The staff at C & G will help your restoration project go smoothly . . .

Kyle Allen is celebrating his 22nd year here at C&G. With over 30 years experience in the antique Ford parts field, Kyle can offer his assistance in answering your questions regarding FORD parts and their applications. Kyle has restored his own vehicles and is usually found cruising car shows teaching his daughters the fine art of restoration judging. Kyle hails from sunny San Diego and is an avid classic car enthusiast

Clyde and Gail Bangiola now retired, with their 1940 Ford Coupe.

Teresa Jordan is our office manager since 1996. Teresa's exceptional organizational skills and iron-will keep the efficiency high and the bloopers, blunders and gaffes to a minimum at C&G. An avid off road enthusiast, Teresa cruises the SoCal deserts in an F350, driving the family, toys, and trailer to the desert. Teresa hails from Escondido.

Cody Hill with a chopped 1949 Ford Custom hauling his surfboard and a love for all old Fords, Cody has the passion and knowledge to get your order right and make your call an enjoyable experience... dude!

John MacQueen has been in the automotive field for over 25 years. Enthusiastically attending swap meets and car shows, John meets our customers on a regular basis and follows their progress part by part. A native Californian, John and the Missus make Escondido their home.

Charisse Allen is known across the country (and the world) for her prowess in organizing shipments and ensuring packaging invincibility, Charisse utilizes an up to date computer scanning and tracking system to ensure you get all your parts delivered in a timely manner.

7 REASONS TO ORDER FROM C&G...

1. **Quality**
Our commitment is to give you top quality parts at competitive prices. We only sell the highest quality reproduction parts available. We will not sacrifice quality for lower prices.
2. **Service**
Customer satisfaction is our top priority, we go above and beyond merely "answering the phone". We are committed to helping you with ordering the correct parts for your vehicle. Old Ford parts and customer service are what we do!
3. **Convenience**
You can place your order five ways at C&G Early Ford Parts.
 1. Call our toll free order line and speak with one of our knowledgeable salespeople.
 2. Order online at www.cgfordparts.com.
 3. Fax your order 24 hours a day.
 4. Mail in your order.
 5. Walk in and place your orders.
4. **Selection**
"One call gets 'em all". We stock over 22,000 reproduction parts from more than 300 manufacturers, vendors and suppliers. We also carry N.O.S. (new old stock) parts when available. If you do not find the part you are searching for, simply ask us if it is available. New parts are added to our inventory daily.
5. **Simple Returns**
If you are not satisfied with your purchase, simply give us a call to return it **within** 30 days for a refund, credit, or exchange. The item must be in original condition, uninstalled, unaltered and in original packaging.
6. **Shipping**
Place your order by 1:00 PM Pacific Time and we will ship all in stock items the same day with no "out today fees" or other extra charges..
7. **FREEBIES**
Order \$500.00 or more at one time and receive a FREE C&G T-shirt upon request.

ORDERING INFORMATION & POLICIES

Ordering

Place your order by 1:00 p.m. Pacific Time for same-day shipping of all in stock items.

Phone Orders

Toll Free Order Line: (800) 266-0470. We accept phone orders Monday-Saturday. When placing your order, please provide your customer number, the year and model of your vehicle and the part number. Do you have technical questions?

Please call (760) 871-0445 for free customer technical support.

FAX Orders

Please fill out our order form located in the back of the catalog. Simply use our Toll Free Fax Line: (888) 836-7353 and fax it over. No Form? Write the part numbers and quantities needed along with your name, daytime telephone number, fax number and email address if you have one and fax it over.

Online Orders

Shop online from our secure website, 24/7 at www.cgfordparts.com. We will email you a confirmation when your order is processed.

Mail Orders

Please fill out our order form completely, located in the back of our catalog. In an effort to serve you better, please include a daytime phone number and an email address if you have one.

Walk-in Orders

We invite you to drop by and visit our showroom whenever you are in the beautiful San Diego area. We can fill your order while you wait!

Customer Number

Please provide your customer number on all orders. If you do not have a customer number yet, what are you waiting for? Come enjoy spectacular service and selection! Place your first order with us! (It really is painless)

Customer Service

Technical Support

For our valued customers we have free dedicated tech support. Not a customer? What are you waiting for? Come enjoy our fantastic customer service and tech support, place an order today! Please call (760) 871-0445 or email us at info@cgfordparts.com. We will do our best to get an answer for any tech questions regarding Ford parts and their applications.

