PARENTING FOR ACADEMIC SUCCESS A Curriculum for Families Learning English

Janet M. Fulton, Laura Golden, Betty Ansin Smallwood and K. Lynn Savage

Parenting for Academic Success: A Curriculum for Families Learning English is a 12–unit curriculum designed for parents who are non–native speakers of English. Its goals are two–fold:

- To develop the English language skills of parents
- To increase the ability of parents to support the language and literacy development of their children in kindergarten through grade three

The curriculum has two components—a set of *Parent Workbooks* for all 12 units and a comprehensive *Teacher's Resource Manual*. The organizational framework for each unit follows the stages of a lesson: Review/Warm–Up, Introduction, Presentation and Practice, Assessment, Evaluation, and Application.

Each lesson in the *Parent Workbooks* includes:

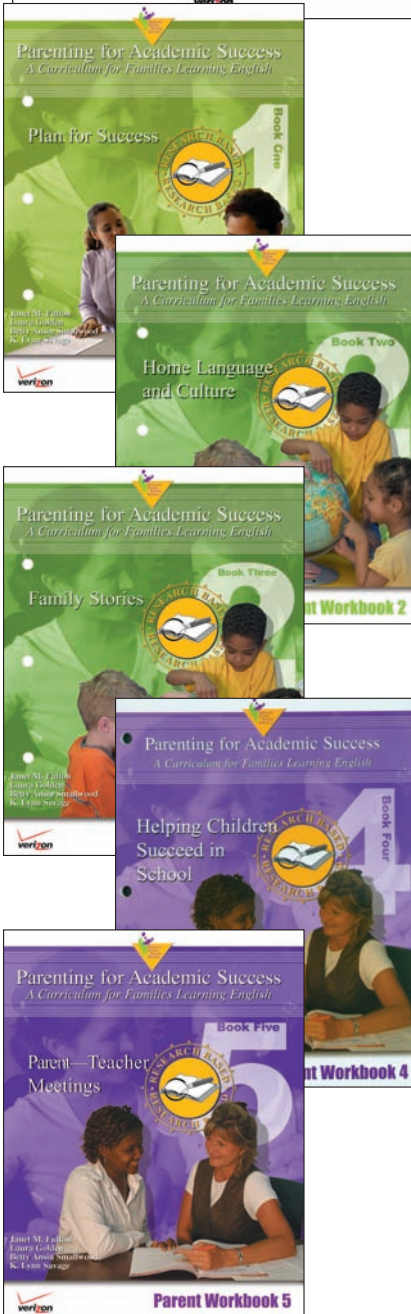

- Activities to support the language development of parents
- Content knowledge development for parents to support their child's learning
- Activities for parents to take home and do with their child

Each unit in the *Teacher's Resource Manual* provides:

- The Unit Overview, which identifies a unit goal and offers background information and research on the unit's topic
- The Lesson Plans, which identify a goal, parenting skills and language skills objectives, and suggested procedures for facilitating activities in the corresponding *Parent Workbook*
- The Teacher Resources Section, which provides references, suggestions for further reading, reproducible masters for activities that require separate handouts for parents, and reproducible Parent Surveys in English and Spanish

Parenting for Academic Success is designed for adult education and parent education and has ties to several documents that guide adult educators. The following describes how this curriculum relates to those documents.

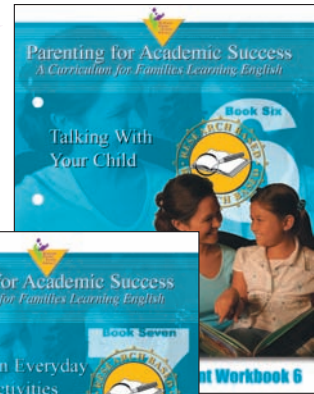

- The National Reporting System (NRS; www.nrsweb.org), through a document used by the Office of Vocational and Adult Education (OVAE), identifies proficiency levels for adult learners in English as a Second Language (ESL) and in Adult Basic Education (ABE) programs. **Parenting for Academic Success** is targeted to adult ESL learners at the high beginning and intermediate proficiency levels as described in the NRS document. The NRS document also correlates the scores on several different tests to the various proficiency levels.
- Equipped for the Future (EFF) is a set of standards developed by the National Institute for Literacy (NIFL; www.nifl.gov). The standards are organized by three major adult roles—family member, worker and citizen. **Parenting for Academic Success** focuses on the adult role of the family member (parent); however, the skills parents practice also are applicable to worker and citizen roles. For example, applying effective reading strategies is as applicable to the worker and citizen roles as it is to the family member role.
- The Comprehensive Adult Student Assessment System (CASAS; www.CASAS.org) is a set of competencies organized by topics (e.g., health, employment) and assessments designed to measure the attainment of those competencies. Many states use CASAS to report learner gains. Because **Parenting for Academic Success** focuses on parental support of children's language and literacy development, the majority of the objectives come from the content area of "Learning to Learn." For example, through the take–home activities, parents develop personal responsibility and skill in evaluating outcomes.

PARENTAL INVOLVEMENT

- The Secretary's Commission on Achieving Necessary Skills (SCANS; wdr.doleta.gov/SCANS), a document developed by the United States Department of Labor, identifies skills that employers expect competent workers to have. The types of activities designed for parents in **Parenting for Academic Success** develop skills identified in the SCANS document. For example, pair and small group work develop the ability of learners to work effectively with others; reflection activities develop thinking skills; and take-home activities develop skills in using resources wisely and in acquiring and evaluating information.

Parenting for Academic Success simultaneously builds parents' English language skills as they learn strategies to support their child's language and literacy development. Parents learn and practice new concepts in the classroom, then transfer their learning home with take-home activities that help their child prepare for and succeed in school.

