## Quick Find Icons - Locate great products quickly!

**NEW ITEMS:** There are over 160 new items in this new edition of the Safety and Security Products Catalog. Look for the new items icon to easily find our new items.

**BEST SELLERS:** Look for the best sellers icon to find our best selling products. Best selling products always are sure winners for gifts.

**SUPER VALUE:** Look for the super value icon and save \$\$\$ on select merchandise.

---

**Security Stickers are one sure fire deterrent that work!** Law enforcement and security professionals will tell you that criminals are opportunists looking for an easy target. Sometimes the simplest of ideas, such as warning decals or lighting, can deter a crime.

Our security decals are two-sided, so they can be installed on the inside or outside of your doors or windows and are easily readable from both sides. The stickers come in packs of 10 with two different warnings available (see below).

**Closed circuit TV warning sticker** (shown);  
"WARNING, all activities are recorded on video to aid in the prosecution of any crime committed against this facility".

**#DCLCAM** (10 pack) \$6.<sup>95</sup>

**Alarm system sticker** (not shown); "WARNING, protected by automated ELECTRONIC alarm system.  
**#DCLALARM** (10 pack) \$6.<sup>95</sup>

The Safety and Security Products Catalog would like to extend as a courtesy a special thank you to Mark Meyer and his staff at Meyer Photography for helping to create our finest catalog images to date. For information on the services they provide please send an inquiry to Meyer Photography, P.O. Box 4848, Spokane, WA 99220. Meyer Photography is responsible for an overwhelming majority of product images in this catalog.

# Giant stopping power that fits in the palm of your hand!

The new Firefly Self Defense Combo Packs are in huge demand! Because of the Firefly's Hi-power and all the freebies included, the combo pack is perfect for the person looking for a complete personal safety solution. Getting "Bang for Your Buck" is an understatement with the Firefly Self Defense Combo Pack. The concept of a self-defense kit is nothing new, and our PEAK kit (Personal Emergency Action Kit) have been best sellers for years. But for the first time, we are offering a complete package, including the batteries. This is an OUTSTANDING value to anyone considering a stun gun and /or pepper spray purchase.

FireFly firing

First we throw in the incredibly powerful Firefly Micro Stun Gun which is small enough to fit in the palm of your hand or in a cigarette pack. Then we include a holster "FREE" (\$5.00 value), a super hot attacker stopping keychain pepper spray "FREE" (\$12.95 value), 3 Hi-power Lithium Ion batteries "FREE" (\$15.00 value) and last but certainly not least a "FREE" key release (\$3.00 value) that allows you to disconnect the pepper spray from your keys to quickly respond to any threat.

Actual size

Men keep the Firefly for yourself and give the free pepper spray to your wife, girlfriend or other important person that you care about. Make no mistake the Firefly is a very serious defense item and is available in 3 different voltages: 350kv, 650kv and 950kv. Of course we always recommend getting the highest power possible, but all are very effective and there is one priced for every budget. So don't let price stop you from buying the most advance technology in stun devices available, as any protection is better than no protection.

There's still more! Also included is a lifetime warranty. If your Firefly malfunctions at any time, for any reason, send it back and we will replace it free of charge. Just pay a very minimal fee for return shipping. Pepper Spray is also warranted for 30 days from purchase for manufacturer defect only.

# Emergency Survival & First Aid Kits

**Our 116 Piece Emergency Preparedness Kit (EPK) always ensures that you are prepared for any disaster.** Whether in your car or your home, our EPK has the most essential needs covered in case of emergency or disaster. Packed with medical supplies, a dynamo (solar and hand powered) radio, food and even water, it kit can sustain or save your life until assistance arrives. The bag is oversized allowing room to add additional items. The EPK was designed to comply with the American Red Cross' guidelines for minimum emergency preparedness kits, and with extra room, you can even customize it to your families unique medical needs. It would take dozens of hours to assemble a kit of this magnitude and quality on your own. The bag is made out of red nylon so it is easy to spot and it measures 18"L x 12"H x 13.25"D. **#EPK \$267.<sup>00</sup>**

ITEM**

# Security Plus®... Setting the Industry Standard

A stun device is a legal (*check your states regulations*) electrical device that puts out a high voltage shock! By merely touching a person with the device, the attacker is potentially immobilized for up to several minutes with no permanent damage. The energy stored in this electronically controlled stun device is dumped into the attacker's muscles at a pulse frequency rate that tells the muscles to do a great deal of work rapidly. This rapid work cycle instantly depletes the attacker's blood sugar by converting it to lactic acid, similar to the feeling one gets after a hard workout at the gym. In short, the attacker is unable to produce energy for his muscles, and his body becomes unable to function properly. The stun device does not rely on high amperage or pain for results. It is designed to key into the nervous system. It interrupts the tiny neurological impulses that travel through the whole body to control and direct voluntary muscle movement. When an attacker's neuromuscular system is overwhelmed and controlled by the stun device, instant disorientation and loss of balance occur. Should the assailant be touching you, the current will NOT pass to your body!

## This compact 500,000 volt baton delivers powerful self defense.

It renders them incapable of carrying out an attack. One jolt and they quickly become dazed and disoriented. In addition, they lose muscular control for several minutes. It's a powerful defense weapon yet is non lethal and causes no permanent damage. It's the perfect combination of power and lightweight convenience. Uses two 9 volt batteries (sold separately). Batteries on page 30. Size 11" x 1-1/2"

# Personal Alarms Are A Great First Line Of Defense

## The Protect-It Alarm protects your personal valuables.

It's a scientifically designed motion detection device. Just attach it to any item (e.g. bicycles, motorcycles, camera bags, luggage, golf clubs, etc.) and it alerts you if your property is moved or jarred. It's easy and simple to use and disarm. Just program in your personalized four digit pin number. It also has a built in delay feature. It can be mounted or clipped on to your valuables. Can also be used as a burglar alarm by mounting it to the back of a door. When an intruder tries to enter, the motion sensor will activate a 130 dB alarm. It's truly state-of-the-art protection for your priceless possessions. Includes a belt clip, mounting bracket, and mounting strap. Uses three AAA batteries (sold separately). Batteries on page 30. Size 4-1/4" x 2-1/4" x 1"

**Protect-It Alarm #PIA \$26.<sup>95</sup>**

## This Personal Alarm is designed to clip to a belt, purse or even pants.

It is lightweight and convenient enough to go everywhere you go! A 120 dB screaming alarm is triggered when the pin is pulled. A reliable tool for obtaining assistance when needed. Uses one 9 volt battery (sold separately). Batteries on page 30. Size 2-3/4" x 2-1/2" x 3/4".

**Personal Alarm #PA \$16.<sup>95</sup>**

**Personal Alarm Carrier**  
2 3/4" x 3 3/4".

Fits 2 1/4" duty belt. Options: Black only; Plain or basket weave; Nickel hardware. **#720 \$23.<sup>00</sup>**

## This compact personal alarm goes with you anywhere.

Our key chain alarm is small, compact, and easy to carry anywhere. Should you need to thwart an attacker, or draw attention to yourself if attacked, just press the panic button and the key chain alarm will emit an ear piercing, 118 dB scream that is guaranteed to attract attention! The alarm has two functioning modes: 1) By slightly pressing the alarm button, you can sound a warning chirp; 2) Depress the button completely, and you will sound the continuous 118 dB alarm. The key chain also has a built in light to aid in finding the keyhole on your car or entry door in the dark.

Battery included.

Size: 2 1/2" x 1 1/4" x 1/2".

**Key Chain Alarm #PAK \$12.<sup>95</sup>**

## The Personal L.E.D. Alarm

combines a loud 130 dB alarm with a flashing safety light.

It emits a 130 dB siren and flashes a bright red LED strobe light to ward off attackers and signal for help. The light and siren are both activated by removing the pull-cord pin. Flashing safety strobe can also be separately

turned on and used as a safety light while walking, jogging or biking. Uses one 9 volt battery (sold separately). Batteries on page 30. Size 3-1/4" x 2-1/4" x 3/4".

**LED Alarm #LEDA \$16.<sup>95</sup>**

## Add versatility to your Personal Alarm, LED Alarm and Protect-It Alarm.

### Safeguard any door with the Personal Alarm Door Clip Accessory.

Easily insert this clip between the door and the jam (on the latch side) until the contacts touch. If someone or something opens the door the contacts separate and the alarm sounds. Very light weight and convenient. Perfect for the traveler.

