Welcome to Chevs of the 40's shopping!

To our Valued Customers:

For 28 years we have been providing the best in restoration parts for 1937-54 Chevrolet Cars & Trucks. We continue to expand our inventory of hard-to-find restoration parts while improving our selection of Street Rod Parts. We strive to provide the best in *service, quality and variety of parts* needed for your vehicle—from a complete restoration to full-blown street machine. We have an easy to use **Illustrated Index** in the front of our catalog to make finding parts easy along with an alphabetical **Parts Index** in the back.

Street Rod parts can now be found in our new STREET ROD HEADQUARTERS catalog. You may contact us for it or visit www.STREETRODHQ.com

Thanks for your business!

CEO/Owner

How to order

ONLINE: Order anytime by accessing our online catalog from our website www.chevsofthe40s.com. Credit card information is secure and we don't sell our customer database to anyone.

CALL: 1-800-999-CHEV (2438)

Our sales reps are available to assist you 8 a.m.–5 p.m., Pacific Time.

Weekend & After-hours:

Our lovable voice mail takes your orders.

Existing customers—Simply provide your name & customer number off your catalog label, vehicle year, series and body style, credit card number (if appropriate), part numbers with descriptions, and quantities.

New customers—Please give all of the above vehicle information as well as your phone (in case we have a question about the order) and complete address including zip code.

FAX (order form in back):

1-800-888-CHEV (2438)

Local: 1-360-816-0215

How to pay

Use **CHECK BY PHONE** to achieve prompt shipping (10 days faster than mailing a check.) And, because it helps reduce our costs, our reward to you is a **4% discount** on parts when you place your **FIRST** electronic-check order by phone. *Try it—it's convenient and secure!*

CHECKS BY MAIL are welcome; however the accounting department may hold your order on uncertified funds. *At company discretion, a mailed-in check may be converted to an electronic check.*

Returned checks will be charged an NSF fee.

CREDIT CARDS: Visa, MasterCard and Discover are welcome! Ship to address must match your credit card billing address!!

How we ship

RATES: Our software computes the correct **UPS** shipping and handling charges using the **best method**.

We now ship exclusively via UPS only. UPS does not ship to U.S. PO boxes.

If paying by check, please call for shipping rates and order total.

The computer system will adjust your order for any freight differences. When purchasing **oversized** parts, some can be shipped via UPS and others need to be sent via truck freight collect so please call for rates!

SHIPPING TIME on ground deliveries takes 2 to 14 days depending your location. For faster service options, when placing the order, please ask your sales person for an **express delivery quote**.

Most orders ship the same day!

SALES TAX is calculated on order total (including shipping) for any order shipped to an address in the state of Washington. The current sales tax rate is 8.2%.

How problems are handled

DAMAGE CLAIMS: If a package appears to be damaged upon delivery, open the package with the delivery driver and have them note any damages. **You** must report damage claims to carriers (UPS, etc.) within **5 days** of receipt. The carrier contacts us and returns the package for replacement. **Do not** ship to Chevs of the 40's.

SHORTAGES: All orders are scanned with a bar code reader before shipping. If, in the unlikely event, a shipment error occurs—CALL US IMMEDIATELY!

BACKORDERS: Our computerized inventory system allows us to maintain tight control on our stocking levels. However, we do not have control over our *suppliers*. Back orders are not charged until they ship. Shipment occurs immediately when we receive the part.

Returns/Exchanges:

Made-to-order items, such as glass, are **non-returnable**. All other parts (*excluding Odds & Ends*) may be returned within **30 days**. Return parts in the original condition received. CODs *will not* be accepted.

1. Have your invoice ready
2. Call 1-800-999-CHEV (2438) x116
3. Obtain authorization number
4. Write the number on the outside of the package and on a copy of the invoice.
5. Include invoice copy in package.

Remember: Shipping can take up to 14 days, so allow 3-4 weeks on returns. Warranty applies only to purchase price of item or replacement of part.

Unfortunately, *credit card companies* no longer credit your credit cards for returns after 90 days. Therefore, we will issue in-store credits or a refund check.

How to earn \$300!