The curriculum focuses on three parenting skill areas:

- Home Language and Culture (Units 2 & 3)
- School and Culture (Units 4 & 5)
- Language and Literacy Development (Units 6–11)

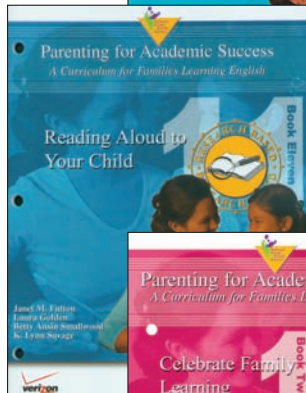

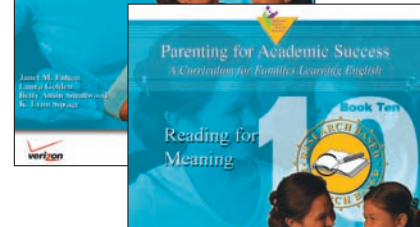

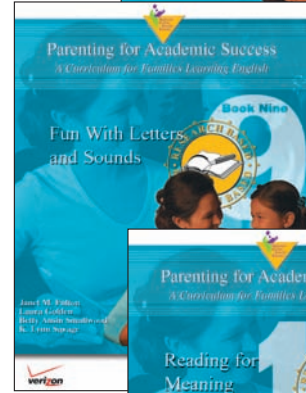

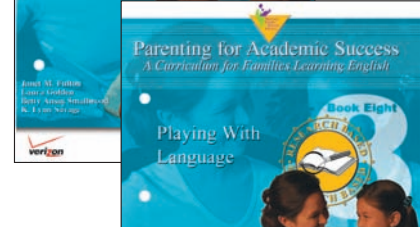

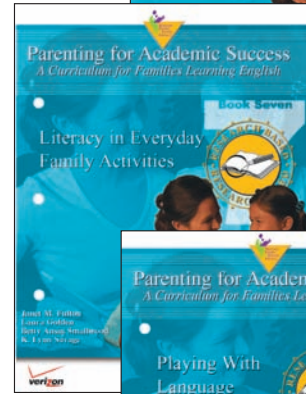

Unit 1 offers teachers the opportunity to introduce the curriculum to parents and focus them on the goals of the program. Unit 12 provides an opportunity for parents to celebrate their accomplishments.

Parenting for Academic Success was developed and funded by the following organizations who are at the forefront of the literacy and language fields:

- The National Center for Family Literacy (NCFL) is recognized worldwide as the leader in family literacy development. NCFL works with educators and community builders through an array of services to design and sustain programs that meet the most urgent educational needs of disadvantaged families.

Parenting for Academic Success was developed by NCFL in collaboration with the Center for Applied Linguistics (CAL) and K. Lynn Savage, Educational Consultant.

- NCFL provides training that can enhance the delivery of **Parenting for Academic Success: A Curriculum for Families Learning English**. For more information, call (502) 584-1133 or visit www.familit.org.
- Verizon Communications provided funding for the development of **Parenting for Academic Success** and supports NCFL and its Hispanic Family Learning Institute. Verizon's support of the literacy cause includes Verizon Literacy Campus, a free online resource, at www.literacycampus.org.

ESL PHONICS FOR ALL AGES

L-B

Elizabeth Claire

ESL Phonics for All Ages is designed both for English language learners who read in a non-Roman alphabet native language and for English learners who cannot read in any language. All five books presume a limited vocabulary in English and limited understanding of sentence structure. It has been extensively tested with student's aged 7 to adult who are learning to read and write in English.

- Uses high-frequency, unambiguous vocabulary that beginning English learners need to know or already know.
- Sequences the sound/symbol presentation to follow natural development of language learners' skills in sound discrimination. Short vowels, often very confusing for new language learners, are presented last.
- Has an audio component to provide native-language presentation of the text and to allow individual students to advance at their own pace.
- Uses a multifaceted approach so students advance in phonetic awareness, reading, spelling, vocabulary, sentence structure, conversation, and pronunciation.
- Uses full spellings of all words. This allows for students to become familiar with whole words and provides a head start for success when later sound/symbols are presented.
- Presents sight words in contexts needed by first-year ESL students.
- Repeats sentence patterns to enhance success.
- Provides songs, chants, poems and conversations for whole-language reading.

WHAT'S UP?

Integrated Skills and Culture for Adults

Kathleen Olson

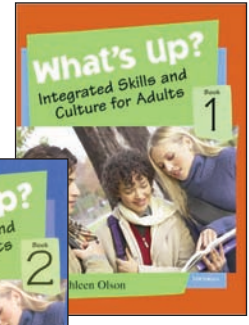

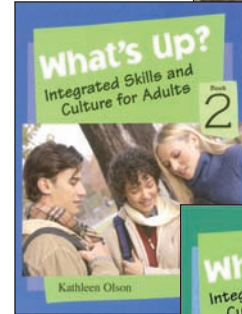

The What's Up? series presents many activities that build skills and knowledge of U.S. culture for adults in three volumes.

Each unit prominently features activities that develop listening, speaking, reading, and writing skills and contains nine sections: Survey, Think, Read, Understand, Listen, Talk, Write, Apply, and Homework. Each unit also includes:

- Readings adapted specifically for these students from actual news reports...
• A variety of "authentic" products or realia (menus, advertisements, forms, etc.) to help adult students develop cultural literacy skills
• A cloze dictation exercise to develop listening skills
• A consistent lesson format for quickly mastering directions and completing activities independently
• An opening survey with many useful applications in the classroom

Each unit can be completed in one week, with the homework assignment occurring over the weekend. The lesson format is consistent throughout the book, so once students have mastered the directions, they will be able to complete the activities independently.

A Communicative Course in English

Diane Warshawsky, Sandra Costinett, Joan Dye, Nancy Frankfort, David Rein and Sharon Abrams

B-A

HS AE

Spectrum is a "communicative course in English," based on the idea that communication—the exchange of information—is not merely an end-product of language study, but rather the very process through which a new language is acquired.

