BUILT FOR LIFE

DETAILS INSIDE

MORE THAN JUST A HOLSTER

Developed in Israel for the world's military and police services. Proven in lethal force encounters, the Fobus Concealed Carry Holster is a revolutionary step forward in holster design and technology. Fobus is the first original manufacturer of injection molded polymer holsters, with this experience Fobus is the leader in high-density polymer, with more models that fit the most hands in the market place.

Comfort is vital when carrying concealed, Fobus designers have delivered holsters that weigh 2 ounces. These holsters are close fitting, with a low profile, have a rubberized paddle for comfort and a steel reinforced rivet attachment system for durability. They are rugged and reliable and virtually maintenance free. Fobus holsters utilize a passive retention system that allows for rapid presentation.

100% Lifetime Warranty.

WWW.FOBUSHOLSTER.COM

DESIGN

With the most comfortable paddle on the market, and a holster that weighs approximately 2 ounces. Fobus has delivered a low profile, IDPA approved, comfortable holster for all day concealed carry.

PASSIVE RETENTION

Unique passive retention system securely retains the weapon while allowing instant presentation. Continued upward movement provides the fastest draw possible.

RUBBERIZED PADDLE

A new development in the design for improved comfort, Fobus has incorporated a soft rubber backing to most of their paddles. This backing adds 40% more flexibility in the paddle and reduces holster movement.

REINFORCED RIVETS

A new improvement in the design for rugged reliability, Fobus has developed the Reinforced Rivet Attachment System (RRAS). The RRAS system provides additional strength to the holster by utilizing steel strips through which the rivets are fastened.

VARIO BELT

Introducing our unique VARIO system that allows one holster to be securely worn with belt widths from 1" up to 2.25".

The patent pending VARIO system employs a quick tool-free adjustment that allows the use of the most popular belt widths without the need to change holsters. Available in select models.

STANDARD

Setting the standard for concealed carry was our objective. State of the art design, injection molding and high density polymer have created a holster which cannot be duplicated in leather or any other material.

FEATURES

- Lightweight 2oz. holster
- Low profile design for concealability
- Passive retention allowing rapid presentation
- Rubberized paddle for extra stability
- Steel reinforced rivet attachments for increased holster strength

EVOLUTION

The next step in the evolution of holster design. One piece holster body construction with adjustable retention allows the user to customize the ease of presentation, functioning in conjunction with the proven Fobus passive retention design.

FEATURES

- One-piece holster body construction
- Retention adjustment screw with passive retention
- Protected sight channel
- Low profile design for concealability
- Rubberized paddle for extra stability
- Steel reinforced rivet attachments for increased holster strength
- NTOA Member Tested and Recommended

Paddle

Belt

Roto-Holster™

COMPACT

Developed from our Standard holster line, the Compact provides the utmost in retention and concealability. Ultra lightweight design allows for a comfortable all day concealed carry.

FEATURES

- Retention adjustment screw (except Glock model)
- Lightweight compact design
- Low profile design for concealability
- Passive retention allowing rapid presentation
- Rubberized paddle for extra stability
- Steel reinforced rivet attachments

THUMB BREAK

Combination of the Standard holster's passive retention system with a snap release thumb break. Provides an excellent Level II holster for concealed carry.

FEATURES

- Leather retention strap
- Level II retention
- Low profile design for concealability
- Lightweight

TACTICAL

Allows the user an option for carrying handguns with a light / laser mounted on the under-barrel rail or trigger guard. Lightweight, reinforced polymer construction with thumb break.

FEATURES

- Muzzle stud and leather thumb break provide retention
- Lightweight compact design
- Low profile design for concealability
- Rubberized paddle for extra stability
- Steel reinforced rivet attachments

INSIDE THE WAISTBAND

This extremely light and comfortable holster is contoured to allow a full range of motion while in use. Allows low profile inside the waistband carry.

FEATURES

- Upper and lower retention hook
- Single hand reholstering
- Passive retention

ANKLE

Everyone needs a backup plan. The concealed Ankle holster is lightweight and comfortable for all day use. Featuring suede lined Cordura pad for comfort and an adjustable Velcro strap securing the holster to the leg.

FEATURES

- Low profile design for concealability
- Retention adjustment screw (on most models)
- Passive retention with rapid presentation

ROTO-HOLSTER™ SYSTEM

The unique Fobus Roto-Holster™ System allows the user to utilize a patented locking adjustment system. The user has the ability to customize their cant with 40 different positions encompassing 360 degrees working for cross-draw, driver, small of the back, and strong-side carry.

Each Fobus Roto-Holster™ utilizes the Design, Passive Retention, and Rubberized Paddle systems made famous by the standard line of holsters. With a flexible two-piece design the user can easily interchange any of the roto accessories.

360° ROTATION

Patented locking adjustment system provides 40 possible positions encompassing 360 degrees. Simply loosen the Philips head attachment screw, adjust and tighten for secure hold.

NEW CONTOURED PADDLE

New roto one piece paddle and belt design allows for a lower profile, and added strength. The paddle utilizes the same rubberized backing that adds 40% more flexibility in the paddle and reduces holster position slippage.