Get your car featured in a national publication, mention Chevs of the 40's as your quality parts source, include our phone number and address, send us the article and...start thinking of how to spend your \$300 store credit at

Chevs of the 40's!

Notice: All prices are subject to change without notice.

Also due to the possibility of human error, we reserve the right not to sell any item at a misprinted price or description.

Now you can get all of our catalogs on a fully interactive CD. Find parts easily with our illustrated click-thru images. Includes bonus material and catalogs in full color!

Fine Machine Polish

Unleash your car's shine potential and take your paint to a whole new level of gloss and clarity. Designed for application by dual-action car polishers, use to polish your car's clearcoat to a jewel-like finish. After just one or two uses, your clearcoat will have perfect clarity so you can enjoy all of the rich color below. Use it several times a year to maintain perfect gloss, without thinning your clearcoat.

To protect your finely polished finish, follow up with Machine SuperWax or Buttery Wax. Both products will add additional gloss, depth and rich color.

TIP: Fine Machine Car Polish is concentrated. Use only 5-6 pea-sized dabs at a time on your pad. Work in well until the polish film is nearly gone. Do not work the polish until dry, as this may cause hazing.

Old Air -Air Conditioning & Heating System

Great for 6-cylinder applications

Complete Universal systems with everything you need to install Heat & Air Conditioning in your vehicle (minus refrigerant). These Hurricane units are designed for efficiency and minimal use of space to allow for stereos, glove boxes, wiper motors, etc. Choose Hurricane unit with Upper, Lower or Side exit fittings (see dimensions below). System includes Sanden 508 Compressor (or equivalent - just let us know compressor location), Mounting Brackets, Condenser (specify location & you'll need to measure your radiator), Receiver/ Drier, Binary Pressure Safety Switch, A/C & Heater Hose, Wire Harness, Clamps, 4 inch Vent Hose Kit, Control Panel w/ Knobs and more. Pick 4 vents (next page) to best suit your dash (some double vents count as 2). Optional items include Electronic Slide Controls (Vertical or Horizontal) in black or aluminum finish, Chrome Drier or Polished Compressor.

Choose the 4 vents that best fit your application: (VENT-3 and VENT-20 count as 2 vents). Vents included with A/C kits. Vents also sold separately.

Condensers use flat tubes not round creating greater frontal area which equates to improved cooling.

The Heat & Defrost units for these systems mounts directly to your firewall. A/C & Heater lines pass through a custom rubber grommet that fits into the factory blower motor hole (shown below). Take a look at our In-Dash Vent and Switch kit below. These systems are designed for easy installation with custom condenser mounting, aluminum lines and step-by-step instructions. Retains cowl vent and majority of glove box. Has floor Heat and De-Humidified Defrost.

Universal for most applications

Complete System with Upper HVAC fittings and Electronic Controls.
AC1100C \$1,130.00 SET
 Cable Controls. **AC1000C** \$1,030.00 SET

Complete System with 90-degree HVAC fittings and Electronic Controls.
AC2100C \$1,130.00 SET
 Cable Controls. **AC2000C** \$1,030.00 SET

Complete System with Lower HVAC fittings and Electronic Controls.
AC3100C \$1,130.00 SET
 Cable Controls. **AC3000C** \$1,030.00 SET

90° Defrost Option
 Requires only 1-7/8" space above for duct hose routing, includes "Y" adapter.

Standard Defrost Outlets
 Allow 2-1/2" to 3" above for duct hose routing

A little tight on defroster space for your HVAC unit? Just let your sales rep know that you want the 90 degree defroster outlet option. And hey, we won't even charge you for it.

Providing part numbers speeds up your order, improves accuracy and helps us maintain low prices.

Dear Chev's of the 40's
 1605 N.E. 112th Street
 Vancouver, WA. 98686
 1-800-999-CHEV.

I am sending you a picture of my 41 chevvy streetrod. My 2 year old grandson spent many evenings sitting on my lap with a chev's of the 40's catalog looking for just the right parts. Many a time he would point at a picture and say "wow," or "What's that?" A future Chev's of the 40's customer in the making. From patch panels to parking lights you have been a big help bring my 41 chevvy back to life.