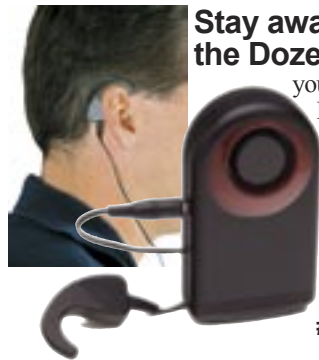

(Alarm Not Included)  
**Door Clip Accessory**  
**#DOORCLIP \$3.<sup>95</sup>**

### Stay awake while driving with the Doze Alarm.

Connect this doze attachment to your Personal Alarm, Protect-It Alarm or L.E.D. Alarm and place the ergonomically designed earpiece around the backside of your ear. If you start to fall asleep and your head nods forward or to the side the alarm will be activated. The alarm's siren stops when your head is upright again.

(Alarm Not Included)  
**Doze Accessory**  
**#DOZE \$7.<sup>95</sup>**

**The perfect portable sentry for your home has unlimited possibilities!** This great new product will alert you if a car or person passes by the transmitter. Simply place the transmitter near the entrance to your driveway and any anything passing by the transmitter will cause the receiver to sound a pleasant 80 dB alarm. The Driveway Patrol has a whopping 400-foot range and is battery operated, making it easily portable, allowing you to use it to “guard” almost anything you can imagine. Businesses owners can monitor a back entrance to their store. Parents can monitor their home for children that may sneak out at night! Requires one 9-volt and three “C” size batteries, not included. Batteries on page 30.

**Driveway Patrol #DP \$29.<sup>98</sup>**

**The 2-in-1 says “Touch me I’ll scream” to a potential intruder with an ear-splitting warning!**

Ever vigilant protection for your home and person. The first thing a home intruder touches is your door knob. When they do, this unique home alarm system instantly sends out an ear-splitting 120 dB siren that will have the intruder headed for the nearest escape route. It works on all non-metal doors containing a metal door knob. This versatile instrument can also be used as a personal emergency alarm by pulling out the pin attached to the metal chain. It’s superb convertible protection. Uses one 9 volt battery (sold separately). Batteries on page 30.

**2 in 1 Alarm #PA2IN1 \$14.<sup>95</sup>**

**Our wireless motion sensor is completely portable, and ready to guard any area you choose.** It monitors the surroundings and announces visitors by creating an unseen barrier that’s almost impossible to penetrate without setting off the alarm! Simply mount the unit on a table or wall so it focuses on the detection area. When the Sensor Guard is in the monitoring position, any detected motion will activate a pleasant ding-dong chime. When switched to the alarm setting, any detected motion will sound an 80 dB alarm. Sensor has a 26-foot (8 meter) range. Includes wall/ceiling mount plate with bracket. Easy to use, no wiring required, battery operated, uses three AA alkaline batteries (sold separately). Batteries on page 30.

Size: 2 3/4” x 1-1/2” x 4-1/2”

**Sensor Guard Mini Alert #SGMA \$24.<sup>95</sup>**

**This is not your average door stop... our Door Stop Alarm has a surprise for a potential intruder!**

The Door Stop Alarm is designed in the shape of a 6” long door wedge. Simply place it behind any door. When the door is opened it will jam the door and at the same time gives off a loud, shrill, pulsating alarm. It is designed to scare away intruders instantly. This is a completely self-contained, easy to carry and easy to test unit. Providing great protection for home, office or motel when traveling. 118 dB alarm, anti-slide sole plate, uses one 9 volt battery (sold separately). Batteries on page 30.

Size: 6” x 2” x 2-1/4”

**Door Stop Alarm #SDS \$17.<sup>95</sup>**

## Make a potential attacker run away holding their ears.

The Screecher air alarm from Mace Emits an "earpeircing" shriek readily recognized as an emergency call for help. Convenient size for pocket or purse. 10 gram unit has push-top activator. Contains 20 short blasts.

**Screecher**  
#M80145 \$7.<sup>95</sup>

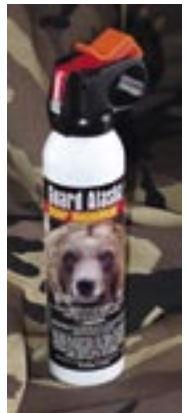

## Bear & Animal Repellent vs. Pepper Spray

Oleoresin Capsicum "OC" is a common ingredient in both bear sprays and pepper sprays. In essence, Bear Spray is Pepper Spray. However, bear spray is rigorously tested and EPA approved for outdoor use on bears. EPA approval is required for any OC spray to be labeled as "bear spray". It does not mean that bear spray is superior to other pepper sprays, just that it passed the rigorous EPA standards.

Developed and tested in the wilds of Alaska to bring you the absolute most protection from attacking bears. It is environmentally safe, and contains no flammable or ozone depleting substances.

## Bear Repellent

**Bear Repellent**  
#PSBEAR \$39.<sup>95</sup>

## Muzzle™ Canine Repellent

EPA approved Muzzle provides safe, effective and humane protection against canine attack. Ideal protection for walkers, joggers, cyclists or delivery people. Velcro like attachment included. Features flip-top safety cap, finger-grip dispenser, belt clip and key chain. 14 gram stream unit sprays up to 10 feet.

Contains 10, one second bursts.

**Muzzle** #M80146 \$15.<sup>95</sup>

## Bear Pepper Mace

Great news for true outdoor enthusiasts!

Now you can protect yourself against possible bear attacks, with safe, humane Pepper Mace Bear Spray. This powerful Magnum Fogger is EPA approved and sprays up to 30 feet.

Size: 9oz. / 260 Grams • Fire Rate: 260 grams in 5.4 seconds

# Effective Burglary Prevention

## Put the strength of a gorilla behind your door.

The Big Jammer Door Brace will secure your door from the inside... to keep the bad guys out! It is made of super strong 20 gauge steel and installs instantly. The Big Jammer is ideal for your home, office, apartment or anywhere you need the added security. The end caps are removable to allow for use on sliding glass doors. Clean finish makes it attractive for indoor use.

**Big Jammer**  
#M80115 \$19.<sup>95</sup>

## The Window Jammer allows cool air in while keeping the bad guys out.

Simply clamp the Window Jammer onto any metal window or sliding door track for additional security. It prevents door or window from opening. You can even use it with your window or door slightly open.

**Window Jammer** #M80124 \$3.<sup>95</sup>

## Motion activated alarm and door chime.

Dual purpose passive infrared alarm detects movement in any selected area. Two modes of operation allows it to function as a door chime and also a 110 dB alarm. The door chime is useful for alerting you of someone's presence. The alarm's programmable keypad offers added security since you will have control over the access code. Adjustable sensor head rotates so you can selectively choose the area covered. A low battery indicator tells you when the battery needs to be replaced. Comes with complete mounting kit and instructions. 9 volt battery (sold separately). Batteries on page 30.

**Motion Alert** #M80200 \$34.<sup>95</sup>

## Find your way in the dark with this motion activated light.

This easy to use and install light is PIR (passive infrared) movement activated with a 110 dB alarm that switches itself on as you approach, and automatically goes off 15 seconds after you leave. Scans up to 20 feet away. Daylight sensor eliminates unnecessary daylight operation making it perfect for outdoor use as well. Uses 4 AA batteries (sold separately). Batteries on page 30.

**Sensor Light** # M80351 \$12.<sup>49</sup>

## Entrance Alert lets you know instantly if your door is opened.

The Entrance Alert is a versatile device that sounds a 95 dB alarm when anyone opens a door or window. It installs easily onto a door or window and provides adequate protection from intruders. The alarm sounds for 45 seconds and then resets itself. On/off switch allows for use only when necessary. Ideal for doors, windows and even cabinets.

Battery included.

**Entrance Alert** #M80201 \$9.<sup>95</sup>

## Prevent window tampering and glass breakage with the Window Alert.

The Window Alert protects your windows from intruders by sounding a 95 dB alarm designed to detect window tampering or breakage. Simple installation to any glass surface. Battery included.

