THERMAL TUNING PRODUCTS

Floor & Tunnel Heat Shields

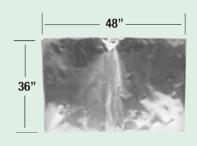

This revolutionary material adds a new dimension to control heat with minimal clearance needed, only 3/16"! Can endure direct temperatures up to 1750° F and is backed with an aggressive adhesive that holds past 450° F. Tough enough for under-vehicle use, it can also block out up to 50% of unwanted road noise.

BOOM Mat Spray-On reduces noise, vibration, serving as an undercoating and also serves as a thermal barrier insulating against heat.

18 oz. spray . **DE50220\$8.95 ea**

HushMat Ultra

tion Material is 1/8" thick & weighs only 0.53 lb per square foot! Proven to lower thermal transfer up to 40% & withstand temperatures from -30° to +400° Fahrenheit. Dramatically reduces low frequency road noise, vibration & exhaust noise. Incredible adhesion & super easy to install. Just peel & stick, with no need to clean the surface with alcohol or acetone. Trims with a razor knife or scissors.

Vibration Damping & Thermal Insula-

Thermal Insulating and High Frequency Sound Absorbing Foam is the perfect material to use to reduce both heat transfer & the high frequency noise caused by road surface variation (tire noise), engine noise, and wind noise passing behind trim panels. Aggressive butyl based adhesive on back for one step peel and stick application. Stick to sheet metal or fiberglass vehicle surface, or if you want the ultimate COOL &

QUIET interior, install it directly onto aluminum surface of HushMat Ultra vibration damping material.

Designed to dampen high frequency outside noise (600-4000 Hz), HushMat Silencer also reduces thermal transfer from engine or exhaust heat. Black, closed cell foam absorbs sound and heat from the engine, exhaust or external sources. Great for use on the firewall, door panels, behind trim panels or the underside of the roof.

"Street Tach" Tachometers

Auto Meter quality and reliability are built into this tachometer that measures from 0-8000 RPM in a 3-3/4" pedestal mount gauge & embodies modern styling of a black face with white graphics, rounded out by a red needle with a black bezel and housing. Includes an adjustable red shift marker. This tach will work with standard or electronic ignitions.

Auto Meter Accessories

Stainless Steel Braided Tubing

PAUTOCOMPETITOR INSTRUMENTS

RPM Activated Module

This device allows the use of Auto Meter Shift lights in conjunction with the shift "pills" to illuminate the light at your preferred RPM shift point.

..... \$89.95 ea

Digital Pro Shift System Controller

Level 1 Single Stage rpm Switch. This Digital Pro Shift System (DPSS) Controller from Autometer is fully digital and features a single programmable shift point and digital rpm display. Compatible with 4-12 cylinder engines. Works w/ Quick-Lite & Super-Lite shift lights.

Founded in the 1950's. Sun electric tachometers became the industry standard for the first generation of performance enthusiasts. Today, as SunPro, they remain an industry leader and the gauges of choice for the America's street and track machines. Known for quality and dependability, SunPro's line of products covers the enthusiast's needs at the right price.

Sport ST 5" Tachometer

The subtle metallic body and soft-touch bezel is like no other tach on the market. Modern DIS ignition applications are covered and shift light can be repositioned around tachometer.

- Features:
- · Large 5" dial face
- 0 to 10,000 rpm range
- Vibration proof, air core meter design
- Internal settings for 2, 4, 6 and 8 cylinder engines
- Pointer return-to-zero feature
- · Large, easy to see amber shift light
-CP7900......\$95.95 ea

5" Super Tach III

The chromed bullet shaped body and black face look at home in cars from any era! Features:

- Large 5" dial face0 to 10,000 rpm range
- Vibration proof design
- Internal settings for 4, 6 and 8 cylinder engines
- · Pointer return-to-zero feature
- Large, easy to see blue shift light
- Shift light can be repositioned around tachometer
- Modern DIS ignition applications are covered.

Super Tach II

The Super Tach II works with breaker-point, electronic and most aftermarket ignition systems. (Not magnetos)

Features:

Retroline Series

- 0 to 8,000 rpm range
- · Highly visible bright red pointer
- · Vibration proof, air core meter design
- Works for 4, 6 and 8 cylinder engines
- 250 degree dial sweep & adjustable redline pointer 3-3/8" Tachometer, chrome bezel

Light/gauge pressure tee adapter kit

Tach Adapter

Allows installation of a tach on distributor or coil-onplug ignition system.

'05-09.....\$**79.95 ea**

Fiber Optic to Tach Output Converter

By using an Inductive Spark Plug Wire pickup, this device will convert the signal created when the spark fires.

......\$79.95 ea

Smart Switch

Choose between supplying ground or 12 volts to activate a circuit, through the use of a long list of vehicles sensors. The switch can be calibrated to 'learn' the sensor and it can be programmed to activate at a certain % of the sensor's range.

......\$89.95 ea

Digital Shift Light

The tiny digital controller inside the compact housing gives you the ability to program the rpm activation points through the easy to view LED panel and 2 programming buttons.

......\$159.95 ea

Tachometer Signal GMR Pickup

This device simply attaches, no splicing or cutting, to a current carrying wire and turns that information into a 12-volt rpm signal. This signal can be used to activate a shift light, rpm activation switch or a tachometer.

......\$42.95 ea

Underhood Fuel Pressure Gauge

Here's a easy way to monitor your fuel system pressure. The fuel pressure regulator is the only place to tap into the 05 Mustang's fuel system. We offer an underhood fuel pressure gauge that uses a spacer block to tap into the fuel sysytem. It can also be used as a small nitrous purge.

