A **FORK BRACE & CHROME DUST COVERS** for GL1800

Küryakyn is pleased to invite you to a wedding...of sorts. Please join us in celebrating the union of our beautiful second generation Chrome Fork Dust Covers with our brawny, high-tech Chrome Fork Brace. This is the only brace on the market that provides the perfect fit & allows for those little variations that are found from bike to bike. A perfect marriage, they work together to improve appearance, handling & ride, while replacing the stock plastic fork bridge. Although they are available separately, this is a couple that was just meant to be.

Fits: '01-'09 GL1800 (except Airbag Models)

B WINDSHIELD TRIM with Turn Signal Accents for GL1800

Patent Pending

You appreciate ooo's & ahh's from onlookers, so here's another chance to amaze the crowd. This Windshield Trim is a huge improvement over the plain black rubber it conceals - a pristine chrome finish punctuated with crisp L.E.D. turn signal accents. The result is a clean transition from the windshield to the fairing & a higher degree of visibility as well. A great look with simple plug-&-play installation!

Fits: All '01-'09 GL1800 Models ('06-'09 GL1800's require P/N 7300 for plug-&-play installation)

D L.E.D. RING OF FIRE™ for GL1800

The Chrome Rotor Covers & Ring of Fire will really take center stage on your GL1800. The beautifully chromed disc brake Rotor Covers change the plain, unfinished axle retainer, hub & brake rotor into one sleek gleaming unit. In the daylight, they'll shimmer in the sunshine, but night time brings out another dramatic effect. Brilliant, weather resistant amber L.E.D.'s punctuate the slots in the trim ring, while another inboard set of L.E.D.'s reflect on the front wheel, setting it ablaze with your choice of color.

If you prefer a more subtle look, the chrome Rotor Covers are available without the L.E.D. lighting effects. Separate Ring of Fire kits are available as an upgrade if you choose to add them at a later time or if you desire different colors.

NEW GRIP END WEIGHTS
for Kuryakyn Grips

Patent Pending

ISO-Grips are an excellent first step to keep vibration in check, but now you can improve on that comfort! Quickly install on the end of each Grip to add mass & length to reduce handlebar vibration. Also adds a high-tech look to your already hot looking grips!

-------------	------------------------------	----------------

ISO®-GRIPS for GoldWing U.S. Patent D411,432

Combining style & comfort, Kuryakyn ISO-Grips are a quantum leap forward in hand grip design. Like the popular ISO-Pegs, these grips provide a soft, non-slip surface that dampens operating vibration. Recessed areas between the ISO-Pads permit air flow for added comfort in hot weather. The knurled chrome accent ring adds a classy detail.

Fits: '75-'09 GoldWings

6180	ISO-Grips with Chrome Accent (pr)	\$72.99
-------------	--	----------------

Note: These grips do not support the heated grip option on many late Model bikes. They also are not compatible with OEM bar-end weights found on many bikes. The majority of the time, removing these weights is a simple affair & the vibration absorbing quality of our ISO-Grips more than compensates for the vibration damping lost by removal of the bar-end weight.

L.E.D. BATTERY GAUGE

Our L.E.D. Battery Gauge is an array of L.E.D.'s indicating the operating voltage of the bike's electrical system. Green L.E.D.'s represent the normal operating range of your charging system, 12.5v to 14.5v. Amber L.E.D.'s warn the rider that the bike is not charging. If the reading drops below 10v or exceeds 15v, a flashing red L.E.D. will alert the rider of an impending stall or the possibility of damage to the battery &/or sensitive electronic components on the motorcycle. Simple two-wire connection & a compact size (about 2" x 3/4" x 3/16") make installation a breeze.

REAR AIRFOIL for GL1800

Patent Pending

If you want to greatly reduce buffeting & virtually eliminate annoying back draft this Rear Airfoil is the answer. You will be amazed at the almost still environment created for both driver & passenger when used with your stock windshield, or gain the ultimate in protection with the Performance Windshield. Made from hard-coated polycarbonate, select the Hint of a Tint Clear or Dark Smoked Airfoil that complements as a mere seven inch extension to the passenger seat.

Features:

- Hard-coated polycarbonate for quality, strength, & scratch resistance
- Quick detach
- Hint of a Tint Clear or Dark Smoke tint with aerodynamic styling to complement passenger seat

Fits: All '01-'09 GL1800 Models

RIDER TESTIMONY—

Our test riders could not believe the performance & left us with praise for creating a protected cockpit of air for both driver & passenger. The true amazements were “no buffeting or poor handling when passing through the traffic of 18 wheelers.” There is nothing else out there that provides better wind protection unless you’re getting in your car or truck.

Note: Best results reported when using Performance Windshield with Rear Airfoil.

COCKPIT COMFORT

Witness the Ultimate in Cockpit Comfort while Using Kuryakyn's AirMaster Performance Windshield, Rear Airfoil & Dragon Wings.