From the very beginning, students practice language that can be put to immediate use. For example, students learn to ask for information, make suggestions, and apologize. They learn the appropriate language for different situations, such as formal speech used with strangers and informal speech with friends. Most important, they are encouraged to express their own ideas and feelings, and to give their own opinions.

Components include a student book, workbook, teacher's guide and audiocassettes. The teacher's guide provide a wide range of suggestions for using the other components of the course with recommendations for teaching each exercise in the student book that can be adapted to suit individual teaching styles and to meet the needs of particular students. There are also page-by-page instructions interleaved with duplicates of the student book pages.

The student placement & evaluation packet includes a placement test and two achievement tests for each level.

ENGLISH FOR FOREIGN LANGUAGE SPEAKERS

The Easy Way

Christina Lacie

Students of English as a second language will value this book as an excellent self-instruction guide, or alternately, as a handy workbook to supplement their formal ESL course. Many ESL teachers will also value this volume as their preferred textbook or textbook supplement. Following a diagnostic pretest, the author guides students through the details of reading, writing, developing vocabulary and grammar, listening, speaking, and correct pronunciation of American style English. She devotes separate chapters to each of the parts of speech, as well as to sentence structure, punctuation, capitalization, word roots, homonyms and synonyms, idioms, rules for academic writing in English, and more. Each chapter contains a list of vocabulary words carefully selected to expand every ESL student's word power in English. The book concludes with a set of comprehensive vocabulary review exercises and a lengthy comprehensive English exam with answers. Students who master these final two chapters can feel confident regarding their command of English.

PHONICSQ The Complete Cueing System

L-B

Phyllis R. Herzog

PhonicsQ is an engaging visual system that consists of picture cues in three different formats meant to be effective in a variety of learning situations. It is designed to help students link the phonemes of oral language and the graphemes of written language to decode new words. This system, which was developed with students in a resource room, is unique in that it provides a single picture as a cueing device for a particular sound. PhonicsQ system works because teachers can provide a consistent cue with a minimal number of words. Students can learn to cue themselves with a picture and then work independently. It supports all reading.

Wall Cards

The 116 individual 5 1/2" x 8 1/2" wall cards (with word lists on the back) provide the format for the teacher to customize the lesson and simplify instruction. Each of the colorful cards is satin varnished with rounded corners for durability. The cues include the 26 letters of the alphabet, short vowels, consonant blends, digraphs, endings and vowel combinations, open-syllable, long vowels, vowel-consonant-e, and less common single vowel sounds. The individual cards provide the format for the teacher to customize the lesson and simplify instruction.

Playing Cards

The 3" x 4 1/2" playing cards include all 117 PhonicsQ images, PhonicsQ rules, general phonics rules and 4 blanks. The cards may be used as flash cards or in games such as Concentration, Go Fish, modified Scrabble, etc. The small size makes the cards excellent for small group and one-on-one instruction, as well as for home use.

Posters

The four 26" x 34" coated, colorful posters are intended to be a constant reference point in the home or classroom. They can and should be referred to for both decoding (reading) and encoding (spelling). They were designed to be able to be seen across a classroom, school library, computer lab or student's bedroom. They include "The Alphabet," "The Single Vowels," "The Consonant Combinations," and "The Vowel Combinations." The posters are also available separately.

Student Cueing Sheets

The five 8 1/2" x 11" student cueing sheets make the cues portable. They are blackline masters of the posters above (and another for short vowels) and can be duplicated to be used as creatively as possible. Some uses include bingo and memory games, puzzles, a visual for students' binders and a reference sheet for tutors.

Audio CD

The CD provides a model for both the accurate pronunciation of each cue and sound and the process for introducing the cues. The CD was designed for use by teachers, students, and parents and may be copied.

Instruction and Assessment

Also included is an instructional manual and pre- and post-tests to assess basic phonics skills.

MS THE NEW BOY IS LOST!
Elizabeth Claire

L-B

The New Boy Is Lost! is more than a dramatic story with a picture for every sentence. It's a "novel approach" to systematic language acquisition. **The New Boy Is Lost!** is a 15-week ESL program. Beginners (even pre-literate students) will easily follow the story through the 300 full-color pictures. While students are focusing on "what happens next?" they will be learning greetings, introductions, street safety, and 500 basic words for family members, colors, numbers, time, weather, transportation, clothing, school subjects, emotions, descriptive adjectives, and action verbs.

For your intermediate students, **The New Boy Is Lost!** is a reader that stimulates cathartic conversations about their own personal experiences when they entered the United States. Advanced students can study the elements of a novel: character, conflict, theme, plot, setting, foreshadowing, values, suspense, complications, scene shifting, climax, and resolution.

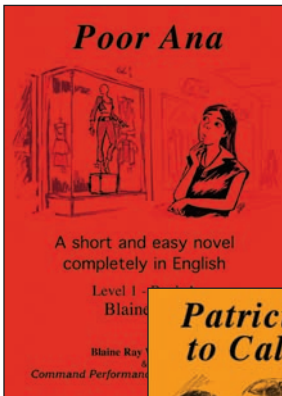

The *cassette* or *CD* contains a dramatic reading of the novel by the author with sound effects and music. The audio provides an additional language model and saves the teacher's voice.

With the *teacher's guide*, the "picture-novel" turns into an entire English program. There are chapter-by-chapter tips for the development of themes, language-extension exercises and question banks at three levels. Forty-five reproducible black-line masters help you use the novel with pre-literate and beginning students, allow you to evaluate students' listening and comprehension skills and begin guided writing. The *guide* includes activities for cooperative learning, creative writing projects, literature discussions, research, and much more.

