Conventional Recoil Springs

With Conventional recoil springs, all the coils are spaced equally apart, except for the closed ends. In general, heavy magnum loads need heavy springs and lighter target loads need lighter springs. Includes an extra power firing pin spring. Installation requires disassembly and reassembly.

OTHER PARTS

Cylinder & Slide Colt 380 High Grip Thumb Safeties

The Ambidextrous Thumb Safety allows either the right or left-handed shooter to safely engage or disengage the safety. An ambidextrous safety is a must for combat shooting when weak hand shooting is required. The Extended Safety allows the right-handed shooter to safely engage or disengage the safety with the thumb of the shooting hand and is an excellent addition for duty and carry guns. For the Colt 380 Government, Mustang and Pony models only. Gunsmith installation is required.

Wilson Combat AK-47 Shok-Buff Replacement Buffer

With a Shok-Buff in your rifle, you will immediately notice the sharp metal-to-metal contact of the action has been reduced to a soft, cushioned sound. Shok-Buffs for rifles are made to last about 5,000 rounds or more depending on the ammunition used and condition of the firearm.

630-752.....\$14.99

SHOTGUNS

BARRELS

Hastings Ithaca M-37 Paradox Rifled Shotgun Slug Barrels

Barrels have 6 lands and grooves to produce increased slug stability and amazing accuracy. Barrels are hammer forged, CNC machined from 4140 chrome moly steel and proof tested. Models with scope mounts use Weaver-style rings. Controlled Sabot Discharge (CSD) models feature an integral muzzle brake to reduce recoil and muzzle jump along with a tapered exit bore to allow uniform sabot separation. For best performance, Hastings recommends using Winchester or Federal sabot ammunition. Note: Though these barrels have 3" chambers, some Ithaca M-37 receivers are marked 2-3/4" only and should be used with 2-3/4" shells only.

Answer: 1/7000 pound

One grain is equal to 1/7000 of a pound which would be a little less than 1/16 of a gram or 1/1600 of a kilogram. Blackpowder and smokeless powder are measured by weight rather than volume because variations in the size and shape of the granules can cause two similar volumes of powder to have very different weights.

See pages 33-37 for our complete line of reloading scales.

Choate H&R, N.E.F. Single Shot Buttstocks and Forends

Choate Stocks and Forends are made from a fiberglass-reinforced polymer to withstand heavy use. Conventional stocks and forends are designed to replicate the factory wood, but are made with weatherproof polymer. Pistol Grip models offer a secure grip, and the Tamer design allows you to store additional ammunition on your firearm. All Choate stocks feature a lifetime guarantee.

Choate Ithaca 37 Buttstocks and Forends

Choate Stocks and Forends all feature tough construction, made from a fiberglass reinforced polymer to withstand heavy use. Conventional stocks and forends are designed to replicate the factory wood, but are made with weatherproof polymer. Pistol Grip models offer a secure grip, while the skeletonized version features an inletted design that minimizes weight without sacrificing strength. Side Folding designs offer compact storage when space is at a premium. All Choate stocks feature a lifetime guarantee.

HEAT SHIELDS/BARREL SHROUDS

Advanced Technology Shotgun Heatshield

Made from formed steel with elongated cooling slots which allow for fast dissipation of heat. Slips over the barrel and is secured with supplied hardware.

Black oxide finish matches most shotgun components. Heatshield fits the Norinco 98 series, Mossberg 500, 590, Maverick 88, Remington 870, 1100, 11-87 and Winchester 1200, 1300, 12 gauge shotguns.

# 453-785	\$17.99
-----------	---------

Galazan Barrel Handguards

Galazan Barrel Handguards are made to slip over the barrels of double guns to provide a better grip on splinter-type forends. They also protect your hands from hot barrels due to their durable spring steel and leather construction. The leather is tanned, dyed and coated so it will not affect the gun bluing or wood finish.

MUZZLE BRAKES/COMPENSATORS

Holland's Quick Discharge Muzzle Brakes

These CNC machined muzzle brakes feature three expansion chambers that provide up to 45% reduction in felt recoil. The large expansion chambers are easily cleaned and have a solid bottom to eliminate dust and debris generated by muzzle blast. Adds 1-1/4" length to the barrel. Exit hole diameter may need to be enlarged for large calibers. Requires fitting and installation by a qualified gunsmith.

RECEIVER COMPONENTS

Meier Works Shotgun Trigger Guards

A quality trigger guard that will give the true custom look or replace that impossible-to-find factory guard. Investment cast from 1020 steel and has a threaded 1/4" x 20 stud on the form of the loop. Requires fitting.

Description	Product #	Price
Blue	511-757	\$39.49
Steel in the White	241-028	\$22.49

Power Custom Crane Lock Ball and Spring Kit

This kit will increase the locking tension of swing-out cylinders in double-action revolvers chambered for heavy-recoiling calibers. The kit will also allow the revolver crane (holding the cylinder) to be better aligned in the frame, leading to more precise cylinder alignment with the barrel. Gunsmithing, including firearm machining and drilling, is required. This is intended for use on custom-made revolvers and will not work with stock applications.

Description	Product #	Price
Kit	675-676	\$19.99
Includes 20 crane balls, 20 springs and an installation punch.		
Replacement Kit	119-225	\$7.99
Includes 10 crane balls, 10 springs.		