Thank You
 Donney Marshall

Section 294C: Body Mouldings & Clips

Format = Part No., Year, Description, Original Chevrolet Parts Book Group No., Price and Unit of Measure.

We are going to great lengths to find replacement nylon clips to replace the original metal clips. Unlike metal clips, installing these superior nylon clips keeps paint from chipping and creating a rust point.

1950 5-Passenger—Billy Ray Lewis, Harrison, Arkansas

8-7-09

Chevs of the 40's
1605 NE 112th Street
Vancouver, Washington 98686

Sis:

I purchased my 1950 Chevrolet Coupe Deluxe for \$50 in the summer of 1965 at Mountain Grove, Missouri. Its owner was an old gentleman who had let it fall into disrepair beyond what I could imagine!

I was the high school principal at Mansfield, Missouri, and was lucky enough to have had a student in school whose parents owned a junked 1949 Chevrolet six-passenger sedan. The car sat out in an open pasture, and I was able to "Cannibalize" several parts off of it to begin restoring this little treasure.

The car has undergone several improvements which have made it a pleasure to drive on a Sunday afternoon down the highways of northwest Arkansas.

I owe much to Chevs of the 40's, its great staff and to my very capable and accommodating mechanic, Bill Adkins, for helping me keep the automobile in real good shape!

Keep up your capable and much-appreciated work for those of us who love these old vehicles!

Sincerely,
Billy Ray Lewis
2007

Heatshield & Noise Barrier Kits

STOP NOISE, STOP HEAT. Selecting noise/ heat reduction products can be very confusing. We have made this an easier process by creating 3 different levels of kits: **Ultimate, Basic & Acousti-Shield**

Ultimate Noise Barrier Kit

- Ultimate Noise Barrier Kit includes:
- One vibration damping sheet (VDAMP-2)
 - Four acoustic sound floor barrier sheets (VBLOK-VB4.5)
 - One gallon of sprayable sound deadener (DEADENER)
 - Complete instructions for all items in kit.
 - Option: One gallon of sprayable HEATSHIELD (details of individual components below)

Ultimate Noise Barrier Kit without HEATSHIELD	
13209	\$626.25 EA
Ultimate Noise Barrier Kit with HEATSHIELD	
13209-1	\$732.25 EA

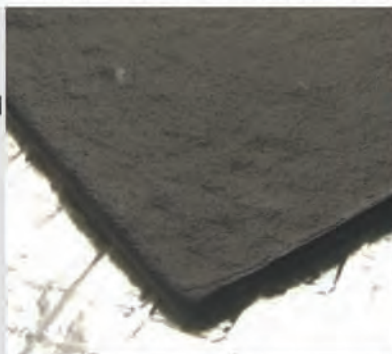

Basic Noise Barrier Kit

- Basic Noise Barrier Kit includes:
- Two thermal acoustic blankets (Insulator 12)
 - One gallon sprayable sound deadener (DEADENER)
 - Spray-on adhesive material & specialty seam tape
 - Complete instructions.
 - Option: One gallon of sprayable HEATSHIELD (details of individual components below)

13211-1	\$320.25 EA

Individual Heatshield & Noise Barrier Components

Vibration Damping Sheet. Moldable, odorless & lightweight mineral filled vinyl copolymer formulated to handle the extremes of aircraft and automotive vibration & noise control. 40% lighter than asphalt damping materials. Can handle continuous temps to 250 degrees. Paintable and can be applied to wood, fiberglass, sheet-metal and plastic panels. 2 sizes of thickness available. Each sheet= 37" x 54" (covers 14 sq. ft.)

Individual sheet. Thickness=.042".	
VDAMP-2	\$70.75 EA
HEAVY DUTY individual sheets. Thickness=.075"	
VDAMP-2HD	\$101.00 EA

BARRIER VBLOCK-VB3

Multi-layered composite material, which provides a shock absorbing, noise penetration barrier and thermal insulation. The isolation layer is constructed of a closed cell reinforced neoprene which decouples the floating lead septum from the vibrating source structure (floorboards etc.) creating a floating wall, which is one of the most effective noise penetration barrier materials.