READING POWER SERIES

New Editions

Beatrice S. Mikulecky and Linda Jeffries

Now in a new edition, the four-level Reading Power series continues to focus on a unique process methodology—encouraging students to develop a strategic approach and begin to view reading in English as a problem-solving activity rather than a translation exercise.

Reading Power delivers on that effective process approach with strategies and practice for strengthening comprehension skills, building vocabulary, increasing reading speed, and preparing for testing.

With expanded emphasis on vocabulary acquisition and learning strategies, and updated extensive reading sections, these new editions help beginning and intermediate-level students develop the multiple skills and strategies necessary for success.

At each level, students focus on four skill areas:

- Extensive Reading (Reading for Pleasure) lets students select their own reading materials to practice new strategies, build fluency, increase comprehension, and broaden their vocabulary.
• Vocabulary Building trains students in a variety of strategies for learning new words, from personalized vocabulary lists to noticing collocations.
• Reading Comprehension covers skimming, scanning, recognizing topics and main ideas, understanding sentences, and making inferences. Critical Thinking Skills (upper levels) involves targeted practice in inferential and analytical skills.
• Reading Faster helps students develop speed and flexibility in reading with high-interest, short fiction and nonfiction selections.

A separate teacher's guide for each level contains an answer key, suggestions for using Reading Power in the classroom, and a sample syllabus.

Learning the Art of Interactive Listening and Conversing

David Kehe and Peggy Dustin Kehe

In **Basic Conversation Strategies** learners are introduced to a strategy, such as showing understanding or asking for clarification. In pairs, they practice the strategy in controlled activities, and finally they put the strategy to use in activities such as roleplays.

Basic Conversation Strategies also has an important listening component. Conversation is not just speaking, it also involves listening, and part of the approach in this book includes training learners to be good listeners.

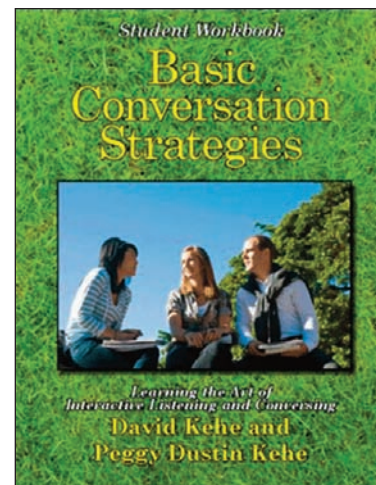

The *student workbook* contains everything students will need to do the exercises, except the material they need to listen and respond to. This material is available on two CDs. The printed version of the listening input is available in the *teacher's guide*, which is an essential component of **Basic Conversation Strategies**. The *teacher's guide* contains the entire workbook and the complete scripts of all the listening input, plus teaching notes and suggestions, as well as feedback and evaluation forms.

The two CDs have 67 listening exercises on separate tracks. The exercises, several in dialogue format, are spoken by four native speakers. Although the CDs are not essential (the teacher can speak the input), the material will be much more effective and easier to manage if the CDs are used.

GREAT DICTATIONS

A Listening/Speaking Text for High Beginners and Low Intermediate ESL Students

Catherine Sadow and Judy DeFilippo

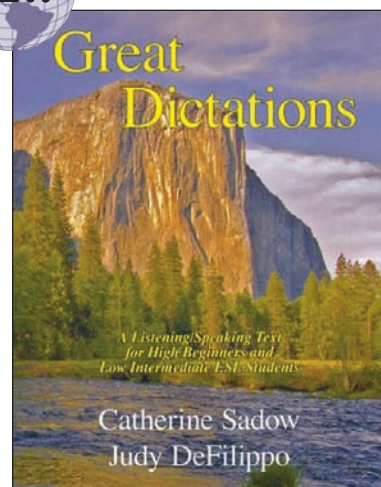

Great Dictations is a high beginner/low intermediate-level text that is intended to improve the listening and speaking skills of ESL students. Reading and writing skills are also reinforced, along with attention to vocabulary and grammar. This text provides a wide variety of dictation topics, including provocative news items and information from the Internet.

The units are designed to stand-alone with each unit beginning with a short introduction providing a background and context for the dictation. This is followed by a short list of vocabulary items providing a chance to hear these important words. The central focus of each unit is a dictation activity followed by discussion. The discussions can take place in pairs or small groups. With some units, the teacher may want to discuss the issues with the whole class. The units end with a follow-up activity which is intended to explore the topic further—often by having the students speak with native speakers. The follow-up also provides additional language skill practice, especially writing practice.

LISTENING CYCLES SERIES

B-I

John R. Boyd and Mary Ann Boyd

Beginning Listening Cycles involves low level students in meaningful listening activities right from the start. Aided by over 160 illustrations, students are introduced to elementary structures and vocabulary aurally and visually. As students move through the activities, they develop skill in listening for key words, confidence in their ability to comprehend increases, and a positive attitude toward English evolves.

Continuing the highly successful format of Beginning Listening Cycles, More Beginning Listening Cycles furthers the development of a positive attitude toward English language learning as it fosters the skills of thinking in English. In addition, More Beginning Listening Cycles acts as a bridge to the vocabulary and structures of the popular Listening Cycles.

Built around structures which are controlled and therefore predictable, Listening Cycles allows students to focus directly on meaning. In addition to developing skills in aural comprehension, the activities also enable students to gain clarification strategies to assist them in encounters with English outside of the classroom.

INTERACTIVE DICTATIONS
A Listening/Speaking/Writing Text

I

Judy DeFilippo and Catherine Sadow

This is a book of dictations where students interact in guided discussions, reacting, debating, deciding, solving, comparing, critiquing, or just talking.

The 43 units use the same dictation formats: partial dictation, paired dictation, dictogloss and prediction with seven different topic areas: work and money; language; education; ethics and values; food, health, and the environment; sports; and Americana. Students will listen, interact and talk about such topics as buying used cars; the pros and cons of pocket translators; Washington, DC; proverbs; chocolate; bullies; eating insects; yard sales; immigration; pollution; and more.

