## SAP Business Intelligence

Up-to-date for SAP NetWeaver 2004s

by Norbert Egger, Jean-Marie Fiechter, Sebastian Kramer, Ralf-Patrick Sawicki, and Stephan Weber

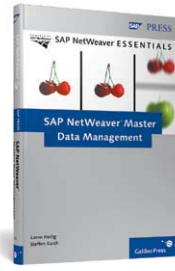

This book provides you with highly detailed information on all of the most important BI features of the new SAP NetWeaver 2004s release. Readers gain a profound understanding of SAP BI and quickly learn how to master the new release, while avoiding costly errors.

Familiar subjects like data modeling, ETL, Web reporting, and planning are combined with expert insights on essential new BI functions and core concepts. The authors provide exclusive details on advanced developments in the BEx Analyzer and the BEx Web Application Designer, as well as the BEx Report Designer, BI-integrated planning, the BI Accelerator and the SAP Visual Composer.

**AVAILABLE NOW** ■ H1921 ■ \$69.95 ■ 653 pages

Part of the SAP NETWEAVER COLLECTION See p. 6

Part of the SAP BI/BW COLLECTION See p. 5

## SAP NetWeaver Master Data Management

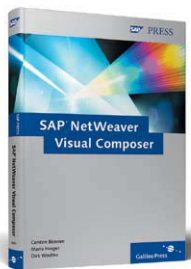

by Loren Heilig, Steffen Karch, Roland Pfennig, and Christiane Hofmann

This book uses three comprehensive real-life examples to give you practical insights into the consolidation, harmonization, and central management of master data. In addition, you'll uncover the concepts and business-related requirements of master data management as well as best practices for integrating MDM in your Enterprise SOA.

An entire chapter is devoted to describing the technical details — to their full extent. Plus, more than 130 pages are dedicated to an MDM compendium, complete with detailed answers to all of your most pressing questions on individual components, data extraction from SAP systems, options for integration with SAP NetWeaver XI, SAP NetWeaver BI, and SAP NetWeaver Portal (including user management), as well as on workflows and the Java API. The book is based on the current SAP NetWeaver MDM 5.5 Release but is also a valuable tool for those utilizing earlier versions.

**AVAILABLE NOW** ■ H1958 ■ \$69.95 ■ 332 pages

Part of the SAP NETWEAVER COLLECTION See p. 6

## SAP NetWeaver Visual Composer

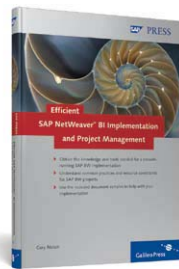

by Carsten Bönner, Mario Herger, and Dirk Wodtke

Learn the ins and outs of the SAP NetWeaver Visual Composer (VC) architecture — including details on all components and concepts, as well as essential information on model-based development and on the preparation of different types of applications. Readers quickly broaden their knowledge by tapping into practical expert advice on the various aspects of the Development Lifecycle as well as on selected applications, which have been modeled with the VC and are currently delivered by SAP as standard applications.

**AVAILABLE NOW** ■ H1932 ■ \$69.95 ■ 517 pages

Part of the SAP NETWEAVER COLLECTION See p. 6

Part of the SAP xApp Analytics 3-pack See p. 17

## Efficient SAP NetWeaver BI Implementation and Project Management

by Gary Nolan

This detailed reference helps you prepare for a problem-free BW project by alerting you to all possible issues of a cultural, political, fiscal, or technical nature, and you'll learn how best to overcome all of them. Readers quickly understand how to properly resource a project, how to scope it, and above all how to create a successful implementation strategy. The author provides valuable insights by following the lessons-learned approach. The detailed appendix contains important sample documents including project plans, project charters, cutover plans, and more.

**AVAILABLE NOW** ■ H1941 ■ \$69.95 ■ 441 pages

Part of the SAP NETWEAVER COLLECTION See p. 6

Part of the SAP BI/BW COLLECTION See p. 5

**NEW!**

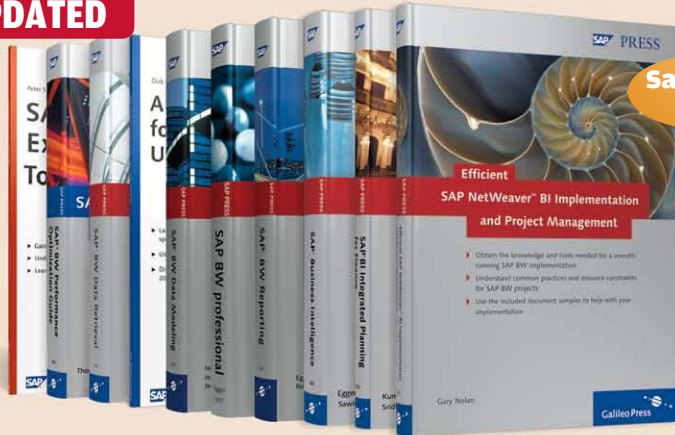

## B2B Integration Using SAP NetWeaver PI

by Sam Raju and Claus Wallacher

Using SAP NetWeaver Process Integration (PI) for the implementation of B2B scenarios differs greatly from the implementation of other scenarios. This comprehensive guide for B2B process integration provides in-depth coverage of the implementation of SAP NetWeaver to support B2B collaboration. If you are an advanced to professional administrator, developer, or consultant in the PI area, you'll learn new ways to exploit SAP NetWeaver PI's integration functionality to optimize connectivity with your (global) trading partners by setting up a reliable, secure, and low-effort data exchange. Plus, discover the ins and outs of implementation, development, configuration, security considerations, testing, and that's just for starters.

**AVAILABLE 4/2008** ■ H2925 ■ \$69.95 ■ Approx. 450 pages

**UPDATED**

**The SAP BI/BW Collection includes the following books:**

- ABAP Development for SAP BW — User Exits and BADIs
- Efficient SAP NetWeaver BI Implementation and Project Management
- SAP Business Explorer (BEx) Tools
- SAP Business Intelligence
- SAP BW Data Modeling
- SAP BW Data Retrieval
- SAP BW Performance Optimization Guide
- SAP BW Professional
- SAP BW Reporting and Analysis
- SAP NetWeaver BI Integrated Planning for Finance

## The SAP BI/BW Collection

Ten exceptional resources for BI/BW professionals at a significant discount from the regular price. Whether you need to master the basics of SAP Business Intelligence (BI), the extraction, transformation and loading (ETL) process, or the intricacies of SAP BW reporting and analysis, this highly-detailed collection leaves no stone unturned. The all new title, *SAP NetWeaver BI Integrated Planning for Finance*, is the newest addition to this collection.

**AVAILABLE NOW** ■ H1960 ■ \$619.00 ■ More than 3800 pages

Please note: Collection contents, pricing and availability subject to change. See [www.sap-press.com](http://www.sap-press.com) for current details. Shipping charges apply for orders outside the US and Canada.

### SAP Business Explorer (BEx) Tools

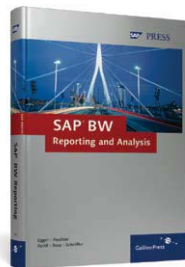

by Peter Scott

With no filler or unnecessary information, this BEx guide cuts right to the chase, giving readers exactly what they need to master BW reporting. Learn the fundamentals of BEx, how to design queries, how to create high-impact workbooks and Web applications, plus all there is to know about report-to-report interfacing — and more. This exceptional reference guide helps BW professionals optimize their use of BEx Browser, BEx Query Designer, Web applications and BEx Analyzer. Plus, it also covers OLAP functionality and more.

**AVAILABLE NOW** ■ H1925 ■ \$85.00 ■ 71 pages

Part of the SAP BI/BW COLLECTION

See above

### SAP BW Reporting and Analysis

by Norbert Egger, Jean-Marie Fiechter, Jens Rohlf, Jörg Rose, and Oliver Schruffer

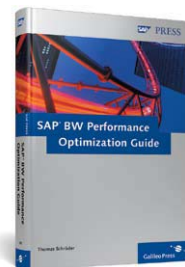

In this book you'll find everything you need for configuring and executing Web reporting and Web applications.

First, you'll be introduced to the basic topics of BEx Query Designer, BEx Web Application Designer, BEx Web Applications, BEx Analyzer, and SAP Business Content. Then, expert guidance shows you, step-by-step, how to master the process of creating custom reports and analysis. That's just for starters. You'll also learn best practices for creating your own SAP BW Web Cockpit and much more.

**AVAILABLE NOW** ■ H991 ■ \$69.95 ■ 572 pages

Part of the SAP BI/BW COLLECTION

### SAP BW Performance Optimization Guide

by Thomas Schröder

This book provides coverage of architecture, data modeling, the ins and outs of systematic performance analysis, as well as volumes of valuable data design tips. Get an in-depth introduction to SAP BW indices, statistics, and database optimizers, and learn about the key aspects of reporting performance. Full-length chapters deal with aggregates as well as extraction and loading performance. Plus, compression and InfoCube partitioning are discussed extensively. This book gives administrators the tools to analyze and tune BW performance immediately.

**AVAILABLE NOW** ■ H1918 ■ \$69.95 ■ 452 pages

## The SAP NetWeaver Collection

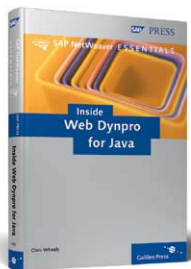

SAP PRESS proudly provides you and your team with highly-detailed reference books, specifically for professionals who deploy, customize, optimize, support and set strategy for critical SAP NetWeaver technologies. IT professionals who need to hit the ground running with SAP NetWeaver are invited to take advantage of our all-new SAP NetWeaver Collection. With this special offer, you get all eighteen featured SAP NetWeaver books for one low, discounted price.

**AVAILABLE NOW** ■ H1961 ■ \$1129.00 ■ More than 6000 pages

Please note: Collection contents, pricing and availability subject to change. See [www.sap-press.com](http://www.sap-press.com) for current details. Shipping charges apply for orders outside the US and Canada.

## The SAP NetWeaver Collection includes the following books:

- ABAP Objects: ABAP Programming in SAP NetWeaver
- Developing Accessible Applications with SAP NetWeaver
- The Developer's Guide to SAP xApp Analytics
- Efficient SAP NetWeaver BI Implementation and Project Management
- Java Programming with the SAP Web AS
- Mastering IDoc Business Scenarios with the SAP Exchange Infrastructure 3.0
- Mastering SAP XI — Programming
- SAP Business Intelligence
- SAP Exchange Infrastructure
- SAP Exchange Infrastructure for Developers
- SAP NetWeaver BI Integrated Planning for Finance
- SAP NetWeaver Master Data Management
- SAP NetWeaver/.NET Interoperability
- SAP NetWeaver Roadmap
- SAP NetWeaver Visual Composer
- SAP xApp Analytics
- SAP xApps and the CAF
- Succeeding with your SAP NetWeaver Portal Project — Best Practices for Design, Composition, and Operation

## Inside Web Dynpro for Java — 2nd Edition

by *Chris Whealy*

This updated and completely revised second edition of "Inside Web Dynpro for Java" covers everything you need to know to leverage the full power of Web Dynpro for Java — taking you well beyond the standard drag and drop functionality. For this second edition, sections on the migration of legacy applications have been added, as well as another entirely new section devoted to integration topics. In addition, you'll find key details on the portal, Adobe Document Services, Business Graphics Server, MS Office, mobile applications, and much more.