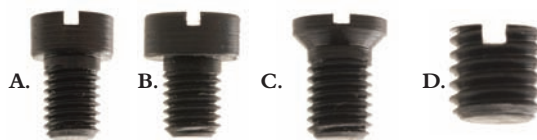

Williams Shotgun Firing Pin Kit

This kit takes care of 95% of all single and double barrel firing pin replacements. Contains 25 numbered firing pins of different styles.

280-509\$74.99

Miniature Coil Spring Pack, Light-Duty Metric Coil Spring Pack, Heavy-Duty Metric Coil Spring Pack		

Wolff Extractor and Ejector Spring Pack

This spring pack selection offers sufficient variation for most repairs. Features 30 general purpose springs designed for use as extractor and ejector springs in rifles and shotguns. Six spring designs, with five springs of each design for a total of 30 springs. Extra coils are provided on all springs.

485-310\$12.79

Wolff Master Gunsmith Coil Spring BlitzPack

This large selection of replacement springs includes the Miniature Coil Spring BlitzPack, the standard and metric Light Duty and standard and metric Heavy Duty Coil Spring BlitzPacks. 110 springs total.

750-942\$36.49

Wolff Miniature Coil Spring BlitzPack

A necessary kit for any gunsmith. Contains 30 miniature coil springs in 15 different designs, made to function in 1/16" to 1/8" inside diameters. These general springs will require fitting for specific applications.

286-180\$8.99

Wolff Miniature Coil Spring Pack

The Wolff Miniature Coil Springs are designed to function in 1/16" to 5/16" and 1.5mm to 4mm inside diameters. Includes 2 each of 50 different miniature coil springs for a total of 100 springs. English and Metric.

707-222\$17.29

Wolff Straight Spring Wire BlitzPack

Contains 36 straight spring wires, two each of the following diameters: .016", .018", .020", .022", .024", .026", .028", .030", .032", .034", .035", .036", .038", .040", .042", .044", .046" and .048".

735-019\$8.99

Wolff Tubular Magazine Springs

These springs offer approximately 20% extra power over factory springs to improve feeding. Springs are approximately 40" long to permit fitting to most any length magazine tube. Installation requires disassembly and reassembly of the firearm. May require fitting.

Wolff Ultra Heavy-Duty Coil Spring Pack

This pack of coil springs contains 14 coil springs designed for use as extractors and ejectors, plus other uses where extremely heavy spring loads are required. Consists of 7 spring designs, 2 springs of each design. All springs are 6" in length. For use in 3/32" to 5/32" inside diameters.

219-718\$10.99

STOCKS, GRIPS AND FORENDS

Advanced Technology Shotforce Collapsible Buttstock with Pistol Grip

This buttstock is designed to dress up your shotgun and give it the look of an AR-15. Constructed of tough glass filled nylon and collapsible to 6 different positions. Integral sling swivel studs are included. For use with Mossberg 500, 590, Remington 870, Winchester 1200 and 1300. 12 Gauge only.

873-014\$59.99

Advanced Technology Shotgun Buttstock with Pistol Grip

This full length stock features a slim, ergonomically designed pistol grip for maximum control and a recoil pad to minimize recoil shock.

Complete set of adapters and spacers included. Fits Mossberg 500, 590, Remington 870, Winchester 1200 and 1300. 12 Gauge only. Black.

286-471\$39.99

Advanced Technology Standard Shotgun Forend

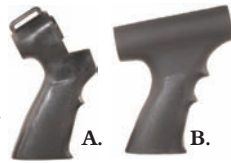

Designed not to overlap the receiver when cycling the pump action. Eliminates the chance of a momentary jam from slings, clothing or other materials catching between the forend and receiver. Features a recessed, pebble-grain textured area for a sure grip. Fits Mossberg 500, 590, Remington 870, Winchester 1200, and 1300. Black, 12 Gauge only.

101-655\$19.99

STOCKS, GRIPS AND FORENDS (CONTINUED)

Advanced Technology Shotgun Pistol Grip Kits

These kits are designed with an ergonomic, finger-grooved, textured grip for maximum control and comfort. Rear grip includes an integral top-mounted sling loop and slim style. Kits include adapters and hardware. Fits Mossberg 500, 590, Remington 870 and Winchester 1200, 1300.

Knoxx CompStock Gunsmith Kit

The Knoxx CompStock dramatically reduces felt recoil. Its internal system of rollers and springs reduces peak recoil by up to 50 percent, making even the heaviest magnums a delight to shoot. This kit can be used with virtually any synthetic stock, but requires cutting down and inletting for installation. Includes sleeve, recoil reducing mechanism and rubber buttpad.

512-542\$75.99

TacStar Slip-On Shotgun Pistol Grips

The Slip-On Grip cushions fit all models of TacStar shotgun pistol grips. Made of the same soft rubber as the popular Pachmayr recoil pads, they provide a soft feel and added control. Easy installation with no alterations required. 12 Gauge only.

Kart Easy Fit 1911 Government Barrels with Bushings

Kart Easy Fit barrels have been designed so that an average person can, with only a few hand tools, perfectly fit a barrel to a 1911 in about an hour. The Kart system utilizes the Kart Installation Kit (sold separately) to provide stable, consistent lock-up. This translates into repeatable accuracy that will improve the performance of any 1911. Each barrel includes a bushing with an inside diameter mated to the outside diameter of the barrel.