In this *text*, key vocabulary is glossed in a box that precedes the gapped dictations, more emphasis is placed on interactive work and cooperative learning, and each unit ends with a writing assignment. An *audio CD* is available for listening or for providing two more "dictators" in the classroom, and full dictations are available in the back of the *text*.

THE COMPLETE LISTENING-SPEAKING COURSE

I-A

Student Centered, Teacher Guided

David Christiansen

This major opus covers the semester, with emphasis on student centered activities guided by the teacher. Over four hours of listening practice offer English as spoken casually among educated Americans. The social and academic themes of interest to intermediate to advanced students are stimulating and witty. Students read and discuss a central issue, usually expressed in the form of someone asking advice. They learn how to interpret body language and gestures and how to describe and speak about emotions and personal feelings, health and sickness, and lifesaving emergency situations. Other topics covered include vocabulary for cooking, shopping, prices and negotiations, travel and time schedules, professions and occupations, music, TV, sports and recreation, education, and scientific concerns. Throughout the book, there are pronunciation practice activities that contrast similar sounds which enhance listening skills in the form of minimal pairs (led/red, lake/rake).

With this *text*, students both in the U.S. and abroad will come away with a grand overview of American culture.

BASIC CONVERSATION STRATEGIES

Learning the Art of Interactive Listening and Conversing

David Kehe and Peggy Dustin Kehe

In Basic Conversation Strategies learners are introduced to a strategy, such as showing understanding or asking for clarification. In pairs, they practice the strategy in controlled activities, and finally they put the strategy to use in activities such as roleplays.

Basic Conversation Strategies also has an important listening component. Conversation is not just speaking, it also involves listening, and part of the approach in this book includes training learners to be good listeners.

The student workbook contains everything students will need to do the exercises, except the material they need to listen and respond to. This material is available on two Audio CDs. The printed version of the listening input is available in the teacher's guide, which is an essential component of Basic Conversation Strategies. The teacher's guide contains the entire workbook and the complete scripts of all the listening input, plus teaching notes and suggestions, as well as feedback and evaluation forms.

The two CDs have 67 listening exercises on separate tracks. There are six types of exercises: Listen and Fill In, Circle, Choose, Repeat, Respond, and Write. The exercises, several in dialogue format, are spoken by four native speakers. CLEAR SPEECH

Pronunciation and Listening Comprehension in North American English, Third Edition

Clear Speech is a highly innovative and successful pronunciation text for intermediate to high-intermediate students of American English. It focuses on those aspects of English pronunciation that contribute the most to intelligibility: rhythm, stress, and intonation, as well as on individual speech sounds that carry important grammatical meaning, such as the plural "s" for English nouns.

This new edition provides learners with visual representations of important pronunciation features, such as voicing and syllable length. It also includes a greater emphasis on listening recognition, more coverage of vowel sounds, and a clearer presentation of sentence focus. Like its lower level companion, **Clear Speech from the Start**, this new edition of **Clear Speech** utilizes a unique approach to teaching the patterns of sentence stress and intonation in English, in a series of tasks called "The Music of English."

The Question Box is a versatile tool for any ESL classroom. It consists of 200 questions with each question on its own individual card. Each card is the size of a business card. At first glance teachers think of conversation cards, and they would be right. Each student picks a card and then mingles with the class and asks his/her question to individual students. In addition, **The Question Box** is easily adapted for reading, writing, listening, and speaking. For example the teacher can ask a student to choose a card and read it to the class. The class can either answer the question orally or write their answers. There are many ways to use **The Question Box**. Each box also contains 50 blank cards so students can add their own questions to the box.

Martin Hewings and Sharon Goldstein

Pronunciation Plus helps intermediate students of North American English improve their pronunciation of the language through a variety of stimulating listening and speaking tasks that address the important topics in English pronunciation: individual speech sounds, sounds in connected speech, stress, rhythm, intonation, and spelling. Nearly half of these tasks are done with a partner or in small groups, giving students the opportunity to interact with their classmates while practicing their pronunciation. There is also an emphasis on communicative activities that allow students to talk about and explore aspects of everyday life as they learn.

The book contains sixty short, manageable units, each one focusing on a discrete topic in pronunciation, such as vowels followed by "r," or pronouncing unstressed syllables. The units do not need to be taught in order.

Speaking Fluency Activities for Advanced ESL/EFL Students

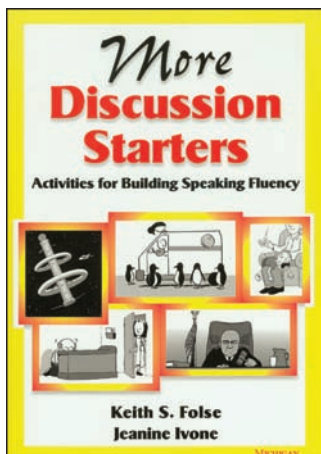

A

Keith S. Folse

One of the greatest challenges facing ESL students is the advanced speaking class in which the most confident students dominate the discussion and the more reticent students quickly withdraw. **Discussion Starters** helps balance the oral participation of all the students in the class, promoting an environment in which everyone has not only the opportunity but a real need to speak out.

Each unit contains exercises that provide speaking interaction about a central topic or idea. In most of these activities, students must work together in pairs or small groups. The activities and tasks in **Discussion Starters** are real situations from all over the world. Contemporary political and social topics enable students to engage in lively dialogue about issues they face in their daily lives, such as smoking regulation, the environment, and multiculturalism. A unique and important feature of this *text* is the inclusion of homework exercises that call on students to sort out their ideas and opinions before coming to class. This allows students to be prepared for the speaking activities in class and is of special importance to less confident speakers.

