# **GUIDED READING**

### **GUIDED READING BOOKS AND COLLECTIONS**

According to Irene Fountas and Gay Sue Pinnell, guided reading is an instructional setting that enables you (the teacher) to work with a small group of students to help them learn effective strategies for processing text with understanding. The purpose of guided reading is to meet the varying instructional needs of all the students in your class, enabling them to greatly expand their reading powers. Guided reading is a teaching approach that is designed to help individual students learn how to process a variety of increasingly challenging texts with understanding and fluency. Guided reading occurs in a small-group setting because the small group allows for interactions among readers that benefit them all. The teacher selects and introduces texts to readers, sometimes supports them while reading the text, engages the readers in discussion, and performs a mini-lesson after the reading. Sometimes after reading a text, the teacher extends the meaning of the text through writing, text analysis, or another learning activity. The lesson may also include work with words based on the specific needs of the small group.

BMI supports the guided reading program. To see the guided reading level for an individual title see our master order form or visit our website www.bmionline.com. We also have prepackaged reading collections by guided reading level listed below.

Our Guided Reading catalog is available on our website at www.bmionline.com/catalogs.asp

## LIVE OAK MEDIA READ-ALONGS

Bring excitement and pleasure to beginning readers with these outstanding read-alongs from Live Oak Media. These read-alongs give word-for-word narrations of the text at a pace that allows the young reader to follow along comfortably. One side of the cassette (or track one of the CD) uses a page-turn signal (the unobtrusive sound of a page being turned) for the reader who needs specific direction; the other side (or track two of the CD) is unsignaled for more independent readers. Introductory and closing music dramatically sets up and closes each narration. Each read-along includes one paperback copy of the book accompanied by an unabridged cassette or CD, in a plastic hang-up bag.

#### Book and Cassettes are \$16.95 - Book and CD's are \$18.95

# Bring the Classics to Life

These novels have been adapted into 10 short chapters that will excite the reluctant reader as well as the enthusiastic one. Key words are defined and used in context. Multiple-choice questions require the student to recall specific details, sequence the events, draw inferences from story context, develop another name for the chapter, and choose the main idea. Let the Classics introduce Kipling, Stevenson, and H.G. Wells. Your students will embrace the notion of Crusoe's lonely reflections, the psychological reactions of a Civil War soldier at Chancellorsville, and the tragedy of the Jacobite Cause in 18th Century Scotland. In our society, knowledge of these Classics is a cultural necessity. Improves fluency, vocabulary and comprehension.

#### High Interest/Low Readability

Each workbook may be used on a consumable basis or reproduced for multiple usage • Is divided into 10 short chapters • Was written using McGraw-Hill's Core Vocabulary • Has been measured by the Fry Readability Formula • Includes 100 comprehension questions that test for main idea, critical thinking, inference, recalling details and sequencing • Has 60 vocabulary exercises in modified Cloze format • Defines and uses in context new vocabulary, prior to each chapter • Includes complete answer keys for comprehension and vocabulary exercises • Contains 72 pages with exciting illustrations.

<u>Each audio CD:</u> Includes a word-for-word reading directly from the chapter pages in the book broken into 10 chapters with exciting sound effects. Workbooks and CD's can be used together or independently of each other. **Read-Alongs are provided in "hang-up" bags**

**Study Guides** — Here is a brief description of the five types of study guides BMI offers:

**Novel-Ties** — complete teacher/student guides with reproducible pages in a chapter-by-chapter format.

**Novel Units** — teacher's guides containing everything you need to teach a book. Frequent use of graphic organizers to plan lessons. Objective tests are not reproducible.

**Puzzle Packs** — intended to be refresher packs for the Teacher Pack to supply new materials for the Unit and Vocabulary Resource Materials sections. However, many teachers use them as additional materials for books they have previously taught, with or without the Teacher Pack. Comes on a user friendly CD.

**Student Packets** — reproducible pages for direct student use covering comprehension, vocabulary, writing exercises, and a final exam. For use with the Novel Unit, or on their own.

**Teacher Packs** — over 100 pages of practical, teacher-developed materials (including reproducible student pages) on a user-friendly CD. A proven foundation for teaching great literature.