**AVAILABLE 11/2007** ■ H983 ■ \$69.95 ■  
Approx. 450 pages

**NEW!**

## Mastering SAP NetWeaver Master Data Management

by *Bernd Schloemer*

This Essentials guide uses a real-life scenario to lead you step-by-step through a complete master data management project with SAP NetWeaver MDM — starting with importing the data into the MDM system over data maintenance with the Data Manager to exporting the data into the local systems.

You'll learn how to master all repository tasks and how to import data using the Import Manager or batch import. The book also shows you re-import the data back into the local systems using MDM Syndicator or batch export, set up the Portal for MDM, and how to create a typical workflow.

**AVAILABLE 2/2008** ■ H2916 ■ \$85.00 ■  
Approx. 90 pages

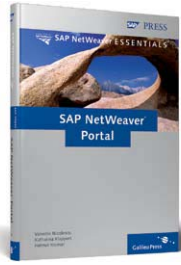

## Universal Worklist with SAP NetWeaver Portal

by *Darren Hague*

This hands-on workshop takes you, step by step, from standard configuration to working with different user interfaces and covers workflow integration from any back-end systems. Readers get an exclusive "look under the hood" of the Universal Worklist functionality and gain insight on future application scenarios. By reading this guide, you'll be able to reconfigure existing applications to conform with the UWL, write UWL-specific applications or transactions and adapt data sets in order to have the appropriate work item IDs created.

**AVAILABLE 12/2007** ■ H1974 ■ \$85.00 ■  
Approx. 130 pages

**NEW!**

## SAP NetWeaver Portal

by Valentin Nicolescu, Katharina Klappert, and Helmut Krömer

This book introduces IT managers, portal administrators and consultants to the structure and application areas of SAP NetWeaver Portal Release 7.0 (2004s). A main focus is to describe key portal functions and the underlying architecture – all from the technical viewpoint. Topics covered include role management, authentication mechanisms, knowledge and content management, developing and administrating applications, application and system integration, as well as many more. Readers gain a solid technical grounding in all the relevant aspects of SAP NetWeaver Portal and the skills needed to effectively implement them in practice.

**AVAILABLE 2/2008** ■ H2910 ■ \$69.95 ■  
Approx. 400 pages

## Developing an Effective SAP Master Data Management Strategy

by Andrew LeBlanc

Master data is your company's DNA, and effective master data management demands extensive preparation. This book is the key to developing and implementing your own comprehensive SAP MDM strategy. Readers get all the essential prerequisites for building a successful and sustainable MDM strategy. Fully up-to-date for SAP MDM 5.5 SP04, this comprehensive book contains all the resources needed to set your own MDM strategy.

**AVAILABLE 1/2008** ■ H1973 ■ \$69.95 ■  
Approx. 350 pages

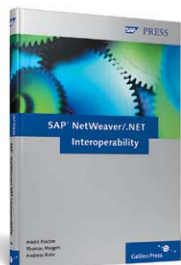

**NEW!**

## Developing Mobile Applications Using SAP NetWeaver Mobile

by Ramprasadh Kothandaraman, Thomas Pohl, and Venkat Srinivas Seshasai

This book provides readers with an in-depth, technical introduction to SAP NetWeaver Mobile (SAP NetWeaver MI). Developers, administrators, consultants, and IT managers learn everything there is to know about the development, deployment, and operation of mobile applications. Beginning with the basics of mobile technology, architecture of mobile apps, and device management, the authors efficiently guide you through the complete application development and management lifecycle. Critical topics, such as programming tools, performance, backend integration, and cross-application functionality are covered in detail. Developers benefit greatly from two extensive case studies of development projects.

**AVAILABLE 11/2007** ■ H2906 ■ \$69.95 ■  
Approx. 340 pages

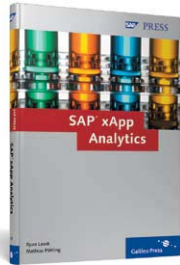

## SAP NetWeaver/.NET Interoperability

by Andreas Rohr, Thomas Meigen, and André Fischer

This comprehensive book is focused on heterogeneous system landscapes built using SAP and Microsoft components and quickly teaches readers about the vast integration capabilities within all levels of the SAP NetWeaver stack. Developers, consultants, and IT managers will benefit from practical examples of all components: interface technologies like BAPI and RFC, process integration with XI and BizTalk, information integration with BW and MS BI, as well as user integration with SAP NetWeaver Portal, SharePoint, and Office (including a preview of Duet, formerly known as Project Mendocino).

**AVAILABLE NOW** ■ H1936 ■ \$69.95 ■ 356 pages

Part of the SAP NETWEAVER COLLECTION See p. 6

## SAP xApp Analytics

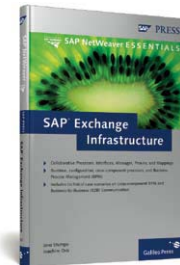

by Ryan Leask and Mathias Pöhling

This book gives readers an in-depth look at the technology behind building Analytic Applications within SAP. The authors share unique business perspectives on the potential benefits of SAP xApps Analytics and cover a wide range of topics including installation, administration, advanced features and development procedures of the modeling tool, SAP NetWeaver Visual Composer, and much more. Readers get unique, practical knowledge from detailed examples and from the authors' own experiences in actual projects.

**AVAILABLE NOW** ■ H1938 ■ \$69.95 ■ 412 pages

Part of the SAP NETWEAVER COLLECTION See p. 6

Part of the SAP xApp Analytics 3-pack See p. 17

## SAP Exchange Infrastructure

by Jens Stumpe and Joachim Orb

Discover the ins and outs of SAP's Integration Broker, and get a guided tour of the design of collaborative processes, the development of interfaces, messages, proxies, mappings, and more.

Complete chapters are devoted to run-time components (Integration Server, Integration Engine, Proxy Running Time, and Monitoring Tools) as well as system-spanning BPM. Plus, with added sections on specific applications — two detailed case scenarios on B2B communication and system-spanning BPM — you'll learn how business management demands can be technically depicted and efficiently implemented.

**AVAILABLE NOW** ■ H982 ■ \$69.95 ■ 267 pages

Part of the SAP NETWEAVER COLLECTION See p. 6

## HR Resources

### mySAP HR: Technical Principles and Programming — 2nd Edition

by Ewald Brochhausen, Juergen Kielisch, Juergen Schnerring, and Jens Staeck

First, gain a thorough understanding of the concept of information models. Then, learn about the individual information models of personnel administration and time management. Readers quickly discover how to customize key applications and generate special reports, while

saving time and avoiding costly errors. Special features of HR role and authorization concepts are clearly defined — from both the functional and technical perspectives. Benefit from entirely new chapters on designing HR forms using the HR Forms Workplace, reporting tools (HIS and Ad-hoc Query) as well as interface programming with the Interface Toolbox and BAdIs.

**AVAILABLE NOW** ■ H967 ■ \$69.95 ■ 445 pages

Part of the HR COLLECTION

### SAP ERP HCM Performance Management

by Christos Kotsakis and Jeremy Masters

This comprehensive reference is indispensable for HR professionals learning how to work with HCM Performance Management, which is integral to identifying and retaining key talent within your organization. The authors take you on a guided journey, from design to implementation, and provide volumes of insights to help

increase your company's productivity. First, learn about performance management process design, supplemented with practical and insightful case studies. Then, you'll discover, step-by-step, how to implement your own performance management application. Based on the SAP R/3 Enterprise Release (4.7), this book also provides coverage specific to mySAP ERP 2005.

**AVAILABLE 12/2007** ■ H1955 ■ \$69.95 ■ Approx. 350 pages

### Mastering HR Management with SAP

by Christian Krämer, Sven Ringling, and Song Yang

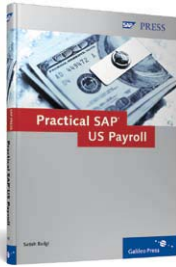

Get a step-by-step guide to the entire personnel management process, from payroll to personnel controlling, and beyond. This book comes complete with practical examples regarding user roles, and covers all of the new enhancements and improved features and tools

that have been introduced with SAP R/3 Enterprise. Uncover the ins and outs of e-recruiting, organizational management, personnel administration, company pensions, quality assurance, role-based portals, and many others too numerous to list. The book, based on SAP R/3 Release 4.7 (R/3 Enterprise), also contains information on mySAP ERP HCM.

**AVAILABLE NOW** ■ H994 ■ \$69.95 ■ 521 pages

Part of the HR COLLECTION

See below

### Practical SAP US Payroll

by Satish M. Badgi

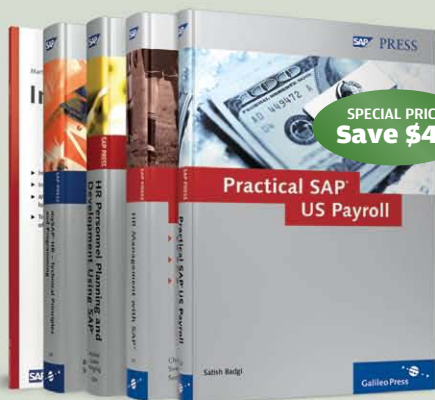

Starting where SAP's official documentation and training classes end, *Practical SAP US Payroll* addresses key issues not covered elsewhere, providing the technical details and in-depth content needed by those charged with mission-critical US Payroll responsibilities. You'll learn how to configure the payroll business process, in-depth details on schemas and rules, as well as details on important tax issues. The author

also provides detailed instruction to master more advanced topics such as overpayments. Examples covered in this book include payroll schemas and rules, wage type catalog, tax processing, and garnishments.

**AVAILABLE NOW** ■ H1954 ■ \$69.95 ■ 324 pages

Part of the HR COLLECTION

See below

### The HR Collection

Leveraging the full capabilities of SAP HR technology can be challenging. But, understanding how to maximize all of the powerful tools at your disposal is the key to getting the greatest benefit for your organization. That's why SAP PRESS is proud to introduce this special new collection of books specifically for those charged with SAP HR responsibilities.

