

Front fenders, rear fenders, fender struts and everything that goes on a fender. Zodiac offers a very wide selection of fenders in mild steel, aluminum and fiberglass. From stock replacement to extreme wide for your Custom project, Zodiac has them all. Here you will find brand names such as Sumax, Metapol, and Cruise Speed. For those who want to create their own individual design we even have untrimmed fenders available. Arlen Ness fenders are featured in chapter 25. The widest rear fenders we have now measure an incredible 14 1/4" wide, wide enough for 350 series tires. To make life a little easier for the customizers we also added "Build-Your-Own" fender struts, and V-Rod owners can easily change their bike into a spectacular design with the new RBS Phantom covers.

Long boy 21" front fender

"Build-Your-Own" custom fender struts

RBS Phantom covers for V-Rod

CUSTOM NARROW FRONT FENDER FOR FX/FXR/XL

Custom narrow front fender fits all FX, FXR and XL 1973 up front forks with either 35 or 39 mm fork tubes. Available in RAW and show-chrome finish. For use with 18", 19" or 21" rims (OEM 59031-83).

- 090088** Front fender, RAW finish
- 090092** Front fender, show-chrome finish

FRONT FENDER FOR HARLEY NARROW GLIDE

091001 Stock replacement front fender for FX-FXR-XL, fits 1973 and later. The unpainted fender comes complete with chrome brackets and necessary rivets (OEM 59007-73A & 59111-74).

SHORT FRONT FENDER FOR FX AND XL

091011 Custom front fender for FX, FXR and Sportster models from 1973 to present, bolts to the original mounting. The front tip has been cut back for a trim look. Comes complete with brackets. Show-chrome finish.

NARROW FRONT FENDER

Custom FXWG style narrow front fender. Fits FL front ends 1949 thru 1984 available in both RAW steel and show-chrome finish.

- 090059** Front fender RAW
- 090056** Front fender show-chromed

NARROW FRONT FENDER FOR WIDE GLIDE AND SOFTAIL MODELS

Custom style replacement fenders fit FXWG, FXST and FXSTC 1980 to present. Available in both RAW and show-chromed finish (OEM 59924-80).

- 090150** Custom Fender RAW
- 090154** Custom Fender chrome

FRONT FENDERS FOR SOFTAIL "DEUCE"

Stock replacement front fenders for 2000 to present Softail "Deuce" models. Fenders are made from mild steel and come unpainted in your choice of chrome plated or raw fender bracket. Can also be used for custom application on bikes with a 21" front wheel but note that Deuce forks, contrary to most Harley models, have the fender mounting holes in-line with the forks.

- 090343** With chrome bracket (OEM 59876-00)
- 090344** With raw bracket (OEM 59876-00)

CUSTOM SKIRTED FRONT FENDER WITH FLIP

090126 Based on the early K model front fender, Zodiac updated this timeless classic fender to fit all 35 mm and 39 mm front forks 1973 up.

FOR ARLEN NESS PRODUCTS
SEE SECTION 26

CUSTOM WIDE GLIDE FRONT FENDER

090196 This Custom dresser style front fender will fit Narrow Glide front ends when a Custom Wide Glide conversion kit has been installed. Styled like the FL version. To be used with 19" or 21" wheels only.

CUSTOM DUCKTAIL FRONT FENDER

090192 For use on 4 Speed FLH models when a 19" or 21" front wheel has been installed. Fender comes with polished spacer blocks to complete the Custom look.

DRESSER STYLE FRONT FENDER FOR FXWG AND SOFTTAILS

090195 The 16" front wheel is the latest rage on Wide Glide front ends, and this high-quality metal fender is the perfect finishing touch. Fits FXWG, FXST FXDWG and FXSTC models from 1980 to present. This zinc-chromate protected fender perfectly complements our Heritage conversion kit.

FRONT FENDER FOR FL MODELS

090014 Perfect reproduction of 1954 to 1984 4 Speed dresser front fender. Fender is structural reinforced, also fits FLT and FLHT models when trim holes are drilled Raw finish (OEM 59000-58G).

QUICKBOB STEEL FRONT FENDER FOR FXWG/FXST

090203 The low, wide look is coming back again, and these Quickbob front fenders recreate that nostalgic look. Will fit 1980 to present FXWG, FXST and FXSTC models.

FRONT FENDER FOR HERITAGE SOFTAIL MODELS

A perfect replica of the Heritage Softail front fender. Available with pre-drilled holes for fender trim set and fender tip, or in a plain version. Fits all Heritage Softail models from 1986 to present.

CUSTOM DUCKTAIL FRONT FENDER

090193 This superb looking front fender is designed for use on the FXWG and FXST(C) and offers a greater weather protection than the stock fender. Great to use with the Heritage conversion when the stock 21" wheel is retained. Fender is complete with polished die-cast spacers. Fits FXWG and FXST 1980 to present.