**Window Alert** #M80202 \$9.<sup>95</sup>

# TravelEyes2™ is a powerful vehicle tracking device that utilizes the GPS (Global Positioning System) technology developed by the Department of Defense. With amazing accuracy, it gat

□

activities. The vehicle tracking device is easy to connect and use, and can easily be concealed within any vehicle. It's ideal for the busy executive, a concerned parent with a watchful eye to track their teenager's late night activity or to track suspicious spouse, TravelEyes2™ can work for you. It's a real time and money-saver -- and in some cases, a lifesaver! TravelEyes2™ is a GPS (Global Positioning System) automatic vehic

location, mileage, speed, and more -- and saves time and money! This device automatically gathers and stores GPS location information, showing the ex

easy to connect and use, and it can be placed within any vehicle. TravelEyes2™ has a trip-planning feature for fast and accurate travel directions. When plugged into a laptop, it becomes onboard navigation device in real time, displaying the planned destination routes and current location. The TravelEyes2™ tracking device automatically records the vehicle's location up to 50 hours of driving time. Upon your ret

## Tracking

**Map & Report:** The TravelEyes2™ vehicle tracking system comes with mapping software capable of producing comprehensive details (on-screen and printable) of travel activities, including (1)Time and Location of Stops, (2)Speed of The Vehicle and (3) Entire Travel Route.

**Sample Reports:** The TravelEyes2™ software produces detailed, printable reports of your mileage and travel activities within minutes of downloading the recorded data. The different types of detail are (1)A Day of Travel at Work: TravelEyes2™ conveniently reports and summarizes the business travel activities of any individual by using the software reporting. Travel data includes such items as number and location of stops, duration of each stop, mileage and other daily travel data. (2) A Personal Travel Day: This report shows a travel route that you wish your teenager or your spouse had not made in your private vehicle. But ATTI's personal GPS vehicle tracking tells the whole truth, including identifying certain travel activities that may surprise you. **Instant Records:** Upon your return, or after up to 50 hours of driving time, down

filling out paperwork, you have more time to focus on business or family. Business travel can be simplified with fast and accurate travel directions from the TravelEyes2™ trip planning feature. Supply the destination address, zip code and city info and the system will draw the route on a map, highlight it and provide directions you can print out before you leave your office or home. **Special Features:** The TravelEyes2™ device automatically records the vehicle's location every 10 to 20 seconds-- your preference--allowing up to 50 hours of travel time. At 10 seconds you have 25 hours of travel time. At 20 seconds you have 50 hours of travel time. The location coordinates are later pinpointed on a map, which shows the exact travel route, time and duration of stops, and speed of vehicle. You can mark locations for your bank, office, home, CPA, or even schools and doctor's offices to track other types of tax deductible miles or financial data. You can set a "Target Area Deviation" to include all stops within a certain diameter of the marked latitude and longitude coordinate. For instance, if you park on the other side of a building, or if you had to park further down the street from a jobsite or client's office than the coordinates you entered, your stop could still be included in the target area. The TravelEyes2™ device can be carried from city to city, then downloaded when you return to your office or home, providing one report for the whole trip. In addition, you can plug TravelEyes2™ into your laptop to pr

# High Tech Security Devices

**We have tested many models... this is by far the most realistic sounding voice changer.** This voice changer allows you to change the tone of your voice to a higher or lower pitch. The listener then hears a voice much different than your own. This voice changer is, by far, the most realistic sounding voice changer we have found, and the "voice" it reproduces does not have a cheap, electronic, or artificial sound to it. Ideal phone identity protection for women or children home alone. Installs easily in between the handset and base of any single line phone.

Requires 3 "AA" batteries (not included).  
Batteries on page 30.

**Deluxe Voice Changer #DTVC \$64.<sup>95</sup>**

**Turn ANY recorder into an automatic telephone recorder.** Turn any recording device into a telephone recorder! This adaptor allows you to easily and discretely record phone conversations, using any ordinary or voice activated recorder with a microphone input. Since the adaptor plugs into any jack on the same line, it can be concealed from the phone and user.

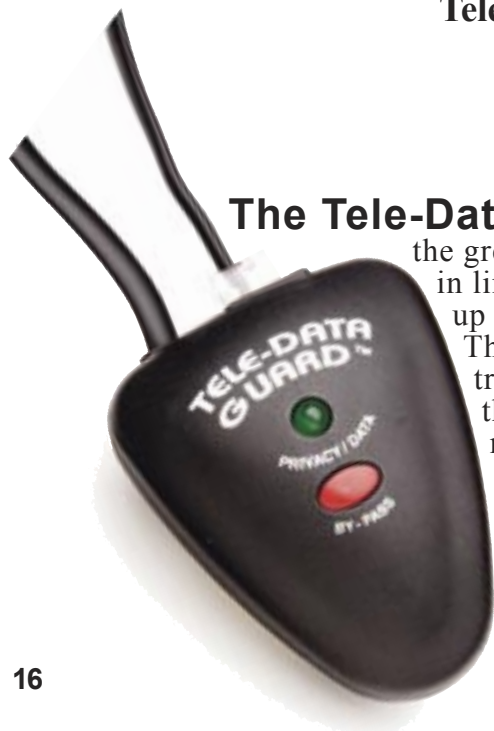

Recorder not included.

**Telephone Recording Adaptor  
#TRA \$24.<sup>95</sup>**

**The Tele-Data Guard** Ensures the privacy of your telephone conversations. If the green L.E.D. goes out during a phone conversation, this indicates a drop in line voltage that which could mean that another phone has been picked up on the same line, or that an eavesdropping device has been activated. This voltage drop can also interfere with fax transmissions or credit card transactions. When the L.E.D. goes out, simply press the red button and the Tele-Data Guard will automatically disconnect all other phones/machines on the line. Connects easily to any standard phone line. No batteries or external power source required.

**Tele-Data Guard  
#TDG \$15.<sup>95</sup>**

## If you have ever struggled with removing lug nuts, then the “EZ Lug” is your answer.

This is a quality lug nut removal tool that uses a patented mechanism to easily remove lug nuts. Its universal size allows for use on any size wheel and with a 32:1 gear reduction ratio, the EZ-Lug will loosen your lug nuts effortlessly. Includes 17mm, 19mm, and 22mm sockets with a 3” extension snap on socket and leverage extension. It comes with a compact and durable molded case to store the tool.

## Change tires effortlessly using the Micro Superjack with wireless remote.

With one press of a button you can lift 2 tons to change your tire. Just plug it into your 12 volt cigarette lighter and let the jack do all the work. Handy remote key-fob allows for the greatest ease of operation. Clearance : 5.5”

Jacking height : 13.5”

**Superjack #MSJ \$129.<sup>95</sup>**

(Heavy item additional shipping charges may be applied)

## Recognized by the TSA and 11 great colors to choose from to make your bags easy to identify.

SearchAlert™ Classic luggage locks are airport security compliant, tamper-proof, inexpensive, and prevent luggage theft and the introduction of contraband. The SearchAlert™ luggage lock can only be opened using your own combination or with the Transportation Security Administration's master key. Should your luggage be searched for a "random search," TSA may use the master key to open the lock, rather than cut it, saving you the cost of a new lock. The SearchAlert™ lock has a unique window that changes color from **green** to **red** when the TSA override device is used to open the lock, or when an unauthorized person has opened the lock using a counterfeit opening device. Usually the SearchAlert™ TSA locks are not opened, so if the window on your lock is still green at the baggage claim, you leave the airport with peace of mind! If your SearchAlert™ TSA lock is opened, the window will be red, you can immediately take inventory of the contents and file a claim with the TSA. The lock then may be reset for future use.

**#TSALOCK** \$10.<sup>95</sup> 2 for \$18.<sup>95</sup> 3 for \$27.<sup>95</sup>

### Security Window

**Red:** Lock has been opened  
**Green:** Lock has not been opened

**Pen & Letter Openers** These combination pen/letter openers eliminate the need for having a separate letter opener laying around. They can also be carried in your purse, providing an extra self-defense weapon should the need arise. They come in black, bright gold, and shiny silver, making them an elegant addition to your desktop.

**#PL** \$7.<sup>95</sup>

## Instantly detect counterfeit bills in almost any currency.

Counterfeiters produce millions of dollars worth of fake currency every year, subsequently costing businesses millions when they try to deposit them in their bank accounts. The paper (actually a fabric) used in most currency cannot be replicated or reproduced, even by the best counterfeiters. Our counterfeit detection pen contains a specially formulated chemical that tests the material used to make the currency in question. Simply mark the bill anywhere, and the mark will instantly change color. If the mark stays **clear or a slight yellow** discoloration, the bill is genuine. If the mark turns **black or brown**, the bill is a counterfeit! The mark on genuine currency will disappear within 24-48 hours; therefore you are not illegally defacing the bill. The pen works on most major currencies in circulation, with the exception of Canadian currency.