A/C Vent Gauge Display

Retains the factory look without the extra gauge pods and clutter. Easy to install and allows you to monitor up to 31 sensors at a time. The gauge takes up one of the factory vents but does not cause any loss of heat and air functions. No irreversible modifications required..

4.6/5.4L 3V Thumpr NSR (No Springs Require	ed)							
Thumpr - Great idle with excellent power. Good mid-range torque and power gains above 4,500 rpm. Compatible with stock valve springs, converter and gears; requires cam phaser upgrade and custom tuning.	750 - 6400	265 / 298	226 / 246	.450 / .450	109°	TH265LL-9	CC7010	\$699.95 pr
Mutha' Thumpr - Very rough idle, biggest cam for stock heads. Great power above 4,900 rpm. Compatible with stock valve springs, benefits from converter and gears, requires cam phaser upgrade and custom tuning.	750 - 6600	273 / 306	234 / 254	.450 / .450	109°	MT273LL-9	CC7020	\$699.95 pr
Big Mutha' Thumpr — Extremely rough idle, needs stroker motor and/or ported heads. Major hp gains to 6,800 rpm. Best with 3.73+ gears and 2,500 stall. Compatible with stock valve springs, requires cam phaser upgrade.	750 - 6800	281 / 314	242 / 262	.450 / .450	109°	BT281LL-9	CC7030	\$699.95 pr

Performance Valve Springs

It's a waste of time and money to install a cam that will turn 8,000 rpm if you do not have the proper springs. Use valve springs that will give the recommended spring pressure to eliminate valve float.

Remote Oil Filter Adapter

This remote oil filter adapter is designed for remote oil filters and oil coolers. The fitting is unidirectional, allowing it to put in the best position for clearance. The adapter can also be used to plumb a dry sump when the lower port is plugged. '05-10 GT/GT500 .. MR23681\$131.95 ea

Oil & Filters

High Performance Oil Filter

Features:

- Synthetic polymer/cellulose fiber blend media
- Heavy gauge base & canister for higher burst strength & impulse fatigue resistance
- ()
- High quality silicone anti-drain back valve
- Non-stick sealing gasket for ease of installation & removal
- Long life with standard & synthetic motor oils
- Up to 50% more filtering capacity & improved filtering efficiency than standard filters

Motorcraft

This filter has specially designed silicone components in the anti-drainback valve. The silicone valve retains flexibility throughout the life of the filter. This ensures better oil retention in the filter and faster engine start-up lubrication.

Twin Throttle Bodies

Features:

- Twin 62mm bore (stock on GT is twin 55mm)
- Fits in the factory location.
- Precision machined from billet aluminum to ensure consistency.
- · Polished finish with machined Ford Racing logo.
- Tested to Ford OE specifications for cold and hot weather
- Complete with throttle position sensor and actuator motor.
- •Uses OE gear to prevent gear bind & wear.

*This throttle body requires a calibration, do not attempt to use on stock calibration.

Cobra Jet Throttle Body

Fully assembled, complete with throttle position sensor & actuator motor, ready to bolt on! Twin 63.5mm bore (stock is twin 60mm). Tested to over 800 hp in GT500. Precision machined from billet aluminum to ensure consistency. Polished finish w/ machined Ford Racing logo. Tested to Ford OE specifications for cold & hot weather. Service replacement for the 2008 FR500CJ race car. Fits in the factory location on 2007-2010 GT500s.

Twin 63.5mm...... **M9926CJ**\$679.95 ea

Cold Air/Throttle Body Induction Kits

Throttle body is CNC machined aluminum. Cold air intake system utilizes a high flow washable conical cotton element. Features die stamped throttle linkages, double sealed bearings & O-ringed throttle shafts. Installs in minutes with simple hand tools. No tune required! 50 state legal.

KN632566

FIPK Induction Kits

Often a weak point is the factory air path lead-

ing to the engine. This intake uses a non-metallic rotationally molded tube that can reduce intake air temperature and decrease intake sound over a metal

tube. This kit virtually eliminates air path restrictions by replacing the air filter and the entire air path to the engine. The aerodynamically engineered tube drives a massive amount of air into an engine, which translates into power and response. Kit includes air

filter, air intake tube, clamps, connectors, mount,

Methanol Injection

Why Water/Methanol Injection?

Water/methanol injection provides "chemical intercooling". This system suppresses detonation so more timing can be added. Water, with its high latent heat of vaporization cools the intake charge & combustion. Methanol cools the charge & combustion but also acts like an extremely high octane fuel as well as adding more oxygen.

Stage II Boost Cooler Water/Methanol Injection Systems

This system uses a boost-referenced digital variable controller to control the water/methanol injection. Includes controller, pump, injector nozzle, reservoir, switch, and tubing.

N-tercooler CO2 Cooling System

This system uses an external spraybar setup to spray CO² across an air-to-air intercooler, thus dropping the air inlet temperature dramatically and greatly increasing the intercooling effect.

*Bottle is shipped empty.

System includes:

- 10 lb. bottle with brackets
- N-tercooler ring
- Wiring harness
- Braided hoses with fittings
- WOT activation switch & bracket
- Arming switch & bezel
- CO² solenoid & bracket

Nitrous Plate System

Designed for superior distribution & atomization this plate style system is unmatched in performance & reliability.

System includes:

- Arming & activation switches & bezels
- Nitrous & fuel solenoids
- · Braided hose with fittings
- Nitrous throttle body plate
- Assorted jets (50-150hp wet shot)
- Nitrous bottle brackets
- Wiring harness

*Nitrous bottle is shipped empty.