CUSTOM DUCKTAIL FRONT FENDER FOR SPRINGER SOFTAIL MODELS

090223 Springer front fender styled after our other Ducktail front fenders. This steel fender will bolt directly on in place of the Original Equipment fender and provide you with better weather protection as well as more traditional appearance. Fits Springer Softail models from late 1988 thru 1992.

090233 Plain, undrilled
090234 Stock replacement, pre-drilled (OEM 59129-86)

SPRINGER FRONT FENDER FOR BIG-TWINS

090130 A faithful and accurate reproduction of the early Springer front fender. Fender is complete with braces, fits 61", 74" and 80" Big-Twins 1937 thru 1948 (OEM 59000-36).

SPRINGER FRONT FENDER FOR 45'S
090140 Accurate, faithful reproduction of the original fender. Complete with braces and fender edge "reveal". Similar in appearance to ZPN 090130 but made to fit 45's with Springer front forks (OEM 3702-40A).

SOFTAIL FXSTS SPRINGER FRONT FENDER
 Custom replacement fender for 1988 to present FXSTS Springer Softail models. Available raw with raw or chrome mounting bracket. Bracket is redesigned for looks and strength (OEM 59176-96).

- 090338** With raw bracket
- 090342** With chrome bracket

LONG SKIRTED "GROUND-POUNDER" FRONT FENDER
090303 Super sleek looking heavy gauge steel, 6 3/8" (170 mm) wide front fender. Ideal for the Customizer as it comes undrilled to allow you to set it up the way you like it. Matching design Ground-Pounder rear fenders can be found in the rear fender section.

ROUND SKIRTED "GROUND-POUNDER" FRONT FENDER
090304 Super sleek looking heavy gauge steel, 6 3/8" (170 mm) wide front fender with short and round skirt. Ideal for the Customizer as it comes undrilled to allow you to set it up the way you like it. Matching design Ground-Pounder rear fenders can be found in the rear fender section.

FRONT FENDERS FOR 21" WHEELS
 Made from 1.5 mm raw steel. Fender is designed for custom applications (no mounting holes are drilled) allowing you to set it up the way you like it. Fenders are 110 mm (4 1/2") wide. Two styles available.

- 090501** Outlaw raw steel front fender for 21" wheels
- 090502** Gunfire raw steel front fender for 21" wheels

SUMAX SKIRTED NARROW GLIDE FRONT FENDER
 These composite glass fenders feature a molded in fender tip, which makes them great for creative painting. Side walls are fabric reinforced composites for a true evenness, meaning no waves in the side walls. Fits all 39 mm Narrow Glide front ends with 18", 19" and 21" wheels.

- 238505** Skirted Narrow Glide front fender

SUMAX DAGGER FRONT FENDER
 Beauty and strength rolled into one. These fenders have an exciting wraparound design and are offered in two widths, one for Narrow Glide front ends the other for Wide Glide front ends. Wide Glide fender is available with a radius for 16" as well as a radius for the larger wheels. The Composite glass material has tremendous strength and won't tweak.

- Fits Wide Glide front ends**
- 238609** For 18", 19", & 21" wheels
 - 238610** For 16" wheels

- Fits Narrow Glide front ends**
- 238611** For 18", 19", & 21" wheels

SUMAX DIGGER FRONT FENDER

This universal wraparound West Coast Style front fender features no pre-drilled holes. It is left long in the front and long in the back for a radical full coverage look. Or it can be used as a starting point to create your own special look. The Composite glass construction allows you to saw and file the fender without splintering. Available in a Narrow Glide version and in a Wide Glide version.

- 238619** Fits Narrow Glide forks
- 238620** Fits Wide Glide forks

SUMAX STREET-SWEEPER FRONT FENDER

Will match perfectly with the Street-Sweeper rear fender. Made from strong composite glass, light and smooth flowing lines are words to describe this fender. Ready to take primer and paint. Available for Narrow Glide or for Wide Glide front ends.

- 238596** Fits Narrow Glide front ends
- 238597** Fits Wide Glide front ends

SUMAX LOBOY FL STYLE FRONT FENDER

These fenders match up perfectly with the Sumax Loby rear fenders. The smooth flowing lines and added length provide not only better looks but also provide greater tire coverage. Lighter than fiberglass, yet these fenders are stronger than steel. Available for Narrow Glide or Wide Glide front ends.

- 238615** Fits Narrow Glide forks
- 238616** Fits Wide Glide forks

SUMAX LOBOY FRONT FENDER FOR WIDE GLIDE

This is the hottest Sumax fender for years, it looks so good and it actually works. This fender is made out of composites for light weight and great strength. It is smooth and wrinkle free. This fender will fit all FXWG, FXST and FLST models with 16" wheels. Also usable for many custom applications.

