TERMINATOR & AIRMASS EXHAUST TIPS

EXHAUST TIPS

“Tip Off” Your Exhaust System With Terminator® Exhaust Tips!

The best exhaust systems start with FLOWTECH headers and mufflers, and they end with Terminator exhaust tips.

Terminator exhaust tips are ideal for any application, from stone-stock to highly modified for top performance and style. They're the perfect way to 'tip-off' the exhaust system on any import or domestic car, truck or van.

Terminator exhaust tips feature glass-packed resonators to reduce even the loudest exhaust to a sweet, mellow sound. All Terminator tips are polished and triple-process chrome plated and are available in Dual Outlet and Huge Hanna styles.

- Show quality chrome plating
- Durable black finish
- Can be welded or clamped on
- Complete the system!

Dual Outlet

Huge Hanna

| OUTLET DIA. | OVERALL LENGTH | TAILPIPE SIZE | PART NUMBER |
|--|----------------|---------------|-----------------|
| Dual Outlet w/ Resonator, Slash Cut Tip, Weld or Clamp-On | | | |
| 2-1/2" | 15" | 2" | 59904FLT |
| 2-1/2" | 15" | 2-1/4" | 59905FLT |
| Huge Hanna, Large Bore, Pencil Tip, Weld or Clamp-On | | | |
| 4" | 9" | 2" | 59324FLT |
| 4" | 9" | 2-1/4" | 59325FLT |

Complete your system with Airmass accessories!

Airmass exhaust tips will provide a finishing touch to any exhaust system. The super polished, thick 16-gauge 304 STAINLESS STEEL Tips look sensational, and the non-resonated design means unrestricted sound and flow!

B

A

| FIG. | DESCRIPTION | INLET SIZE | PART # |
|--|--------------------------|-------------|-----------------|
| POLISHED 304 STAINLESS TIPS - NON RESONATED | | | |
| A | 4.5" ROLLED LIP | 2.25" INLET | 85045FLT |
| B | 4.5" 10 DEGREE ANGLE CUT | 2.25" INLET | 85145FLT |