Off-Road Pro-Chamber H-Pipes

Pro-Chamber H-pipes merge exhaust pulses to create higher temperatures, which boosts exhaust velocity and forces the exhaust to both outlets. Since there's no catalytic converters, there's more power. Not emissions legal, off road only. Aluminized mandrel bent 2-1/2", 16-gauge tubing, oxygen sensor fittings are present for proper installation. Fits from the headers to flow tubes. V6 pipes will require the use of Tru-Fit Cat Back Exhaust, #TK2625.

Pro Chamber After Cat H-Pipes When

Same features as Mac Off-Road H-Pipes but designed to mount behind the stock converters to the intermediate pipes.

Steel Flywheels

SFI approved durable flywheel is a great upgrade for your high performance Mustang. Milled from high carbon billet steel, and includes a steel insert to add the convenience of servicing, and replacing the friction surface without having to replace the entire flywheel. It is incredibly strong and can withstand stress from the most extreme engines, and you will not have to worry about added weight since it weighs the same as OE style flywheels. Steel

'05-10 GTFF11A.....\$259.95 ea '07-10 GT500FF5\$259.95 ea

This aluminum flywheel by Fidanza is heat treated for durability and are constructed of the highest quality aluminum, with a steel friction surface. It features a replaceable friction surface, so there is no need to replace the entire flywheel when the flywheel or clutch is worn, saving you time and money. Aluminum

'05-10 GTFF4\$349.95 ea

SPEC flywheels are CNC manufactured at an unheard-of .001" tolerance, in an industry where the standard is .010". This precision manufacturing process ensures perfect balance and a perfectly flat bedding surface for the clutch disc. All SPEC flywheels carry SFI certification. Rebuildable and features a replaceable steel friction plate that is made from friction-enhancing steel metal specially formulated for optimum clutch bedding and holding power.

05-10 GT

Steel \$299.95 ea Aluminum.......SPC2A......\$349.95 ea

Aluminum Flywheels

Bolt on this SFI 1.1 12 lb. flywheel for up to 15 horsepower to the wheels. Your vehicle will reach higher RPMs quicker due to lighter rotating mass. For turbocharged vehicles, this also reduces turbo lag. Manufactured using 6061-T6 billet aluminum with replaceable steel friction plate, and can be used with any type of clutch material including organic, carbon, carbon/kevlar, kevlar, ceramic, metallic and sintered iron.

'05-10 GT.....**ZFA5**.....\$399.95 ea

Insert

Replacement steel friction insert for bolton to Zoom aluminum flywheels. New bolts included.

'05-10 GT**ZI****\$76.95 ea**

Manual Transmission Flywheels

RAM flywheels are dimensionally the same as stock & have the same zero-balance specification as stock flywheels. As well, they are stronger & have increased RPM capability. Meets SFI specs 1.1.

*4.6L engines may have 6 or 8 bolts to attach to the crankshaft. Check the VIN before ordering!

Billet Steel		
'05-10 GT	R1540	\$299.95 ea
'07-10 GT500	R1545	\$299.95 ea

This SFI 1.1 approved flywheel weighs less than stock & will allow your engine to rev quicker with less stress on the rotating assembly. CNC-machined from billet aluminum with a steel friction surface insert. Even though this flywheel is SFI approved, we still recommend a scattershield for high performance & racing applications.

FAT-N

EA19605

The standard for durability and strength. These units are fully rebuildable and feature precision-forged gears. The carbon friction discs offer lifelong, chatter-free performance. 1-year manufacturer's warranty.

8.8" 28-spline...... **EA19605** \$529.95 ea

The Eaton E-Locker gives the driver full control at the touch of a button of when the differential is locked or unlocked from the driver's seat. Its ease of installation, reliability and push-button activation delivers smooth and consistent performance.

POWERTRAX

VX182C

Powertrax

PowerTrax's No-Slip Traction System replaces the spider gears and clutches inside the stock limited-slip differential. This system eliminates the noise, harshness and ratcheting-around-turns associated with conventional lockers. No special tools are needed for installation or altering of the ring and pinion set-up.

8.8" 28-spline.........VX182B.......\$439.95 ea 8.8" 31-spline.........VX182C......\$429.95 ea

Detroit Locker Differentials

A Detroit Locker maximizes the available traction by delivering 100% of the torque & power to both drive wheels. It is engineered to keep both wheels in a constant drive mode, yet has the ability to unlock to permit the wheels to turn at different speeds if necessary, like going around corners.

Pinion and Carrier Bearing Kit

Replacing these bearings can be cheap insurance against trouble down the road. Ratech supplies new pinion and carrier bearings to extend the life of your rear end.

Carrier Shim Set

Used to adjust the depth (or lash) of the ring gear's teeth as it is adjusted side-to-side to engage the pinion gear.

"California Dream" Ram Air Hood 🖼

This fiberglass ram air hood is functional bringing fresh cool air directly into inlet for increased airflow and performance. Since the hood has functional ram air ductwork, approximately 1" underhood clearance is lost.

"California Dream" Rear Spoiler

This 3-piece spoiler lends a retro look to round out the tail end of your Mustang. '05-09...... **RK24** \$294.95 ea

Quarter Window Scoops

Designed to emulate the quarter window scoops on the Shelby GT350/500, they are made of durable urethane and are ready for paint & preparation. These will work on V6 & V8 Mustangs.

"California Dream" **Door Panels**

This door panel, in addition to other ground effects components, helps to create an original look while maintaining the smooth lines of the Mustang. '05-09

"California Dream" Grille 🖫

This grille kit is designed to match the inserts in the California Dream ram air hood and front bumper. It has the recess to install the running horse emblem, and is made of an attractive black mesh.