- 238435** Loby front fender for 16" wheels

SUMAX SKIRTED LOBOY FENDER FOR WIDE GLIDES

The popular Loby fender dressed up with a snazzy skirt. It really works great in the rain. Composite glass gives great rigidity and strength at a fraction of the weight of fiberglass fenders. It also features a molded in fender tip to let your painter be creative. Fits all FXWG, FXST and FLST models with 16" wheels.

- 238503** Skirted Loby fender for Wide Glides

ZODIAC'S CUSTOM FRONT FENDERS BY CRUISESPEED

Cruisespeed fenders are the Ultimate in Style and perfection and are exclusively distributed by Zodiac. Cruisespeed's one-piece design fenders are made by craftsman using either 3 mm thick aluminum or 1.5 mm and 2 mm thick mild steel. They are smoother and have more beautiful flowing lines than any other fenders available today. No compromise was made when manufacturing these fenders. The steel fenders come with a Phosphate etched finish to help prevent corrosion and to give a good base for primers to adhere. The Cruisespeed fender range is available as "Smooth" or "Ridge Line", in a wide variety of styles and sizes. Matching design rear fenders are also available. For those that want to create their own individual design we have the "Custom" style, which is supplied un-trimmed. All fenders come un-drilled for custom applications. When it comes to design and quality, Cruisespeed fenders are a class above, when it comes to economical pricing Cruisespeed will wipe out all other brands.

Note: 4 3/4" Wide fenders are used on Narrow Glide front ends with 19" wheels or, where indicated, with 21" wheels. The 5 1/2" wide fenders will fit Mid Glide front ends. Both 4 3/4" and 5 1/2" wide fenders will fit Wide Glide front ends if fender spacers are used. 6 1/4" wide fenders are for Wide Glide front ends using 16" wheels. Always check fender fit and installation before painting.

ZODIAC'S BAD ASS TAPERING REAR FENDER BY CRUISESPEED

The ultimate steel strutless fender when converting your Softail to a wide rear tire. This fender will make the back end of your motorcycle look even bigger. Available in two models, one 9" wide for use with up to 200 tires the other 11" wide for use with up to 250 tires. Like all other Cruisespeed fenders they are a one piece design made without compromise by craftsman. Fits all stock Softail and aftermarket frames. Some aftermarket frames have a slightly narrower rear section. To make these fenders fit the narrower frames we include 2 x 3/8" thick spacers. Fenders come with a Phosphate etched finish to help prevent corrosion and to give a good base for primers to adhere.

- 960240** Bad Ass strutless 9" tapering rear fender including 3/8" spacers
- 960242** Bad Ass strutless 11" tapering rear fender including 3/8" spacers

SENTRY REAR FENDER & STRUTS COMBO KIT

Great looking Cruisespeed rear fenders. These strutless "Sentry" style rear fenders have tapering struts for a slimmer look. Fits all stock Softail and aftermarket frames. Some aftermarket frames have a slightly narrower rear section. To make these fenders fit the narrower frames we include 2 x 3/8" thick spacers. Fenders come with a Phosphate etched finish to help prevent corrosion and to give a good base for primers to adhere. Available in 8 1/2", 9", 10" and 11" widths.

- 960255** 8.50" wide **960256** 9.00" wide
- 960257** 10.00" wide **960258** 11.00" wide

CRUISESPEED'S HARDTAIL REAR FENDERS BY CRUISESPEED

Cruisespeed's steel rear fender fits tight over the rear wheels in hardtail frames. No unnecessary space between rear tire and fender. Available in 9", 11", 12 1/2", and even 13 1/2" wide. Fenders come in a Phosphate etched finish to help prevent corrosion and to give a good base for primers to adhere. They come un-drilled for easy set up in the way you like. The trimmed version comes with a chain notch; the untrimmed version can be cut to your personal design.

Trimmed Hardtail Rear fenders

- 960420** 9" wide
- 960421** 11" wide
- 960424** 12 1/2" wide
- 960451** 13 1/2" wide
- 960450** 13 1/2" wide, without chain cutout
- 960454** 14 1/4" wide, without chain cutout **NEW**

Untrimmed Hardtail Rear fenders

- 960419** 9" wide
- 960422** 11" wide
- 960423** 12 1/2" wide
- 960449** 13 1/2" wide
- 960453** 14 1/4" wide **NEW**

CRUISESPEED HARDTAIL REAR FENDERS FOR RIGHT SIDE DRIVES

No unnecessary space between rear tire and fender, as these steel rear fenders fit tight on rear wheels in hardtail frames. Available in 9", 11", 12 1/2" and even 13 1/2" wide. Fenders have two internal steel wire tunnels to route your wiring. These tunnels also provide extra rigidity to the fender. Fenders are phosphate etched finished to prevent for corroding and to give a good basis for primers to adhere to. They come un-drilled for easy set up in the way you like it. These "RSD" fenders have the chain notch on the right side for use in conjunction with Right Side Drive transmissions.