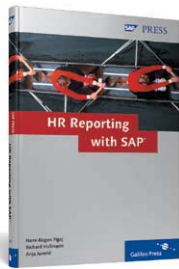

#### The HR Collection includes the following books:

- HR Personnel Planning and Development Using SAP
- Integrating CATS
- Mastering HR Management with SAP
- mySAP HR: Technical Principles and Programming (2nd Edition)
- Practical SAP US Payroll

**AVAILABLE NOW** ■ H1971 ■ \$319.00 ■ More than 1900 pages

Please note: Collection contents, pricing and availability subject to change. See [www.sap-press.com](http://www.sap-press.com) for current details. Shipping charges apply for orders outside the US and Canada.

## HR Resources (continued)

**NEW!**

### HR Reporting with SAP

by Hans-Jürgen Figaj, Richard Haßmann, and Anja Junold

Discover the various reporting tools, including Standard SAP Report, Queries, SAP NetWeaver BI, and Customer Report. Then you'll learn how to use them, what options they provide, their strengths and weaknesses, and more. This book covers the area menu, the Human Resource Information System, the Manager's Desktop, and the SAP NetWeaver Portal in great detail. It also discusses how to resolve authorization problems and much more. Based on SAP ERP 6.0, this book can be used with R/3 Enterprise or more recent releases.

**AVAILABLE 1/2008** ■ H2908 ■ \$69.95 ■ Approx. 430 pages

### Integrating CATS

by Martin Gillet

Readers will benefit quickly from this tightly focused, practical guide to integrating CATS with other SAP Business Suite modules. Since CATS is essentially one point of entry into the SAP system, seamless and efficient integration is a must for most organizations. This exclusive guide provides readers with in-depth coverage and best practices for seamless integration with HR, Financial Accounting, Project System, Plant Maintenance, Service Management, Material Management, and Product Planning modules.

**AVAILABLE NOW** ■ H1906 ■ \$85.00 ■ 96 pages

Part of the HR COLLECTION

### Configuring SAP US Benefits

by Satish Badgi

This guide provides a comprehensive, hands-on approach to configuring SAP's US Benefits module. It's written for payroll and benefits departments using SAP (power users), project teams, consultants, off-shore and outsourced benefit administrators, and benefit providers interacting with SAP customers. Coverage includes the complete employee lifecycle from enrollment, benefits changes, and FSA and Claims processing to termination and COBRA. In addition, it details the US-specific benefits plans and teaches benefits managers how to configure them. You'll learn about the entire U.S. benefits process for the employee lifecycle from enrollment to Cobra.

**AVAILABLE 12/2007** ■ H2922 ■ \$85.00 ■ 85 pages

## PLM Resources

### Quality Management with SAP

by Michael Hölzer and Michael Schramm

Readers get up to speed quickly on the functionality, adaptation, and application of the SAP QM component. You'll get in-depth knowledge of quality planning, quality inspection, as well as quality control. Complete details and QM-relevant information on the functionality of other R/3 components (like vendor evaluation, control of inspection, measuring, and test equipment) are covered in depth. Plus, discover how to make the most of the information systems and reporting tools, as well as many tips and tricks to help you to find the right customization settings.

**AVAILABLE NOW** ■ H1902 ■ \$69.95 ■ 525 pages

Part of the PLM 2-PACK

See below

### Product Lifecycle Management with SAP

by Gert Hartmann and Ulrich Schmidt

This book provides a comprehensive overview of the core functions of mySAP Product Lifecycle Management (mySAP PLM). First you'll learn how the solution's Life Cycle Data Management supports you in accumulating and exchanging product and plant data. Then, you'll be introduced to the critical aspects of program and project management. Special attention is paid to collaboration across various departments and enterprises, as well as quality management, Enterprise Asset Management (EAM), and the functions of environment, health and safety (EH&S).

**AVAILABLE NOW** ■ H980 ■ \$69.95 ■ 613 pages

Part of the PLM 2-PACK

See below

**SPECIAL PRICE**  
Save over 10%

### The PLM 2-pack

This collection features two highly detailed and comprehensive reference books. First, readers will benefit from broad coverage of all aspects of mySAP PLM using the book "Product Lifecycle Management with SAP." Then, you get an equally detailed front-row tour of SAP QM, in the new book "Quality Management with SAP."

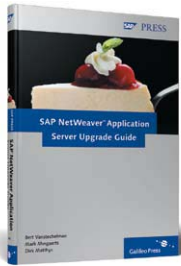

The PLM 2-pack includes the following books:

- Product Lifecycle Management with SAP
- Quality Management with SAP

**AVAILABLE NOW** ■ H1970 ■ \$125.00 ■ More than 1100 pages

Please note: Collection contents, pricing and availability subject to change. See [www.sap-press.com](http://www.sap-press.com) for current details. Shipping charges apply for orders outside the US and Canada.

## SAP ERP Resources

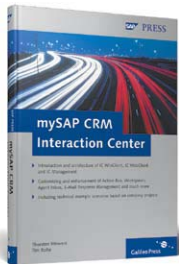

### SAP NetWeaver Application Server Upgrade Guide

by Bert Vanstechelman, Mark Mergaerts, and Dirk Matthys

With release 7.0 (the basis of SAP ERP 6.0), SAP undertook a complete revision of the upgrade procedure of NetWeaver AS. Now, it is also possible to upgrade so-called “double-stack” installations; those with both an ABAP and a Java stack under the hood. This comprehensive guide covers all kinds of SAP upgrades. It describes a complete project, explains project management questions, provides technical background information (including the upgrade of other systems like CRM, Portal, XI, and BW), and then walks you through the project steps — from A to Z.

**AVAILABLE 10/2007** ▪ H2903 ▪ \$79.95 ▪ Approx. 350 pages

## CRM Resources

### mySAP CRM Interaction Center

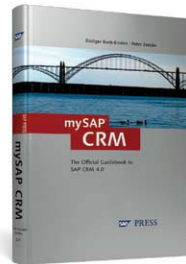

by Thorsten Wewers and Tim Bolte

First, learn about the technical principles of IC WinClient, IC WebClient, and IC Management, including an introduction to the architecture and framework. The book focuses on customizing and enhancing basic functions, master data and transaction integration, as well as communication channels and customer specific alerts. Based on actual projects, concrete business scenarios illustrate the technical aspects of customizing. Valuable insights on mySAP CRM Interaction Center usage options are guaranteed to benefit you, even if you have already completed your implementation.

**AVAILABLE NOW** ▪ H1909 ▪ \$69.95 ▪ 255 pages

Part of the CRM 2-PACK

See below

### mySAP CRM

The Official Guidebook to SAP CRM Release 4.0

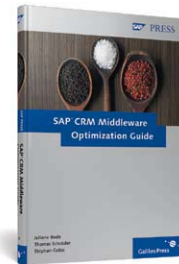

by Rüdiger Buck-Emden and Peter Zencke

Learn the essential principles of mySAP CRM as well as detailed techniques for employing this powerful SAP solution. Important functional aspects are highlighted and serve to guide you through the complete Customer Interaction Cycle. Plus, discover key functional areas and benefit from expert advice illustrated throughout with mySAP CRM business scenarios. A fully updated presentation of the implementation methodology, as well as the technical fundamentals of mySAP CRM 4.0, on the basis of SAP NetWeaver, serve to round out this formidable resource.

**AVAILABLE NOW** ▪ H971 ▪ \$59.95 ▪ 449 pages

Part of the CRM 2-PACK

See below

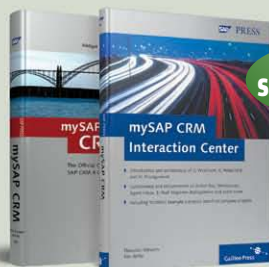

### SAP CRM Middleware Optimization Guide

by Juliane Bode, Stephan Golze, and Thomas Schröder

This book helps you proactively avoid problems with CRM Middleware — whether they be performance losses or even complete system freezes. You'll learn the basics of data processing in the Middleware (input processing — validation — output processing) and get concrete administration advice for troubleshooting. Plus, uncover practical instruction on how to avoid system freezes and handle those freezes once they've occurred. Based on CRM Release 5.0, this book is also highly useful for the older Release 4.0. Wherever possible, the authors provide you with sneak previews on the upcoming release 6.0 as well.

**AVAILABLE 10/2007** ▪ H1994 ▪ \$69.95 ▪ Approx. 360 pages

## New Book Announcement: “Discover SAP CRM” ▪ See page 30

**SPECIAL PRICE**  
Save over 10%

### The CRM 2-pack

Discover the ins and outs of mySAP CRM and uncover best practices for leveraging the vast functionalities at your disposal in all customer-oriented business processes. Both books in this exceptional collection are loaded with practical guidance, actual scenarios and best practices that can be put to use immediately.

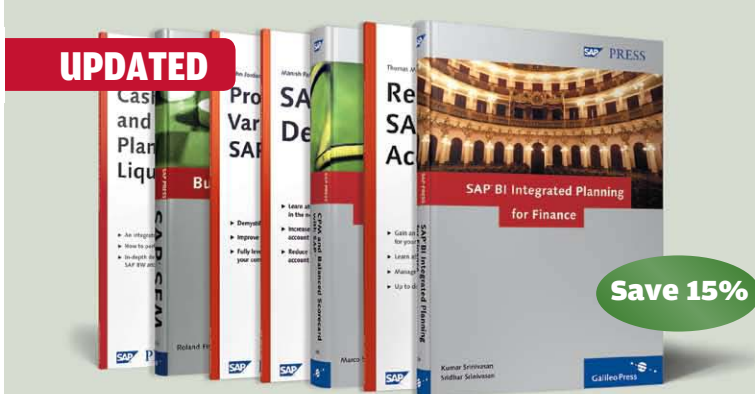

The CRM 2-pack includes the following books:

- mySAP CRM Interaction Center
- mySAP CRM: The Official Guidebook to SAP CRM Release 4.0

**AVAILABLE NOW** ▪ H1964 ▪ \$115.00 ▪ More than 700 pages

Please note: Collection contents, pricing and availability subject to change. See [www.sap-press.com](http://www.sap-press.com) for current details. Shipping charges apply for orders outside the US and Canada.

## Financials Resources

The Financials Collection includes the following books:

- Business Planning with SAP SEM
- Cash Accounting and Cash Flow Planning with SAP Liquidity Planner
- Production Variance Analysis in SAP Controlling
- SAP Account Determination
- CPM and Balanced Scorecard with SAP
- SAP BI Integrated Planning for Finance
- Reporting for SAP Asset Accounting

### The Financials Collection

Our newly updated Financials collection provides readers with expert guidance on a selection of key areas. First, benefit from the most comprehensive reference available for SAP BI Integrated Planning for Finance. Then, learn the ins and outs of Cash Accounting and Cash Flow Planning with the SAP Liquidity Planner. This collection also provides you with the latest coverage of CPM, Balanced Scorecard and much more, including complete details on Account Determination and Production Variance Analysis.

