

FOUR REAL DOORS

Some jobs require more manpower, and the Dodge Ram Chassis Cab offers best-in-class passenger volume* (143.3 cubic feet of total cab volume) with boundless leg and cargo room plus seating for up to six adults and easy-access wide doors make getting in and out a breeze. And when extra seating isn't needed, just fold up the rear seats to get a convenient fold-flat load-floor area for your tool belt, work boots, toolbox, and anything else you want to keep within reach.

INTERIOR OVERVIEW

Arrive at the job site in comfort and style with Dodge Ram Heavy Duty Chassis Cabs. Whether it's a crew of two—or six—the all-new Dodge Ram Heavy Duty Chassis Cab is big enough for even the burliest crewmembers, thanks to its best-in-class interior space with full-size rear bench seat and roomy front bucket seats. Abundant storage space and innovative conveniences make the job a whole lot easier.

BEST-IN-CLASS BRAKE ROTOR SIZE

Rear disc brake rotors are 1.18 inches (30 mm) thick. This directly impacts brake effectiveness, as well as the life of the pads and rotors. Rear rotor diameter is 13.87-inches (352.3 mm)—sufficient to enhance the brakes' ability to dissipate heat during high-speed stops and repeated use.
