## Organic Potting Soil Kit

Coconut fibers are an earth-friendly alternative to peat-based soils. Worm castings represent nature's finest fertilizer. Mycorrhizal fungi improve soil structure, assist in nutrient uptake and help prevent fungal diseases. The Worm's Way Potting Soil Kit will help you mix a highly-nutritious, pH-balanced organic potting soil. The kit includes six Sunleaves Classic Coir Bricks, a

15-pound bag of our Worm Castings and a four-ounce package of Plant Success Granular. Kit yields about 12 gallons of potting mix.

**WWPS Worm's Way Potting Soil Kit**  
 Mail Order .....\$32.95

## Dual Meter For Soil

Use this handy Soil Tester to determine soil pH and fertility. Select the test you'd like to run and place the probes in the ground to get an assessment of your soil's condition. Requires one AA battery (not included).

**EST500 Electronic Soil Tester** .....\$24.95

## Compression Sprayer

Great for misting, foliar fertilizing or pest control, the Compression Sprayer sprays for over a minute after just a few quick pumps. Adjustable nozzle and special locking trigger allow a continuous spray. One- and two-gallon sprayers include spray wand and carrying strap.

- CSP810 Compression Sprayer, qt.....\$24.95**
- CSP820 Compression Sprayer, gal.....\$55.95**
- CSP830 Compression Sprayer, 2 gal.....\$63.95**

## For the Finest Mist

The FloraMist allows you to increase the humidity around your plants, wash individual leaves, and even hit hard-to-reach spots including the undersides of leaves. Suitable for use indoors and out. Perfect for light foliar feedings.

- FM800 FloraMist, 10 oz.....\$24.95**

## Watering Made Easy

The Waterboy makes it simple to feed, water or mist your plants with a detachable bottle, exchangeable watering ends, and an on/off switch. The Waterboy can reach up to 35' and is great for hard-to-reach hanging plants. It also comes with indoor and outdoor faucet adapters to make use simple.

- WAT800 Waterboy.....\$22.95**

## Electronic Water Timer

The analog Raindrip Electronic Water Timer attaches directly to a garden hose and is equipped with two simple dials that require no programming. Set watering frequency from one hour to once a week and run time from one minute to two hours. Uses two AA batteries (not included).

- R672CT Raindrip Electronic Water Timer.....\$39.46**

## Patio Kit

Includes Electronic Water Timer plus all the fittings needed to automatically drip water to up to 20 plants.

- R559DP Raindrip Patio Kit.....\$57.32**

## Behold, the Humble Spray Bottle

This 32-ounce Spray Bottle will serve you well in the garden, shop, or around the house. Made of durable, high-density polyethylene, this spray bottle has an adjustable nozzle to emit a variety of spray applications.

- SB910 Spray Bottle, 32 oz.....\$3.00**

## Awesome Adaptability

The versatile Aqua Shuttle Sprayer disperses water from one source to six plant sites, a perfect application for any garden! Simply adjust the Aqua Shuttle taps to regulate the amount of water distributed to each individual site. System comes complete with adjustable drippers on stakes, and the Aqua Shuttle can be customized to accommodate another unit or various other sprayers, misters, and sprinklers.

- AS200 Aqua Shuttle Sprayer.....\$26.95**

## EZ-FLO Automatic Fertilization System

The EZ-FLO Automatic Fertilization System attaches to your garden hose, hose bib or drip watering system to apply any liquid or dry water-soluble plant care product. The water-to-fertilizer dilution ratio can be set anywhere from 100:1 to 1000:1. Comes with hose bib connector, fittings and tubing for connection to drip tubing. Anti-syphon required.

- AFS800 Automatic Fertilization System.....\$64.95**

## Water Plants While You're Away!

Aquaplant is a great device that keeps plants watered for up to four weeks. Just fill the plastic bottle with water and insert the dropper into the soil. Perfect if you're on the go, traveling or just don't want to forget to water your plants. Simple and convenient, try the Aquaplant for worry-free watering.

- AQU800 Aquaplant.....\$10.95**

## One Smart System

With the battery operated Green Genius, you can water up to ten of your indoor or outdoor plants automatically. Seven programmable settings allow you to program individual waterings from 50 to 800 mL of water to nurture your plants at 1/4 to 12 day intervals. Includes ten watering spikes, 32 feet of tubing and support stand. Requires water container and three "AA" batteries (not included).

