

# GOLF/JETTA 85-92

This page is just a sample of our complete  
Golf®/Jetta® '85-92 Parts  
on Pages  
P-108 to P-129

Front Cover Section

So you want to get to know your A-2 Golf® or Jetta® better? Are you sick of paying hundreds of dollars in labor for repairs? Well, throw away your Chilton manual and BUY A BENTLEY MANUAL. In the Bentley manual you are treated like you are the mechanic. Repairs and procedures are explained to you in easy-to-understand language. Some manuals refer you to the dealer when the going gets tough, and the procedure is difficult--NOT THE BENTLEY! They cost a little more, but will pay you back time and time again in saved labor costs. They are a great addition to every VW® owner's toolbox.

## GOLFS® AND JETTAS® ARE OUR SPECIALTY!

We sell EVERY! part needed  
to keep them looking  
and running their best!

## Driveshafts

We have made a special purchase of *Brand New Driveshafts!* (left only) made in Germany by LOBRO! These driveshafts have 90mm CVs and fit '85-'87 Golf®, Jetta® gas (not GTI®, GLI®) also '85-'92 Golf® and Jetta® Diesels.

Also C.V. Joints from 39.<sup>95</sup>

**PRICE REDUCED!**  
**\$160.00**

The Golf® and Jetta® from 1985-92 (or A-2 chassis if you prefer) were the most popular non-Beetle® Volkswagen's® ever! These years include GTI®, GLI®, GT, 16V, and also Standard and GL, gas or diesel-powered vehicles. Golfs® and Jettas® were available in two and four door versions. As cars have become more well equipped so have Volkswagens®. Sunroofs, air-conditioning, automatic transmissions and power accessories were factory installed on many of these vehicles!

## ARMOR Door Plates

We are now carrying ARMOR door plates. not only offering theft protection, these plates provide a durable, aesthetically pleasing finish. The plates follow the curvature of the door and have a neoprene gasket to provide a watertight fit. Available only in black, sold in pairs.

## Give Your VW a **BOSCH TUNE-UP!**

Our tune-up kits contain genuine Bosch® parts. Kits include Bosch® super plugs, plug wires, distributor cap and rotor (except where noted). Earlier cars have points and condenser and very recent model cars have no distributor at all. Our kit contains what is appropriate for your car. We have you covered.

Don't worry, call us and we'll send exactly what you need!

**Tune-up Kit 1**

## Oxygen Sensor

We sell both "universal" and OE long wire type O2 sensors. The universal sensors are BOSCH and come with about 3" of wire and a crimp connector. You reuse the long wire off your old sensor. The OE sensor is virtually the same, but 5 minutes less work because you don't have to splice. The OE style are BOSCH and come with the long original equipment wire, no splicing. Both are 100% excellent. The long wire type is more expensive.

## Ignition Coils

VW Coils were bulletproof until they "improved" it in about '93. After then there are many problems in all of them. If it doesn't run right; yes it could be the coil, check it.

**NEW & USED**

## Distributors

If your distributor is just plain worn out - the shaft wobbles or the oil seal leaks (this is common on 16 valve models), you need a new distributor. We have recycled distributors available for most cars, or new distributors for many as well. Get the part# (it is stamped on the body of the distributor) before you call us so we can match it up exactly from \$50.00.

## Spark Plug Wires

We sell genuine Bosch® plug wires for every VW®, but in many cases, we have alternate wires available which are just as good and are the same wires VW® uses in the plant when they build your car. These wires are an excellent value!

# Wheel & Deal

**Save \$176<sup>00</sup>**  
 ....with just a phone call.

## How To Identify Wheels?

Try to locate the style wheel you have on your car by using the pictures on this page.

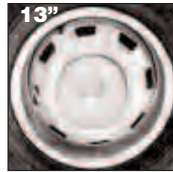

If you're looking for a complete set of wheels, or wheels and tires, refer to the style by the letter under the picture and ask your salesperson about your particular application.

Volkswagens® have steel or light alloy wheels from the factory. They come in 13", 14", 15" or 16" diameters and in widths of 4 1/2" to 6". All 4 cylinder Volkswagen® cars from 1980 - 1998 have the same 4 x 100mm bolt pattern. Most front wheels can be used on any model providing tire size and brake caliper clearance have been considered. Generally, cars with rear disc brakes require a 14" wheel as a minimum diameter.