**AVAILABLE NOW** ■ H1963 ■ \$469.00 ■ More than 1400 pages

Please note: Collection contents, pricing and availability subject to change. See [www.sap-press.com](http://www.sap-press.com) for current details. Shipping charges apply for orders outside the US and Canada.

### SAP NetWeaver BI Integrated Planning for Finance

by Kumar Srinivasan, and Sridhar Srinivasan

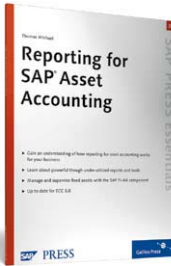

Readers learn how best to configure, develop, and manage planning applications in a simple and easy-to-follow manner. All the key features and most important aspects are covered in detail, providing you with everything you'll need in order to build a comprehensive planning application. The included examples provide you with a deep understanding of the various features and allow you to reproduce them in your own environment — showing you exactly how the SAP BI Integrated Planning tool works.

**AVAILABLE NOW** ■ H1977 ■ \$69.95 ■ 314 pages

Part of the SAP NETWEAVER COLLECTION See p. 6

Part of the BI/BW COLLECTION See p. 5

Part of the FINANCIALS COLLECTION See p. 12

### Reporting for SAP Asset Accounting

by Thomas Michael

Based on SAP ECC 6.0, this in-depth technical guide uncovers the complete reporting solution for the Asset Accounting sub-module of SAP. You will learn about standard SAP-delivered asset reports, including balance-based reports and transaction-based reports. You'll also expand your knowledge of asset-specific reporting tools such as sort versions, simulation versions, and currency translations. Readers quickly get a keen understanding of how to effectively use all of the reporting options available within Asset Accounting.

**AVAILABLE NOW** ■ H1978 ■ \$85.00 ■ 96 pages

Part of the FINANCIALS COLLECTION See p. 12

**NEW!**

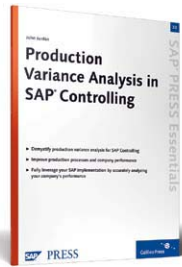

### Migrate Successfully to the New SAP General Ledger

by Paul Theobald

This guidebook you how to migrate successfully from the SAP classic GL to the new GL in the SAP ERP 2004/2005 releases. You'll learn how to run all aspects of the migration project, including staffing the project team, a proposed project timeline, when and how to engage SAP (SAP provides a migration service), potential problems, and how to avoid them.

Tightly focused on technical and accounting issues, this book also provides strategies for ensuring that proper accounting statements and practices are being adhered to. And it teaches you about important new functionality for the new GL, such as document splitting, while providing knowledge on the best upgrade strategies. This is the one resource you need for a successful and smooth migration from the Classic GL to the new GL.

**AVAILABLE 11/2007** ■ H2907 ■ \$85.00 ■ 99 pages

## Production Variance Analysis in SAP Controlling

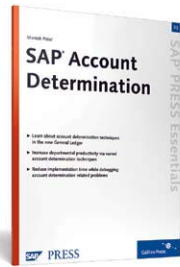

by John Jordan

This in-depth guide helps you analyze your company's performance by showing you how to use production variance analysis in SAP Controlling (CO). The author helps you identify the breakdown points in your company's performance and provides exclusive insights to better understand how these processes can be improved. Readers quickly learn how to make production processes more efficient, thereby directly and positively impacting your organization's bottom line.

**AVAILABLE NOW** ■ H1946 ■ \$85.00 ■ 120 pages

Part of the **FINANCIALS COLLECTION** See left

Part of the **SCM & LOGISTICS COLLECTION** See p. 14

## SAP Account Determination

by Manish B. Patel

Finally, a single reference point for all of the various account determination techniques used in SAP! Readers can reduce implementation time with expert insights and step-by-step clarification of the various techniques in each module for generating General Ledger postings. Learn account determination techniques for HR/Payroll, MM, SD and other important modules. With additional coverage on AR/AP, tax, and bank transactions, this comprehensive guide is a must-have resource.

**AVAILABLE NOW** ■ H1947 ■ \$85.00 ■ 93 pages

Part of the **FINANCIALS COLLECTION** See left

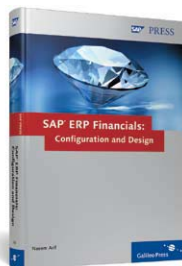

## New General Ledger in mySAP ERP Financials

by Eric Bauer and Jörg Siebert

Readers get an insightful overview of all the most important new functionalities and advantages that the new G/L has to offer.

The authors show you how to achieve the ultimate in reporting transparency, both from the legal and the management reporting standpoints. A full-length chapter on migration provides key answers to your most burning questions. This book goes above and beyond the answers, showing you how to master your transition to the new G/L and how to get the very most from its vast range of functionalities.

**AVAILABLE 11/2007** ■ H1976 ■ \$69.95 ■ Approx. 325 pages

## SAP ERP Financials: Configuration and Design

by Naeem Arif

This comprehensive SAP Financials guide deals with the most important issues related to design and configuration and provides readers with a real-world, holistic business approach to SAP Financials. Coverage includes everything from understanding SAP Financials and its place in the SAP landscape, to learning how the General Ledger can work for you. In addition, this long awaited book also explores Accounts Payable and Accounts Receivable and offers expert advice on integrating Financials with other modules.

**AVAILABLE 4/2008** ■ H1997 ■ \$79.95 ■ Approx. 500 pages

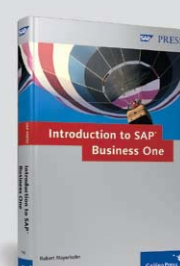

## SAP CO-PA: Implementation and Configuration

by Marco Sisfontes-Monge

Based on ECC 6.0, this book explores the required elements for a successful CO-PA implementation, from a process-oriented perspective. Detailed coverage includes the fundamentals of profitability management, development of the CO-PA models and interaction with the FI component of R/3. In addition, you'll uncover priceless guidance on the configuration of Account-Based and Costing-Based CO-PA, extraction and retraction, and much more. This unique reference clarifies CO-PA's integration with other SAP components, such as SAP BI/BW, and concisely addresses the fundamental managerial questions required in any implementation.

**AVAILABLE 2/2008** ■ H2900 ■ \$79.95 ■ Approx. 400 pages

## Introduction to SAP Business One

by Robert Mayerhofer

Focused on end-users, this detailed reference supports you with expert insights, step-by-step instruction, practice tests, and an ongoing example that's developed further by the author in each successive chapter. Each of the most important components of SAP Business One is covered in detail: purchasing, sales, warehouse management, opportunities, finance and bank management, and service and personnel management. The appendices contain a compact overview of all buttons, icons, and shortcuts. Suitable for self-study, this book is also an invaluable reference for continuous help with your daily work. Based on the SAP Business One 2005 release.

**AVAILABLE NOW** ■ H1979 ■ \$69.95 ■ 466 pages

## SCM & Logistics Resources

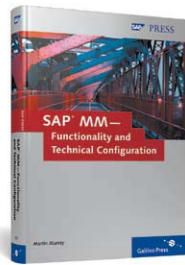

### Effective SAP SD

by D. Rajen Iyer

Get a practical overview of SAP Sales and Distribution (SAP SD) and learn how to apply SD to your own company's business model. This unique reference demystifies often misunderstood and confusing topics like data transfer, notification, SD's influence on Materials Management (MM), and the SD Supply Chain Extension. In addition, you'll benefit from expert insights into how SD integrates and interacts with other key modules such as Financials and Controlling (FI/CO), and more.

**AVAILABLE NOW** ■ H1944 ■ \$69.95 ■ 362 pages

Part of the SCM & LOGISTICS COLLECTION See below

### SAP MM — Functionality and Technical Configuration

by Martin Murray

This book covers all aspects of SAP Materials Management (SAP MM), including MM Master Data, Purchasing, Inventory Management, and Financial Integration. Readers discover the ins and outs of cross-application topics that are relevant to MM, such as document management, batch management, and classification. This unique reference gives readers a comprehensive understanding of SAP MM, how it works, and how it interacts with other SAP modules.

**AVAILABLE NOW** ■ H1912 ■ \$69.95 ■ 479 pages

Part of the SCM & LOGISTICS COLLECTION See below

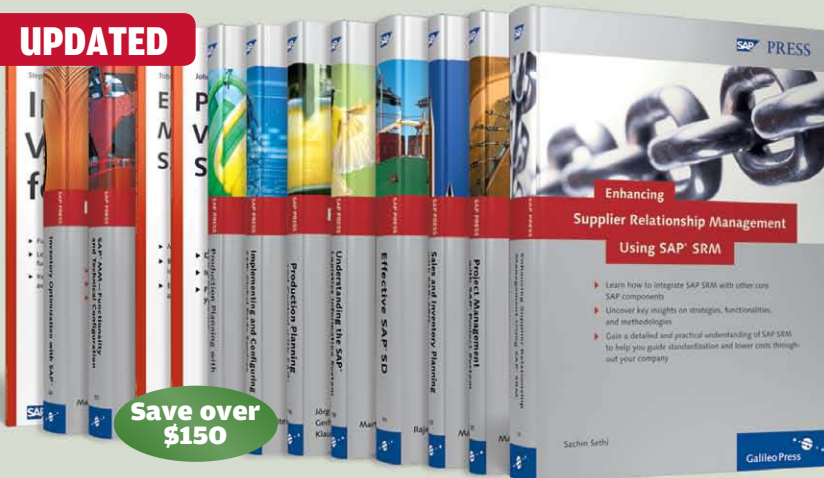

### SAP Warehouse Management: Functionality and Technical Configuration

by Martin Murray

This comprehensive reference guide for SAP Warehouse Management (WM) first introduces you to the fundamental aspects of this important module. Then, get an in-depth understanding of the functionality of WM and learn best practices for how to configure it. This detailed guide includes all key aspects of WM, including WM Master Data, Stock Replenishment, Picking and Putaway strategies, as well as Storage Unit Management. Readers quickly gain a complete understanding of WM and its interaction with other SAP Supply Chain modules, making this book a truly indispensable resource.

**AVAILABLE NOW** ■ H1982 ■ \$79.95 ■ Approx. 503 pages

**UPDATED**

### The SCM & Logistics Collection

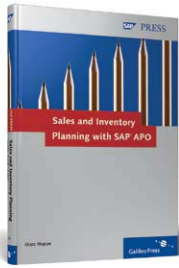

With practical, expert guidance on SAP Materials Management (SAP MM), SAP Inventory Optimization, Invoice Verification, Production Planning, Variance Analysis and much more, this unique collection will benefit anyone who is looking to get the very most from SAP Supply Chain and Logistics technology. Take advantage of this offer and get all thirteen resources together for a discounted price.

