MYLAR DECALS

INSTRUCTIONS: Have the pitted area filled, sanded smooth & painted. Wash area with soap & water (new paint included) on which decal is to be placed.

FOR MYLAR DECAL (FILM BETWEEN LETTERING):

Trim to border of design where possible prior to removing white backing paper. Lightly spray the area with window cleaner (do not use window cleaner in aerosol can). Peel white backing paper from decal and place in position. Squeegee window cleaner from under decal beginning in center and working outward. If air bubbles occur, puncture with pin & smooth down. Please note: These decals have been printed on a tough mylar film using mylar ink. A pressure sensitive adhesive has been employed on the back of the mylar to insure good adhesion to any clean, hard surface.

CAUTION: Inspect all decal pieces before applying to tractor. NO REFUNDS on mylar decals if applied to surface and/or if damaged. Store in a cool, dry place. Do not soak in water.

SERVICE MANUAL REPRINTS

A Service Manual Reprint tells you how to take the tractor apart, how to fix it and how to put it back together again. It is a reprint of the manual that the factory furnished the dealer's shop service department, and was not sent or given to individual retail customers. It deals with repairs in the language of a mechanic. Often times it includes valuable information as to specifications, torques, etc. A service manual reprint will offer many short cuts and save you time!

OPERATOR MANUAL REPRINTS

An Operator's Manual (reprints only) sometimes referred to as the Owner's Manual is the manual that came with the tractor. It is the manual that was given to the ultimate consumer by the manufacturer. It can be compared to the manual you receive in the glove box of a new car. This manual gives the owner-operator instructions, shift patterns, capacities (anti-freeze, crankcase, etc.) and adjustment procedures (brakes, clutch, etc). This is a very useful and valuable tool in operating your tractor.

Description	Order #	Price
9N & 2N (1939-47)	BOK061	\$15.00
8N (1948-52)	BOK040	\$15.00
NAA (1953-55)	BOK062	\$15.00

PARTS MANUAL REPRINT

A Parts Manual (reprint only) has exploded views of all parts on the tractor. With numbered pictures giving you great detail on assembly and disassembly. It also gives you a guide, with numbers, for ordering parts, and makes you seem much more informed when talking with a dealer. Many service manuals, after telling you how to disassemble & repair in detail, will simply say "reassemble". If you have your PTO in the wash tank, in pieces, without notes, you have a problem. The parts manual can help you out with an exploded view of the PTO unit, and you can see immediately how it all goes back together. You need a parts manual!