**#CPB** \$6.<sup>95</sup>

**In the tradition of spy technology, this disguised protection device provides you with the element of surprise, which will give you an edge over an attacker that could save your life.**

Contained within what looks like a standard cell phone is a powerful 80,000 volt stun gun and ear piercing 120 dB personal alarm, which gives you two levels of defense. At the first sign of danger you can activate the alarm alerting others that you need help. The noise alone may potentially scare off the attacker, but if that is not enough, you can use the stun gun. To prevent accidental discharge there is a safety switch mechanism, and the wrist strap is attached to a disable pin that will prevent the stun gun from working in the event that it is taken away from you. It does not function as a cell phone, but that's okay because you won't need to call for help with this by your side! Includes a holster with a belt loop (the alarm and stun gun can be activated inside or outside the holster). Requires one 9 volt battery. Batteries on page 30.

**Cell Phone Stun Gun #SGCELL \$79.<sup>95</sup>**

**New ITEM**

**Never over fill your bathtub or sink again.**

If you have ever flooded a room in your home because you forgot you were filling your bathtub or sink, then you need the Bathtub Alert. Simply hang this device on the side of your tub or sink by using the handy suction cup, adjust the height to the desired water level and walk away. The Bathtub Alert will alert you when the water has achieved your preset level by sounding a loud but pleasant series of beeps. Batteries, suction cup and lanyard included.

**Bathtub Alert #BTA \$9.<sup>95</sup>**

**New ITEM**

**Struggling to keep a door open with the traditional doorstop that does not work?**

You've probably tried using a chair, trash can, towel, or even a piece of wood, just to keep a door open. Another common problem is the old style doorstop didn't work and just slid along a slick surface. It more often wore out and became damaged after a short period of time. A solution was developed. An affordable and unique **Rock'N Lock** doorstop. It's the doorstop that rocks and uses the forces of physics to lock your door in place and solve one of life's annoying problems. The **Rock'N Lock** doorstop works on all floor surfaces and is particularly effective on doors that close automatically or have a large gap, from the floor to the bottom of the door. **Door Stop #DSRNL \$10.<sup>95</sup>**

It's as easy as

1, 2, 3

**ORANGE:** The orange does not disturb night vision as much as yellow, and illuminates items better than red.

**PURPLE:** Purple bulbs create a black-light effect, making lighter colors appear bright. Purple bulbs do produce some UV light, which can be harmful if viewed directly.

**YELLOW:** Yellow is a traditional flashlight beam color, with good projection to 20 to 30 feet.

**GREEN:** Nearly as bright as the blue and white, but will run longer (up to 20 hours)

**BLUE:** Tremendously bright, wide-angle bulb illuminates everything to the side as well as forward.

**RED:** Pilots, Sailors, Fisherman and Astronomers-to preserve night vision, safety, signaling and map reading. International attention color.

**WHITE:** Good for all around uses. Everything is viewed in 'full color'. Narrow-angle bulb-incredibly bright flashlight-style beam.

## These bright little L.E.D. lights come in a rainbow of colors! Great for kids, too!

The LED's will burn for over 10,000 hours. Simply press down on the light to ignite the super brightness. Also can be turned to "steady on" at the flick of a switch. Color matched LED bulb and casing in 7 assorted colors: red, orange, yellow, green, blue, purple and black. Long life lithiumion battery included. Specify color when ordering.

## Plug & Play Surveillance Systems

### This camera is a bright idea!! Cleverly disguised light bulb camera installs instantly with no wiring required!

Intruders will never detect this high-resolution black-and-white camera that looks like an ordinary light bulb. It installs in minutes. Even better, there are no wires to run, no holes to drill, and no complicated tuning or antennas. This super easy to install security camera sends live, full-motion video through the electrical wiring in your home! Simply screw in the bulb, plug in the decoder at any wall outlet, and connect a standard RCA cable to your TV or VCR for instant viewing or recording. It's the smart and easy way to upgrade video security at your residence, vacation home or office. The camera features an 85-degree wide-angle view and advanced "zero lux" infrared technology for night viewing, even in total darkness. Works with any TV, VCR, or home theater unit using video "line" or "aux" inputs, including PIP (picture in picture) systems. Outdoor model is weatherproof. Indoor model is a smaller size for ceiling fixtures, pole lamps, track lighting, etc. Complete package includes camera bulb, decoder and video cable. Camera/bulb does not provide a source of light.

### The WMS-BW wireless monitoring system is the perfect video monitoring solution for homes and small businesses.

The WMS-BW monitoring system's wireless technology eliminates the need for expensive electricians for installation. The WMS-BW is ideal for security in homes, restaurants, motel/hotel front desks, retail cashier desks, and day cares. It is also great for monitoring baby, or small children at play outside. The WMS-BW package contains a b/w wireless pan/tilt camera and a 5.5 inch compact monitor, plus all necessary mounting hardware. The wireless b/w camera has 4 selectable transmission channels, transmitting at a 2.4-4835 GHz frequency for solid, uninterrupted video transmissions. It also has 8 built-in infrared LED's for excellent image pick-up (up to six feet) in low-light or dark environments. Microphone is built-in. The camera can transmit up to 100 feet inside a house or building with walls, and up to 300 feet in a clear line of sight! The monitor can accommodate up to 3 additional cameras (available separately), and has video/audio outputs for connection to a recorder or bigger TV screen. Because it is battery operated and wireless, the WMS-BW system is very portable and able to accommodate your changing video surveillance needs

**Monitoring System #WMS-BW** \$179.<sup>00</sup>

## Solid metal construction gives this fake crime deterring security camera a realistic look that will fool even the most sophisticated criminal.

This is an actual video camera that has been modified to become "dummy". When placed within your home or business, robbers and thieves will think the premises is guarded by a high tech surveillance system and go in search of an easier target. A red flashing light on the face of the camera draws attention to it and increases its realism. Features durable metal housing and can be used both indoors and outdoors. Includes a warning decal which states "Warning: CCTV". Measures 7 1/8 x 2 1/8 x 2 1/4" (excluding mounting bracket). Operates on one "C" battery (not included). Batteries on page 30. Will operate for longer than six months on one battery. **Imitation Security Camera #ISCM \$39.<sup>95</sup>**

## Sweep a room from outside the door with this highly efficient bug detector.

The Zap 270 is simply the best bug detector available. It scans for high frequency (HF), short wave (SW), VHF, UHF and microwave frequencies. The Zap 270 utilizes advanced circuitry designed for the cellular phone and telecommunications industry. These components allow the Zap 270 to detect the very weakest signal down to baseline ambient levels of radio frequencies (RF). With a range of 10 MHz to 4.5 GHz, the Zap 270 can detect almost any bug or eavesdropping device out there. Advanced features include: Directional antenna options, Analog Meter and LED Displays, Silent Vibrator and 3 Detection Modes. In Linear Mode, it can be used for far-field (beyond 25 feet) detection of high frequency transmitting devices. Mid Mode can be used to sort through multiple signal sources, and Logarithmic mode can detect close in vicinity devices. Requires 2 "AA" batteries (not included). Batteries on page 30.

**Zap 270 with directional antenna #ZC270 \$359.<sup>95</sup>**

**Super VALUE**

## Deters robbery and shoplifting without the high cost of a real surveillance camera.

Features a built in motion detector. It will remain still until someone passes by, then the 'camera' will move back and forth and a red light will flash. Designed to fool even the most sophisticated criminals. This is a new model. It has been redesigned to be more realistic looking, it uses more batteries for longer battery life, an on/off switch has been added. Operates on three "AA" batteries. Batteries on page 30.