'05-09...... **RK21**\$79.95 ea

Quarter Panel "C-Scoops"

Designed to emulate the guarter panel scoops on the 1967 Shelby GT350/500, they fit right in with the styling of the 2005-up Mustang.

"California Dream" Side Skirts

This skirt kit, helps to create an original look while maintaining the smooth lines of the Mustang. '05-09

Pony Package Grille With Foglights

Originally offered by Ford on 2006-2008 V6 models with the Pony package, but it will also fit 2005 models. In fact, you can add this desireable option to any 2005-2009 standard V6. It reuses the original grille mounting hardware. If you are converting a car not previously equipped, you'll also need the headlight switch (#SW6332). The wiring should already be there. '05-09 V6

Front Big Brake Kit

Designed specifically to be compatible with the sensitive Anti-Lock brake system. Requires 18" x 9" or larger wheels for clearance. This kit features:

- 14" 2-piece rotors with floating aluminum hats
- Large 4-piston calipers with Steeda logo
- DOT legal stainless steel brake lines

Rear Big Brake Kits

These wider, 13" diameter vented rotors provide better cooling. When combined with Steeda's 14" front disc brake kit, the 13" rear brakes provide optimum braking under all conditions. Also included are stainless steel braided brake hoses featuring factory brackets for easy 0.E. type install. Retains excellent OEM caliper for proper piston size and compatibility with the sensitive ABS.

Rear Upper & Lower Control Arms

Firmer launches and much improved handling characteristics are what you will get with BBK's Gripp heavy duty rear upper and lower control arm kits. Feature such highlights as precision robotic welding, baked on powder coating and polyurethane bushings, complete with greaseable zerk fittings. Comes with complete installation instructions.

'05-11 **BBK2523** **\$299.99** kit

Tubular Radiator Support/ Swav Bar Delete

If you are racing your Mustang and don't use a front sway bar, this crossmember can save an additional 11 lbs. off the front end. The factory radiator crossmember is built overly strong because it must also support the additional loads of the front sway bar. With the swaybar removed, the crossmember only needs to support the weight of the radiator. '05-11 **BMR30**..... \$169.95 ea

Tubular K-Members

By using the BMR K-member, you will be saving 5lbs more than with any other K-member, reducing your cars weight by a total of 20+lbs. It has been designed to be used with stock A-arms and spindles, and provides additional room for engine accessories such as headers or turbochargers. It is important to note that it will also decrease motor movement. '05-10 GT with Motor Mounts-OE Power Rack

...... \$489.95 ea '05-10 GT without Motor Mounts-OE Power Rack \$449.95 ea

Non-Adjustable A-Arms

These streetable A-arms are constructed of 1.25" DOM tubing, feature CNC machined rear pivot points, and are 11.2 lbs lighter than stock. They produce minimal amounts of road noise, are compatible with an OE-style K-member, and are also assembled with internally fluted polyurethane bushings with grease fittings at both mounts.

[']05-10**BMR1****\$399.95** pr

Adjustable A-Arms w/ QA1 Rod Ends

These BMR adjustable A-Arms allow adjustment for up to 1.125" overall narrower track width. This version allows camber and caster adjustment not possible with OE arms. They are assembled with 3/4" QA1 XR series Teflon lined rod ends on the main tube and an internally greased Delrin bushing on the rear. 9.6 lbs lighter than stock.

'05-10 **BMR2** **\$489.95** pr

1-3/8" Front Sway Bar w/Bushings 🖫

This front sway bar will eliminate body roll, flatten cornering, & lighten steering. This design is constructed of high quality, cold formed aircraft tubing which allows the bar to resist torsional fatigue much better than other designs. Necessary bushings & hardware is included for ease of installation.

'05-11 **BMR47**..... \$199.95 ea

Rear Sway Bar w/ Billet End Links & Mounting Bushings

This BMR rear sway bar is the perfect addition to your rear suspension. This rear sway bar will eliminate body roll, flatten cornering, & lighten steering. The design is constructed of high quality, cold formed aircraft tubing which allows the bar to resist torsional fatigue much better than other designs. Includes billet aluminum end links and all necessary bushings & hardware.

'05-11 \$269.95 ea

Sway Bar Relocation Kit

These stainless brackets allow you to relocate the sway bar further up on the bracket. The OE bracket must still be cut, but this kit provides new mounting points for the sway bar. All hardware & instructions are included. & estimated time of installation is only 1-2 hrs.

'05-11 **BMR50** \$39.95 kit

Xtreme Rear Anti-Roll Bar

Eliminate torque steer & body roll during hard launches as well as drastically improve your Mustang's consistency & stability with this Xtreme antiroll bar by BMR. This is a massive 1.25" x .250" wall splined anti-roll bar w/ 1/2" rod links, giving you the strongest bar on the market. The bolt in mount uses existing sway bar and frame holes, and comes w/ prothane bushings & grade 8 hardware for ease of installation.

'05-11 **BMR49** \$449.95 ea

Pro-Alignment Kit

When a vehicle is lowered, wheel camber may become excessively negative, meaning the top of the tire is angled inward (toward the center of the vehicle). While some negative camber can improve traction & handling, too much can negatively effect handling & accelerate tire wear. This kit assists in adjusting a vehicles camber back to factory specs & allows an increased adjustment range to provide a performance alignment that uses negative camber to maximize the true potential of your suspension.