Hardtail "RSD" Rear fenders

- 960418** 9" wide
- 960427** 11" wide
- 960428** 12 1/2" wide
- 960452** 13 1/2" wide

CRUISESPEED STRUTLESS CLASSIC REAR FENDER

Another great looking Cruisespeed rear fender. Fits all stock Softail and aftermarket frames. Some aftermarket frames have a slightly narrower rear section. To make these fenders fit the narrower frames we include 2 x 3/8" thick spacers. Fenders come with a Phosphate etched finish to help prevent corrosion and to give a good base for primers to adhere. Available in 8 1/2", 9", 10" and 11" widths.

- 960250** 8.50" wide
- 960251** 9.00" wide
- 960252** 10.00" wide
- 960253** 11.00" wide

ZODIAC'S CRUISESPEED ROUND TOP REAR FENDERS

The Round Top fender is the ultimate rear fender when converting your Softail to a wide rear low section tire. These fenders follow the line of the low profile wide tires enhancing the appearance of your motorcycle. For those who want to create their own custom design we have an un-trimmed fender available. The 9" wide version is for use with up to 200 tires, the 11" wide one is for use with up to 250 tires, the 12 1/2" fender takes up to 300 tires, and the 13 1/2" wide fender will take the latest 330 series rear tires. These fenders are a heavy gauge mild steel (2 mm thick) made in a one-piece design without compromise by craftsman. Fits all stock Softail and aftermarket frames. Fenders come with a Phosphate etched finish to help prevent corrosion and to give a good base for primers to adhere.

Untrimmed Round Top rear fenders

- 960429** 9" wide
- 960434** 11" wide
- 960439** 12 1/2" wide
- 960444** 13 1/2" wide

Trimmed Round Top rear fenders for lower profile tyres

- 960430** 9" wide
- 960435** 11" wide
- 960440** 12 1/2" wide
- 960445** 13 1/2" wide

ZODIAC'S CRUSADER REAR FENDER BY CRUISESPEED

A 7 1/2" wide steel rear fender for custom fitment on Softails. Also fits many custom applications where a short fender is required. Fender has a welded-in reinforcement and a phosphate etched finish. Comes un-drilled to allow any custom fit just any way you like it.

960041 Crusader rear fender

FATBOB STYLE REAR FENDERS FOR SOFTAILS BY CRUISESPEED

Exactly the same shape as the original equipment Fat Bob fender, but like all by Cruisespeed fenders, these are hand made from heavy gauge mild steel (2 mm thick). Stock width fenders for 1997 thru 1999 models are notched to take the ignition module, the 2000 to present fenders have a provision to mount the OEM Fuel Injection module. A 9" wide fender is also available, this one fits all 1984 to present frames and will take either the ignition or injection module. Fenders have a phosphate etched finish to prevent from corroding and give a good basis for primers to adhere to. Fits all stock Softail and most aftermarket softail frames.

Stock width

950500 Fits 1984 thru 1996 Softails (OEM 59914-86A)

950501 Fits 1997 thru 1999 Softails (OEM 59753-97)

950502 Fits 2000 to present Softails (OEM 59914-00)

FAT BOB STYLE REAR FENDER

Original Harley Fat Bob style rear fenders. Available in right and left hand cut away. The left hand fender is also available in show-chrome finish. 38" long, 6 3/4" wide and 5 1/2" deep.

090006 L/H rear fender RAW

090007 R/H rear fender RAW

090078 L/H rear fender show-chromed

FAT BOB REAR FENDER FOR FXWG

090021 Perfect duplicate of the Original Equipment fender. Stock replacement for FXWG 1980 thru 1986. Accepts our stock style as well as our custom taillight brackets (ZPN 160133 & 160204) (OEM 59904-80). Raw, oiled finish.

FAT BOB REAR FENDER FOR SOFTAIL MODELS

090208 Exact duplicate of the original equipment one. Fender includes all the wire loom clips and necessary strut mounting holes just like stock. This fender for Softail models is perfect for crash repairs or converting the full fenders on Heritage models. Fits FXST, FXSTC and FXSTS models from 1984 thru 1999 (OEM 59914-86A).

STOCK REPLACEMENT FXST REAR FENDER

090311 A perfect copy from the rear fender as used on FXST, FXSTC, FXSTS and FXSTSB models from 1997 thru 1999. Comes in raw steel and is pre-drilled for ease of installation (OEM 59753-97).