Activities for Building Speaking Fluency

Keith S. Folse and Jeanine Ivone

More Discussion Starters includes more of the same type of quirky conversation activities for upper-level ESL/EFL students.

Each unit in **More Discussion Starters** contains exercises that provide speaking interaction about a central topic or idea, and most require students to work together in pairs or small groups to reach a conclusion about a topic. Though most of the topics in the *text* are serious (corporal punishment, abortion, and gun control), many others deal with lighter topics (humor and culture). The activities, tasks, and topics chosen for this book are real situations from all over the world.

Most of the units in this book introduce a problem or controversial topic at the beginning of the unit. This is then followed by a series of exercises designed to prepare all of the students so that they can express their ideas at the next class meeting. A unit usually includes several kinds of oral fluency activities, such as problem-solving tasks, court cases, “finish the story,” role plays, “put the story together,” small group discussions, and oral presentations.

WITHIN THE CLASSROOM: PAST TENSE VERBS

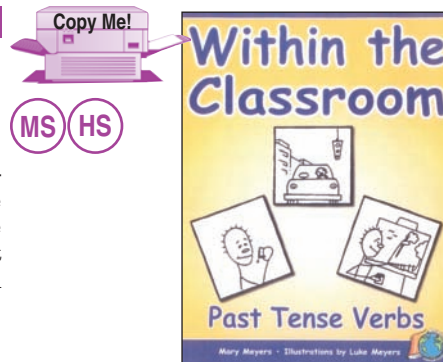

Irregular Past Tense Verbs

Mary Meyers

By fifth grade we expect more from students both cognitively and in maturation. Therefore the verbs used in texts and for assessment purposes become more abstract and difficult for language learners to comprehend. This reproducible book is designed to develop knowledge and fluency of verb vocabulary and past tenses. It offers step-by-step, multiple activities for integrated or withdrawal ESL, as well as, for regular students.

THE POWER DRILL GRAMMAR BOOK

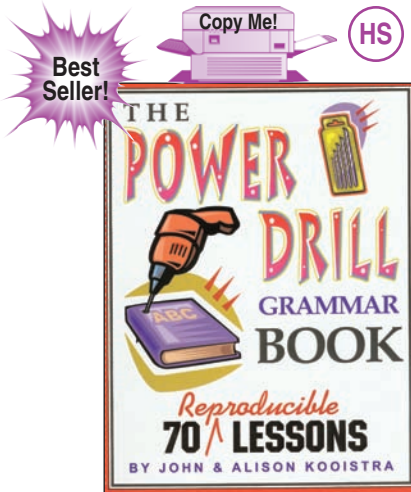

John Kooistra and Alison Kooistra

The reproducible, high-energy Power Drill Grammar Book offers 70 lessons on basic grammatical structures, common usage problems, the fundamentals of punctuation, and elementary paragraphing skills. It is intended for use with grammar students in elementary schools and middle schools. There are seven units, and each consists of ten lessons, including a feature lesson called "The Grammar Games." The Power Drill Grammar Book aims to combine enjoyment with learning, on the principle that grammar can be the most enjoyable, not the least enjoyable, of a student's (and teacher's!) subjects.

What makes The Power Drill Grammar Book unique? It's fun. It's practical. The sample sentences are in step with modern times (computers, video games, etc.). Most importantly, the grammar is simple, clear, up-to-date—and it's focused on students' primary needs: error correction of their writing and speech, and expansion of their range of expression.

EVERYDAY SPELLING WORKBOOKS
Patterns and Principles of English Spelling

B-I

Elaine Kirn

Both of these books include review lessons, progress tests, and hundreds of illustrations, making them useful as "picture dictionaries." Exercise and activity types appeal to both visual and auditory learners.

The basic text contains only one-syllable words with predictable and very common alternate spellings. Through vocabulary-building activities, error correction, word games, and stories, learners acquire the sound-symbol (phonics) patterns of the American English spelling system. They learn to pronounce printed words, spell common words, and make "educated guesses" in looking up the spellings of unfamiliar words.

Practical Everyday Spelling teaches essential principles of phonics, provides practice in spelling patterns and sound-letter correspondence, and gives students plenty of opportunity to build their vocabulary in context. The numerous illustrations, puzzles, and games reinforce the fundamentals of spelling while providing hours of enjoyment.

THREE LITTLE WORDS
A Foreign Student's Guide to English Articles

A

Elizabeth Claire

A, an, and the: the three most common words in the English language! These **Three Little Words** have always been troublesome for new speakers of English, especially for people whose native language has no articles. They are often the last grammatical item that distinguishes the native speaker of English from the foreign-born speaker.

Most English speakers cannot explain the rules for using these words. They just know when a sentence “sounds right.” For the first time, here is a workbook that will clear up the mystery of how and when to use these **Three Little Words**.

Ten steps, with clear examples and lots of practice will help students develop a mastery of general rules and exceptions to the rules. From this careful focus on articles will come a new sensitivity to hearing them and seeing them in print. This groundwork will speed the day when correct usage is automatic because “it sounds right.”

With over 525 self-checking exercises included, this book is perfect for advanced learners grade 6 to adult. **Three Little Words** may be used in-class or for self-study.

CITIZENSHIP: SUCCESS AT YOUR CIS INTERVIEW

Practical, Realistic and Easy to Understand

B

An McDowell

This revised video and audio program prepares the applicant to be successful on all three parts of the new CIS interview. Obtaining citizenship is not an easy process, and these materials are designed by experienced professionals for use in the classroom or by individual applicants preparing for the CIS interview.

