

2007 LEXUS **RX Hybrid** Warranty

WARRANTY

Eight-year/100,000-mile Powertrain Warranty on Hybrid control module, battery control module, Hybrid vehicle battery pack and inverter with converter. Eight-year/100,000 mile Hybrid Vehicle System Warranty. All warranties with zero deductible. See the RX 400h *Warranty and Services Guide* at your Lexus dealer for details.

FOOTNOTES & DISCLAIMERS

1. Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. **2.** Vehicle Dynamics Integrated Management (VDIM) is an electronic system which integrates braking, steering, Vehicle Stability control (VSC) and Traction Control (TRAC) systems, and is designed to help the driver maintain control when there is a loss of traction in a turn. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VDIM will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. **3.** The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy. **4.** The Navigation System is designed to assist in locating an address or point of interest. Discrepancies may be encountered between the system and your actual location. Road system changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available in every city or roadway. Periodic updates available at an additional cost. See your *Navigation System Owner's Manual* for further details. **5.** The Bluetooth® technology phones listed on lexus.com have been tested for compatibility with Lexus vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Lexus. **6.** Mark Levinson is a registered trademark of Harman International Industries, Inc. **7.** All the vehicle's airbag systems are Supplemental Restraint Systems (SRS). The driver and front passenger airbags and driver's knee airbag are designed to inflate in severe (usually frontal) collisions where the magnitude and duration of the forward deceleration of the vehicle exceed the design threshold level. The side and side curtain airbags are designed to inflate in certain types of severe side-impact collisions. The side curtain airbags are Roll-Sensing Curtain Airbags (RSCA) and are designed to inflate at a severe tilt degree, roll or lateral G-force. In all other accidents, the airbags will not inflate. To decrease the risk of injury from an inflating airbag, always wear seatbelts, sit upright in the middle of the seat as far back as possible from the airbag modules, and do not lean against the door. Do not put objects in front of an airbag or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of a deploying airbag SRS may cause serious injury or death. Please see your *Owner's Manual* for further instructions. Vehicle complies with "advanced airbag" requirements of FMVSS 208. **8.** Accessory roof rack with rails not recommended for luggage. **9.** Continuous average power, all channels driven, at 0.1% THD; 20-20,000 Hz. **10.** Dynamic Radar Cruise Control was designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your *Owner's Manual* for important cautions and instructions. **11.** Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and you have any necessary additional equipment. Do not exceed any weight ratings and follow all instructions in your *Owner's Manual*. The maximum amount you can tow depends on the total weight of any cargo, occupants and available equipment. **12.** Headphones are for passenger use only. Do not use while operating vehicle. **13.** The RX 400h is not designed to be driven off-road. **14.** Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. **15.** The Lexus Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See your *Owner's Manual* for further details. **16.** Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. **17.** AMCI-Certified testing. **18.** 2007 EPA-estimated mpg. Actual mileage may vary. **19.** Interior available with walnut or golden bird's-eye maple wood trim. **20.** The Lexus Personalized Settings (LPS) Program is a one-time, complimentary offer for new 2005 model year vehicles and newer purchased or leased from 10/1/04 and beyond, up to 12 months from the date the vehicle is sold to the first retail purchaser or the date it is first used as a demonstrator, lease or company car, whichever occurs first. Please see your Lexus dealer for more information.

Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of posting, are subject to change without notice, are for mainland U.S.A. vehicles and may differ in the state of Hawaii, Puerto Rico, the U.S. Virgin Islands and in other regions.

Some vehicles shown with optional equipment. Optional equipment listed may not be available separately or in all regions. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly.