QUICKBOB REAR FENDER FOR FX MODELS

090055 Custom style "Quickbob" rear fender for the speedy conversion to that Fat Bob look. Fits stock FX (4 Speed) frame using the stock style fender struts (does not fit 1972 thru 1985 FXWG).

RIGID HINGED REAR FENDER

090013 Replacement rear fender for rigid frame Big-Twins 1949 thru 1957. Includes braces. Taillight holes are not drilled to permit your choice of taillight. Has Raw finish (OEM 59612-41).

FATSO EXTRA-WIDE STEEL FAT BOB REAR FENDER

The latest trend in custom building is Extra Fat up to 225 Wide rear tires. The difficult part was to get a wide enough fender for these monster tires. Zodiac offers an Extra Wide 9" (23 cm) version of the Fat Bob style rear fender to accommodate for Big Wheel conversions with up to 225 wide tires. This extra wide fender is available with, in 1984 thru 1999 Softail pattern, pre-drilled holes and a model without holes for custom made fender struts as well as many other Custom applications. Perfect for use with our Wide Tail softail frame.

090280 9" Fat Bob rear fender, Softail

090281 9" Fat Bob rear fender, plain

FAT BOB REAR FENDER FOR SPORTSTERS

These exclusive steel fenders are guaranteed to make your bike the talk of the town, especially when used in combination with our Fat Bob or Stretched tank (see tank section). Feature weld-in taillight bracket. Available for 1982 thru 1993 and 1994 thru 2003 Sportster models.

090210 Fits 1982 thru 1993 Sportster

090261 Fits 1994 thru 2003 Sportster

BOBTAIL REAR FENDER FOR SPORTSTER

The steel Bobtail rear fender adds a pure muscle-style custom attitude to the rear end of your XL. Comes pre-drilled for easy installation. Has no license plate bracket installed, we suggest to use our ZPN 160161 adjustable taillight bracket. Fits 1998 thru 2003 Sportster models.

090087 Sportster Bobtail fender 1998 thru 2003. (OEM 60025-01)

NEW

STOCK STYLE REAR FENDER FOR SPORTSTER

Stock style raw steel rear fender, ideal for crash repairs. Fender comes pre-drilled and complete with the wire retention brackets and the internal fender bracket (OEM 59673-04). Fits all 2004 to present Sportster models.

090407 XL rear fender (OEM 59847-04)

FAT BOB FENDER AND TAILLIGHT KIT FOR FXR MODELS

A three piece kit that includes Fat Bob fender, Fat Bob taillight and Deluxe taillight bracket. Features flush mount taillight positioning. Bolts easily to all stock fender struts. Fits all FXR models from 1982 thru 1994.

090232 Fender kit

SIDECAR FENDER

090045 A very accurate reproduction of the Original Equipment sidecar fender used on Big-Twin models from 1936 thru early 1967. The brackets and the fender are made from heavy-gauge steel (OEM 87900-24A).

FL/FLH HINGED REAR FENDER

090016 Two piece hinged rear fender for all 4 Speed FL models 1958 thru 1984. Rear section is not drilled to accept your choice of taillight. Will also fit FX models 1973 to present if FL style fender struts are used and can be adapted to FXWG models. Small dent must be made in the front right lower corner to clear the battery (OEM 59604-65A).

HINGED REAR FENDER FOR FX MODELS

090098 A narrower version of our hinged FL style rear fender, designed to bolt between the stock fender struts of all 4 Speed FX models 1973 thru 1985. The hinged rear section allows easy access to the rear wheel for servicing. Looks great with our skirted front fenders. Rear section is undrilled to take the taillight of your choice. No additional parts or hardware required.

RIGID REAR FENDER FOR HARLEY 45 CI

090046 A perfect detailed reproduction of the early rigid rear fender for the 45 cubic inch models. Fender is complete with brackets and ready to bolt on to complete the restoration.

"FLIP" REAR FENDER FOR FXR MODELS

090027 Creates the classic look of the dresser style rear fender for your Shovel or Evolution powered FXR 1982 thru 1986 and 1987 thru 1992 FXRT. Use with special designed fender struts (ZPN 090164).

Note: Fender nor fender struts work correct with the OEM fender or struts.

REAR FENDER FOR HARLEY BIG-TWINS 1936 THRU 1948

090102 Perfectly shaped and detailed reproduction of the rigid rear fender used on the 1936 thru 1948 Big-Twins. Complete with brackets ready to bolt on (OEM 3711-39).

BOBBED REAR FENDER FOR FX MODELS

090009 Custom style Bobbed rear fender for all FX models 1971 thru 1985, without taillight hole so any Custom after market taillight can be mounted (OEM 59584-73A).