VIDEO COMPONENTS

Video

The video provides a comprehensive overview of the interview process—from entering the waiting room and initial greeting to completing the interview. The video contains over 20 dramatized interview segments with a realistic CIS examiner. Applicants are given actual practice on answering oral questions taken from all parts of the N-400 application. The video covers the following eight major interview sections:

- Personal Information
- Residence
- Work
- Absences, Trips out of the United States
- Family
- Memberships/Moral Character
- Taxes and Arrests
- Allegiance to the United States

Sample dialogues of each interview segment are presented and followed by “It’s Your Turn” segments that ask the applicant to respond with personal information. Examples of legal eligibility requirements and restrictions are also presented.

In addition, the *video* provides two practice interviews with examples from the **NEW** USCIS list of 100 government and history questions (in use after Oct. 1, 2008). Also featured: sample dictation practice, tips on your appearance and presentation, dialogue techniques and what to expect during interviews.

Video Workbook

The *video workbook* contains a written script of the video that gives applicants the option to read along in English while viewing. The *video workbook* allows applicants to log their written responses to the dialogues and dictation presented in the video and, thereby, creates a handy reference tool for interview preparation.

AUDIO COMPONENTS

Audio CD

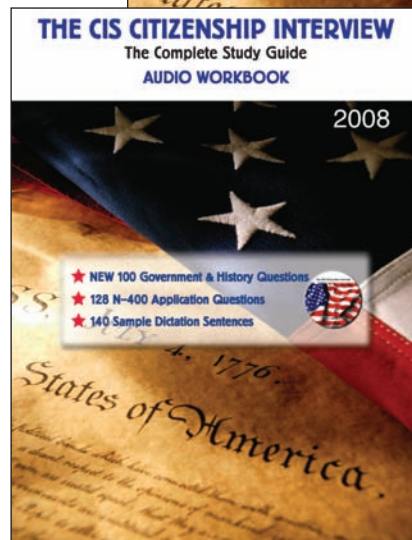

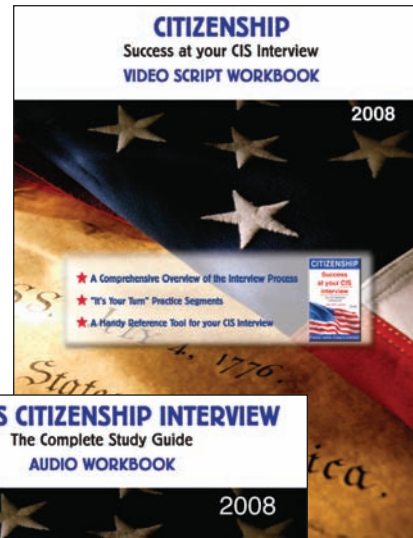

The *audio CD* is designed to complement the video series above, and can also be used as a stand-alone resource for independent study. Part one features the **NEW** CIS list of 100 government and history questions sorted by topic and placed in a logical order to make it easy for any applicant to learn and remember the information. Part two transforms the CIS N-400 application into a question and answer format.

Audio Workbook

The *audio workbook* contains a written script of the *audio CD* that gives applicants the option to read along in English while listening. The *audio workbook* allows applicants to log their written responses to the dialogues and dictation presented on the *CD*. There are 140 sample sentences for dictation.

SPANISH VERSION (2006 Test Version)

The video and audio (2006 edition) resources in Spanish, help serve immigrants over 50 or 55 who have been permanent residents for over 20 or 15 years respectively and who then qualify to take their interview in their first language. Large lettering on screen and slow delivery of the 96 government and history questions help lower literacy immigrants prepare for their interview.

The Citizenship Question Box is a versatile tool for any citizenship course. It consists of 200 questions with each question on its own individual card. Each card is the size of a business card. In addition, **The Citizenship Question Box** is easily adapted for reading, writing, listening, & speaking. For example the teacher can ask a student to choose a card and read it to the class. The class can either answer the question orally or write their answers. There are many ways to use **The Citizenship Question Box**. Each box also contains 50 blank cards so students can add their own questions to the box.

As often as possible, maps and illustrations are original and of their time. Exercises provide practice in vocabulary development, discussion, and writing.

DELTA'S KEY TO THE NEXT GENERATION TOEFL® TEST Advanced Skill Practice for the iBT

Nancy Gallagher

Delta's Key to the Next Generation TOEFL Test: Advanced Skill Practice for the iBT is a high-quality program for students preparing to take the Internet-based Test of English as a Foreign Language (TOEFL iBT) or other proficiency tests.

This test, introduced in September 2005, replaces the earlier computer-based test known as the TOEFL CBT. The iBT assesses proficiency in the four language skills of reading, listening, speaking, and writing.

- Speaking skills are evaluated
• Some tasks involve integrated skills, such as reading/listening/writing
• Knowledge of grammar is not tested separately but is assessed indirectly throughout the test

Features & Benefits

Delta's Key to the Next Generation TOEFL Test is designed specifically for the new version of the test. The course provides ample practice in the English skills evaluated by the new test, along with useful strategies and practical ideas for individual, pair and group activities.

Reading and listening content includes explanation of new item types, such as questions about pragmatics, paraphrasing, and summarizing information from across a text. Speaking and writing content includes practice in integrated-skills tasks, such as developing a topic, taking notes, and connecting information from two sources.