SMALL 49" x 36" individual sheets. (12 sq. ft.) Thickness=.25"	
VBLOK-VB3.5	\$180.00 EA

THERMAL INSULATOR VBLOK-INS12

Thermo-Acoustic Blanket guards against the intrusion of heat, sound, vibration and airflow. Consisting of an all natural cotton fiber layer with surface layers of foil, it provides up to 50% greater R-value than other reflective insulation materials. 4' x 6'. Covers 24 sq. ft.

VBLOK-INS12	60.75 EA
--------------------------	----------

Sprayable sound **DEADENER** is a high performance air curing damping compound designed specifically for the interior & exterior side of body panels. Easy to apply (can also be brushed or rolled on), non-toxic & water based. 1 gallon.

DEADENER	\$85.00 EA
-----------------------	------------

HEATSHIELD is lightweight, pliable and bonds to virtually any material! Made up of air filled glass beads held in suspension by a high temp latex acrylic binder. Currently used in the US space shuttle program. Two 15 mil applications yield a thermal value of R-24. Insulate & prevent corrosion with one product. Easy to apply (spray, brush or roll on) and non-toxic. 1 gallon at 15-mil thick will cover approximately 50-60 square feet.

HEATSHIELD	\$101.00 EA
-------------------------	-------------

1 quart, external mix, siphon-feed spray gun. Use to apply HEATSHIELD/ DEADENER.

SPRAYGUN	\$101.00 EA
-----------------------	-------------

BARRIER VBLOCK-VB4

A composite material with a flexible, loaded vinyl mass barrier and a foam decoupling layer which reduces road noise by impeding the passage of soundwaves and acting as an airspace and spring. Its flexible nature prevents the composite from taking on vibrations from supporting structures, resulting in superior transmission loss over a broad frequency range.

SMALL 54" x 37" individual sheets (14 sq. ft.) Thickness=.25"	
VBLOK-VB4.5	\$139.50 EA

Section 320C: Floorboard Parts, Seals, Sound Deadeners, Mats & Pedals

Format = Part No., Year, Description, Original Chevrolet Parts Book Group No., Price and Unit of Measure.

FULL KIT INCLUDES: FULLY ILLUSTRATED INSTRUCTIONS FOR A PAINLESS, TWO-HOUR INSTALLATION. STAGE 1: PRE-SIZED SOUND DAMPER PADS. The first stage consists of pre-trimmed, self adhesive, Sound Damper Pads. Bonded to strategically located trouble spots on the floor pan and roof of the vehicle to control body panel vibration and noise. These spots are mapped and labeled in detailed instructions which are included in each kit. STAGE 2: PRE-TRIMMED HEAT ABSORBER/BARRIER PANELS, SPRAY ADHESIVES AND SEALING TAPE. The second stage uses a high-tech absorbing, barrier material bonded to the body panels. Will deaden sound and insulate the vehicle from radiant heat penetration. Each absorber panel is cut to the correct shape and contour for your vehicle and is mapped and labeled with detailed instructions. Individual components available for most kits (components shown below in gray).

Stage 1
Sound Damper Pads

The first stage consists of pre-trimmed, self-adhesive, Sound Damper Pads, bonded to strategically located trouble spots on the floor pan and roof of the vehicle to control body panel vibration and noise. These spots are mapped and labeled in detailed instructions which are included in the kit.

Stage 2
Heat Absorber/Barrier Panels

The second stage uses a high-tech absorber/barrier material, bonded to the body panels, to both sound deaden and insulate the vehicle from radiant heat penetration from the engine and road. Each absorber panel is cut to the correct shape and contour and is mapped and labeled in the detailed instructions.

Kits Include:

- Fully illustrated instructions for an easy, painless, two-hour installation.
- Stage 1 Pre-Sized Sound Damper Pads.
- Stage 2 Pre-Trimmed Heat Absorber/ Barrier Panels, Spray Adhesive and Sealing Tape.

Window Crank Switch

EWS
Eliminate unsightly generic power switches. Operate your electric windows with a stock window crank by simply rotating the crank up or down 15 degrees! Tough, durable switch allows you to retain a stock look without having to modify or create a location for a new set of switches. Choose window cranks in the Restoration area of this section.