**AVAILABLE NOW** ■ H1969 ■ \$799.00 ■ More than 4000 pages

Please note: Collection contents, pricing and availability subject to change. See [www.sap-press.com](http://www.sap-press.com) for current details. Shipping charges apply for orders outside the US and Canada.

### The SCM & Logistics Collection includes the following books:

- Effective SAP SD
- Efficient Supply Chain Management with SAP Solutions for RFID
- Enhancing Supplier Relationship Management Using SAP SRM
- Implementing and Configuring SAP Global Trade Services
- Inventory Optimization with SAP
- Invoice Verification for SAP R/3
- Production Planning and Control with SAP
- Production Planning with SAP APO-PP/DS
- Production Variance Analysis in SAP Controlling
- Project Management with SAP Project System
- Sales and Inventory Planning with SAP APO
- SAP MM — Functionality and Technical Configuration
- Understanding the SAP Logistics Information System

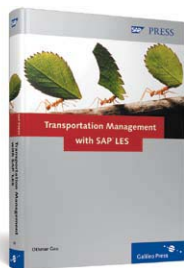

## Sales and Inventory Planning with SAP APO

by Marc Hoppe

This book explores best practices for using APO-DP and APO-SNP in your supply chain. Readers learn how to improve forecast accuracy, optimize transport costs, and much more. This unique resource also provides you with expert insights on inventory and distribution resource planning (SNP), helping readers increase customer satisfaction, improve inventory planning, and more.

**AVAILABLE NOW** ■ H1957 ■ \$69.95 ■ 441 pages

Part of the SCM & LOGISTICS COLLECTION  
See left

**NEW!**

## Transportation Management with SAP LES

by Othmar Gau

This book provides detailed knowledge on all aspects of shipping and transportation with SAP Logistics Execution System (LES). Using this book, employees in the warehouse and shipping departments, as well as consultants, can benefit from proven best practices for working successfully with the Transportation Management module. Plus, readers also learn how to master system configuration, and much more.

**AVAILABLE 2/2008** ■ H2909 ■ \$79.95 ■ 500 pages

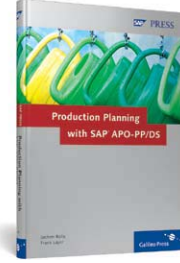

## Mobile Applications in Warehouse and Shipping with SAP WM

by Dirk Eichholz, Jan-Martin Lichte, and Hans-Georg Nüvemann

Learn how to make the best possible decisions for system configuration, technical implementation, flow control, and more. Goods receipt, picking, and physical inventory are covered in detail and additional concepts help you enhance the standard SAP system in areas where the RF transactions provided do not yet represent a satisfactory solution.

**AVAILABLE 11/2007** ■ H1981 ■ \$85.00 ■

Approx. 130 pages

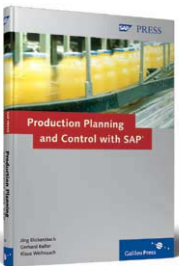

## Production Planning with SAP APO-PP/DS

by Jochen Balla and Frank Layer

Learn how to use the central functions of SAP APO-PP/DS and everything you need to know to optimally set up data exchange using SAP APO Core Interface (CIF), including extensive details on APO master data. In addition, discover how to use the central planning and analysis tools and much more. Based on SAP APO 5.0, this book is equally relevant for users of older releases.

**AVAILABLE NOW** ■ H1945 ■ \$69.95 ■ 331 pages

Part of the SCM & LOGISTICS COLLECTION  
See left

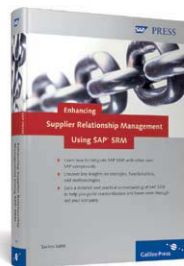

## Production Planning and Control with SAP

by Jörg Dickersbach, Gerhard Keller, and Klaus Weihrauch

Expert insights help you master the processes and customizing features of SAP PP (mySAP ERP 2005 release). This comprehensive reference covers all production planning and control aspects as well key details on mySAP SCM (APO) integration, all bolstered by volumes of examples and a complete glossary.

**AVAILABLE NOW** ■ H1939 ■ \$69.95 ■ 474 pages

## Enhancing Supplier Relationship Management Using SAP SRM

by Sachin Sethi

Get practical advice on enhancing procurement in your company using mySAP SRM, including full details on the functionality, new enhancements and critical best practices. Plus, discover how processes between sourcing and procurement can be automated, within the enterprise, across the supply base, and much more.

**AVAILABLE NOW** ■ H1943 ■ \$69.95 ■ 696 pages

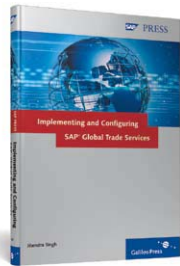

## Project Management with SAP Project System

by Mario Franz

Beginning with a comprehensive overview of the functions and customization options of SAP Project System, readers learn how to maintain control of the entire project lifecycle — from design to planning, budgeting, controlling, invoicing, and beyond. In addition, this detailed reference provides concise details on the wide range of integration scenarios.

**AVAILABLE NOW** ■ H1956 ■ \$69.95 ■ 483 pages

## Implementing and Configuring SAP Global Trade Services

by Jitendra Singh

This reference examines a wide range of business-related issues in the global trade arena. Comprehensive explanations introduce you to each of the GTS modules before going on to tackle real-world global trade issues. From implementation to compliance management and customs management, this book helps any reader get up to speed quickly.

**AVAILABLE NOW** ■ H1930 ■ \$69.95 ■ 201 pages

## SAP Java Connector — Operation and Development

by Ilja-Daniel Werner

This highly-detailed technical guide provides you with a complete understanding of how to maximize the functionality of the SAP Java Connector. Using this practical, hands-on manual, you'll uncover all aspects of application development with the JCo. From first connecting the worlds of ABAP and Java to the reciprocal call of building blocks, the author gives you all the instruction needed for mastering exception handling, debugger functionalities, and for securing your communications with TRFC and qRFC. In addition, extra chapters deal with the essential topics of IDocs and Java, mass data, and much more.

**AVAILABLE NOW** ■ H1991 ■ \$85.00 ■ 94 pages

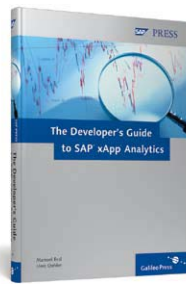

## Developing Accessible Applications with SAP NetWeaver

by Josef Köble

A developer's complete guide to programming accessible applications using SAP NetWeaver technology. Readers get step-by-step guidance on the requirements and conceptual design and development using ABAP Workbench, SAP NetWeaver Developer Studio, and SAP Visual Composer. The authors provide you with a detailed presentation of all relevant design elements for Dynpro, WebDynpro (ABAP and Java), and Adobe Interactive Forms. In addition, you'll learn the ins and outs of testing applications, as well as configuration techniques for both front-end interfaces and back-end applications.

**AVAILABLE NOW** ■ H1985 ■ \$79.95 ■ 364 pages

Part of the SAP NETWEAVER COLLECTION

## The ABAP Collection includes the following books:

- ABAP Development for SAP BW — User Exits and BADs
- ABAP Objects
- The ABAP Quick Reference
- Design Patterns in Object-oriented ABAP
- Enhancing the Quality of ABAP Development
- Next Generation ABAP Development
- The Official ABAP Reference
- Web Dynpro for ABAP
- Web Programming in ABAP with the SAP Web AS
- XML Data Exchange using ABAP

## The ABAP Collection

Get volumes of comprehensive expert instruction, proven techniques, and priceless reference materials. Seize this opportunity to improve your team's productivity, save time, and avoid costly mistakes, using our largest, most complete collection of all. With thousands of pages of detailed instruction and step-by-step guidance on the most critical aspects of ABAP programming, you are sure to enhance your mastery of ABAP. This collection comes complete with The Official ABAP Reference and The ABAP Quick Reference.

**AVAILABLE NOW** ■ H1968 ■ \$699.00 ■ More than 4500 pages

Please note: Collection contents, pricing and availability subject to change. See [www.sap-press.com](http://www.sap-press.com) for current details. Shipping charges apply for orders outside the US and Canada.

## Next Generation ABAP Development

by Rich Heilman and Thomas Jung

This book shows advanced ABAP programmers new concepts, technologies, techniques, and functions that have been introduced to ABAP (Release 7.0) in the last few years. Based on a single real-world example that runs throughout the book — a university upgrading from SAP R/3 4.6C to SAP NetWeaver 2004s — you'll follow along with the university's lead ABAP developer as he develops a custom course booking system. This unique approach allows readers to view the entire process of design, development, and testing — right through the eyes of a developer.

**BONUS CD:** Includes source code for all examples!

**AVAILABLE NOW** ■ H1986 ■ \$69.95 ■ 479 pages

Part of the ABAP COLLECTION

See above

## Design Patterns in Object-oriented ABAP

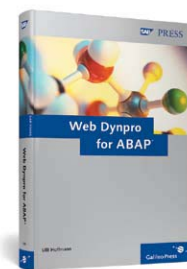

by Igor Barbaric

This new guide introduces experienced ABAP programmers to the detailed concepts of Design Patterns in object-oriented ABAP. Using real-life scenarios from a fully functional business application, the author shares key insights, while showing you proven best practices for how to implement the most common Design Patterns in ABAP Objects. Adapter, Composite, Decorator, Facade, and — probably the most well known — Model View Controller (MVC) are all covered extensively. After reading this exclusive guide, you can quickly unleash the full potential of Design Patterns to improve the robustness of your most critical applications.

**AVAILABLE NOW** ■ H1915 ■ \$85.00 ■ 87 pages

Part of the ABAP COLLECTION

## Web Dynpro for ABAP

by Ulli Hoffman

Developers must stay ahead of the curve by ensuring that they are up-to-date with all of the latest standards. This book illustrates the many benefits that can be realized with component-based UI development using Web Dynpro for ABAP. On the basis of specifically developed sample components, readers are introduced to the architecture of the runtime and development environments, and receive highly-detailed descriptions of the different functions and tools that enable you to efficiently implement Web Dynpro technology on the basis of SAP NetWeaver 2004s. Numerous code listings, screen captures, and little-known tricks make this book your indispensable companion.