INTERCHANGEABLE

With a flexible two-piece design the user can easily interchange any of the roto accessories. Simply loosen the Philips head attachment screw, remove current attachment and replace with and tighten for secure hold.

The Roto-Holster™ system is available for most current holster models, see fit chart for exact models.

LEVEL II LEVER ACTION

Unlike other Level II holsters, there is no need to alter your presentation or grip. With a simple, smooth and quick motion the handgun is released, utilizing a natural draw stroke. A new and innovative way for providing quick access and Level II retention. The thumb falls naturally on the release lever and upon reholstering a revolutionary retention concept engages the trigger guard, to keep the handgun secure. Roto-Holster™ design allows for cant adjustment by the user.

FEATURES

- Rivetless design for extra strength
- Natural draw instantly releases handgun from holster
- Top mounted thumb activated lever with large purchase area

Paddle

Belt

Roto-Holster™

SINGLE MAG

Securely carry an additional magazine comfortably. Custom retention system with exceptional fit and low profile design.

FEATURES

- Lightweight compact design
- Low profile design for concealability
- Utilizes mini paddle fits belts up to 1 3/4"

Mini Paddle

DOUBLE MAG

Allows the user to carry two additional magazines and provides easy and fast access for quick reloads. Custom retention system with low profile design.

FEATURES

- Lightweight compact design
- Low profile design for concealability
- Rubberized paddle for extra stability
- NTOA Member Tested and Recommended

MEMBER TESTED
AND RECOMMENDED

LIGHT / MAG COMBO

Carry a flashlight and an extra magazine at the ready. Accepts 1" flashlights along with 9mm, .357 and .40 cal magazines. Lightweight for all day comfort.

FEATURES

- Holds a 1" flashlight and extra magazine
- Lightweight compact design
- Low profile design for concealability
- Rubberized paddle for extra stability

Paddle

Belt

CUFF CARRIER

Carry a pair of handcuffs securely and comfortably. The lightweight positive locking pouch is comfortable for all day concealed carry. Universal fit.

FEATURES

- Lightweight 2oz pouch
- Positive locking keeps handcuffs secure

CUFF / MAG COMBO

Excellent for on the job concealed carry. Adjustable design to accept most magazines and handcuffs. Low profile, lightweight one piece rivetless design. Models to fit 9mm, .357, .40, 10mm & .45 double stack magazines.

FEATURES

- Rivetless pouch body
- Low profile design for concealability
- Rubberized paddle for extra stability

M3 CARRIER

Picatinny light carrier for M3, M5, M6 and similar Picatinny light systems. Carrier will hold most accessories utilizing a Picatinny or Weaver rail attachment system.

FEATURES

- Lightweight compact design
- Low profile design for concealability
- Utilizes mini paddle fits belts up to 1 3/4"

Mini Paddle

CUFF CASE

Obtain easy access to your handcuffs with our rubberized handcuff case. Cuff case is for ASP polymer and Hiatt models UL1, UL5 and HSS9 handcuffs. Fits belts up to 2.5". Features a flap with a snap closure.

FEATURES

- Lightweight one piece design
- Easy handcuff access
- Metal snap closure

Belt

UNIVERSAL HOME & VEHICLE MOUNT

Unique design allows the mounting of a Roto-Holsters™ virtually anywhere. The Universal Home & Vehicle Mount consists of two complete mounts, one vertical and one horizontal that attach to most surfaces with four screws. Designed to adjust to any angle or mounting position. Mount your handgun in the home, office, boat or vehicle.*

FEATURES

- Accommodates any Roto-Holster™
- Hundreds of mounting possibilities
- Mounting hardware included
- Roto-Holster™ not included
- * Check local laws before mounting

Roto-Holster™

Horizontal Mount

Vertical Mount

MODULAR SHOULDER HARNESS

Lightweight shoulder rig constructed with fully adjustable ballistic nylon strap and padded shoulder pieces for added strength and comfort. Lower Velcro straps attach to belt for additional stability. Fully adjustable, one size fits all.

FEATURES

- Available with 1 or 2 mounting points
- Accepts any Roto-Holster™
- Adjustable 360 degree rotation
- 40 possible holster positions
- Roto-Holster™ not included

TACTICAL THIGH RIG

Tactical Thigh Rig does not restrict movement during strenuous activity. Ambidextrous, strong with a flexible design, features an adjustable 1.5" ballistic nylon non-slip leg strap with a side buckle release.

FEATURES

- Accepts any Roto-Holster™
- Adjustable 360 degree rotation
- 40 possible holster positions
- Roto-Holster™ not included

ROTO M.O.L.L.E.

Attach a Fobus holster to any M.O.L.L.E. drop leg or chest rig system with the Roto M.O.L.L.E. mount. Provides a secure base for any Roto-Holster™ or Roto product. Manufactured from a rigid polymer with a nylon cloth covering and nylon attaching straps that snap securely in place. The new Roto M.O.L.L.E. attachment is designed to take the minimum amount of space on your M.O.L.L.E. platform.

FEATURES

- Adjustable 360 degree rotation
- 40 possible holster positions
- Accepts any Roto-Holster™
- Available in Black and Digital ACU
- Roto-Holster™ not included