**Imitation Security Camera #ISC \$14.<sup>95</sup>**

## A superb hand meter for detecting hidden radio frequency devices.

This sleek device detects covert cameras and bugs that would otherwise go undetected. A silent vibrator offers a discreet warning alert of covert transmissions. A cost effective solution for detecting and localizing transmissions from computers, PDAs, cell phones and games. Features include: 10 MHz to 4.5GHz; Linear and logarithmic detection; Analog and LED displays; Adjustable gain; Silent vibrator mode and internal antennas. Full feature at an affordable price. Requires 2 "AA" batteries (not included). Batteries on page 30. **Zap180 #ZC180 \$159.<sup>95</sup>**

**The JetScream™ is the ultimate must-have whistle, but your dog may hate you for it!**

Hearing is believing! You don't need a bulky whistle to make a loud

blast and this little device proves it! Survival, Inc.'s acoustic experts have designed a unique whistle that focuses man-made air streams through harmonically tuned chambers to create a piercing shriek that out-cries any other noise. So whether you're hailing a cab over city traffic or signaling for rescue in deep woods, our Jet Scream Whistle will do the trick.

**Jet Scream Whistle #USJET \$8.<sup>95</sup>**

Closeup of chain

**Slices through hard wood like butter!**

The Saber Cut™ Saw is a hand operated chain saw that weighs less than a pound! The Saber Cut is designed to cut through the hardest wood. With a flexible blade for cutting in places where you have little clearance. The 24-inch patented flexible chain saw blade has bi-directional, self-cleaning cutting teeth to ensure a smooth, fast action. The handle clips are specially designed to allow you to hold the saw horizontally when cutting small trees or wood oriented vertically. Cuts directly across the grain. Blade and handle clips: Black oxide coated steel case. Weight (saw and nylon case): 6 ounces (170.1g)

**Saber Cut Saw #USSABER \$39.<sup>95</sup>**

**An essential survival kit for anyone who loves the outdoors!**

The Ultimate Survival Deluxe Tool Kit is a collection of some of the world's finest outdoor tools. Whatever you do outside, these premier recreational, safety and survival tools can simplify your life everyday, and can help save your life on the worst days. Weight 16 oz. (453.6g), 6 1/2" x 3 7/8" x 1 5/8" (16.5 x 9.8 x 4.1 cm) Included in the deluxe tool kit are: Blast Match Fire Starter: Our revolutionary one-handed, all-weather, fire

starter generates intensely hot sparks three times hotter than a standard match. Wet Fire Tinder: Our amazing fire starting tinder is non-toxic, odorless, smokeless, and can start a fire even in the driving rain. Star Flash Signal Mirror: Our signal mirror is unbreakable, can be aimed precisely, floats and can signal for communications up to 100 miles away. Star Flash is the standard issue signal mirror of the U.S. Air Force and other government agencies. Jet Scream Whistle: Our whistle is one of the loudest in the world. Jet Scream's ear-piercing shriek can be heard above most natural or man-made noise. Saber Cut Saw: Our flexible hand chain saw is compact, razor sharp, bi-directional, and self-cleaning. It can be used for cutting from a variety of angles and places where you have little clearance. Hard Cache Carrying Case: Not only is the Hard Cache watertight, it is virtually indestructible. Toss it around, sit on it, or step on it!

Hard Cache Carrying Case: Not only is the Hard Cache watertight, it is virtually indestructible. Toss it around, sit on it, or step on it!

**22 Ultimate Survival Deluxe Kit #USDKIT \$79.<sup>95</sup>**

**Diversion Safes are an inexpensive, yet very effective means of keeping your valuables protected in the event of a burglary.** You can store and hide jewelry, watches, money, documents, credit cards, keys, treasured items, family heirlooms or just about anything you want to keep hidden from potential theft or privacy invasion. Burglars, on average, spend less than ten minutes in their victim's home. During this short time, it's safe to assume that they are definitely NOT looking in the cupboard, in the flowerpots, under sprinkler heads or amongst cans of soda for your treasures! Diversion safes can range in size from small, like our sprinkler hide-a-key, to large, such as our flowerpot safe. They can be camouflaged to blend in with your garden, like the bunny safe, or hidden in plain sight, like our book safe, on your bookshelf or displayed on a coffee table. With over 20 different styles to choose from, you will surely find one to blend into any possible environment.

**The Wall Safe looks like**

**any normal electrical outlet.**

It contains a compartment for storing your valuables. You can even change the face plate to match the decor of your home. Once you've stored your valuables in the compartment, use the key provided to move the metal locking bar into position. Can hide items that are up to seven inches in length.

**Outlet Safe  
#SAFEWALL  
\$9.95**

**The large hidden storage**

**compartment in this CD safe lets you hide just about anything.**

Great for home, office, travel, school, R.V.'s, boats or anywhere you might keep CD's. Felt lined hidden compartment and lid secures your valuables. Attach a CD to the lid for a more realistic look.

Oval compartment is 4.5" x 4" and is 2" deep.

**CD Diversion Safe  
#SAFECD \$24.95**

**Sprinkler Key Hider Diversion Safe**

This is an actual sprinkler system head which has been converted into a key hider. The sprinkler blends so well into your yard or garden that no one would ever think that you had a spare key hidden inside. You will never have to worry about being locked out again.

Only you and your family members will know the secret location where the key is hidden.

**#SAFEPRINK \$10.95**

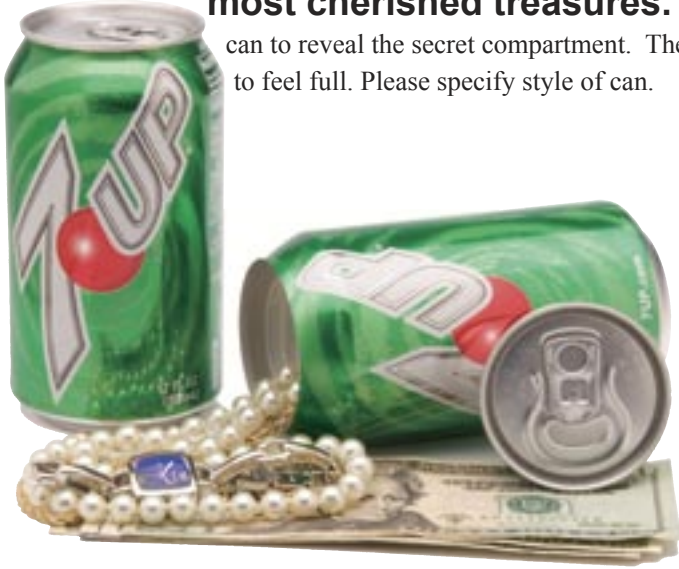

**Instead of making a sandwich, these jar safes make sure your valuables are protected.** Choose from peanut butter or mayonnaise. They look so real, we bet you can't tell the difference!

**#SAFEJARMAYO \$14.95  
#SAFEJARPB \$14.95**

**These soda's won't quench your thirst, but will quench a thief's ability to find your most cherished treasures.** Safely stash away anything you choose by twisting open the top of the can to reveal the secret compartment. These cans are indistinguishable from the genuine product and even weighted to feel full. Please specify style of can. **Soda Can Safes #SAFE7UP \$14.<sup>95</sup>**

Choose from 6 different styles

**Pop the top of this can of Jolly Time Popcorn to find its secret hiding compartment.** As they say at Jolly Time, "Everyone can use a little poppin' fun!" It's especially true when you can fool a thief with this popcorn can diversion safe. Size: 4 1/2" x 2 1/2"

**#SAFEJOLLY \$16.<sup>95</sup>**

**Burn this candle up to 4 hours and keep your valuables safely hidden.** A real burning candle manufactured with a metal container inside. Candles are great decorations and can be placed just about anywhere. The soft colors allow this secret hidden compartment safe to blend right in to your current decor. The bottom of the candle contains a hidden seal that you remove to put valuables inside, then simply put it back in place and set the candle out where it would look best. Size 4" x 5 1/2" pillar candle. Premium fossil finish-100% vegetable candle wax. Metal container with threaded insert, hidden inside candle. Secret Compartment size: 3.75" x 2.5". Weight: 2lb.

Specify Green or Burgundy.

**#SAFECANBUR \$24.<sup>95</sup>**  
**#SAFECANGN \$24.<sup>95</sup>**

**At over 10" tall and 2.75" in diameter the Big Puncture Safe is well.... BIG!** Identical to the real thing right down to the "easy to use" applicator hose... It won't fill up your tires, but it will effectively hide your valuables in its secret compartment. During the short time a burglar usually spends in a victim's home, it's safe to assume that they're definitely NOT looking in the garage, cupboards or trunk of your car for your really BIG treasures!

