Grammar in Practice Series

This three-book series offers instruction, review, and practice in the basics of grammar, mechanics, and composition. The concepts build on one another, from the parts of speech through paragraph composition, so that when students complete the final book, they will have the tools necessary to write polished compositions. This series can serve as grammar texts for middle-school or high-school students, whether they are learning the rules for the first time or simply need to review what they have learned previously.

Those teachers and students preparing for the SAT, the ACT, or state proficiency tests will find ample practice within this series. The exercises, activities, and applications were designed to improve students' abilities to perform the types of tasks these tests require: identifying errors in usage and sentence structure, correcting sentence and paragraph errors, and constructing logical, well-developed paragraphs in support of their ideas.

The Dynamic Dozen

BROTHER, I'M DYING

by Edwidge Danticat

- 2007 National Book Critics Circle Award Winner for Autobiography

From the best-selling author of *The Dew Breaker*, a major work of nonfiction: a powerfully moving family story that centers around the men closest to her heart—her father and his older brother. This is a true-life epic on an intimate scale: a deeply affecting story of home and family—of two men's lives and deaths, and of a daughter's great love for them both.

"Remarkable.... A fierce, haunting book about exile and loss and family love."

A MERCY: A Novel

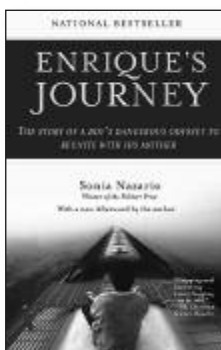

by Toni Morrison

A Mercy reveals what lies beneath the surface of slavery. But at its heart, like Morrison's bestseller *Beloved*, it is the ambivalent, disturbing story of a mother and a daughter—a mother who casts off her daughter in order to save her, and a daughter who may never exercise that abandonment.

"Spellbinding...Dazzling.... A Mercy stands alongside *Beloved* as a unique triumph.... This rich little masterpiece is a welding of poetry and history and psychological acuity that you must not miss."