HINGED REAR FENDER FOR HARLEY SOFTAIL MODELS

Heritage-style rear fenders with hinges. Available in two models which fit the OEM fender struts of all Softail models from 1986 thru 1999. One version is smooth without taillight mount permitting the use of a variety of taillights, the other has the 1973 up mount. Ideal for converting your FXST and FXSTC to the Heritage style.

- 090194** Without taillight mount (OEM 59126-86)
- 090215** With 1973 up taillight mount

ONE PIECE REAR FENDER FOR FL MODELS

090286 A perfect copy of 1980 thru 1984 one piece original equipment FL rear fender. Taillight section is undrilled to accept any style taillight. Fender strut mounting holes are drilled for easy mounting. Can also be used as replacement for the early style hinged rear fender as mounted on the early FL Swingarm frames (OEM 59601-79B and 59641-82A).

REAR FENDERS FOR EARLY SPORTSTER MODELS

Steel rear fenders with stock mounting holes in the sides for Sportster models from 1959 thru 1978. Available with or without taillight hole (OEM 59611-73A).

- 090005** Without taillight hole
- 092001** With taillight hole, fits 1973 thru 1978 models

REAR FENDER FOR HERITAGE SOFTAILS

An exact duplicate of the Original Equipment rear fender. Features turn signal mounting holes already located and includes the taillight mount and fender reveal. This fender is ready to use as an OEM replacement part or for FXST models wanting to convert over to full one-piece fenders. Also available in a smooth version with only strut holes in it when custom taillights are desired. Unpainted.

- 090276** Stock style, fits Heritage Softail models from 1986 thru 1999 (OEM 59126-86B)
- 090277** Smooth style, fits all Softail models from 1984 thru 1999 as a custom fender

REAR FENDERS FOR FX MODELS

Perfect reproductions of the original equipment 4 Speed FX rear fenders from 1973 thru 1985. Available as a smooth style without light mount which allows you the use of a variety of taillight or with the 1973-up style taillight mount. Both models bolt directly to the OEM fender struts.

- 092000** With taillight mount (OEM 59682-78)
- 092008** Without taillight mount

CUSTOM REAR FENDERS FOR SOFTAIL MODELS

These stylish steel fenders enhance the look of all 1986 thru 1999 5 Speed Softail models. They are available with or without the mounting bracket for the stock 1973-up taillight and have an early-style reveal stamped in the rear tips. The installation of these fenders requires you to cut 5" off your stock fender struts. Two decorative end caps are supplied with each fender to finish off the shortened struts and add to their overall appearance.

- 090224** Fender with 1973-up taillight mount
- 090225** Fender without taillight mount
- 090226** Replacement end caps (sold in pairs)

HERITAGE STYLE REAR FENDERS FOR FXR MODELS

These fender designs combine the classic styling of the Heritage Softail with the popular rubber-mount design of the FXR. They mount between the stock rear fender struts of all FXR models from 1982 thru 1994 and are available smooth or with a mount for the late-style taillight.

090230 Rear fender with 1973 up taillight mount

090231 Rear fender, smooth

GROUND POUNDER STRUTLESS ORIGINAL STYLE REAR FENDERS

These superb looking strutless fenders provide a cleaner rear end by the use of integrated fender struts. This means not more than two bolts on each side to mount the fender to the frame. These fenders give 130° wheel coverage and have two built-in wire tunnels for neat routing of the wiring as well as adding extra strength and rigidity to the fender. These original style fenders point up on the end of the fender to create a nostalgic "Bobber" look. Fenders fit most Softail type frames that measure 11" wide between strut mounts. Each fender includes a set of spacers to adapt the fender to the Zodiac Wide-Tail and Wide-Ass frames as well as most aftermarket frames. Available in fender width of 8 1/2", 9", 10" and 11" wide to "Cover-up" tires from 120 wide through to the monstrous 250 Avon tire. Matching design Ground-Pounder front fender can be found in the front fender section.

090079 Strutless rear fender 8 1/2" wide

090081 Strutless rear fender 9" wide

090083 Strutless rear fender 10" wide

090085 Strutless rear fender 11" wide

GROUND POUNDER STRUTLESS REAR FENDERS WITH ROUND CUT SIDES

These superb looking strutless fenders provide a cleaner rear end by the use of integrated fender struts. This means not more than two bolts each side to mount the fender to the frame. These fenders give 135° wheel coverage and have two built-in wire tunnels for neat routing of the wiring as well as adding extra strength and rigidity to the fender. Fenders fit most Softail type frames that measure 11" wide between strut mounts. Each fender includes a set of spacers to adapt the fender to the Zodiac Wide-Tail and Wide-Ass frames as well as most aftermarket frames. Available in fender width of 8 1/2", 9", 10" and 11" wide to "Cover-up" tires from 120 wide through to the monstrous 250 Avon tire. Matching design Ground-Pounder front fender can be found in the front fender section.