**#SAFEBIG \$18.<sup>95</sup>**

**Fool Fido and would be thieves!** This can of Kibbles 'n Bits claims to contain tender slices with real beef and vegetables in gravy, but instead you'll find a compartment ready to hide anything you choose. Size 5" x 3 1/2"

## Thermometer Key Safe

Are you looking for a secret hiding place for your spare house key, away from the usual “under the door mat” or “under the flower pot?” Our safe thermometer is the perfect place! It is an actual working thermometer that has a secret compartment big enough to hold six keys! You will never have to worry about locking yourself out of the house again, and a potential burglar would never think of a thermometer as an obvious place to look for a key!

Size: 2” x 6.5” x 1”

**#SAFETHERM**  
\$12.<sup>95</sup>

## Don't hide your key under rock, hide your key IN a rock!

Face it, no matter how well organized you are, there will come a day when find yourself in the uncomfortable position of being locked out. Be prepared and avoid this dilemma by keeping a spare key hidden in our stone diversion safe. It looks like an ordinary rock but allows you to safely hide several keys inside of it.

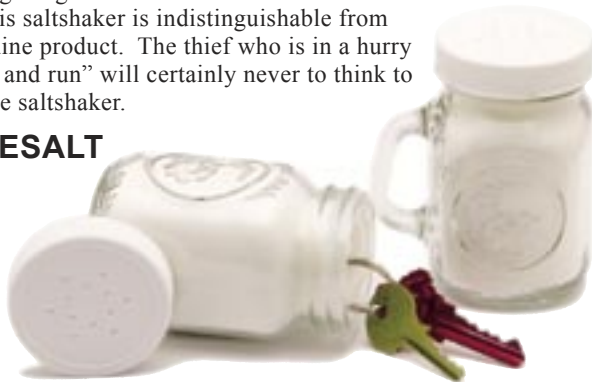

**#SAFESTONE**  
\$8.<sup>95</sup>

## Looking for some salt to throw over your shoulder for good luck?

You won't find it in our saltshaker!!! What you will find are some valuables (jewelry, money, etc) that you've cleverly hidden inside to foil the burglar who is inside your home, searching for goodies to take. Like all of our diversion safes, this saltshaker is indistinguishable from the genuine product. The thief who is in a hurry to “grab and run” will certainly never to think to check the saltshaker.

**#SAFESALT**  
\$10.<sup>95</sup>

**The Flower Pot Safe** keeps money, credit cards, jewelry and important papers out of sight while decorating with a beautiful potted or artificial plant. Flower Pot Safes make ideal gifts for family and friends. Water

tray unscrews revealing the secret compartment, specially designed to keep out dirt and moisture. Assorted colors, container size approximately 16 oz.

**#SAFEPOT** \$29.<sup>95</sup>

**Book Safes** These are actual hardcover books licensed by the publishers, with the only difference being a center compartment cleverly created to conceal your valuables. Titles are chosen at random.

Storage compartment size: 7” x 4” x 1-1/2”

**#SAFEBK** \$19.<sup>95</sup>

## This bunny will make a nice addition to your lawn or garden.

You will never have to worry about being locked out again. Only you and your family members will know the secret location where the key is hidden. Although it's designed for use outdoors to hide keys, it can also be used within the home to hide small valuables. Size 5” tall. Compartment size 1.25” x 1.25” x 2”

**#SAFEBUN**

## Defense & Pepper Spray Training

### Achieve greatly improved self-confidence and enhanced peace of mind!

The Brave Way Program teaches personal security, self-defense and rape prevention techniques. You'll become armed with the best protection for yourself and your loved ones. This is NOT a Martial Art system, and NO previous self defense training is required to master the moves taught. The techniques are easy to learn and extremely effective. These instinctive principles do not require constant practice or years of training

to use. **They work regardless of your size, strength, speed or skill.** The course includes a combination of lecture, demonstration and instruction. You'll learn defense against armed and unarmed attackers, standing and ground techniques, single and multiple attackers and rape prevention. Upon completion of the program, you'll possess the confidence and techniques necessary to help defend yourself and others.

**Brave Way Training Video VHS #VIDBV \$29.<sup>95</sup> DVD #VIDBD \$29.<sup>95</sup>**

## Don't fall asleep on a long drive and become a statistic!

Dozing off at the wheel causes countless injuries and deaths on the road. When you drive fatigued, sleep comes on unexpectedly. Before you regain full consciousness, it's often too late to make driving corrections. This amazing lightweight device attaches to your ear and instantly alerts you when you start nodding off. It emits a pleasant awakening (not startling) signal that warns you of your current situation. It's an absolute necessity when you have to make those long, monotonous driving trips.

**Nap Zapper #NapZap \$16.<sup>95</sup>**

## The ultimate all-weather fire starting tool.

The patented Strike Force<sup>®</sup> is an exceptional all-weather fire starting system.

In this compact durable package is a special alloy flint bar, hardened steel striker and revolutionary Wet Fire Tinder. Scraping the striker down the flint generates a spark three times as hot as a standard match to easily ignite any dry, combustible material (a.k.a. tinder). Or, use the included Wet Fire Tinder which burns at more than 1300 degrees: It's non-toxic, odorless, and smokeless, and actually burns longer when wet! When conditions are at their worst you can count on Strike Force to make a warming fire. It also is a safe and easy lighter for backpacker stoves or barbecues and it weighs less than four ounces. This is an essential tool which should be in the pocket of everyone who does anything outside. 5 inches (12.7 cm), 3.7 ounces (104.9g), Black or Orange color, 0.5 inch (1.3 cm) diameter flint bar embedded in ABS case. Includes Wet Fire Tinder is trade secret material. Made in the U.S.A.

**Strike Force Fire Starter #USSTRIKE \$16.<sup>95</sup>**

## NEW Tree Shield™ is highly effective at resisting Christmas tree fires!

When properly applied, Tree Shield™ will offer fire resistant protection for a 7' tree. It is safe and easy to use. When applied to the tree, it dries clear and odorless.

Each year, there are countless deaths and over \$15 million in damages from Christmas tree fires, but with Tree Shield™ you'll virtually eliminate the risk of this happening to you. This product is approved in New York City and California, where the two toughest fire codes in the nation exist.

Size: 2" x 10"

# Household Alert

## A complete customizable home alarm for under \$100.00.

This alarm is perfect for the dorm room, apartment or small home. The Household Alert Alarm allows you to monitor up to 4 different areas of your domicile. It's the first system of its kind to give you full flexibility because you buy the alarm. You can choose any combination or up to 4 sensors that monitor anything from doors and windows, movement inside or outside your home, the garage door and even flooding! It's simple and easy to set up and use. Since it is completely wireless you can set it up in less than one half an hour. All of the sensors (sold separately on this page) run on batteries. The main unit monitors the battery level and alerts you when a battery needs to be replaced. The system is so versatile that you can even use 2 or more separate receivers at the same time, allowing you to monitor your home from any room in your home. The system also alerts you in 2 ways; both audio and visual signals alert you to which zone has been triggered. If zone 1 is triggered you will see the zone 1 LED light and hear a single audible beep, if zone 2 is triggered you will see the zone 2 LED light and hear 2 beeps and so on for zones 3 and 4. The operating range is up to 300 feet and the unit is FCC/IC approved.

**#GM-318R** \$24.<sup>95</sup> (sensors sold separately)

**Indoor/Outdoor Motion Sensor** Alerts you when motion is detected surrounding your home or business. Supervised Sensor monitors all sensors and their battery condition automatically. Motion detecting range: 40 feet. Operating range: 300 feet. Easy to set up. FCC/IC approved. One year warranty. Monitors your driveway, front and backyard and your garage. Detects movement inside your house.

