Options: STANDARD , DUO AIR , SEAQUEST

MPN: 12.100.020

\$129.95

Halcyon WEIGHT POCKETS

- "Active Control Ballast" Weight pockets for Halcyon BC Systems
- Positive locking mechanism prevents accidental weight release and allows the diver or dive buddy to quickly release part or all of their ballast as the need requires
- Divers experiencing buoyancy problems can release part of their weight, eliminating a rapid ascent from the loss of an entire weight belt
- Available in two configurations:
 - ◆ 10lb/side – \$129.95
 - ◆ 15lb/side – \$199.95
- Rugged ballistic nylon fabric with molded handles
- 2` side release Delrin buckles, made with true 3M Velcro

Options: Black 10Lb, Black 15Lb

MPN: HAL-INFL-W18

\$269.95

Halcyon Pioneer Wing

- All wings in the Pioneer system are bladderless and made of 1000 Denier Weldable Cordura, RF Welded, and edge stitched.
- A 2 inch webbing reinforcement is sewn down the backbone of the wing, incorporating additional strength into the grommet position while greatly increasing structural support and reducing wear.
- A 2 inch "Mil spec" nylon strain relief is sewn around the top of the corrugated hose at the elbow entrance to the wing. This practically eliminates the risk of total buoyancy loss due to elbow separation.
- A proper length corrugated hose prevents the snag prone posture of extra long hoses.
- PRICES:

- ◆ Pioneer ◇ \$277.95 – 18 lb.
- ◆ Pioneer ◇ \$277.95 – 27 lb.
- ◆ Pioneer ◇ \$277.95 – 36 lb.
- ◆ Large ◇ \$277.95 – 45 lb.

Options: Pioneer 18 lb., Pioneer 27 lb., Pioneer 36 lb., Large 45 lb.

MPN: 10.200.040

\$329.95

Halcyon Explorer Wing

- The inner bag is constructed from heavy duty NAVY raft material, coated on both sides with polyurethane sealant.
- The outer bag is constructed from super strong 1000 Denier RF Welded Cordura, greatly reducing the risk of damage to the inner bag.
- A 2 inch webbing reinforcement is sewn down the backbone of the wing, incorporating additional strength into the grommet position while greatly increasing structural support and reducing wear.
- A 2 inch "Mil spec" nylon strain relief is sewn around the top of the corrugated hose at the elbow entrance to the wing.

Options: Explorer Wing 40 lb., Explorer Wing 55 lb. , Explorer Wing 70 lb.

MPN: 10.051.010

\$29.95

OCEAN TECHNOLOGY BUDDY PHONE INTERSPIRO AGA FULL-FACE MASK

- On demand, the air flow travels across the face lens keeping it defogged
- The air flow also cools your face before it enters the comfortable oral nasal cavity
- Since you have no regulator in your mouth, jaw fatigue is completely eliminated
- The ability to breath through your nose alleviates dry mouth
- A port located on the front of the Full Face Mask allows microphone positioning in front of the users mouth ensuring clear communication
- The Buddy Phone transceiver mounts nicely on the side of the Interspiro Full Face Mask
- BUDDY PHONE SPECIFICATIONS
 - ◆ OPERATING DEPTH: 130 Feet of Sea Water
 - ◆ BATTERY TYPE: 9 volt
 - ◆ BATTERY LIFE: 8 to 10 hours

- Color Digital Micro Video Camera with underwater housing and mounting bracket for Neptune II NIRA mask (mask not included)
- 120 foot camera cable
- Available in NTSC (United States) and PAL (Europe, Asia) format

Options: NTSC , PAL

MPN: 33116

\$689.95

OCEANREEF GSM DAT

- Underwater transceiver unit that lets you talk with other divers equipped with a GSM DAT unit, an Oceanreef receive unit, and M103, M104, and M105 surface units
- Can be used on the Neptune II Full Face Mask or on other full face masks fitted with the standard DIN female connection
- Simple PTT (Push To Talk) system – press the microphone button to talk and release to receive
- DAT (Digital Activation Transmission) mode automates a 30 second talk and 20 second receive cycle, for the comfort and safety of having both hands free
- Powered by a 9 volt battery