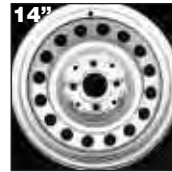

If you are unsure of which wheel is yours, look under the center cap or hub cap and you will find the size (14" x 6") and the part number stamped into the wheel. A part number would look like: (191-601-025-B) and is a sure fire way to get the wheel you need in a hurry!

## STEEL WHEELS

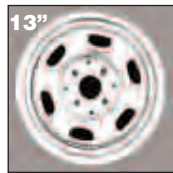

We have probably more steel wheels for VWs® than anyone else! Whether you're looking for a wheel that matched the other three on your car or a set of four to mount show tires on or just something round and true that will get you car safely down the road, we know what fits, what doesn't and what will work for your particular needs. CALL US! We have a solution!!

## TRAILER HITCHES

These are 100% first class! These trailer hitches are designed specifically for the particular car. They fit perfectly. Look good, work! Follow all instructions from the hitch manufacturer. Trailer hitches can generally be installed by the shade tree mechanic. Warning: do not install a trailer hitch unless you're totally familiar with how to do it! They bolt on with bolts and big washers which usually come with the hitch. Don't bolt to rusted metal. You'll need a 3/8" electric drill, safety glasses and hand tools. (We have a good selection of used trailer hitches which may or may not include bolts; don't install with incorrect bolts.) Trailer hitches are new, zinc or black coated. Don't exceed the hitch or the vehicle's towing capacity. You can't tow a 30' boat with any VW®. Read the hitch manufacturers instructions.

Recycled hitches are available at approximately 50% savings.

Do not forget to order a ball and safety chain for your trailer hitch. Safety chain is 4' long using heavy plated chain with a S-hook on each end.

W) Safety Chain	#SN3259	7. <sup>95</sup>
Z) Ball 1 7/8"	#SN3760	7. <sup>95</sup>

### Tow Bars

A tow bar is what you attach to the front of a car if you want to tow it. A trailer hitch is what you bolt on to the back of the car to tow a trailer with. **Never** use a tow bar without safety chains, an extra cost option.

A) A tow bar attaches to the lower front axle beam with easily installed and removable pins, on all Beetle® (not Super), Ghia®, Thing®, Dune Buggy®, Rails, etc.

#SN3767 1 7/8" Ball	97. <sup>43</sup>	64. <sup>95</sup>
#SN10753 2" Ball		74. <sup>95</sup>

On the Super Beetle® the tow bar bolts under the car and can be permanently attached. The tow bar mounts to the plate with easily installed and removable pins. (Not shown)

#SN3768	134. <sup>93</sup>	89. <sup>95</sup>
---------	--------------------	-------------------

B) This "semi-universal" tow bar will bolt through the front bumper cover into the metal bumper and tow any Rabbit® '75-84, Jetta® '80-98, Golf® '85-98, VW Fox® '87-93. It can also be used on other things "it is "Universal"! It requires drilling through the bumper and cover. The four L shaped brackets remain on the bumper and the tow bar can be removed or tilted up when not in use. The Mounting holes are apx. 36" apart. It's apx. 36" long and has a 2" Ball. Follow manufacturer's directions and Limitations!!

# HEADLIGHTS

NEW & USED

## Headlight Assemblies

The 85-92 Jetta®, and most 86-92 Golfs® have large "Euro Style" headlights. This assembly consists of a Lens/Reflector (the glass and the attached plastic backing) a mounting plate with screw adjusters and a separate halogen bulb. Look closely if you've just had one go out. It could be just the bulb. If there is more damage don't worry we sell all of the pieces you might need.

Main Headlight Bulb our . . . SN#3476 . . . \$8.<sup>95</sup>

Golf/Jetta® '85-92

Golf Base Model(these have singular reflector), 93-99.5 does NOT fit Golfs with dual reflector lights in GTI & some Cabrios.