All five study guides contain completely different material. For a complete description of these guides please see pages 77-79.

**Study Guides** — Here is a brief description of the five types of study guides BMI offers:

**Novel-Ties** — complete teacher/student guides with reproducible pages in a chapter-by-chapter format.

**Novel Units** — teacher's guides containing everything you need to teach a book. Frequent use of graphic organizers to plan lessons. Objective tests are not reproducible.

**Puzzle Packs** — intended to be refresher packs for the Teacher Pack to supply new materials for the Unit and Vocabulary Resource Materials sections. However, many teachers use them as additional materials for books they have previously taught, with or without the Teacher Pack. Comes on a user friendly CD.

**Student Packets** — reproducible pages for direct student use covering comprehension, vocabulary, writing exercises, and a final exam. For use with the Novel Unit, or on their own.

**Teacher Packs** — over 100 pages of practical, teacher-developed materials (including reproducible student pages) on a user-friendly CD. A proven foundation for teaching great literature.

All five study guides contain completely different material. For a complete description of these guides please see pages 77-79.

**Study Guides** — Here is a brief description of the five types of study guides BMI offers:

**Novel-Ties** — complete teacher/student guides with reproducible pages in a chapter-by-chapter format.

**Novel Units** — teacher's guides containing everything you need to teach a book. Frequent use of graphic organizers to plan lessons. Objective tests are not reproducible.

**Puzzle Packs** — intended to be refresher packs for the Teacher Pack to supply new materials for the Unit and Vocabulary Resource Materials sections. However, many teachers use them as additional materials for books they have previously taught, with or without the Teacher Pack. Comes on a user friendly CD.

**Student Packets** — reproducible pages for direct student use covering comprehension, vocabulary, writing exercises, and a final exam. For use with the Novel Unit, or on their own.

**Teacher Packs** — over 100 pages of practical, teacher-developed materials (including reproducible student pages) on a user-friendly CD. A proven foundation for teaching great literature.

All five study guides contain completely different material. For a complete description of these guides please see pages 77-79.

**Study Guides** — Here is a brief description of the five types of study guides BMI offers:

 $\begin{tabular}{ll} \textbf{Novel-Ties} & - & \text{complete teacher/student guides with reproducible pages in a chapter-by-chapter format.} \end{tabular}$ 

**Novel Units** — teacher's guides containing everything you need to teach a book. Frequent use of graphic organizers to plan lessons. Objective tests are not reproducible.

**Puzzle Packs** — intended to be refresher packs for the Teacher Pack to supply new materials for the Unit and Vocabulary Resource Materials sections. However, many teachers use them as additional materials for books they have previously taught, with or without the Teacher Pack. Comes on a user friendly CD.

**Student Packets** — reproducible pages for direct student use covering comprehension, vocabulary, writing exercises, and a final exam. For use with the Novel Unit, or on their own.

**Teacher Packs** — over 100 pages of practical, teacher-developed materials (including reproducible student pages) on a user-friendly CD. A proven foundation for teaching great literature.

All five study guides contain completely different material. For a complete description of these guides please see pages 77-79.

**Study Guides** — Here is a brief description of the five types of study guides BMI offers:

**Novel-Ties** — complete teacher/student guides with reproducible pages in a chapter-by-chapter format.

**Novel Units** — teacher's guides containing everything you need to teach a book. Frequent use of graphic organizers to plan lessons. Objective tests are not reproducible.

**Puzzle Packs** — intended to be refresher packs for the Teacher Pack to supply new materials for the Unit and Vocabulary Resource Materials sections. However, many teachers use them as additional materials for books they have previously taught, with or without the Teacher Pack. Comes on a user friendly CD.

**Student Packets** — reproducible pages for direct student use covering comprehension, vocabulary, writing exercises, and a final exam. For use with the Novel Unit, or on their own.

**Teacher Packs** — over 100 pages of practical, teacher-developed materials (including reproducible student pages) on a user-friendly CD. A proven foundation for teaching great literature.

All five study guides contain completely different material. For a complete description of these guides please see pages 77-79.