Price Changes

Because of fluctuations in manufacturing and supplier costs, prices are subject to change without notice. We don't like it any more than you do; unfortunately, it is a part of life. Therefore, if there have been price increases, we will do our best to notify you. For our fax and mail in orders, we will give you a call or send you a note.

NO "OUT TODAY" FEES!

PAYMENT/SHIPPING

Credit Cards

For your convenience, we accept Visa, MasterCard, Discover and American Express. Please provide us with the name on your card, billing address, credit card number, and expiration date. ALL CREDIT DATA IS AUTOMATICALLY ENCRYPTED FOR YOUR PROTECTION!

Prepayment

Personal or company checks are accepted on mail-in orders but will delay your order 14 days due to bank clearance time. For prompt service, please pay with a Postal Money Order or cashier's check. Checks will NOT be accepted at our store location..

NSF Checks

There will be a \$25.00 charge for any returned checks.

Refused Shipments

Unless directed to do so by us, any orders refused delivery by the customer will be charged a 20% restocking fee PLUS freight charges back to C&G.

Shipping

Continental USA: All orders are shipped via UPS Ground Service, US Mail or truck freight. Delivery time varies depending on your location. UPS Next Day, Second Day and 3 Day shipments are available at an additional fee imposed by the carrier. Rates vary depending on weight and dimensions of boxes.

Alaska & Hawaii

All orders are shipped via UPS ground or priority mail. Rates vary depending on weight and dimensions of boxes.

International

All orders are sent by United States Postal Service-Global Express, or UPS according to size and weight limitations. In order to avoid errors, please be specific when ordering parts by including part numbers, year, model, body style, number of cylinders and any special modifications made. All orders must be prepaid with a Credit Card or Cashier's Check (payable in U.S. Funds, through a U.S. bank). A handling fee of \$10.00 or 3.5% of the total, whichever is greater, will be applied to each invoice on all foreign shipments for customs paperwork and specialized boxing and packaging requirements.

Bongo, (one of our friendly customers) checking for small parts amongst the popcorn.

Returns

- Inspect your order upon arrival!
- No returns will be accepted after 30 days without 20% restock fee!
- Absolutely no returns accepted for any reason after six months. No returns on electrical parts, special order parts, or printed matter.
- All returns must have prior authorization. Please call 760-740-2400 for a RMA number.
- All returns must be in original condition and packaging.
- We will not accept returns for parts that have been installed, painted or altered in any way.
- All returned parts will be inspected by our technicians or in some cases by the supplier's technicians (their rules) prior to issuing a credit.
- Please have your order number ready and advise if you would like to exchange the part or receive a refund. If you elect to have an exchange part sent, we will charge you for the part and shipping, and then refund you when we receive your return. Returns must be accompanied by a copy of your invoice along with the Return Authorization number.

We are always ready and willing to provide the customer service needed to help you with your order.

Now let us explain why all the rules...

Once your order is filled our system automatically begins a reorder and restock process. This process includes many behind the scenes activities in our house and at the supplier's house. Our data shows us that this process takes about 30 days to complete. In the meantime if you encounter an issue with your parts and notify us within 30 days (the sooner the better!) this allows us time to avoid our supplier's restock fees. Electrical returns data shows that the number one issue is customer abuse. Special order parts are hard to find parts that the supplier will not take back. Printed matter has been photocopied and the original returned to us many times. After 30 days from invoice date unfortunately we have to charge the restocking fee of 20%, the same one we get charged from our suppliers.

Damaged Shipments

- Inspect your order upon arrival!
- Keep original box and all packaging materials
- Call us to advise you received a damaged package within 24 hours of receipt
- Advise carrier of damaged package
We insure everything we ship, except First Class Mail!
Call us if you encounter any issues with the carrier

Shortages

- Inspect your order upon arrival!

All orders are physically double checked and then electronically scanned when placed into the box to avoid errors. If you are missing a part:

1. Be sure to check the invoice and make sure the item(s) were actually shipped.
2. Please double check all small bags, boxes and packing materials for the missing item(s) before calling. We sometimes include them in there to avoid losing them.
3. Be sure to keep the box and entire contents in the condition you received them. Please have your customer number and order number available.