**AVAILABLE NOW** ■ H1916 ■ \$69.95 ■ 375 pages

Part of the ABAP COLLECTION

See above

## The Official ABAP Reference

by Horst Keller

This expansive 2-volume collection covers each current or obsolete command in ABAP, conveniently sorted into subject areas, up to and including the current Release 6.40. You will also benefit from a comprehensive overview of the application context of each respective instruction. Details on potential error messages, as well as practical recommendations, make this exclusive reference indispensable. An enormous glossary, in which all technical terms from the ABAP environment are defined, serves as an excellent complement. For this considerably extended new edition, all chapters have been revised and updated for Release 6.40. You can also take advantage of insights on many new subject areas, like ABAP and XML, which are explained in great detail for the first time.

**BONUS:** Includes SAP Web AS 6.20 test version on 3 CDs

**AVAILABLE NOW** ■ H958 ■ \$149.95 ■ 1197 pages

Part of the ABAP COLLECTION See p. 18

## ABAP Objects

ABAP Programming in SAP NetWeaver

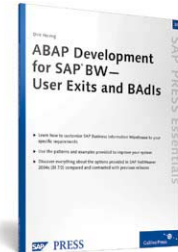

by Horst Keller and Sascha Krüger

The all-new 2nd edition of this bestselling book covers ABAP development with SAP NetWeaver. Based on ABAP Objects, this 1000+ page book describes all concepts of modern ABAP up to Release 7.0 (including a "sneak preview" of Release 7.10). Brand new topics found in the new edition include SAP NetWeaver Application Server ABAP, Regular Expressions, Shared Objects, class-based exception handling, assertions, Web Dynpro for ABAP, Object Services, dynamic programming, interface technologies (RFC, ICF, XML), and test tools, among others. Procedural techniques are also covered where necessary.

## ABAP Development for SAP BW — User Exits and BADIs

by Dirk Herzog

This detailed technical guide shows you how to implement custom developments in ABAP, specifically for use in SAP Business Information Warehouse (SAP BW). Readers quickly learn the basics and dive into all key aspects of high-performance ABAP programming techniques, plus uncover the options available to manipulate the data flow from the source system through to the report. In addition, you learn how to develop extractor exits and their extensions, and how best to customize data in SAP NetWeaver BI. The book is ideally suited for developers supporting a release upgrade.

**AVAILABLE NOW** ■ H1948 ■ \$85.00 ■ 111 pages

Part of the ABAP COLLECTION See p. 18

Part of the SAP BI/BW COLLECTION See p. 5

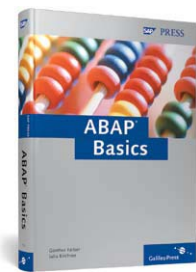

## XML Data Exchange using ABAP

by Tobias Trapp

Based on a variety of interface examples, readers are provided with highly detailed descriptions of all XML technologies including XML Library, XSLT (with a specific focus on XSLT 2.0 extensions), and Simple Transformations. Volumes of code samples enable you to implement your own data exchange scenarios and select the appropriate technologies to support them. In addition, readers benefit from practical guidance on all aspects of software development including specification, testing, data validation via Java integration, and more.

**AVAILABLE NOW** ■ H1937 ■ \$85.00 ■ 121 pages

Part of the ABAP COLLECTION See p. 18

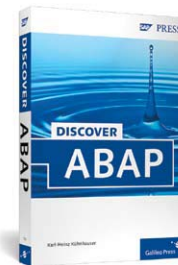

## ABAP Basics

by Günther Färber and Julia Kirchner

This book is the perfect guide on your journey to programming your first executable ABAP applications. Based on a real-life scenario, you'll be introduced to all the key areas of ABAP development, as this unique reference efficiently provides you with the fundamental knowledge needed for programming business-critical software. Numerous step-by-step procedures, screenshots, and little-known tips are used to describe procedural and object-oriented language elements in a clear and easy-to-understand way. In each chapter, you'll further extend the sample application so that you can easily reproduce and practice the development of a comprehensive ABAP application on your own — including all key details.

**AVAILABLE 11/2007** ■ H1992 ■ \$49.95 ■ Approx. 450 pages

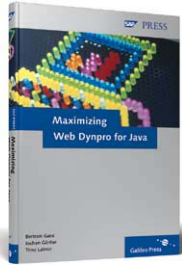

## Discover ABAP

by Karl-Heinz Kühnhäuser

This introductory book describes all relevant ABAP language elements in a series of clearly structured lessons. Adhering to the motto, "As much theory as necessary and as little as possible," you'll methodically familiarize yourself with one issue at a time — each one specifically relevant to solving the tasks described in the corresponding lesson. Based on an extended, real-life example that's referred to throughout the book, you'll quickly develop your own programming solutions — starting right from the first page. Then, you'll successfully use your custom source code in practice, developing the knowledge and skills needed to leverage the tools and methods introduced in this book in your everyday work.

**AVAILABLE 12/2007** ■ H1993 ■ \$39.95 ■ Approx. 400 pages

## Maximizing Web Dynpro for Java

by Bertram Ganz, Jochen Gürtler  
and Timo Lakner

From the interaction with the Java Developer Infrastructure (JDI), to the use of Web Dynpro components, to the integration into SAP NetWeaver Portal and the use of its services — this unique book delivers it all. In addition, readers get dozens of tips and tricks on fine-tuning Web Dynpro applications in terms of response time, security, and structure. Expert insights on the configuration and administration of the Web Dynpro runtime environment, as a component of SAP NetWeaver 2004, serve to round out this comprehensive reference.

**AVAILABLE NOW** ■ H1928 ■ \$69.95 ■ 495 pages

## Advanced BSP Programming

by Brian McKellar

Every chapter provides step-by-step instruction and practical guidance on issues that many developers face in their everyday work. Insider know-how on the essentials of BSP programming, exclusive hints on measuring and boosting performance, and in-depth troubleshooting advice all come together to make this book indispensable. Readers also get detailed coverage of RSS Feeds, F4 helps, BSP integration in the SAP GUI, and much more. BSP Extensions are also covered — you learn everything about events, using BSP Element Expressions (BEEs), and creating custom BSP Extension Elements, and more.

**BONUS CD:** Comes complete with all code examples and transport requests

**AVAILABLE NOW** ■ H1903 ■ \$69.95 ■ 485 pages

## Mastering IDoc Business Scenarios with the SAP Exchange Infrastructure 3.0

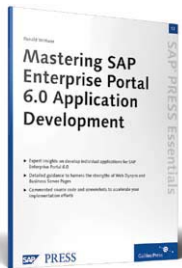

by Michal Krawczyk and Michal Kowalczewski

First, readers get expert advice on the usage, configuration and administration of IDocs. The second half of this technical guide deals with key integration processes, which are carried out with the SAP NetWeaver Exchange Infrastructure: Sending IDocs to SAP XI or vice versa, IDoc monitoring within SAP NetWeaver landscapes and all aspects of exchange development (tunneling, packaging, serialization, mapping). This guide is guaranteed to advance your mastery of IDocs in any scenario imaginable.

**AVAILABLE NOW** ■ H1935 ■ \$85.00 ■ 103 pages

Part of the SAP NETWEAVER COLLECTION

See p. 6

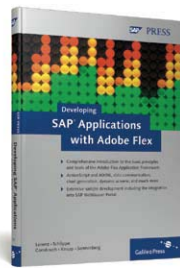

## Mastering SAP Enterprise Portal 6.0 Application Development

by R. Wittwer

Readers are taken through a detailed scenario that illustrates, step-by-step, the various techniques available to display your information, such as Web Dynpro, Business Server Pages, and iViews. The core technical principles for each programming method are explained in detail with commented code examples and screenshots, while the various pros and cons are examined. Volumes of tips and tricks ensure that this guide will quickly become your most trusted companion when developing professional portal applications. Beginners, as well as experienced programmers who wish to begin portal programming or learn more about the topic, will find this guide to be highly valuable.

**AVAILABLE NOW** ■ H1917 ■ \$85.00 ■ 79 pages

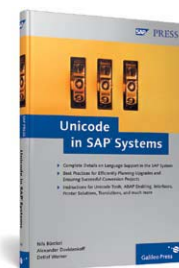

## Developing SAP Applications with Adobe Flex

by Armin Lorenz and Gunther Schöppe

This book provides you with the practical guidance needed to develop intuitive user interfaces and customer-specific, next generation Internet applications for SAP NetWeaver Portal, using Adobe's Flex Application Framework.

First, get a concise introduction to the basic principles of Rich Internet Applications in the SAP environment, followed by complete details on the development environment for Flex applications: Adobe Flex Builder. Using clearly structured examples, you'll quickly learn to understand the syntax of the Flex programming languages, ActionScript and MXML, plus how to securely use their commands and components. In addition, the book covers usability and performance optimization, offline applications, push data services, and the integration of multiple back-end systems, giving you the step-by-step expert advice needed to implement your own Flex applications.

**AVAILABLE NOW** ■ H1951 ■ \$69.95 ■ 298 pages

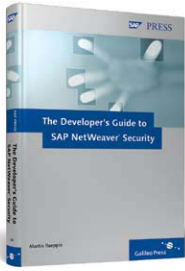

## Unicode in SAP Systems

by Nils Bürckel, Alexander Davidenkoff  
and Detlef Werner

Our comprehensive reference book provides you with key answers to your most critical questions. Decision makers will find a profound basis for assessing business-relevant facts, and project teams get real-world technical details on implementation and support. In addition, this book provides readers with detailed coverage of the Unicode architecture, the installation and conversion processes, and best practices for optimizing all aspects of the Unicode infrastructure.

**AVAILABLE NOW** ■ H1984 ■ \$69.95 ■ 316 pages

## The Developer's Guide to SAP NetWeaver Security

by Martin Raeppe

**NEW!**

This book is a practical guide for developers, system integrators, and software architects. It covers all security technologies in conjunction with SAP NetWeaver Application Server up to and including Release 7.0. In addition to describing the basic principles of the different technologies, such as Web Service Security, Single Sign-On, SAML, SPML, the book focuses on providing practical exercises and examples that help you gain a profound understanding of the standards used, enabling you to better assess their intended purpose. The book serves as an A-to-Z reference book that enables you to use – and benefit from – open security standards that are based on service-oriented architectures (Enterprise SOA).

**AVAILABLE 4/2008** ▪ H2919 ▪ \$69.95 ▪ Approx. 600 pages

## Mastering SAP XI — Programming

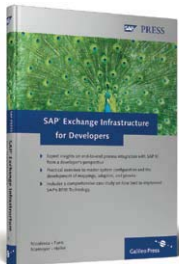

by Marcus Banner, Halil-Cem Gürsoy and Heinzpeter Klein

This hands-on tutorial is specifically designed for programmers with basic knowledge of ABAP and Java who are tasked with developing mappings or customer-specific adapters for SAP Exchange Infrastructure (SAP XI). The authors cover programming in both ABAP and Java and provide readers with valuable information on how best to utilize the Integrated Development Environment (IDE). This exceptional technical guide focuses on the development of a user-defined adapter, and provides you with step-by-step structural details as well as complete source code, all of which is available for download.