**#HA-318T** \$25.<sup>99</sup>

**Door/Window Sensor** Magnetic type contact sensor, notifies you when your door or window is open. Supervised Sensor: monitors the sensors and their battery condition automatically. Operating range: 300 feet. Easy to set up. FCC/IC approved. Lithium battery included. One year warranty. **#WD-318T** \$19.<sup>95</sup>

# Home Alarms

**Never Pay Monitoring Fees Again! Save hundreds of dollars a year. The complete wireless alarm system that you were waiting for, complete with auto dialing and 2 key pads, IS HERE. Security Plus presents - The SC-1000**

Introducing the SC-1000: This kit is a complete wireless security system that can be installed in less than one hour. With a motion sensor a

the SC-1000 is suitable for Homes, Business Offices, 24-hour stores, Retail Operations, etc., or wherever security is a concern. The emergency dialer AD433S is your own monitoring center. You do not need to sign up for additional monitoring service and therefore save the monthly monitoring fee. The Control Panel can control up to 24 different sensors, including door/window sensors, motion sensors, flood sensors, smoke sensors, temperature sensors, etc. If any of these sensors are triggered when the sy

You can program the emergency dialer with 9 different phone numbers including your own cellular phone, pager, your doctor, relatives, friends, neighbors, etc. Once the recipient picks up the phone, the emergency dialer will play your pre-recorded message and inform the recipient that you are in an emergency situation and to send help right away. **Features:** Very easy to install · Plug & Play and Rolling Code Technology · Automatically calls for help in the event of an emergency · Dials up to 9 different numbers of your choice and sends out your personal 40 second message · Eliminates the need for expensive monitoring, saving you the monthly monitoring costs · Advanced Technology reduces false alarms.

**#SC1000 \$238.<sup>99</sup>**

**The SC-1000 package includes:**

- A Control Panel (**SC-001**) · A Motion Sensor (**PS433**) · Two Door/Window Sensors (**WT433**) · A Keychain Transmitter (**4B434**)
- An Emergency Dialer (**AD433S**) · Two Adapters · Three 9V Alkaline Batteries · Three 12V Alkaline Batteries · Phone line.

# SC-1000 Home Alarm Accessories

Items on this page only work with SC1000 opposite page (34).

**Motion Sensor Model** Protects your home by detecting movement inside your house. Monitors your front/back yard and driveway. Motion detecting range - 40 feet by 110 degree arc. Easy to set up with ball-joint mounting kit. 9V alkaline battery included. Low battery indication. FCC/IC approved. CE Mark. One year warranty.

**#PS434A** \$32.<sup>99</sup>

**Flood Sensor** Detects overflow / flood when placed along the basement wall, near water heater, washing machine and etc. Notifies the Control Panel (SC-001) or Emergency Dialer (AD-433) if water is detected. Works in conjunction with Skylink Security System. Easy to install. 12V Alkaline battery included. Range up to 100ft.

**#FS433** \$19.<sup>99</sup>

**Door / Window Contact Sensor** Protects doors, windows, and other entrances. Sends a signal to Control Panel or Dialer when contact is broken. Works with Skylink Security System and Emergency Dialer. Add on as many magnetic contacts (MS-001) as needed. 12V Alkaline battery included. Up to 100ft range.

**#WT433E** \$22.<sup>99</sup>

**Alarm Motion Sensor** Detects conventional alarm sound from existing security system, it transmits a signal to Control Panel (SC-001) or Emergency Dialer (AD-433) which then activate the system. Can stand alone or used in conjunction with the Skylink system, also can be used as Smoke Sensor as long as smoke alarm is operational. Can be connected with other security systems using N/C connector. 9V Alkaline battery included. Range up to 100ft.

**#AS433E** \$37.<sup>99</sup>

**Vibration Sensor** Detects vibration/movement and sends a signal to Control Panel (SC-001) or Emergency Dialer (AD-433) when moved. Works with Skylink Security System. Use on RV, boats, cars, drawers or other valuables. 9V Alkaline battery included. Range up to 100ft.

**#VS433E** \$25.<sup>99</sup>

**Temperature Sensor** Monitors temperature of a specific area (i.e. greenhouse, storage room etc). This unit will sound and send a signal to the Control Panel (SC-001) or Emergency Dialer (AD-433) when temperature goes above or below a preset temperature. Adjustable temperature range (0°F to 159°F). Can stand alone, or used in conjunction with the Skylink system. Can be connected with other security systems using N/C connector. Easy to install. 6V Lithium battery included Range up to 100ft.

**#TS434** \$43.<sup>99</sup>

## Keychain Transmitter

Arm / Disarm Skylink Security System (SC-100) or Emergency Dialer AD1010. Compact in size. Operating range up to 100 feet. 12V Alkaline battery included.

**#4B434** \$21.<sup>99</sup>

**Panic Transmitter** The world's smallest Panic remote. Activates Dial Alert AD433 or AD1010. Use as Medical Alert or Silent Alarm. Slide cover to prevent false alarm. Water resistant. Operating range of 100 feet and more. 9V Lithium battery included.

**#PT434** \$19.<sup>99</sup>

## Use the powerful whip action of this baton to stop any attack.

Our Telescopic "Spring" Baton uses a heavy duty spring for its construction. As you expand the spring baton with the flick of your wrist, you'll notice the high density spring giving it a rigid feel, yet flexible.

**#ESB17** \$24.<sup>95</sup>

## Economy Handcuffs (not recommended for professional use.) See pages 37-40 for Duty Gear.

### Hinged Handcuffs

Heavy duty hinges further restrict hand and arm movement and keep the hands closer together compared to our standard handcuffs. Double lock, solid steel with a semi-polished silver finish. Like all of our cuffs, keys are included. **#HANDH** \$24.<sup>95</sup>

### Double Lock Handcuffs

An effective way for restraining anyone who poses a potential threat without causing any physical harm to the person. Solid steel with black or nickel plated finish. Please specify silver or black.

**#HANDB** \$24.<sup>95</sup>  
**#HANDS** \$24.<sup>95</sup>

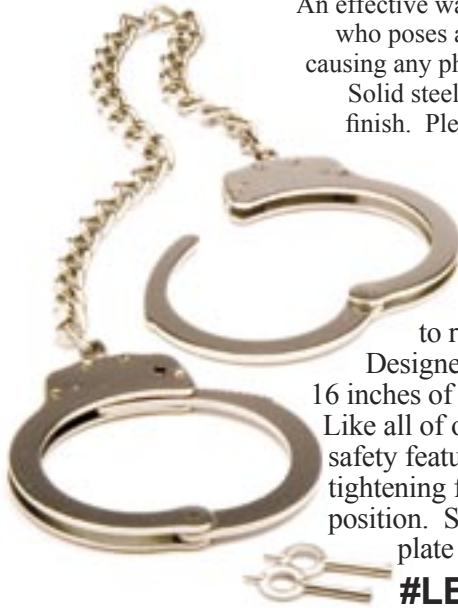

### Leg Cuffs

Lock onto the ankles to restrict leg movement.

Designed to fit any size leg, with 16 inches of kick proof welded chains. Like all of our cuffs, the double lock safety feature prevents the cuffs from tightening further once locked into position. Solid steel with a nickel plate finish.

**#LEG** \$28.<sup>95</sup>

### Nylon holster for our double lock and hinged handcuffs.

Double stitched belt loop, velcro closure. **#HOLHC** \$4.<sup>95</sup>

### Thumb Cuffs

More compact and portable than regular handcuffs, these thumb cuffs will provide effective restraint when needed. Solid steel with nickel plate finish. **#THUMB** \$9.<sup>95</sup>

## Expandable Batons

### A great self defense weapon!

These high quality solid batons are used by police and security guards around the world. They expand to either 16, 21 or 26 inches with just a flick of the wrist. Each baton comes with a foam covered handle for easy gripping and a FREE heavy-duty nylon holster for easy carrying. If you are looking for effective self-defense with extra reach, the expandable steel baton could be your answer.

## Duty Grade Law Enforcement and Security Guard Products

We searched high and low for duty grade equipment that was of the highest quality and didn't break the working professionals pocketbook. Over the next few pages you will find products that will help you do your job better and with greater piece of mind. We hope you enjoy this new section of our catalog and you find the same satisfaction in these products as we do.

### Duty Grade Expandable

#### Batons

If you are looking for an extremely strong dependable tool than look no further than these expandable batons. They are available in 21" and 26" so you choose the size that best fits your needs. We are so impressed by these batons that we don't believe you will for a better one anywhere.

The highlight of this baton is the price; almost half off the nations best selling police baton. Just the slight flick of the wrist and the baton will positively lock into position and will NOT collapse when you need it most. What's more amazing is the ease at which the baton closes, just a slight tap on the ground and the baton will collapse effortlessly.

Also, the grip handle is a semi soft rubber grip with extruded nodules that make it almost impossible to be taken away from you. Even if the grip is wet. This is truly an impressive piece of duty gear. Baton comes in black or chrome in both 16" & 21" lengths. Comes with nylon holster shown at right.