090074 Strutless rear fender 8 1/2" wide

090073 Strutless rear fender 9" wide

701181 Pro-Comp X-large 10 1/2" wide rear fender

PRO-COMP BOBBED REAR FENDERS

The ever-popular Pro-Comp rear fender with the addition of a Bobbed Tail piece. No mounting holes make this fender easy to set up to meet "just that right look". Available in 7 1/4", 8 1/4", 9" and an extra wide 10 1/2" Fatso fender.

238586 Bobbed Pro-Comp, 7 1/4" wide

238587 Bobbed Pro-Comp, 8 1/4" wide

701182 Bobbed Pro-Comp, 9" wide

701183 Bobbed Fatso Pro-Comp, 10 1/2" wide

SUMAX PRO-COMP SMOOTHIE REAR FENDER

A smooth version of the popular Pro-Comp rear fender. The side ridges were filled for a very smooth look. Features a mold in tube for safe and easy wiring of the taillight and no mounting holes to allow you to profile this fender just where you want it to sit. Available in stock 7 1/4" wide, medium 8 1/4" wide, and large 9" wide.

238588 Pro-Comp Smoothie 7 1/4" stock wide fender

238589 Pro-Comp Smoothie 8 1/4" medium wide fender

238667 Pro-Comp Smoothie 9" large wide fender

METAPOL REAR FENDERS FOR TRIKES

These fenders are designed for use on our Trike frame and Trike Conversion kit (see frame section of this catalog). Made in Holland in precision moulds. Fenders are an all-fiberglass construction and have a black "ready to paint" gel-coat finish. They are almost 11" wide to accommodate for up-to 240 series tires. Available individually or as a left and right set. Mounting brackets (must be welded to the axle support) are separately available.

722210 Fender set (left and right)

722211 Left fender only

722212 Right fender only

FENDER EXTENSION FOR SOFTAIL MODELS

This fender extension is American-made from ABS plastic. When painted to match the fender and properly installed, this fender extension gives the appearance of the fuller and rounded long fenders used on the classic rigid framed Big-Twins of the 40's and 50's. Fits 1986 thru 1999 Softail models, as well as most aftermarket frames (OEM 60363-86).

232891 Softail fender extension

REAR FENDER BRACES

Chrome plated rear fender braces, works with our soft and hard tails for easy mounting of your rear fender.

531041 Rear fender brace for 5" & 6" flat fender

531042 Rear fender brace for Fat Bob fender

ELECTRIC WIRE CONDUIT AND CLIPS

Flexible, 18" long wire conduit with 1/4" inside diameter, complete with nylon fasteners. Perfect for "inside the fender wiring", it's easy-to-bend properties make it simple to attach under a fender.

093430 Wire conduit with clips

099033 Clips only, 10 pack (OEM 38712-68)

18

FENDERS & DUMMY TANK FOR V-ROD

Transform your V-Rod to a Z-Rod. When Harley introduced the V-Rod it was just a matter of time before the owner wanted to change the appearance and Custom Builders would start to customize it. The front and rear fenders, as well as the dummy tank cover in this kit, that are designed by W&F, were used for the transformation of the Zodiac Z-Rod.

Fenders and dummy tank are made in Europe from strong fiberglass in precision built moulds. They come in grey, "ready to paint" gel coat finish. The front fender must be installed with the OEM fender bracket (not included). All parts are sold individually, so it is up to you if you just go the whole way or just a part of it.

- 239000** Front fender
- 239001** Rear fender
- 239002** Dummy tank cover

V-ROD PHANTOM COVER KIT

If you want to transfer your V-Rod to a spectacular design, RBS gives the solution. First stage into the transformation is the V-Rod Phantom Air box cover kit. The Air box covers are made of Kevlar and re-use the original instrument or control unit. It integrates into the Phantom Cover by using the chrome blind, which is a part of the kit. Second stage is the V-Rod Phantom side cover kit, which looks spectacular with its 2 air channels. Covered with aluminum race grinds, the channels give your bike that racers look. As advantage you will get additional space for different handlebars and risers. For the finishing touch we have the V-Rod Phantom Cooler cover. The cover is made from aluminum and will be mounted with a steel mat, which fits between the cooling slots. Cooler cover is available with a hi-gloss black coating or natural aluminum.

- 722571** Air box cover kit
- 722572** Side cover kit
- 722573** Cooler cover black
- 722574** Cooler cover natural aluminum

SPRINGER FRONT FENDER INSTALLATION KIT

An exact reproduction of the stock Harley hardware use to install the stock front fender on all 1936 thru 1948 Big-Twins. Bolts and nuts are finished in the well-known Colony quality chrome. Kits also include a pair of thrust washers.