Pro-Damper Front & Rear Strut Kit

These struts were developed specifically to compliment Eibach spring kits, effectively utilizing the increased spring rate and lower center of gravity. Resulting in enhanced performance throughout the entire suspension travel. They

are specifically tuned for maximum performance, while maintaining exceptional ride quality. Includes: (2) front struts & (2) rear shocks

Pro-Street Coil Over Suspension Systems

These coil over spring & damper packages, with durable stainless steel housings, allow the ability to adjust the ride height & corner weight of each individual wheel, giving flexibility for precise street and track tuning. Coil overs replace the existing factory strut & spring.

'05-11 **5558117** **\$269.95** ea

'05-11 Mustang

Front Control Arm Relocation Kit

Steeda's control arm relocation kit raises the front roll center of the vehicle by raising the front lower control arm mount ³/₄", which becomes lower as a result of lowering the vehicle. Raising the roll center eliminates the issues associated with the lower roll center, making for a great improvement in handling by reducing body roll and improving the front tire contact patch without increasing spring rate or roll bar rate.

'05-10 **5558116** **\$79.95** kit *Welding required.

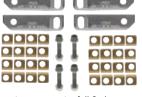

X5 Ball Joints

Steeda's X5 ball joints improve suspension geometry on lowered Mustangs by raising the spindle relative to the ball joint pivotpoint. This raises the rollcenter back into the correct range for optimum handling.

Camber Adjustment Plate Kit

These plates mount directly to the struts and come with a variety of

hardened steel inserts so you get a full 3-degrees of adjustment options.

'05-11 HP Series

HP Series

The famous "Blue Shock" continues to be the overwhelming choice of performance enthusiasts looking for the best in overall handling & ride quality. The HP series damping typifies Tokico's valving flexibility & philosophy by minimizing low speed damping force & greatly increasing damping at medium and high piston speeds for improved compliance.

D-Spec Series

A multi-use product that's the result of sophisticated piston & valving design. Utilizes a unique variable-aperture bypass, which is controlled by an adjustable slide valve. Adjustments change both rebound & compression damping simultaneously. Between maximum soft and hard settings, the D-Spec is infinitely adjustable.

Lower Braces

G-Trac Brace

This brace attaches between the two inside rear control arm bushing bolts in order to limit high G load deflection and better suspension compliance. '05-10 **5555530** **\$59.95** ea

Front Lower A-Arm Brace

- Original equipment on convertible & 2007 GT500
- Increased chassis stiffness
- Fits 2005-10 Mustang GT coupe

'05-10 **M5025A**....... **\$64.95** ea

A-Arm Support Braces

This brace bolts to the rear mount of the front Aarms, tying the two legs of the k-member together. '05-10 Red..... **BMR51** **\$59.95** ea '05-10 Black **BMR52**..... \$59.95 ea

Rear Braces

Rear Shock Tower Brace

A great compliment to a coil-over system; will yield a stiffer chassis regardless of your suspension choice. Some welding required for installation.

*Note: Does not fit in cars with Mach 1000 sound system. '05-11**5555750**....... **\$174.95 e**a

Rear Tunnel Braces

Connects both sides of the floor pan together, reinforcing and stabilizing the chassis. Attaches to 6 structural areas, including the subframe. Designed to work with stock or aftermarket exhaust.

'05-10 w/loop BMR24...... \$149.95 ea '05-10 w/o loop **BMR29**...... \$99.95 ea

brackets.

HD Boxed Subframe Connectors

These Subframe connectors complete the frame by tying the rear control arm mounts & subframe assembly to the front subframe. They are constructed from 1.5" x 2" main tubing, 1" gussets, & 3/16" laser cut weld plates. *Weld in design.

'05-10 **BMR45** **\$259.95** pr

Tubular Subframe Connectors

These subframe connectors tie the rear control arm mounts to the subframe to pick up where the factory left off. They are constructed of the 1.75" DOM tubing and use 3/16" laser cut mounting plates, to make your chassis & frame strong and rigid. *Weld in design. '05-10 S149.95 pr

Made with 1-5/8" diameter .120" wall steel tubing, laser cut. Will not reduce ground clearance like other similar subframe connectors models.

'05-10 **EDL5292** \$199.95 pr

Weld-On Subframe Connectors

Reduce unwanted flex & twisting with subframe con-

nectors. Subframe connectors join the front & rear

subframes. Constructed of box steel, these weld-on for maximum strength with no modifications.

'05-10 Coupe...... **M13BR**...... \$74.95 pr

Made from lightweight 4130 chromemoly tubing & precision tig welded, these subframe connectors have been fit to the floorpan to clear the gas tank shield & fuel line protector.

Subframe Connectors

.10" thick wall tubular steel connectors tie the front and rear subframes together. Can be bolted (some drilling required) or welded-on. Hardware included. *Not for use with Lakewood Traction Bars or side- exit exhaust.

Black powdercoated

J7113	\$84.95 pr
Bare Finish J7114	\$74.95 pr

Front and rear frame rails increase body stiffness in flexible uni-body cars. Made of 1-3/4" inch steel round tube. Connectors have 3/16" thick steels plates at the front. Connectors can be welded in, or bolted on. Helps with handling and cuts down on drivetrain wind-up. Includes all hardware. Black powder coated finish.

.....\$20.95 ea

Concours Exteriors Products

Concours Exteriors was founded by a leading chemist to serve the professional detailer and demanding enthusiast. If only the best will do for your car's finish, this line of products was created for you.

Swirl Mark Remover

Designed to safely remove swirl marks and light scratches from the surface of your paint finish, this formula is safe for all clear coat finishes and will not burn or fade paint. Ideal for restoring previously burned paint and for removing the "hologram" look produced by high-speed buffers and harsh compounds.