**#TK1440** (16" chrome no picture) \$29.<sup>00</sup>

**#TK1441** (16" black no picture) \$29.<sup>00</sup>

# TASER®... The Ultimate in Non-Lethal Defense

Over 2700 Police Departments are using the Advanced Taser! Over 100,00 have volunteered with no long term effects. The Electro Muscular Disruption (EMD) technology of the Advanced Taser is the ultimate in non-lethal defense. The device uses energy pulses to disrupt and completely override the central nervous system, thus allowing direct control over the skeletal muscles. Compressed air launches two penetrating probes up to 15 feet to deliver a powerful knockdown punch. Once attached to the target, the probes use sophisticated electronic signals called T-waves™ to jam the nervous system of an assailant, causing rapid muscle contractions and stopping him in his tracks. No stray bullets, no deadly accidents - even mistakes are not fatal. It's the intelligent choice for self defense! The Advanced Taser is 99.99% effective on those who are under the influence of drugs and alcohol. The ADVANCED TASER is specifically designed to stop even the most aggressive and focused combatants. Safe - Effective - Non-lethal. The ultimate in self defense! The AIR TASER® can be carried on your person or in your car without special permits in most states (check local laws).

### General Terms

Prices are subject to change without notice. The Safety & Security Products Catalog reserves the right to correct typographical and printing errors at any time without notice. Federal, State and/or Local authorities may have laws or regulations related to the purchase, offering or sale of certain items sold by The Safety & Security Products Catalog. It is the purchaser's responsibility that all applicable federal state and/or local ordinances will be complied with in connection with the sale, purchase or possession of any items sold by us. Any offering of any items whether contained in our catalog, this price list, our web sites, newsletters, fliers, promotional material or any other media are void where prohibited. Several items we sell have Federal Diversion (export) restrictions. Diversion of any of those items restricted is contrary to United States Law. Pictures are for illustration purposes only; actual items may vary in appearance.

### Standard Shipping Terms & Options

A) The Safety & Security Products Catalog will use UPS as its primary shipper. B) See shipping rates and charges on order form. C) Buyer is responsible for all freight charges on shipments that are refused or returned with no fault on the part of The Safety & Security Products Catalog. D) The Safety & Security Products Catalog shall not be responsible for errors in ship to address, item(s), quantity, shipping method or other applicable information related to the order unless the order has been submitted to The Safety & Security Products Catalog via Fax, Email or Web site and is a clear mistake on our part. E) Shipping fees are non-refundable. F) Refused or unaccepted shipments will incur a 15% restocking fee and a \$10.00 handling fee. Any credit on your account from sending a deposit for merchandise we could not ship, a check will be issued to you within 14 days upon receipt of written request.

### Standard Back Orders and Substitutions

If an item is discontinued and/or not in stock, it will be removed from the order and customer will not be billed. Customer will then be notified if the item has been discontinued, or is not available. Shipping charges will be adjusted accordingly. Backorders will automatically ship when the product becomes available. They will ship and be calculated on the same terms and in the same manner as the original order. Backorders will not hold the order in the system. Orders will not automatically ship complete unless customer specifically requests this upon order placement. Customer will be notified immediately by phone or e-mail, if an item is discontinued or backordered.

### Standard Returns

Freight on merchandise being returned to The Safety & Security Products Catalog must be prepaid. Product will be replaced/exchanged if found to be defective unless specified in writing by customer within the return box. A new invoice will be created. There will be no charge for replacement/exchanged product, shipping will be paid by The Safety & Security Products Catalog. If the item is proven to be defective and the Customer has specified in writing that they do NOT wish the product to be replaced/exchanged a credit will be issued to customer. The Safety & Security Products Catalog will refund all charges including freight fees to Customer. Non-defective merchandise will be accepted for return and will be credited at original price, less freight and handling charges within 90 days of invoice date. No returns or credit requests after 90 days of invoice date. Product returned after this time is only eligible for replacement/exchange.

NOTE: Pepper sprays will only be accepted for replacement/exchange within 30 days of original invoice date. No Refunds or Credits will be issued for pepper sprays.

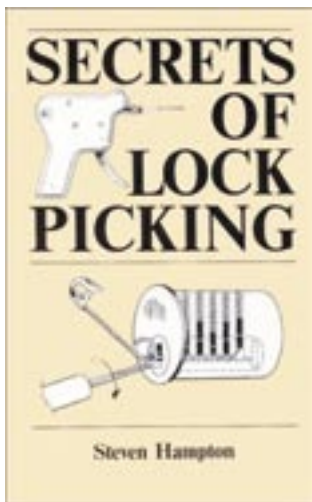

**Snap Gun** This famous pick gun was designed for law enforcement agencies to quickly pick pin tumbler locks. Unlike conventional hand picks that activates only one or two cylinder pins, this tool is designed to span all the pins at once. Comes complete with 3 stainless steel needles, tension wrench and instructions.

(Color may vary)  
**#LPPG \$44.<sup>95</sup>**

**Secrets Of Lock Picking** We highly recommend this book, to both the experienced as well as the novice lock picker. It explains the concept of locks, the tools needed and a breakdown of virtually all locks on the market today. It is easy to read and is loaded with pictures and diagrams designed with the layman in mind.

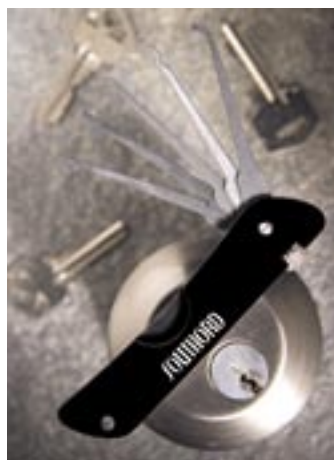

“I spent 20 minutes and read the first two chapters and was able to pick my front door in about 30 seconds the first time. I had never picked a lock before.”  
**#LITLPBK \$21.<sup>95</sup>**

**Electric Pick Gun** Lots of claims are made by the manufacturers and sellers of electric lock picks. Most are exaggerations... and most of the picks being advertised are grossly overpriced! And remember, these are all electric lock picks. They are not magical “electronic” picks as others would have you believe! They require some skill to use, but for most, are easier to use than snap-guns or conventional picks. SouthOrd Electric Picks are the finest available anywhere. Not a converted electric screwdriver nor a cheap plastic

model, these picks are made of machined aluminum and steel, and are manufactured to the highest standards in the industry. Unlike other electrics, they are designed to operate on conventional alkaline or NiCad batteries. Why is that important? Because NiCad batteries are limited in the number of times they can be recharged. So you never need to buy expensive replacement battery packs! The EPGL is powered by a 3 volt motor and runs on two C cell batteries. The EPGL is powered by a 4.5 volt motor and runs on three C cell batteries. Each gun includes four picking needles, three tension tools, and adjustment wrenches. Precision, durability, and factory support combine to bring to you the greatest value in the industry!

**Featherweight Jackknife**  
 The newest in our line of lock picks, and companion to the JPXS-6, is our fiberglass/polymer handle Jackknife Lock Pick Set. Identical in size and configuration to the JPXS-6, the JPXS-6F features four picks, a broken key extractor, and tension tool, all housed within a compact pocket/keyring handle. Actual size 3 1/2” long and 1/4” thick.

**#LPJPXS6F \$24.<sup>95</sup>**

**Seventeen Piece Lock Pick Set**

The LPPXS-17 lock pick set is one of the finest available. It comes with an assortment of picks, everything necessary to pick any pin-tumbler lock, and includes a fully machined, interchangeable polished brass handle. This set is versatile, durable, and includes a rugged zippered leather case!

**#LPPXS17 \$34.<sup>95</sup>**

**Beginners Pick Set**

This small lockpick set is perfect for beginners. It is capable of opening most pin-tumbler locks with just a little practice. The set includes your four most common picks, a tension wrench, beginners instruction manual and a leather carry case. A great buy for under 15 bucks! (The Easy Pickings Book is only available with this combo set)

**#LPBPS \$14.<sup>95</sup>**

**Security** is defined as the state of being safe, free from danger or the risk of danger. Security is freedom from doubt or fear, something that gives or assures safety. How important is your safety and security to you?

**KUBATONS**

Kubatons are highly accessible, extremely durable, effective self defense weapons. They can be used for stabilizing your fist, applying pressure to sensitive parts of an assailant's body, or gaining leverage on an assailant's wrist or fingers. Made of aluminum in various colors (red, blue, silver and black). Size 5" x 1/2"