MPN: 33110

\$3,599.95

OCEANREEF GSM TV2 W/ NEPTUNE II NIRA FFM

- A professional communication system that allows divers to transmit audio and video to the surface – communicate with divers and monitor what they are seeing while on land or a boat
- Can be used for dive instruction, marine research, search and rescue, or recreation
- 1000 feet operational range
- More than one remote base unit can be receiving and transmitting with the same diver
- Includes:
 - ◆ Neptune II Nira Mask Diving Unit
 - ◇ Color underwater mini video camera
 - ◇ Loudspeaker and microphone connected via cable to the surface unit
 - ◆ Remote Surface Unit
 - ◇ Waterproof transceiver powered by rechargeable Ni–Cad batteries installed on a floating buoy
 - ◇ Allows the diver to be free and totally independent from the base unit
 - ◇ Powered by Rechargeable Ni–Cad batteries
 - ◆ Portable Base Unit
 - ◇ 4" LCD color monitor
 - ◇ Video out for external VCR or monitor
 - ◇ Volume control
 - ◇ 12 volt DC rechargeable battery with battery charger
 - ◇ Connector for external 12 volt DC power source
- Available in NTSC(United States) and PAL (Europe, Asia) format

Options: PAL , NTSC

OCEANREEF M-105 D MARINER

- Install a diver communication system on board your boat and communicate with divers equipped with Oceanreef units
- Connects to the boat's main power supply, eliminating recharging batteries
- May be connected to an internal loudspeaker system
- M-105 Digital:
 - ◆ Headphone jack, microphone, and volume control
 - ◆ Powered by 12 volts
 - ◆ Assembled on a stylish aluminum panel
 - ◆ Extra panel to arrange vertically
 - ◆ 30 foot transducer cable and transducer which is lowered into the water to begin communication
 - ◆ Marine loudspeaker to be installed on the bridge

MPN: 33118

\$899.95

MPN: 33124

OCEANREEF NEPTUNE KIT

- Neptune II Full Face Mask
- Neptune II NIRA (Neptune Integrated Regulator Adapter)
 - ◆ An integrated dedicated regulator to a full face mask
 - ◆ Specifically designed for the full face mask characteristics
 - ◆ "Diver Adjustable" Airflow
 - ◆ 1st stage connecting hose
- GSM DAT Underwater Transceiver
 - ◆ Can be used on other full face masks fitted with the standard DIN female connection
 - ◆ Simple PTT (Push To Talk) system – press the microphone button to talk and release to receive
 - ◆ DAT (Digital Activation Transmission) mode automates a 30 second talk and 20 second receive cycle, for the comfort and safety of having both hands free
 - ◆ Microprocessor filters out unwanted noise such as noise caused by exhaust air bubbles
 - ◆ Powered by a 9 volt battery
- Training Video
- Carry bag with foam molding
- 2 year warranty for NIRA regulator and first stage and Lifetime warranty on mask
- Mask available in Black, Cobalt Blue, and Yellow

Options: Black , Cobalt , Yellow

MAX AIR 180 TWIN

Our Price: \$12,995.95
Shipping Surcharge: \$675.00
 Not available for 3–Day or NextDay

- High capacity breathing air compressor system from MAX–AIR designed for total efficiency
- The Max–Air 180 Twin is designed specifically for fire departments, dive centers, industrial, marine, police and military applications who demand high volume with fail–safe redundancy
- Consisting of two totally independent air systems in one fully enclosed sound attenuated cabinet
- You will not find a more compact 18.0 F.A.D., 21.6 scfm compressor anywhere
- (2) electric, 7.5 hp, 220/440Volt AC, three phase motors available in 50 or 60hz
- (2) Independent, tri–chem breathing air purification systems with activated carbon/molecular sieve/hopcalite
- Durable powder coated, fully enclosed, sound attenuated cabinet
- Dual, deluxe main control panels
- Exclusive Dial–A–Pressure (D.A.P.) final pressure switch and gauge assembly allows for quick finger tip pressure settings and automatic shut off
- (2) Hour meters
- (2) Magnetic starters with thermal overload protection
- (2) External oil level sight glass indicators with oil drain
- (2) Automatic and Manual Purge (A.M.P.) condensate drain systems with collectors
- (1) Final pressure gauge (0~5800psig)
- (2) Pressure maintaining valves
- Pressure relief valves at all stages
- (4) High pressure filling hoses with on/off valve and push button bleed for SCUBA or SCBA
- One year warranty
- Mounted in a sound attenuated, powder coated steel cabinet
- Max Pressure: 5000psig–340bar
- Approx. Output: 18 F.A.D. (21.6 scfm charging rate)
- Drive motors: Two – 7.5hp 220./440 volt AC electric motors in three phase 50 or 60hz
- Time required to fill an 80 cu. ft. cylinder from 500 to 3000 psig – 3.7 min
- WEIGHT: 700 lbs
- DIMENSIONS: Length 35" x Depth 33 1/2" x Height 53"

INNOVATIVE WET/DRY SUIT SLIDE

- An easy way to get in and out of your wetsuit or drysuit
- Simply spray on elbows, knees, ankles, ect.. and "slide"
- SIZE: 2oz.

