

**Built To Fish. Built To Last.**

**Quality & Innovation In Tackle Storage.**

# Zerust® Accessories

**Built To Fish. Built To Last.**

Zerust® has proven to be the absolute best way to protect your tackle against rust and corrosion. Molded into many Flambeau products, this patented polymer emits a harmless vapor, forming a protective layer around metal surfaces. With the Zerust® VCI (Volatile Corrosion Inhibitor) molded directly into the plastic, there is no need for messy VCI cardboard chips that lose their potency when they get wet. All Zerust® products will maintain their effectiveness for five years of hassle free, long lasting protection. Besides being **"Built To Fish. Built To Last"** Flambeau® tackle storage products with Zerust® are made to make all the tackle you store in them last as well. Look for the Zerust® symbol next to those products that feature this revolutionary technology. *This is just another innovation from Flambeau® ...your most trusted source in tackle storage.*

## Without Flambeau® Zerust® Protection

Few problems are as pervasive as corrosion. Corrosion attacks metal products during manufacturing, shipment, storage and even while in use.

## With Flambeau® Zerust® Protection

Flambeau® Zerust® provides a solution to the corrosion problem. It helps to increase efficiency, saves money and most importantly protects tackle keeping them operational.

### 6643ZR Flambeau® Zerust® Plastabs

### Safe-Sink

Enjoy fishing with innovative products that have the same properties and performance as lead without the harmful effects to the environment. Manufactured under a revolutionary process with proprietary material, our Safe-Sink worm weights and Safe-Sink Jig Heads are the best alternative to lead available. Since this proprietary material has the same density as lead and our weights and jigs are the same size, you can fish the same techniques you have become accustomed to. **Safe-Sink products from Flambeau®... Lead free and environmentally friendly.**

**Lead FREE!**

### Jig Heads

Made with premium VMC oversized hooks! Same specific gravity as lead.

- Dura-coat™ paint is the toughest in the industry and does not chip or flake.