16 oz **CE10**\$19.95 ea

"Amp" Color Enhancing Glaze

Designed to enhance paint color and provide long-lasting protection between full details, this polymer based formula repels bugs, tar & water spots. Lightly mist clean surface then hand polish until dry.

16 oz **CE11**\$14.95 ea

Multi-Surface Cleaner

"Fresh" Auto Bath

Designed to safely lift road grime from paint without "etching" the finish. It's low pH level of 7 gives this auto bath a great balance by removing dirt without removing wax. Ideal for weekly washes.

16 oz**CE13****\$11.95 ea**

"Luminesce" Wheel Cleaning Gel

Designed to quickly remove brake dust and other contaminants from wheels. This pH 7 formula contains no acids or alkaline so it will not spot, streak, etch or deteriorate clear coated wheels over extended use. Ideal for all metal wheels and even plastic hub caps.

"Morroco Cream" Leather Conditioning Cream

Designed to revitalize and protect the finest leather upholstery, this cream protects against UV rays and restores natural oils. This pH 7 formula contains no petroleum distillates.

34

"Morroco Gel" Leather Cleaning Gel

Designed to clean slightly dirty to heavily soiled leather. Contains Glycerin and a low pH level to provide a strong cleaner that is gentle enough for the finest leathers. Will not harm stitching, dry out leather or deplete the natural oils in the leather.

16 oz **CE16**\$11.95 ea

R2SiO "Rizzo" Tire and Trim Shine

Designed to provide a clean, glossy wet look. Water will bead off R2SiO treated surfaces for weeks. Silicone in this gel formula clings to a tire's surface, eliminating spin-off. This unique formula contains no petroleum distillates which dry out rubber

and cause white lettering to turn brown. Great for any rubber or plastic.

16 oz **CE17**\$14.95 ea

"Repel Glaze" Polymer Based Paint Protectant

Designed to protect paint against contaminants and preserve the deep luster it was meant to have. This polymer based formula goes on quickly and easily and does not dissipate in high temperature environments.

16 oz **CE19** **\$22.95 ea**

Car Care Products

The Glosser

Clean and wax your car with one wipe. One wipe can clean a mid-size car in 5-10 minutes. Five wipes per pack.

GLS9001 \$9.95 pk

Mechanic's Stethoscope

Unique sound chamber & super thin diaphram greatly amplifies sounds. Quickly pin-points the source of noises in engines, transmissions, diffrentials & bearings.

......\$19.95 ea

Oil Filter Wrench

Handle swivels to clear obstructions. Features gripper "teeth" & 1" wide stainless steel band. The swivel handle makes it easy to turn filters in hard to reach locations. Fits $3^{-1}/2$ " to $3^{-7}/8$ " filters.

......\$9.95 ea

Telescoping Magnetic Pocket Pick-up Tool

Will retrieve parts & tools from hard to reach places. Magnet shielded to concentrate magnetic field at end of tool. Super strong neodymium magnet. Telescopes from 4-1/2" to 16-1/4".

.....\$7.95 ea

Transmission/Transaxle Plugs

Stops loss of transmission fluid. (5) stepped plugs cover a range from 1"-2.180" & fit both transmissions & transaxles on most import & domestic cars & pickups. Stepped design prevents slipping out.

......\$14.95 set

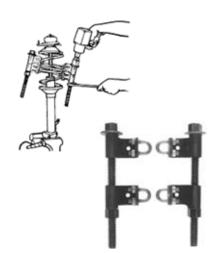

Valve Spring Compressor

High leverage allows one-hand operation. Exceptionally strong, rigid frame. Works with nearly all valve-in head & L-head engines as well as truck and tractor engines.

......\$94.95 ea

Strut/Spring Compressor

Fitting all strut spring sizes, import and domestic, this heavy-duty tool clamps & bolts securely to hold the spring during operation. It minimizes the danger posed by cheaper spring compressors. Bolt onto opposite sides of the spring and compress evenly by turning the top bolts with a wrench.

California PopTop Interior Cover

while keeping the temperature down. In the snow belt, it will allow you a quick drive away without having to scrape snow and ice from your windows.

'05-11 **CPT2 \$54.95 ea**

Why invest in a quality car cover? Our car covers "breath" so well that you'll never have to worry about your paint...they're even mold and mildew resistant! They offer excellent sun protection (second only to your garage) while preventing your interior and dash from fading and cracking. Custom fit design! Our car covers are custom fit for a specific make and model. This feature alone places them at the top of the line. Custom fit, each cover is elasticized, front and rear, and has side tie-down grommets that are padded for your car's protection.

Multibond®

This new three-layer Sentrex fabric is the only midpriced vehicle cover fabric that resists moisture while still providing the

breathability you want. An excellent dust and pollution barrier, Sentrex fabric has added UV stability to fight cover damage caused by ultraviolet rays. Suitable for outdoor and indoor use.

2-year manufacturer's limited warranty. '07-09 GT500...... C16968SG.......\$126.36 ea

Technalon/Evolution 4

A step up from Multibond, this Evolution IV material is even more water resistant. Four-layers of breathable "quilted" polypro-

and indoor use. 4-year manufacturer's limited

warranty. '07-10 GT500 **C16968TK**\$191.67 ea

Weathershield

This breathable fabric protects year-round against sun, dust, tree sap, droppings & can be washed in your home washing machine. Suitable for indoor and outdoor use. 4-vear manufacturer's limited

Georgia & Connecticut SHOWROOMS are ready to serve you!