Back Orders

When placing your order, please advise if you would like us to back order parts that are out of stock, or if you would like to cancel them. Generally, we only back order parts that are expected to arrive within 30 days and are over \$25.00. Shipping charges will apply to all back orders. If you no longer need a back ordered part, please call and cancel to avoid unnecessary shipping charges.

Core Charges

A Core charge will apply if you do not send in your rebuildable core prior to placing your order or if it is not identical to the part purchased. The Core charge will be returned upon receipt and inspection of the old part. All cores must be suitable for reconditioning. Cores requiring extra repair will result in extra charges. Some parts are sold on an exchange only basis.

Sales Tax

California residents are required to add the appropriate sales tax to their orders. Current rate is 8.75%.

Liability

C&G Early Ford Parts will not be held liable for property damage, personal injury, consequential damages, transportation, installation adjustment, or any other expenses that may arise from such parts. Our warranty shall be limited to replacement or repair of such defective parts within 30 days of invoice. A copy of the invoice must be provided. This warranty is made in lieu of any and all warranties expressed or implied, including the warranties of merchantability or fitness.

Shipping Fees

If you place your order before 1:00 PM Pacific Time and the parts are in stock, we guarantee "out today" at no additional charge! After 1P.M, because of daily order volume or your place in the queue, we cannot guarantee "out today" service.

- C&G has no minimum order charge/requirement.
- C&G customers are charged actual shipping costs imposed by the carriers. (Includes insurance.)
- C&G adds \$3.00 to all U.S. orders for packaging materials and boxes. Overseas orders add USD \$10.00 (for customs forms, packaging materials, boxes and any specialized shipping requirements).

- You may expedite your order by requesting Next Day, Second Day, or Three Day delivery services. Charges will vary depending on the weight and dimensions of your order. All back orders are cancelled after 90 days.
- Shipping may be requested through alternative carriers. (i.e.) U.S. Mail or a trucking company. In cases of truck freight carriers, you will be charged actual shipping costs plus crating costs, insurance and any additional fees imposed by these carriers.

THE FOLLOWING CHARGES ARE IMPOSED BY THE CARRIERS!

- **Oversize and Overweight Charges**
UPS requires some items be billed a minimum rate of 30, 70, 90 or 120 pounds because of package dimensions and/or weight.
(i.e.) Batteries, brake drums, bumpers, floor mats, patch panels, large fiberglass items, window channel kits, truck headliners and catalog items where noted.
- **Additional Handling**
UPS stipulates if an item is over 60" long, is odd shaped, or its second largest size is over 30 inches, they require an "additional handling" fee. (i.e.) Bed strips, bumpers, floor mats, window channel strips, exhaust parts, firewall insulators, tailgates, truck headliners, fender aprons, floor pans, patch panels, grills and catalog items where noted.
- UPS requires an additional "delivery area surcharge" to some rural destinations based on zip code.
- UPS requires that businesses operated from a residence that do not have an entrance open to the public be charged the "residential rate".

TOOLS

Multi-Tool

Helps with the installation or removal of window rubbers. The specially shaped ball tip keeps from tearing or gouging rubber seals.

All TL-1002ea. 15.00

Window Seal Stick

Made of durable plastic. Good for installing windows, not sharp enough to cut your skin, scratch your paint or tear the rubber. Has a flat end to scrape old rubber off.

Section 2 Books/CDs/DVDs

We stock a large variety of books for Ford cars and Trucks. Most books we carry are reprints of the originals that were supplied by Ford. The other books we carry are a very good source of information. Whether you are restoring your old Ford, building a hot rod, or you just like collecting books, we have a book for you!

New Master Cylinders

Tech Tip: Always bench bleed master cylinders before installation. This keeps air from being trapped in the bore causing a "spongy" pedal.

Always completely flush the brake system before installing new wheel cylinders and or master cylinders. Manufacturer does not warranty items returned as defects when rust, dirt, or scale is found in them.