**PERFORMANCE
WINDSHIELD** for GL1800

Being "in the wind" is a big reason why many of us ride. But too much turbulent air detracts from the experience. The new Performance Windshield is only slightly larger than stock, but it's contoured, wider design creates a more calm, comfortable envelope. Optical clarity is excellent & the hint of a tint reduces glare without hindering visibility. Stock mounting points & adjustability are retained similar to stock. Unlike some larger replacement windshields, vehicle stability & handling are not affected & the driver is not crowded by the windshield.

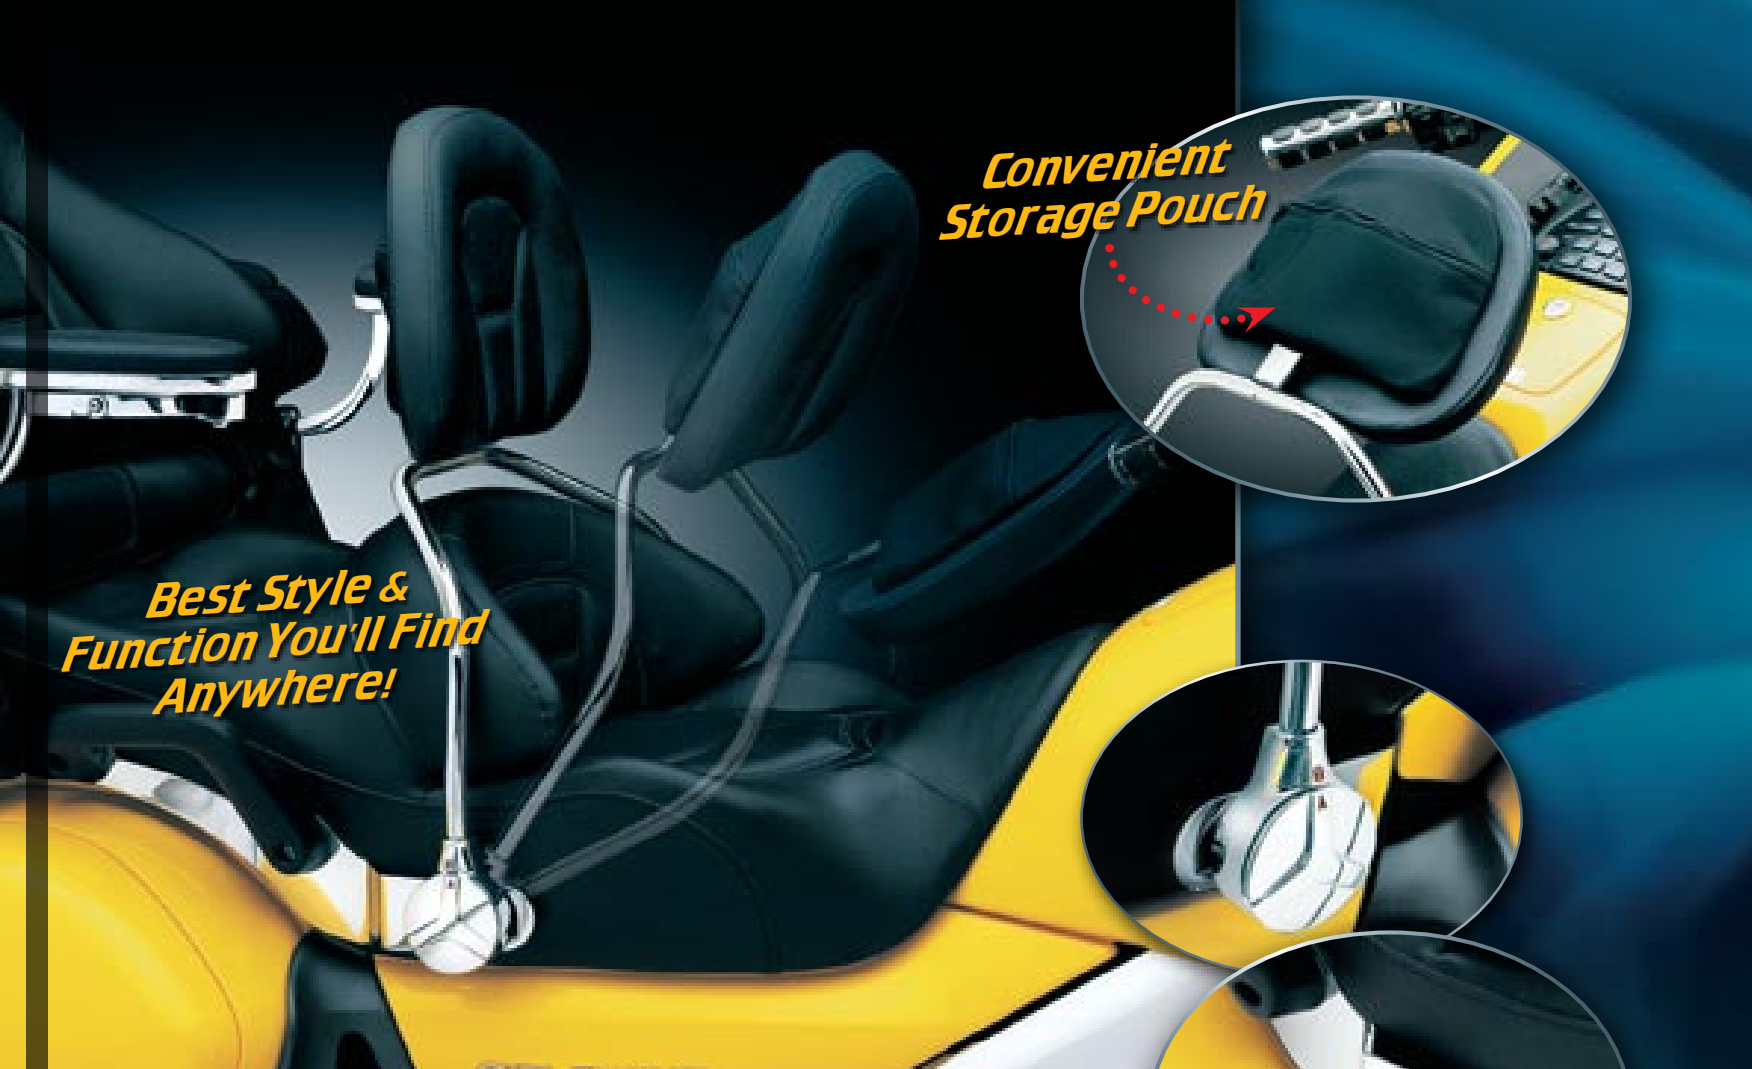

Features:

- Hard-coated polycarbonate for quality, strength, & scratch resistance
- Black gradient with vinyl protectors on lower portion to avoid abrasion

Fits: All '01-'09 GL1800 Models

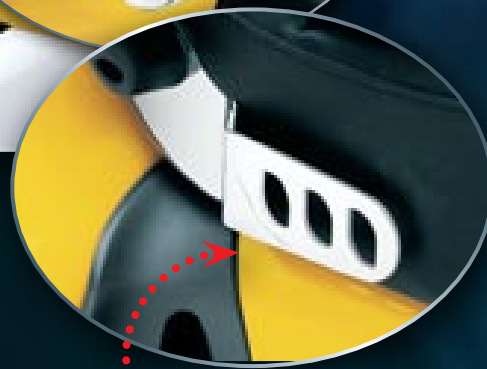

NEW 1382	Performance Windshield with Rear Airfoil (set)	\$399.99
NEW 1383	Performance Windshield (ea)	\$299.99

Note: Vent not included. The Performance Windshield has the standard cutout for installation of OEM windshield vent. For '01-'02 GL1800's without vent we suggest ordering OEM GL1800 Windshield vent for installation. Do not use Rain-X or other ammonia based cleaning or protection products on this product.

OFFSET PEGS with Quick Clamps

U.S. Patent D405,393 & D411,440

This innovative cruise peg setup redefines the term long haul comfort. This system is adjustable enough to accommodate nearly any rider.

Fits: GL1500, Valkyrie, (except Interstate) & most bikes with 1" engine guards

7976 | Offset Dually ISO-Pegs with 1" Clamps (pr) | \$145.99

LONGHORN OFFSETS

U.S. Patent D405,393 & D411,440