- GG810 Green Genius.....\$52.95**

## Be Two Places at Once

The Raindrip Dual Station Water Timer is a simple way to automatically water two separate garden areas from one water source. The frequency and duration can be individually programmed for each outlet from one hour to one week in intervals of one minute to two hours. Temporary override of settings is also possible for manual watering. Operating with a water pressure of 10 to 80 PSI, the Dual Station Water Timer requires a 9-volt battery (not included) and features a low-battery indicator to know when it's time for a replacement. A 90-day limited warranty covers every new Dual Station Water Timer purchase.

- R682CP Dual Station Water Timer.....\$75.21**

### See What's Buggin' You

Bring your garden pests or plant parts into focus for easy identification and close examination with the handy Pocket Microscope. Features built-in illumination, easy-to-use focus wheel, 30X magnification and a sliding light condenser to focus light on the critter or plant part being viewed. Carrying case included. Requires two "AA" batteries (not included).

**PMI700 Pocket Microscope** .....\$17.95

### Get a Close Up on Your Surroundings

Spy sparrows or spider mites with this nifty instrument. Two components combine to create three different optical devices. Includes a miniature 8 x 20mm monocular with a 288' field of view and a 3x magnifier on a stand, both with adjustable focus. Together they become a powerful 30x portable microscope. The transparent acrylic base uses natural lighting for illumination and works well to contain insects for identification. No batteries needed.

**CMA800 Magniscope** .....\$72.95

### A Pleasure to Measure

These versatile Measuring Cups from Sunleaves Garden Products come three to a pack and each measure up to six teaspoons, two tablespoons, 32 milliliters or one ounce. Includes one red, white and blue glass.

**SMC800 Sunleaves Measuring Cups, 3 pk** .....\$8.95

### Make Sure Your Solutions Measure Up

Ensure accurate measurement of fertilizers and supplements with the Sunleaves Measuring Pitcher. This quart pitcher is marked in one-ounce increments from 2 to 32 ounces as well as 25-mL increments from 50 to 100.

**SMP800 Sunleaves Measuring Pitcher, qt** .....\$9.95

### Shaky Trigger Finger?

Give it a rest with the battery-powered DuroBlast Power Sprayer. Because the sprayer runs on rechargeable batteries, you simply press and hold the trigger for a continuous spray or stream.

There is no manual pumping required and the batteries run on a single charge all day. Sprayer is great for misting plants, foliar feedings, or applying insecticides. Comes with a 32-ounce detachable container; additional containers available.

DS805

DS800

**DS800 DuroBlast Power Sprayer** .....\$27.95

	<b>Save! Buy two or more for \$11.00 each.</b>	

Falling leaves may be pretty to look at and fun for the kids to play in, but leaves in large quantities can be something of a nuisance. In fact, leaves and yard waste account for nearly 20 percent of the space in our landfills. That's too bad since this year's fallen leaves can easily become next spring's free fertilizer.

Instead of bagging or burning those leaves, why not compost them instead? Full of much-needed nutrients and beneficial microorganisms, fresh compost retains moisture and air exceptionally well to improve soil structure and fertility. Compost can even have an antibiotic effect on some plants, protecting them from harmful bacteria.

## Valuable Composting Tips!

### The best standard compost recipe calls for:

- Three parts carbon-rich brown material (dry leaves, chipped brush, twigs, dry grass, and sawdust),
- two parts high-nitrogen greens (including fresh grass clippings, garden trimmings, shrubbery trimmings, weeds, and kitchen scraps)
- and a dash of healthy soil or a starter product (which contains live microbes to ensure thorough decomposition of organic materials.)

Choose a commercially available compost bin made with recycled materials. Make sure the bin feature vents or ventilation holes. Also, dark-colored compost bins will help to trap heat which speeds decomposition.

Take fallen leaves, chop them up, and add some along the base of what will be your compost pile. Water this layer well, and then add a layer of green matter and more water. Alternate green and brown layers, watering each one until you've used up everything. Periodically check to make sure that the pile stays about as moist as a wrung-out sponge.