2 oz

MPN: AHD-12-25

\$399.95

PATCO AQUA HEAT DRY SUIT HEATER

- Extends bottom time, keeps you warm and adds comfort
- For Use With All Dry Suits
- Temperature Control Setting
- 12 volt system allows you to streamline by using same battery pack for heat pad and light head, therefore keeping bulk and weight down
- Battery pack attaches to tank or tucks into BC pocket
- Easy to install through-hull fitting insures water tight seal where cord runs into suit
- Blind plug insures dry diving when heating pads not in use
- Fleece pouch included with each heating pad
- Heating pad heats to 100F, then drops several degrees before reheating
- Available in 25, 30, 35, and 50 Watt
- Watts/Heating Time – Times are approximate: 30watts/3:45 hours, 35watts/3:00 hours, 50watts/2:30 hours
 - ◆ Lower wattage lasts longer for extended range and deeper diving (Ice, Cave, Wreck, Research, Salvage)
 - ◆ Higher wattage heats faster

(Add \$30 for 50 Watt Unit)

Options: 25 Watts, 30 Watts, 35 Watts, 50 Watts

Underwater Kinetics EXPOSURE SUIT HANGER

"Scuba Lab Testers Choice! March 2002"

- Hangs exposure suit in a natural shape for good ventilation and drying while eliminating pressure points and wrinkles that cause damage.
- Strong enough to hang the heaviest water loaded exposure suit
- Tall hook
- Supports exposure suits up to 50 pounds
- COLOR: Blue
- SIZE: 4.5 inch shoulder

OCEANREEF FIN STRAP ASSEMBLY

- The one-piece buckle slides on easily at 45° angle, upon the male "lug" that is on the fin rib
- The front "pivoted" part goes on the "lug" allowing a 360° rotation
- The removal is obtained with one finger, pulling back the front "pivoted" part
- The strap is adjustable in length by pushing on the fin buckle and made by soft vulcanized rubber
- The R.R.B.S. can be used with most of the adjustable fins on the market.

MANTA HORIZONTAL TECH BAG

- This heavy duty, Condura nylon bag hinges open on a wire loop to give an 18" diameter access for tools, supplies or recovery items. The wire loop handles are large enough to slip up the divers arm, thereby freeing both hands.
- This unique bag is shaped like a half-moon, measuring 24" across x 15" high with a 8" x 10" outside pocket
- There are a total of 18 brass drain grommets to quickly drain trapped water
- Strong Duralon D-rigs on the bag will secure it to a diver

\$54.95

Red

MPN: Vertical Bag

\$49.95**MANTA VERTICAL TECH BAG**

- Fabricated of tough Condura nylon with a metal loop closure
- It can be opened while attached to the diver providing a 9" diameter access to the bag which is gusseted for extra expansion
- Two Velcro strips hold it flat for normal use
- An outside 8" x 10" pocket is perfect for storing deco tables or your Bob Line (or Jon line)
- A slit ring inside the pocket provides an anchor point for safety lanyards
- The bag can be slung on any BC shoulder D-ring; an adjustable D-ring and movable strap on the back side of the bag holds it close to the divers body
- Multiple brass drain grommets help drain trapped water quickly
- DIMENSIONS: 12" x 18"

Red

MPN: A-REGBAG

\$59.95**OMS REGULATOR BAG**

- Detects both ferrous (iron/steel) and non-ferrous (gold/silver/aluminum/bronze) metals
 - Advanced control box
 - Works well in fresh and salt water
 - Can tow up to three search coils
 - 16 ft x 24 ft. Detection area
 - 1-4 mph tow speed
 - INCLUDES:
 - ◆ Control Box
 - ◆ Search Coil with 150-300 feet of cable
 - ◆ Tow Fish
-

MPN: CT-1

\$9,994.95**J. W. FISHERS CABLE TRACKER**

- Locates and tracks cables
 - Locates faults (breaks) in cables
 - Works on land or underwater
 - Audio and visual output
 - Signal injector frequencies 25 and 1,024Hz
 - Receiver probe frequencies 25, 50, 60 and 1,024Hz
 - 2 year warranty
 - Will detect cables at depths of 15-80 feet depending on conditions
 - Includes six AA rechargeable batteries
-