Our stylish Longhorn Offsets provide 360° of adjustability so they can be used to position the peg closer to the rider or further away. The mounts' 3-1/4" arm gives an incredible 6-1/2" range of adjustment. Incorporating an innovative locking device, this mount is guaranteed not to slip. These give you a wider range of adjustment than our standard Offset Pegs (P/N 7976) & works great on GoldWings or most bikes with 1" engine guards.

RIGHT ANGLE PEGS with Quick Clamps

U.S. Patent D405,393 & D411,440

A good option for cruise peg mounts on the 1800 - especially for the shorter rider. Because these mounts are attached to the clamp at a right angle, they can be positioned on engine guards in orientations impossible with other clamp-on pegs. This particular setup allows positioning on the 1800 engine guard at the closest point possible to the driver.

A INFINITY LIGHTS

For GL1800 Tour Box U.S. Patent 7,029,152

Few GoldWing accessories will leave as many people staring in disbelief as Infinity Lights. Performing double duty, they appear as graceful chrome accents until you bring them to life with the supplied controller. Now, an array of multi-function L.E.D.'s illuminate steadily, flash, or continuously fade through red, lime, ice, sky blue, dark blue, purple & green in a display that gives the illusion of infinite depth. Color, flash speed, & color cycle rate are totally variable & power draw is minimal.

LIGHTED SADDLEBAG MOLDING

for GL1800

U.S. Patent D477,551 & D488,105

These chromed replacement lighted moldings add the sparkle & elegance of the old style chromed tubular light bars without the added weight, mounting holes, potential for rust, & maintenance. These replace existing parts on the bike so there is no added bulk. All stock mounting points & hardware are retained.

The state-of-the-art red L.E.D. lights have an eye-catching, brilliant quality that draws minimal power & generates very little heat. These lighted moldings look great by themselves or with the other L.E.D. accessories that we offer for the GL1800. Any other type of light bar is now ancient history.