Save on shipping with a visit to either of our showrooms to pick up your order. You can call ahead and have your order ready for pickup to help simplify the process. While we maintain a massive inventory at both locations, sometimes an item may be out of stock. Parts out of stock can be ordered and parts that are not oversize or truck items can be sent with no shipping charge to the lower 48 states. See our map on the inside back cover for directions. Can't make it to one of our locations? Order online at

www.mustangsunlimited.com and see photos of virtually every part we carry!

We have moved our Connecticut Location

- 20,000 square foot showroom!
- 200 feet of showcase counter!

Visit one of our in-house Mustang Shows!

Georgia

These Car Shows are open to all year Mustangs and Ford Powered/Bodied vehicles.

All Ford Summer Blast-Off Cruise In/ Car Show

Sun. May 16th (Rain Date: May 23rd), 12 PM - 4 PM Registration: 12 Noon - 2PM • Judging: 3PM • Awards: 4PM

Mustang & Ford Appreciation Day Cruise In/ Car Show

All displayed vehicles are not REQUIRED to have a fire extinguisher!

Ready To Place An Order?

Our toll-free order lines (1-888-398-9898 for our Connecticut location, and 1-888-229-2929 for our Georgia location) are open seven days a week during regular business hours and are available to all 50 states. If you reside within the local calling area in Connecticut you can reach us at (860) 647-1965 or in Georgia you can reach us at (770) 446-1965. Our FAX line is available 24 hours a day, seven days week at (860) 649-1260 in Connecticut or (770) 446-3055 in Georgia.

Our Manchester, Connecticut and Lawrenceville, Georgia warehouses maintain a huge selection of inventory. Our Connecticut location is a half mile off Interstate 84, just 7 miles east of Hartford. Our Georgia location is a half mile off of Interstate 85, 18 miles north east of Atlanta. Be sure to visit us when you are in New England or the Atlanta area. Our Parts Counter Hours are 8:00 am to 9:00 pm Monday thru Friday, Saturday from 8:00 am to 5:00 pm and Sunday 11:00 am to 5:00 pm.

Note the code number of the catalog from which you are ordering. The code number is located on the bottom right hand corner of the front cover.

Determine method of payment. We accept Discover, Mastercard, Visa, American Express, Money Order or Bank Draft. Have the credit card number and expiration date ready.

Place your order! Indicate proper shipping and/or billing address.

Returns & Exchanges

At Mustangs Unlimited, we try to make returns and exchanges as easy as possible. All returns must be made within 90 days of receipt, in "new" condition and in its original packaging. Sorry, there are no returns on special orders, electrical items, literature or video tapes. For more information, see "Ordering Information and Policies" on the back of your order form.

Core Deposit & Refund Policy

All re-manufactured parts, unless noted, require a core deposit. Core deposit must be the same year and type of the one you are purchasing, (e.g. - purchase of a 1966 power steering pump must be exchanged with a 1966 power steering pump). The core deposit will be charged on all appropriate orders and the refund will be refunded after the core has been inspected and approved by the manufacturer.

A qualified core deposit must be: In its original box! • Rebuildable • Complete • Assembled

Any cores not meeting the refund specifications will be returned to the customer upon request at the customers expense.

Note: C.O.D. returns will not be accepted. Prepaid freight only.

Returns/Exchanges **Procedure**

- Call us at Connecticut 1-888-398-9898 or Georgia 1-888-229-2929 to obtain a return authorization number
- Include a copy of the original invoice in the box with your return.
- Clearly mark the Return Authorization Number on the outside of the package near your return address.
- Return shipping must be prepaid. C.O.D.s will not be accepted.

- Phone to one of our helpful and friendly sales representatives.
- FAX 24/7 to each of our locations.
- Mail by using forms located in the back of the book (additional mail in order forms can be downloaded from our website).
- Online at www.mustangsunlimited.com.

If mailing or faxing in your orders, please be sure to fill out the order form completely to allow your order to be processed more efficiently. When placing an order by phone, please have your part numbers and payment method ready when you call (there is a \$10.00 minimum order total on all phone orders.

• SPECIAL ORDERS: Any item placed as SPECIAL **ORDERS** allow 2-4 weeks delivery on these items.

Shipping & Handling

- · All packages shipped to addresses within the states of Connecticut or Georgia are subject to State and Local Sales Tax.
- Most orders can be shipped via UPS, USPS, or FedEx. Shipping charges for most orders \$.01-\$79.95 are \$7.95. Orders of \$79.96-\$299.99 are 10%. Orders of \$300.00 or more qualify for FREE ground shipping in the lower 48 U.S. states. Oversize and Truck Freight Charges still apply.
- Each Oversize 1 (OS1), Oversize 2 (OS2) and (OS3) item(s) are subject to an additional charge of \$9.95 (OS1), \$14.95 (OS2) or \$50.00 (OS3) for shipping. These fees are based on additional premiums charged by UPS, USPS and FEDEX for larger and oversized packages.
- Truck Freight Items shipping fees are based on a Zone charge plus a residential (add \$20.00) fee (if applicable). The shipping fee structure and zone map are located on the back of the order form.
- · International orders should consider freight changes before ordering. Please contact us for a quote before placing your order.

Our Promise

Mustangs Unlimited wants you to be completely satisfied with everything you purchase from us. If, within 90 days of purchase, you are not completely satisfied with a part, simply call us. We will take all possible steps to correct the problem. See our return policy for complete instructions.