MPN: Diver Mag

\$6,994.95**J. W. FISHERS DIVER MAG 1**

- Low cost, high performance
 - One gamma sensitivity
 - 1500 foot detection range
 - User friendly controls
 - Operator adjustable buoyancy
 - Visual and audio readouts
 - Easy to operate
 - 2 year warranty
 - Internal 12 volt battery
-

MPN: DV-1

\$2,999.95**J. W. FISHERS DROPPED VIDEO**

- Vertical or side viewing
 - Up to 1,000 foot depth capability
 - Sharp picture-hi resolution BW camera
 - Large viewing area-wide viewing angle
 - Bright picture-high intensity 200 watt lighting
 - Compact system for rapid deployment
 - Avoid time consuming dives on false targets
 - Hand held or lowered from boat
 - Leak detection circuitry
-

MPN: SSS-100K

MPN: Proton 4

J. W. FISHERS PROTON 4 MAGNETOMETER

\$9,994.95

- Low cost, high performance
 - One gamma sensitivity
 - 1500 foot detection range
 - LCD readout and target alarm
 - Built–in printer (optional)
 - Gamma printout
 - LORAN GPS coordinates printout
 - RS232 output available
 - 150–1,000 foot cable
 - 2 year warranty
-

MPN: RMD–1

J. W. FISHERS REMOTE METAL DETECTOR

\$10,994.95

- Uses pulse induction
 - Attaches to most ROVs
 - Detects both ferrous (iron/steel) and non–ferrous (gold/silver/aluminum/bronze) metals
 - Advanced control box displays readout with both a meter and audio alarm
 - Used by treasure hunters and salvage companies to locate and track underwater pipelines, find missing tools and dredge parts, locate weapons and unexploded ordnance, and to search for lost treasure
-

MPN: SSS-100K/600K

J. W. FISHERS SEALION ROV**\$27,999.95**

- 250–1,000 foot cable length
- Very powerful six motor reversible propulsion system
- 3mph forward speed
- Low cost, very high performance
- 500 foot depth rating
- Color camera with auto iris
- 50 degree wide-angle lens, 70 degree tilt
- 13-inch color monitor
- 0–400 watts of Tungsten Halogen lighting (variable)
- Three spare control lines
- Ground fault and leak detection circuitry
- Highly portable system
- Two year warranty

MPN: –

J. W. FISHERS SEAOTTER ROV**\$19,999.95**

- Low cost, high performance
- 250–500 foot cable length

INNOVATIVE PVC TANK HOLDER

“Scuba Lab Testers Choice! April 2002”

- Extremely durable PVC construction designed to last for years

And the reviews are in:

“...not only offers the most secure tank ride of its type when fully loaded, it's capable of remaining stable when holding a solitary tank...”

“...the secret to its design lies in the o-rings on the ends of each tube, which provide excellent nonskid performance on both bare surfaces and in carpeted trunks. Because its tubes are narrower than most, the carrier rolls up into a compact package for easy storage.”
–Scuba Lab

UPGRADES:

Add \$10 for 3 tank model

Options: 2 Tank, 3 Tank

MPN: EXPEDITION

\$279.95

OXYCHEQ EXPEDITION OXYGEN ANALYZER

- Easy Operation
 - Compact, durable, o-ring sealed, ABS case
 - Completely sealed "splashproof" unit
 - Built in flow restrictor
 - Gas calibration for air or pure oxygen
 - On/Off/On with backlight
 - Very easy sensor and battery replacement
 - Fast response, long life sensor
 - Temperature range 32–122F
 - Expected battery lifetime of 2 years
 - User replaceable inexpensive AAA batteries
 - Low Battery Warning
 - Resolution 0.1% O₂
 - Measurement Range 0.1–100% O₂
 - Deluxe carrying and storage case
-

PATCO AQUA HEAT WET SUIT HEATER

- Extends bottom time, keeps you warm and adds comfort
- Can Be Used With All Wetsuits
- Temperature Control Setting insures constant temperature
- 12 volt system allows you to streamline by using same battery pack for heat pad and light head, therefore keeping bulk and weight down
- Battery pack attaches to tank or tucks into BC pocket, cord runs inside suit to pad, on chest or back
- Rated to 160 feet
- Fleece pouch included with each heating pad
- Heating pad heats to 100F, then drops several degrees before reheating.
- Watts/Heating Time – Times are approximate: 100watts/1:00 hour, 140watts/:30 mins
 - ◆ Lower wattage lasts longer for extended range and deeper dives (Ice, Caving, Wreck, Research)
 - ◆ Higher wattage heats faster
- Neoprene Pad 11" x 14" sold separately, must be used to prevent hot spots

Contact us at www.DiversDiscount.com or 800-34-SCUBA to confirm prices & order