**AVAILABLE NOW** ▪ H1983 ▪ \$85.00 ▪ 108 pages

Part of the SAP NETWEAVER COLLECTION See p. 6

Part of the SAP XI DEVELOPER'S 2-PACK See below

## SAP Exchange Infrastructure for Developers

by V. Nicolescu, B. Funk, P. Niemeyer, M. Heiler, H. Wittges, T. Morandell, F. Visintin, and B. Kleine Stegemann

First, readers learn about the central challenges involved with business information systems integration and uncover the extensive options and functions provided by SAP XI to resolve these issues — with a special emphasis on the importance of SAP XI in ESA scenarios.

Then, the authors take you deep into the system with a series of practical exercises for the development and configuration of mappings, adapters, and proxies: RFC-to-File, File-to-IDoc, ABAP-Proxy-to-SOAP, and Business Process Management. Save time and avoid costly errors in your daily work using the detailed instructions on how best to handle necessary development and configuration objects of SAP XI, plus much more.

**AVAILABLE NOW** ▪ H1950 ▪ \$69.95 ▪ 338 pages

Part of the SAP NETWEAVER COLLECTION See p. 6

Part of the SAP XI DEVELOPER'S 2-PACK See below

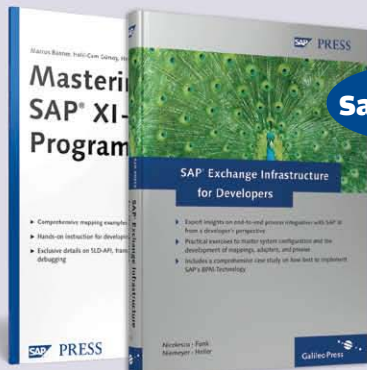

## The Developer's Guide to the SAP NetWeaver Composition Environment

by Jan Rauscher and Volker Stiehl

**NEW!**

The SAP NetWeaver Composition Environment provides everything you need to develop composite applications quickly and efficiently using SAP NetWeaver CE 7.1. By reading this book you'll learn how to use the development tools and methods to build composite applications using SAP NetWeaver CE in your daily work. The book enables you to decide at any time which tool is the best choice in your particular situation: Composite Application Framework, Web Dynpro, SAP NetWeaver Visual Composer, SAP Interactive Forms, or Guided Procedures. Whether you're an IT Architect or a Business Process Expert responsible for providing a solution for a specific business process, a Product Manager who has to define application requirements, or if you're a developer, this book helps you to quickly build or reproduce your first composite application.

**AVAILABLE 4/2008** ▪ H2920 ▪ \$69.95 ▪ Approx. 300 pages

**Save 10%**

## The SAP XI Developer's 2-Pack

**NEW!**

Take your SAP XI development skills straight to the next level — and beyond — using the volumes of practical tips, proven techniques and expert guidance found only right here in this exclusive book bundle for serious programmers. You'll save countless hours of trial and error and avoid costly mistakes as you boost your mastery of SAP XI development using these priceless resources.

The SAP XI Developer's 2-Pack includes the following books:

- SAP Exchange Infrastructure for Developers
- Mastering SAP XI — Programming

**AVAILABLE NOW** ▪ H2926 ▪ \$139.00 ▪ More than 400 pages

Please note: Collection contents, pricing and availability subject to change. See [www.sap-press.com](http://www.sap-press.com) for current details. Shipping charges apply for orders outside the US and Canada.

## Archiving Your SAP Data — 2nd Edition

*A comprehensive guide to planning and executing archiving projects*

by **Helmut Stefani**

This completely revised edition of our bestseller is up-to-date for SAP ECC 6.0 and provides you with valuable knowledge to master data archiving with SAP. This fully updated book includes two all-new chapters on XML-based data archiving in SAP HCM and detailed descriptions of all the new functions and technologies, such as Archive Routing and transaction TAANA. The book focuses on the requirements of system and database administrators as well as project collaborators who are responsible for implementing data archiving in an SAP customer project.

**AVAILABLE NOW** ■ H956 ■ \$69.95 ■ 406 pages

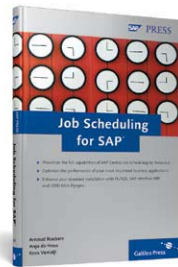

## SAP on Windows

by **Josef Steizel, Uwe M. Hoffmann, Ulrich B. Boddenberg and Michael Mißbach**

The authors offer proven best practices for the consistent administration of systems, different virtualization and automation technologies, as well as monitoring and deployment solutions. In addition, this book provides you with exclusive coverage of security concepts, the administration of frontends, and the maintenance of SAP applications and technical infrastructures. By helping you plan ahead for upcoming challenges with new Windows versions and Enterprise SOA, this book helps ensure the continued stable and secure operation of your data center.

**AVAILABLE 10/2007** ■ H2902 ■ \$69.95 ■ Approx. 575 pages

## Job Scheduling for SAP

by **Kees Verruijt, Arnoud Roebbers, and Anjo de Heus**

Learn the ins and outs of job scheduling with SAP Central Job Scheduling by Redwood and Redwood Cronacle. Readers uncover critical details on the architecture, plus exclusive technical insights that cannot be found elsewhere. The authors cover both decentralized and centralized SAP job scheduling and provide you with practical, real-world advice to drastically bolster standard installation and configuration guides.

Special attention is paid to both individual CCMS and BI jobs, as well as to integration methods for these enterprise-level job chains. This book leaves no stone unturned.

**AVAILABLE NOW** ■ H1929 ■ \$69.95 ■ 301 pages

## SAP Solution Manager

by **Matthias Melich and Marc O. Schäfer**

First, you get an overview of all functionalities and learn how the application management approach of the SAP Solution Manager conveniently maps and extends the ITIL model. Then, the authors show you how you can use the SAP Solution Manager for requirements analysis, design, composition, deployment, operation, and more. Detailed examples illustrate all key functions of the SAP Solution Manager, such as monitoring, reporting, service desk, change request management, plus customer reports from the ramp-up of release 4.0.

Part of the IT MANAGEMENT COLLECTION

**NEW!**

## Building Web Infrastructures with SAP NetWeaver Application Server

by **Oliver Nocon and Volker Zirkel**

With a practical focus on application and infrastructure know-how, this book deftly supports system administrators, network architects, technical consultants, and security experts in making key decisions on how best to create a complex web infrastructure that fulfills all the latest security requirements. Several detailed examples shed additional light and serve to complete the intricate, yet straightforward, picture painted by the authors.

**AVAILABLE 2/2008** ■ H2911 ■ \$85.00 ■ Approx. 100 pages

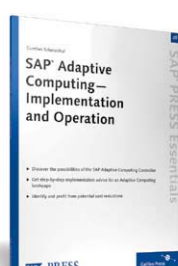

## SAP Database Administration with Oracle

by **Michael Höding, André Faustmann, Gunnar Klein and Ronny Zimmermann**

This book provides step-by-step instructions for all of the most important administration tasks. Every aspect of system landscape planning and maintenance is covered. Bonus chapters deal with Java, BW, Adaptive Computing and the highly complex issues of Backup, Recovery, and Restoration.

**AVAILABLE 4/2008** ■ H1988 ■ \$89.95 ■ Approx. 800 pages

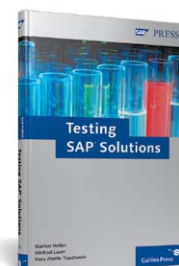

## SAP Adaptive Computing — Implementation and Operation

by **Gunther Schmalzhaf**

Learn about the architecture and configuration of the SAP Adaptive Computing Controller, as well as its integration into the Adaptive Computing Landscape. The author provides you with concrete application examples for various types of landscapes and leads you through an exemplary configuration (SAP system, ACC, and SAP Solution Manager), making it easy for you to identify and profit from untapped potentials for cost reduction.

**AVAILABLE NOW** ■ H1987 ■ \$85.00 ■ 98 pages

Part of the ADMIN COLLECTION See p. 25

## Testing SAP Solutions

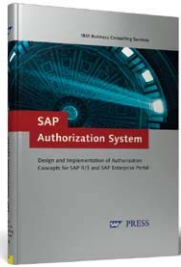

by **Markus Helfen, Michael Lauer, and Hans Martin Trauthwein**

This book provides you with comprehensive coverage of all testing requirements and techniques necessary for implementing, upgrading, or operating SAP solutions. Readers get an overview of all existing tools, their functionalities, and best practices for utilization. The authors focus mainly on SAP Solution Manager, Test Workbench and eCATT, and their use in load and operation tests is highlighted in detail.

- Adaptive Hardware Infrastructures for SAP
- Archiving your SAP Data
- Java Monitoring Infrastructure in SAP NetWeaver '04
- Job Scheduling for SAP
- Mastering SAP XI — Administration
- SAP Adaptive Computing
- SAP Authorization System
- SAP Change and Transport Management
- The SAP OS-DB Migration Project Guide
- SAP Performance Optimization Guide — 4th Edition
- SAP R/3 System Administration
- SAP Security and Authorizations
- SAP Service and Support — 3rd Edition
- SAP Solution Manager
- Testing SAP Solutions

## The Admin Collection

The success of your organization depends largely on the quality and performance of your SAP landscape. This exclusive collection, available only from SAP PRESS, gives administrators an extensive compendium of highly-detailed resources, which provide expert guidance, little-known techniques and an overarching focus on optimizing your SAP systems and infrastructure. From security to SAP Solution Manager, to SAP XI administration techniques and beyond — this comprehensive collection gives readers volumes of practical advice for avoiding common errors, conquering performance-related challenges, effectively handling change management, troubleshooting, and much more.

**AVAILABLE NOW** ■ H1972 ■ \$939.00 ■ More than 5000 pages

Please note: Collection contents, pricing and availability subject to change. See [www.sap-press.com](http://www.sap-press.com) for current details. Shipping charges apply for orders outside the US and Canada.

## SAP R/3 System Administration

*The Official SAP Guide*

by Liane Will and Sigrid Hagemann

This book is essential for IT managers, technical consultants, and SAP R/3 system administrators who want to build on their knowledge of Basis administration. Drawing from first-hand knowledge, this book teaches you how to perform all critical system administration tasks with optimal efficiency.

Learn how to make smart decisions quickly, in complex situations, with expert advice and valuable real-world tips, which also make this unique reference indispensable for daily use.