Passat® '90-97

Fox '91-93

Quantum '87-88

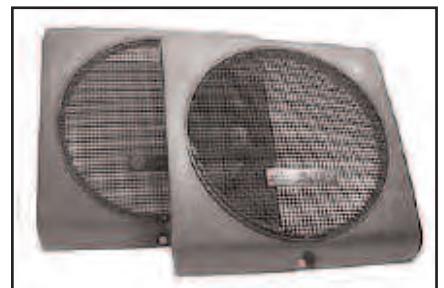

A broken lens isn't the only reason to think about replacing your headlights. Over time, the reflectors and lenses can deteriorate, causing a dimmer and more diffuse light pattern. If you find that you're often "overdriving" the reach of you low beams (and your alternator checks our OK), it may be time for new headlight assemblies.

Which would you rather have?

## DOOR SPEAKER GRILLES

Rabbit®, Golf®, 88 up and Passats® have door speaker grills. These are real conveniently located so when you prop the door open with your foot, you break your speaker grill. We heard from the grapevine (which is totally unsubstantiated and is probably false) that the guy that invented these grills and located them right where you kick them out all the time got a \$25,000 bonus from the parts department for being so dumb plus increasing sales (Dear lawyers . . . this is a joke.) We sell OEM replacement grills. Buy two—you're going to kick it out again.

Golf/Jetta® '88-92

## Headlight Assembly

Golf® or Jetta® '85-92 including lens reflector mounting plate and adjusters, complete, ready to bolt in. We have these in Hella German in fancy yellow boxes. These are OEM and are perfect; we also have ones made in Asia which are D.O.T. approved and work fine. The Asian are cheaper, \$99.95. The Hella are \$129.95. Both work; the Hella are a tiny bit better quality.

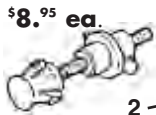

Specify **Driver** or **Passenger**. Price is for NEW—We have some used—ASK.

## HEADLAMP

### 3 HALOGEN BULBS

This is the special Halogen Bulb that gives the "Euro Style" or "Aero Style" large headlights their exceptional lighting ability.

If you have an '85-up with these headlights and it goes out - it might be just the bulb. If you have a crack in the lens, and the bulb is still good, replace the lens before moisture gets at the bulb and ruins it.

The main headlight bulb for all Volkswagens® & Audi® '85-98 that have a single head lamps. This is all Golf® & Jetta® '85-98 models. All Passat® '89-97, all Corrado®, all '85-88 Quantum®. Not Scirocco®. All Vanagon® '86-92.

**WHEN ORDERING TAILLIGHTS, ALWAYS SPECIFY YEAR and SIDE.**

The taillight assemblies that we sell are usually Hella which is the German company. They are an original equipment supplier to VW®, Mercedes, BMW etc. The taillights we sell are identical to what the dealer sells only at a lower price. Taillight assembly are usually the complete lens and housing glued together as one unit, generally, you cannot replace the lens alone.

**Tech Tip** Handle Halogen Bulbs Carefully!  
 Do not touch the glass portion. If you ever touch the bulb, wash it with alcohol before using, as the grease from your fingers will cause the bulb to overheat and burn out very fast.

**WE STOCK MANY TAILLIGHTS FOR OTHER VW MODELS AS WELL AS FOR MOST Audis® - CALL!**

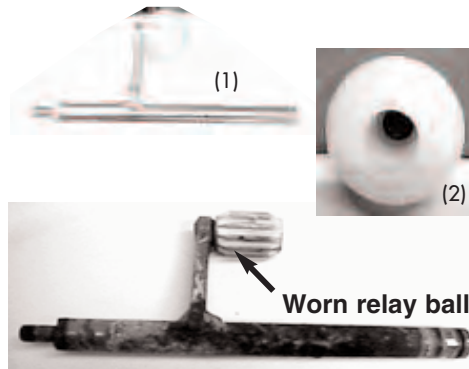

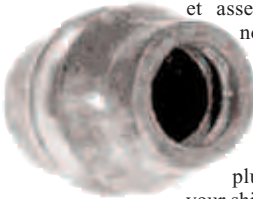

# Shift Into Gear

## SHIFTER ROD BUSHING

This is the bushing that supports the main shift rod as it comes through its support bracket (the dealer sells the whole bracket assembly only, not just the bushing). If this bushing is worn out (most 10 year old plus cars), your shifter will not operate properly or feel right. Replace it above with the other small bushings in our shifter bushing kit.

Golf/Jetta 4 cyl. Gas '93-'99.5, Cab 80-'93  
**Main Shifter Rod Bushing #SN12787 ..... \$6.<sup>95</sup>**  
**Shifter Bushing Kit w/ above bushing #SN10664 ..... \$14.<sup>95</sup>**

We couldn't believe the car could actually shift with this ball. The owner said he could do it, but no one else!!