### Worm's Way now features Weekly Specials!

**A new item will be selected and discounted each week. Stop in a Worm's Way store or visit [wormsway.com](http://wormsway.com) every week and take advantage of these great deals!**

### Organic materials you CAN use:

#### *From the Garden...*

- Leaves (chopped - to speed their breakdown)
- Grass (not wet)
- Plants & Weeds (without ripe seeds)
- Old potting soil
- Soft plant stems

#### *From the Kitchen...*

- Fruit scraps
- Vegetable trimmings
- Egg shells (crushed)
- Tea bags
- Coffee grounds with filters
- Shredded paper

### Materials you CANNOT use:

- Meat, fish and bones
- Plastics
- Metals
- Fats and oils
- Dairy products
- Pet waste

### Final Thoughts:

- Don't use compost for seedlings; instead, use sterile soil or a soilless growing medium.
- Your pile may be a little too small if the pile seems to be adequately damp but only slightly warm in the very center. Deficiencies in nitrogen will also cause the pile to not heat up properly.

### No Fuss Compost

The Garden Gourmet Composter (shown left) is a flexible unit that allows you to turn compost with a fork or turning tool or just let kitchen and garden waste sit and break down over time. The entire double-hinged lid lifts to expose the compost pile, a large sliding bottom door permits easy access to finished compost, and the sides of the unit contain adjustable vents to control airflow. Easy snap together assembly. Made from 100% recycled plastic. Holds 11 cubic feet.

**GGC400 Garden Gourmet Composter.....\$67.95**

### Our Most Popular Composter

Perfectly suited for small spaces, the attractive Enviro-Cycle composter produces up to seven cubic feet of dark, rich compost for your garden with minimal effort on your part. The hollow base with spigot allows for collection and dispensing of compost tea – a superb liquid fertilizer. The large drum sits on rollers for easy turning and quick composting results. Simply place your lawn, garden and kitchen waste into the drum and give it a spin every couple of days. Unit measures 30" high and 27" in diameter.

**ECB400 Enviro-Cycle Composter, Black .....\$164.95**

**ECG400 Enviro-Cycle Composter, Green .....164.95**

### Composting Aid *NEW!*

Use microbial-based Compost Activator to naturally accelerate the rate of decomposition and reduce unpleasant odors in your compost pile. Thermo-, meso- and psychrophilic bacteria are present to assure performance in most climates. Dry-granular Compost Activator is non-toxic with an application rate of one pound per two cubic yards of organic matter.

**CA400 Compost Activator, 2 lb .....\$18.95**

### Foolproof Kit for Great Compost

For your convenience, we've grouped together three of our most popular composting items into one Composting Kit. The Kitchen Compost Bin includes three replacement filters and offers odorless indoor waste storage to reduce the number of trips you make to your Enviro-Cycle Composter (black). And to jump-start your compost, we've included a two-pound box of Compost Activator. Try composting with this no-mess kit and produce nature's best soil yourself.

**WWCK Worm's Way Composting Kit.....\$209.95**

Save \$7.85 compared to buying each item separately.

**Save! Buy two or more 1-lb. orders of Red Worms for \$30.00 each. Sorry, worms cannot be shipped to Hawaii.**

**A Fun Way to Compost**

The Sunleaves Wormtopia is a sturdy, compact, easy-to-use worm bin that turns ordinary kitchen scraps into vermicompost; some of the best fertilizer available. A well-maintained bin will produce no odor, so the Wormtopia can be used indoors year 'round or used outdoors when the temperature can be maintained between 60° and 80°. Productive, hard-working red worms fill the bin, await your kitchen and yard scraps, then turn them into treasure by producing vermicompost. The Wormtopia is a four-tray system that also features a "tea" collector at the bottom that dispenses "worm tea", a liquid version of vermicompost great for fertilizing house plants or pouring on the garden. The lid gives you instructions and tips and the unit includes shredded paper and a Sunleaves Classic Coir Brick for bedding material. The Wormtopia Kit includes the 16" x 16" x 24" Wormtopia, one pound of Red Worms ready to go into their new home, and the great book Worms Eat My Garbage (above) so you can learn all you ever wanted to know about composting with worms. Note: Red Worms may not be available November-March due to cold weather.

**WORM400 Sunleaves Wormtopia.....\$109.95**
