Give your customers the decorating style and flair they want.

Why should you use our Ceramic Tiles?

- Ceramic tiles are materials of lasting beauty that can actually **increase** the value of your customers' home.
- The decal art is kiln-fired onto the tiles and the **deep rich colors** will not wash or wear off... as **durable** as it is **beautiful**.
- Ceramic tiles are **waterproof, heatproof and fade resistant**.
- **Cleaning is simple**. We recommend use of a glass or soft multi-purpose cleaner with a soft cloth.
- We use the **finest** decorative **ceramic decals** available from around the world.
- These tiles **will last** as long as the home.

What are the benefits to you?

- You can **mark your price up** as much as **150%** and still be inline with a few retailers around the country.
- **No minimum order**.
- Always, **free shipping**.

We use American Olean brand tiles which can be purchased at your local Lowes Home Improvement Center. The decal art, which is chosen from worldwide sources, is hand applied and kiln fired to 1450 degrees at our location. This allows us to change the orientation of the art on the tile to suite the customers' desires.

Ordering is easy anytime online.