Ordering

Ordering is easy! You may place your order by:

- · Phone our helpful and friendly sales representatives.
- FAX 24/7 to Connecticut (860) 649-1260 or Georgia (770) 446-3055.
- Mail by using forms located in the back of the book (additional forms can be downloaded from our website).
- Online at www.mustangsunlimited.com.
- If mailing or faxing your orders, fill out the order form completely to allow your order to be processed more efficiently. If ordering by phone, please have your part numbers & payment method ready when you call.
- SPECIAL ORDERS: Thousands of parts not listed in our catalogs are available. Allow 2-4 weeks delivery on these items
- Color samples On items like headliners or carpet, to ensure the correct style and/or color, please send a small sample so we can match the item as closely as possible.

Backorders

Backorders automatically ship as inventory is received unless otherwise specified at time of order. Any mailed-in prepaid orders stating "No Backorders" will be promptly credited. **Credit card orders are not charged until shipment is made.** Backorders may be cancelled after 60 days, depending on availability, & a refund will be issued if due.

Payment

Orders may be paid with Discover, Mastercard, Visa, American Express, Money Order, or Bank Draft.

Shipping & Handling (Summary)

- All packages shipped within Connecticut or Georgia are subject to state/local sales tax.
- Most orders can be shipped via UPS, USPS or FedEx. Shipping charges for most orders \$.01-\$79.95 are \$7.95. Orders of \$79.96-\$299.99 are 10%. Orders of \$300.00 or more qualify for FREE ground shipping in the lower 48 U.S. states. Oversize & truck freight charges still apply (see below).
- To ship some larger or heavier items we are charged an additional fee from UPS, USPS & FedEx. Each Oversize 1 (OS1) item is subject to an additional \$9.95 charge, each Oversize 2 (OS2) item \$14.95 & each Oversize 3 item (OS3) \$50.00.
- A small number of other hard to handle items like tires, batteries, disc brake kits, glass, etc. may also have Special Shipping Charges and are generally noted.
- Items too large for USPS, UPS or FedEx will be shipped by truck freight. NOTE: A symbol of a truck is used to denote freight shipments.
- International orders should contact us to confirm shipping charges before ordering.

Rush Service

Most orders are shipped Ground Service. In stock parts normally ship the day order is placed, Monday through Friday, if the order is received by 12:00 noon EST. We also offer "Next Business Day". "2nd Business Day".

"3 Day Select". "3 Day Select" is a service which will guarantee delivery within three business days, (ideal for west coast deliveries). Charges are calculated by weight & size at time of shipment. Saturday delivery is available for most locations (additional \$15.00).

Truck Shipments

The truck freight symbol tells you that an item is too large for UPS, USPS or FedEx to handle and must be shipped by a truck line. All truck freight orders must be prepaid. We've negotiated very competitive shipping rates based on the large volume of packages we ship. To determine the amount of freight you will be charged on a truck freight item, locate the zone you're in on the chart below and compare the shipping charges listed. Residential delivery will add \$20.00 to your shipping charge. To be considered a commercial address there must be a shipping dock able to receive truck deliveries. Delivery signature required.

All rates are subject to change at any time, so please confirm the shipping charges with your sales representative when you place your order. Mustangs Unlimited will not be responsible for freight charges on any refused truck shipments. Important, please see damages.

Inspect Your Orders

Please inspect all your merchandise immediately upon delivery. Notify us of any discrepancies within 3 days of receipt. We do not allow claims after 3 days. *Important, please see DAMAGES.*

Puerto Rico, Alaska and Hawaii

Orders may be paid with Discover, Mastercard, Visa, American Express, Money Order, or Bank Draft. We ship by USPS or UPS blue label, unless too large for USPS or UPS, in which case we use Air Freight. Shipping charges are calculated by size and weight of order. Mail-in orders should add 35% of total for shipping charges, (not less than \$15.00). If there are additional shipping charges, you will be notified. Any over-paid shipping will be credited or refunded. Credit card orders will be billed, for shipping, directly to the card. All orders must include a daytime telephone number.

Canadian Orders

Orders must be paid by credit card or money order paid in U.S. funds drawn on a U.S. bank. We ship by USPS or UPS to all Canada. On mail-in orders, please include 25% of the order total for shipping (minimum \$15.00). If there are any additional shipping charges, you will be notified. Any over-paid shipping will be credited or refunded. Credit card orders will be billed for shipping directly to the credit card. Duty or brokerage charges are calculated in Canada, and will be collected by the

International Orders

Must be paid by credit card, Money Order in U.S. funds, or Wire Transfer (add \$30.00 for wire transfer charges). Include a daytime telephone number for delivery notification. We ship Air Freight & Air Parcel Post, specify preferred ship method. Size limits for Air Parcel Post are 42 inches length or 79 inches (length plus girth). Maximum weight is 44 lbs. Shipping charges bill to your credit card separately. Note: paints, dyes & some chemical products are not shippable overseas.

Shipments To APO's & FPO's

The maximum size parcel can not exceed 108 inches in length and girth or 70 pounds in weight. Include 10% of order total for shipping (\$8.95 minimum).

Returns / Exchanges

Call 1-800-243-7278 to obtain a RETURN AUTHORIZA-TION NUMBER. The return number must be clearly marked on the outside of the package near your return address. Packages will not be accepted without prior authorization. Please have invoice available when calling. All returns must include a copy of the original invoice and return shipping must be prepaid. We do not pay for return shipping. C.O.D.s are not accepted. All items returned must be in perfect "new" condition and in original packaging. Returns must be made within 90 days of receipt. No returns on special orders, electrical items, literature, video tapes or computer software.

Defective Parts/Warranties

Ford Racing does not warranty parts other than some engine assemblies,

therefore Ford Racing parts are sold "as is" without warranty.