**AVAILABLE NOW** ■ H960 ■ \$59.95 ■ 523 pages

## Mastering SAP XI — Administration

by Marcus Banner and Heinzpeter Klein

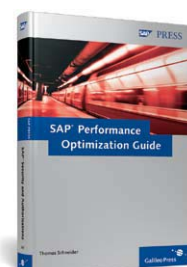

Effortlessly identify and avoid the common pitfalls in SAP XI administration. Starting with the critical decision on which systems to connect to XI, the authors guide you through the setup of the most important system parameters. Exclusive insights help you to quickly learn the basics of configuring the System Landscape Directory and Change Management Service.

Plus, you get a highly detailed introduction to the SAP XI transport system. This wealth of practical experience was developed during the successful completion of several SAP XI projects at a large IT service provider, as well as with an SAP Ramp-Up customer.

**AVAILABLE NOW** ■ H1914 ■ \$85.00 ■ 95 pages

## Global SAP Systems — Design and Architecture

by Alexander Davidenkoff, Detlef Werner

When you design international SAP systems, you face the central question of whether one global SAP system or distributed local systems fit your company better. This book is your comprehensive guide to help you make that decision. Project managers, IT managers, and other decision makers profit from business-relevant facts along with technical details for the practical realization of international implementation projects. This book covers all of the topics that matter in designing international SAP systems. You'll learn about the multifold requirements for such systems, which factors influence the system architecture, and which options there are for different system architectures. You'll also benefit from valuable tips, best practices, and customer reports.

AVAILABLE 4/2008 ■ H2917 ■ \$79.95 ■

Approx 270 pages

## Managing Organizational Change During SAP Implementations

by Luc Galoppin and Siegfried Caems

This book helps you prepare for change in a carefully organized manner, taking a holistic look at the organization, the impact of an SAP implementation, and how negative factors can be lessened or, in most cases, prevented early on. With a real-world, practical approach, this book gives readers pragmatic insights into the complex dimensions of organizational change that cannot be found elsewhere. Additional value is added as the authors describe the key considerations for each phase of the project lifecycle.

AVAILABLE NOW ■ H1933 ■ \$69.95 ■ 365 pages

Part of the IT MANAGEMENT COLLECTION See p. 28

## Sizing SAP Systems

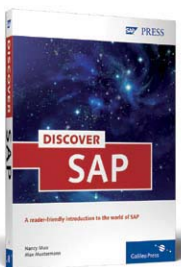

by Susanne Janssen, Ulrich Marquard

This technical guide provides system administrators, technical project managers, and consultants with comprehensive answers to all of the most pressing questions related to sizing. This book describes different methods and utilities that are available to determine the values you need and in doing so provides the basic information needed to efficiently use SAP's Quick Sizer in your initial sizing process, obtain satisfactory results, and to interpret these results in a useful manner. In addition, you'll also uncover the methods that enable you to verify sizing results, and much more.

Approx. 85 pages

Part of the IT MANAGEMENT COLLECTION See p. 28

## Discover SAP

by Nancy Muir, Ian Kimball

If you're new to SAP and want to learn more about it, or a decision-maker, pressed for time, who needs to gain a holistic understanding of SAP, then this book is for you.

A practical, reader-friendly guide for busy professionals, this comprehensive book helps you make quick sense of SAP solutions such as CRM, as well as applications integration, Enterprise Services Architecture, embedded analytics, and many other core topics. Plus, learn about SAP as a company, its history, vision, strategies, and much more.

AVAILABLE 12/2007 ■ H1989 ■ \$34.95 ■

Approx. 300 pages

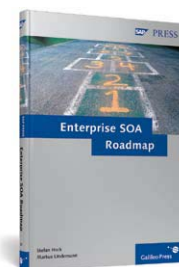

## Service Level Management — the ITIL Process in SAP Operations

by Vital Anderhub

This new guide describes the implementation of Service Level Management with SAP technology. Developed from the practice of SAP Global Support, this invaluable guide provides readers with mission-critical background information on Service Level Reporting and provides exclusive tips for establishing sensible key performance indicators in SAP operations. In addition, an entire chapter is devoted to providing extensive practical guidance for the implementation of these requirements, using SAP Solution Manager 4.0.

AVAILABLE NOW ■ H1927 ■ \$85.00 ■ 90 pages

Part of the IT MANAGEMENT COLLECTION See p. 28

## Enterprise SOA Roadmap

by Stefan Hack, Markus A. Lindemann

Based on a detailed analysis of more than 500 consulting projects that have been implemented by SAP Consulting across various industries, the authors develop concrete recommendations regarding the implementation of enterprise SOA. You'll benefit from a lessons-learned approach as you uncover how enterprises can best be supported on their individual paths towards the adoption of enterprise SOA. In addition, you'll discover proven methods for minimizing implementation risks and for sidestepping them altogether as the authors show you how you can apply proven implementation options, persuasive argumentation, and best practices within your organization.

AVAILABLE 2/2008 ■ H2905 ■ \$69.95 ■

Approx. 350 pages

**UPDATED**

**The IT Management Collection includes the following books:**

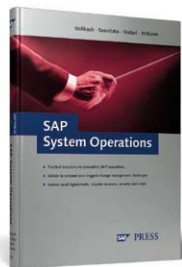

- CobiT and the Sarbanes-Oxley Act
- Enterprise Services Architecture for Financial Services
- Managing Organizational Change During SAP Implementations
- SAP Application Management with HP OpenView
- SAP IT Service & Application Management
- SAP Service and Support — 3rd Edition
- SAP Solution Manager
- SAP System Landscape Optimization
- SAP System Operations
- Sizing SAP Systems
- Service Level Management

**The IT Management Collection**

This exclusive grouping of SAP PRESS books has been specially handpicked to provide motivated managers with a vast depth and breadth of resources covering system landscape optimization, system operations, IT service and application management, service level agreements, Enterprise Service Architecture (ESA), and much much more.

**AVAILABLE NOW** ■ H1965 ■ \$619.00 ■ More than 1400 pages

## The complete strategic and technical library is now available from

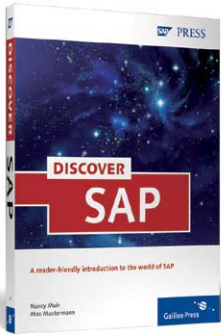

Give your team access to the world's most comprehensive reference library of SAP books and technical guides. Obtain a copy of each of our available titles and you could earn substantial savings for your organization. Contact us today to find out how.

Send your inquiry to [info@sap-press.com](mailto:info@sap-press.com) to find out how you can get all currently available SAP PRESS books — at a special discount price.

# DISCOVER SERIES

SAP PRESS proudly introduces “The Discover Series,” an all-new collection of introductory books specifically designed for those who are new to the world of SAP. Whether your company is considering, or about to begin, an SAP implementation, or if you’re looking to make sense of a certain SAP component, or begin a new career in the SAP arena, then these are the books for you. Our Discover Series authors are hand-picked for their specialized knowledge and for their keen ability to break down advanced SAP-related concepts into easy-to-understand, digestible morsels. Within this exclusive new series, even the most complicated technical jargon is clearly translated into layman’s terms, making these references indispensable for those who need to gain a quick, complete, and holistic understanding of SAP systems, software and technology. Check out the newly announced Discover books listed below and see our website for more details. Plus, stay tuned for many more books in the Discover Series, to be announced in the coming months!

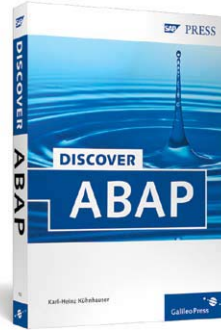

## Discover SAP

by Nancy Muir, Ian Kimball

If you’re new to SAP and want to learn more about it, or a decision-maker, pressed for time, who needs to gain a holistic understanding of SAP, then this book is for you.

A practical, reader-friendly guide for busy professionals, this comprehensive book helps you make quick sense of SAP solutions such as CRM, as well as applications integration, Enterprise Services Architecture, embedded analytics, and many other core topics. Plus, learn about SAP as a company, its history, vision, strategies, and much more.

**AVAILABLE 12/2007** ■ H1989 ■ \$34.95 ■ Approx. 300 pages

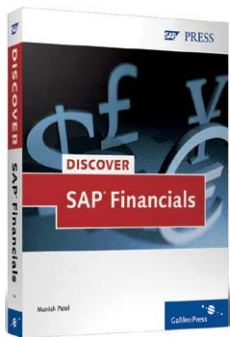

## Discover ABAP

by Karl-Heinz Kühnhauser

This introductory book describes all relevant ABAP language elements in a series of clearly structured lessons. Adhering to the motto, “As much theory as necessary and as little as possible,” you’ll methodically familiarize yourself with one issue at a time — each one specifically relevant to solving the tasks described in the corresponding lesson. Based on an extended, real-life example that’s referred to throughout the book, you’ll quickly develop your own programming solutions — starting right from the first page. Then, you’ll successfully use your custom source code in practice, developing the knowledge and skills needed to leverage the tools and methods introduced in this book in your everyday work.

**AVAILABLE 12/2007** ■ H1993 ■ \$39.95 ■ Approx. 400 pages

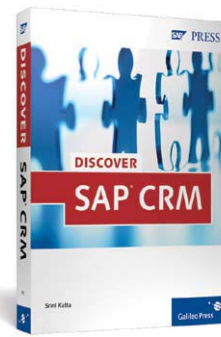

**NEW!**

## Discover SAP Financials

by Manish Patel

Business financials are an essential part of every business, large or small. Whether you just need basic accounting or you perform complex financial audits and reporting, your business needs a software tool that meets your needs. Discover SAP Financials explains how SAP can provide this solution. Using an easy-to-follow style filled with real-world examples, case studies, and practical tips and pointers, the book teaches the fundamental capabilities and uses of the core modules of SAP Financials. As part of the Discover SAP series, the book is written to help new users, decision makers considering SAP, and power users moving to the latest version learn everything they need to determine if SAP Financials is the right solution for your organization. This is the one comprehensive resource you need to get started with SAP Financials.

**AVAILABLE 4/2008** ■ H2918 ■ \$39.95 ■ Approx. 350 pages

**NEW!**

## Discover SAP CRM

by Srinu Katta

In today’s competitive market environment, companies who lose sight of their customer’s needs, lose those customers. Discover SAP CRM helps managers, consultants, power users, and aspiring users learn how SAP CRM can keep them competitive. It provides a detailed guide to all things CRM, including what it is, why SAP CRM is important, and what the many application interfaces are (Call Center, E-Commerce, Mobile, and Channel). The book teaches about the core areas of CRM, including marketing, sales, and service, and explains the different ways SAP CRM can be used and integrated into a business. It also explains the technology and tools behind CRM (Netweaver, Web Services, Business Server Pages, Java, ABAP, etc.), and covers the various user access modes used to utilize the applications (desktop, laptop, tablet PC, PDA, & smartphone).

**AVAILABLE 3/2008** ■ H2914 ■ \$39.95 ■ Approx. 320 pages