741951 Springer front fender installation kit

- 238165** Side mount license plate bracket

SIDE MOUNT & FENDER MOUNT LICENSE PLATE BRACKETS WITH LED TAILLIGHTS

These "Design" LED taillight and license plate brackets are the ultimate in design and function. Both the side mount and rear mount are machined from billet aluminum and then chrome plated for a perfect finish. Other features of LED lights are the use of less electrical power and live longer than common bulbs. The narrow LED light that comes with these brackets is only 5 3/4" (147 mm) wide and just 1" (25 mm) high, and is pre-wired for brake and taillight use and also has a provision for license plate lighting. This narrow LED taillight, as well as all other taillights, is separately available for Custom applications. The side mount brackets bolt to the rear axle. The fender mount license plate bracket comes with hard rubber fender mount cushion and hardware. Side mount license plate brackets are available to take a horizontal or vertical license plate. The vertical brackets are available with normal flat license plate frame or in a curved version. For those looking for a more classic look we also offer the vertical mount brackets with a Cat-Eye taillight in your choice of classic bulb-type or LED board.

With Narrow LED taillight

- 160530** Horizontal side mount
- 160531** Vertical side mount flat license plate bracket
- 160532** Vertical side mount with curved license plate bracket
- 160535** Fender mount
- 160536** Narrow LED taillight for Custom use or as a replacement for ZPN 160530, 160531, 160532, and 160535

With Cat-Eye taillight

- 160533** Vertical side mount with classic bulb-type Cat-Eye taillight
- 160534** Vertical side mount with LED Cat-Eye taillight
- 162307** Replacement Cat-Eye LED taillight

BADLANDS FOLD AWAY SIDE MOUNT LICENSE PLATE BRACKETS

The trick mounting of these chrome plated billet aluminum fold-away side mount license plate brackets overcomes most problems encountered with ordinary side mount brackets, as it allows you to fold your license plate to the frame. Available for Softail style frames, swingarm frames or for custom applications.

- 234990** Fits Softail style frames
- 234991** Fits swingarm frames (mounts to the lower shock stud)
- 234992** Custom application (includes weld-on tab)

18

LICENSE PLATE BRACKETS WITH DIAMOND STYLE LED TAILLIGHTS

These "Design" Taillight and License plate brackets are the ultimate in design and function. Both the side mount and rear mount are machined from billet aluminum and then chrome plated for a perfect finish. The LED taillight uses less electrical power and lives longer than common bulbs. The Diamond Style LED light that comes with these brackets is pre-wired for brake and taillight use and also has a provision for license plate lighting. Side mount license plate brackets bolt to the rear axle, and are available to take a horizontal or vertical license plate.

The vertical brackets are available with normal flat license plate frame or in a curved version. Fender mount license plate bracket comes with your choice of hard rubber fender mount cushion, or solid block mount.

- 160570** Horizontal side mount
- 160571** Vertical side mount flat license plate bracket
- 160572** Vertical side mount with curved license plate bracket
- 160573** Rubber fender mount
- 160574** Block fender mount

ADJUSTABLE TAILLIGHT MOUNTING BRACKET FOR FAT BOB STYLE FENDERS

Go all the way when finishing your custom wide fender, wheel and tire additions. This fully adjustable, chrome plated bracket fits all Fat Bob Style fenders from 7" up to 9" wide. A must when building Fat tire bikes.

PRO-ONE CUSTOM SLIM LINE BILLET LICENSE FRAMES

Billet aluminum license plate frames, measures 7 1/4" x 4" (18.4 x 10 cm). Available in smooth and Ball milled style. Comes complete with stainless screws. Chrome finish.

237776 Smooth Style

237775 Ball Milled Style

CHROME PYRAMID STYLE LICENSE PLATE MOUNT

160185 A close fitting, one-piece, chrome plated license plate mount that replaces the upright, multi piece license plate mount and bracket on the rear fender. Two rubber spacers isolate the license plate from vibration, and permits the mount to be tailored to the profile of the fender, for a much tighter, cleaner look. Mounts directly to the standard hole pattern on all rear fenders (except FXWG and FXST) from 1955 to present and comes with all mounting hardware.

CHROME LICENSE PLATE MOUNT

090205 A close fitting, one piece chrome plated license plate mount that replaces the up-right, multi piece license plate mount and bracket on the rear fender. Two rubber spacers isolate the license plate from vibration, and permits the mount to be tailored to the profile of the fender, for much tighter, cleaner look. Mounts to the standard hole pattern on all rear fenders (except FXWG and FXST) from 1955 to present and comes complete with mounting hardware.

PRO-ONE STANDARD BILLET LICENSE FRAME

Machined from billet aluminum by the Billet people. Frame has chrome plated finish and Split Milled style. Includes stainless screws and measures 7 1/2" x 5 1/8" (19 cm x 13 cm).

237778 Billet license frame