“Just a note to let you know how pleased I am with your parts and service-Your staff is very knowledgeable and you always have the right parts and they arrive quickly. I have used your items on five 1940 Fords with great results. I live in Sacramento area and there are other stores around here that sell Ford parts as well, but they lack the knowledge and never have what I need-don't even go to them anymore.”
Thanks-have a SAFE day

Steering**

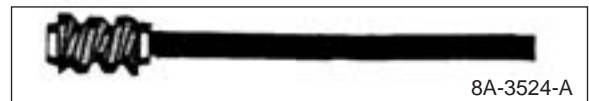

REBUILT STEERING BOX

We can rebuild your steering box. Varies in price depending on year, model, and diagnosis of your core. It is just like rebuilding an engine. You do not know everything you need until you take it all apart and inspect the pieces. Takes 2-4 weeks.

"I wanted to write and thank you sooner, but just hadn't gotten the chance. You may remember sending a gas tank for a 56 Ford to Iowa and writing 'Happy 31st Anniversary Dad & Mom' on the outside of the box. Well, just wanted to say thank you, thank you!!! The extra special touch was very much appreciated and dad loves the gas tank!"
Sincerely,

Red Line Coolant Additive

This additive helps lower the coolant temperature in your vehicle. Two 12 oz. bottles recommended per vehicle.

Tech Tip: Anti-freeze is not a sufficient coolant, drain your cooling system and add two bottles of water-wetter with distilled water. Always ensure you have a good radiator cap and thermostats, your vehicle could run up to 20 degrees cooler.

All Pass & PU WATER-WETTER, 12oz.....ea. 10.95

DISTRIBUTOR PARTS

Rebuilt Distributors

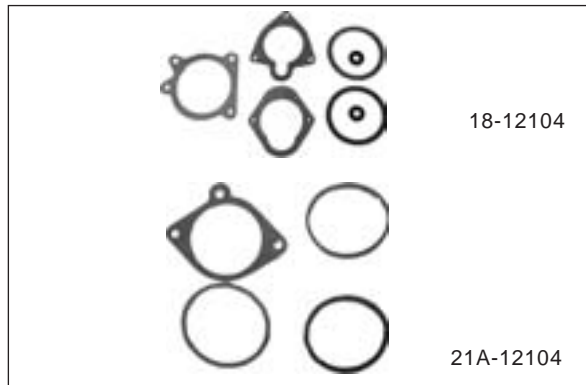

The core charge will apply if you do not send in your distributor prior to placing your order, or if it is not identical to the one purchased. We can rebuild your distributor, or exchange it for one already rebuilt. We completely disassemble, bead blast, replace bushings and other parts as needed. All distributors are strobed and ready to run.

GAUGES

Restored Gauge Cluster Assembly

These are restored for use with 6 volts. If you are converting to 12 volt we can have your cluster converted or you can use voltage drop part #B-10606-R, for the fuel, oil, and temperature gauges. The core charge will apply if you do not send in your rebuildable gauge cluster prior to placing your order; if it is not identical to the one purchased, or your core is not salvagable.

VOLTAGE DROP

Dash Gauge Voltage Drop

Tech Tip: When using original 6 volt positive ground gauges in a 12 volt negative ground converted car, always use 6 volt positive ground voltage drops (B-10606-R) on each gauge. Gas tank sending units (01A-9275) can remain 6 volt on 12 volt cars.

Allows the use of stock gauges and sending units when converting to 12 volt. Use for fuel, oil, and temp gauge. MUST use one per gauge.

All Pass & PU B-10606-Rea. 20.00

WINDOW GLASS SEALS

Glass Setting Tape

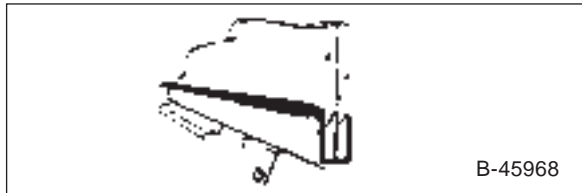

This is the material used between the glass and door glass channel, or between any glass and frame. To determine the right thickness you need, measure the width of your glass, then measure the width of the channel the glass fits in. Subtract the width of the glass from the width of the channel and divide that figure by two. All sizes are 1 1/2" wide x 20' long.

FELT KITS

Quarter Window Felt Kit

The following felt kits are exact replacements of originals. Each kit contains enough parts for two quarter windows. All kits come with necessary hardware to install. Stainless steel bead is available. To order add "-SS" to the end of the part number. These are a special order, and may take 1-2 weeks. The additional cost is \$10.00.