## RELAY SHAFT

Golf®/Jetta® '85-99.5

The relay shaft is what is used to get the transmission into gear. If the ball either sticks or wears down, shifting is either a battle to get it into first or reverse or it's just not smooth. Our solution is either replace the ball or replace the entire relay shaft.

We had the balls manufactured out of nylon and they should last forever. They just click on. NOT AVAILABLE FROM ANYONE ELSE. Or you can replace the entire shaft and ball.

	DEALER	US
Relay Shaft with Ball (OEM) '85-92

**Order 7 Days, 24 Hours a Day, from Anywhere in the World!**

Fax us your order stating model, year, engine, gas or diesel, and our parts required.. Our world-wide fax is always on at (248) 373-5950.

## SHIFT LEVER

Rabbit®, Jetta®, Scirocco® '75-84

These short rods with a hard plastic ball help you get into gear. The sides wear out and get flat making it not as wide and unable to push the shifter into its correct place. You can then only get the car into first.

## Clutch Alignment Tool

### VW RABBIT® - SCIROCCO® - GOLF® - JETTA® Transmission Tools

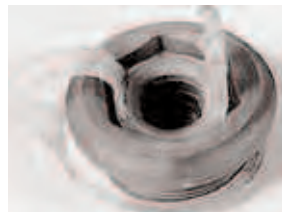

[A] All Rabbits®, Sciroccos®, Jettas®, and Golfs® have a "backwards" clutch set-up. The clutch is bolted to the engine and the flywheel is bolted to the clutch. This is backward to what you might expect. It's impossible to align with the old "broom stick" method. Made of 30% glass filled nylon for strength to last a lifetime. Easy to use. Impossible without it.  
**Price reduced, Save \$4.00!**

## BEST SAVER

### A REBUILT TRANSMISSION for \$11.95 - \$17.95

## ATTENTION ALL

JETTA®, GOLF®, RABBIT®, FOX®,  
SCIROCCO®, CABRIOLET® OWNERS

Many times people think they need a new transmission but actually they only need new linkage bushings.

### NEW SHIFTER BUSHING KITS!

Does it take two hands and all your effort to get your car into first or reverse? Does it grind? Can no one but you get it in gear? You don't need a new transmission, you need new shifter linkage bushings. If you have 75,000 miles on your car the bushings are wearing egg shaped, the shifter doesn't go where it's supposed to, and it grinds.

- (A.) R/J/Cab. thru '84, Scir. thru '88  
#SN2475 ..... \$11.95

# BOSCH

## MICRO EDGE II

**Wiper blades** are an item anyone can replace. The PartsPlace carries Bosch, micro Edge II blades which are the best we've found and original equipment on many European cars. Until recently, Bosch blades were available only as complete assemblies (ie., no refills were available) but the Micro Edge II is refillable at approximately 60% of the price of a new blade. The Bosch blade is clearly superior in fighting smearing, streaking, chatter, lift off and rubber fatigue. It's a great blade. The blade assemblies are sold individually while the refills are sold by the pair. Order by number below.

### MOST BOSCH WIPER BLADES ARE \$5.95

Specific prices are listed below, sold each.

Refills are sold by the pair and are 20" long which you cut with a knife or razor to length. SN 10228 pair 20" refills \$5.99 (These refills do not fit 21" blades). Order part number, SN10228. It's two refills and instructions. 21" Refills now available! #SN18093 \$7.95/pair.

## All used wiper motors have a 2-year limited warranty

### Windshield Wiper Motors

We have excellent recycled wiper motors for all VWs®

VW® wiper motors usually last forever, but occasionally they jam from ice or worn linkages and burn out. Our recycled ones should last for years! They are a good value. Easy to install.

## WINDSHIELD WIPER TRANSMISSION ASSEMBLIES

Windshield wiper transmission assemblies can jam up unless they're lubricated regularly. If they jam, you can try to lubricate them to get them running. However, if you lubricate them to keep them moving after a jam-up, they can also ruin the brass wiper bushings. If the bushings go bad there's nothing you can do but get another assembly. We sell a complete line of wiper transmission assemblies with mounting plate and pivots, recycled without motors.