Advanced Skill Practice for the iBT Coursebook

- A complete TOEFL preparation course for high-intermediate and advanced students
• 36 skill units in reading, listening, speaking, and writing
• Four full-length practice tests
• Over 1,200 questions in the format of the Internet-based test (iBT)
• Complete answer key and audio scripts
• Charts to record progress on quizzes and tests
• Enough material for 15 weeks of study

These five key elements add up to greater confidence and higher scores:

- Focus—An opening exercise to focus attention, activate prior learning, and stimulate inductive thinking
• Do You Know...?—A description of a specific skill in reading, listening, speaking, or writing that defines relevant concepts, provides sample questions, explains answers, and identifies useful test strategies
• Practice—Sets of practice questions to foster ease with TOEFL Test form and content, challenge students to apply their skills, and build skill retention
• Extension—Classroom activities that promote cooperation, stimulate discussion, extend skill practice, guide peer review, and link the classroom with the real world
• Progress—Thirty-four timed quizzes simulating parts of the TOEFL Test, with each quiz evaluating the skills studied in one or more units

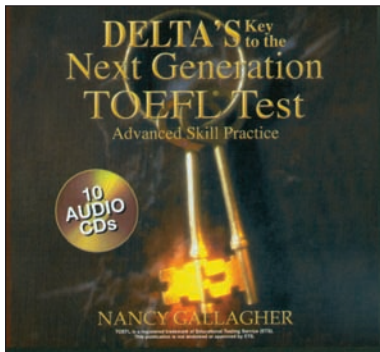

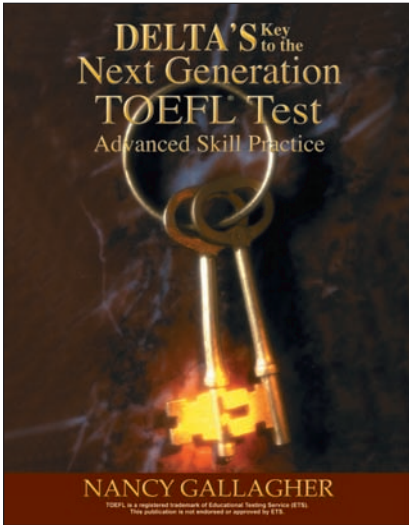

Advanced Skill Practice for the iBT Audio CDs

- Companion audio texts for all listening activities in the coursebook
• Over 9 hours of material on 10 compact disks

John F. Chabot

VIDIOMS is the first in a series of *video/reproducible workbook* packages designed to make every idioms lesson a successful idioms lesson. With **VIDIOMS**, students learn to use idioms with confidence. **VIDIOMS** includes fifteen lessons, each of which normally requires two class periods to complete, with homework. It is intended for secondary students and adults. Ninety idioms are featured; six per lesson. The (three tape) *video* portion of **VIDIOMS** is over two hours. The duration of a *video* lesson (approximately 9 minutes) is short enough to permit two viewings in a single class period. There are usually three short skits per idiom.

Each lesson in the **VIDIOMS** *workbook* begins with a transcript of what is said in the *video*. Definitions of the idioms follow the transcripts, with examples. Aspects of idiom use emphasized in the exercises are: Meaning, Working with Contextual Clues, Usage, Form and Function. Role play and oral exercises are designed to allow students to be creative with the idioms in particular and with the English language in general, and to combat negative affective factors. **VIDIOMS** is easy to use and very versatile.

OUT OF YOUR CHAIRS!

40 Active Games for ESL

Dani McArthur and Thane Ladner

Out of Your Chairs! was developed in ESL classrooms. For many years the authors saw the need to supplement the traditional desk, pen, and paper language lessons with active, physical and communicative activities. Students can sit for only a given period of time before their capacity to learn diminishes. Active ESL games present a structured, enjoyable way to continue learning a new language. Some students learn languages with their whole body and Out of Your Chairs! provides a variety of ways of experiencing English kinesthetically. During the games students communicate with each other and the teacher. Students come to life! Shy students forget about being self-conscious as they become caught up in the game. Hard-to-motivate students are suddenly working, driven by the desire to win.

The games index lets you see at a glance the type of game, level, preparation time and playing time, etc. The games are coded by level—beginning to advanced. They come with straightforward instructions and have many reproducible templates and card sets. The games have an instant appeal, but the more they are played the better it works.

GO FISH

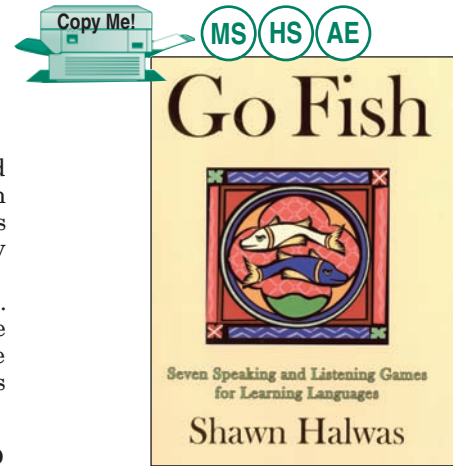

Seven Speaking and Listening Games for Learning Languages

Shawn Halwas

Go Fish is not just a card game. It is a collection of 86 pairs of brightly colored vocabulary cards showing pictures of things you would find in a home, from knife, fork, and spoon to wastebasket, desk, and computer. The playing cards come bound in a teacher's book, two to a page, to be cut out and used in many different ways.

The point is not simply learning and using 86 words, useful though they are. The basic value of these games is that students engage each other in discourse as they ask for cards, search for a match, chatter about a bingo game, or compete to identify, pronounce, and spell a word on a flash card. The book contains lots of suggestions on how to maximize the use of the cards.

As the title suggests, **100 Thematic Word Search Puzzles for ESL** is a *reproducible book* of 100 word search puzzles. You are given a list of words and a grid full of letters. You must search the grid to find all the words from the list.

The words camouflaged on the grid go in various directions: left to right, right to left, up and down, and diagonally in any direction. Each puzzle is based on a theme. Each puzzle has at least 40 words to be found. After all the words have been found, the puzzle is complete.

As a bonus, the remaining or extra letters on the grid can be arranged, in the order they are found on the grid, to make a sentence relevant to the topic. Puzzles from **100 Thematic Word Search Puzzles for ESL** can be used alone or with other thematically linked materials.

TUNE IN TO ENGLISH

Learning English Through Familiar Melodies

Uwe Kind

For centuries important information has been memorized and passed on through songs and poetry. The idea that music can affect one's body is not new. It has been found that music can influence the rhythm of breathing and, thus, relaxing the body, heighten awareness and mental receptivity.

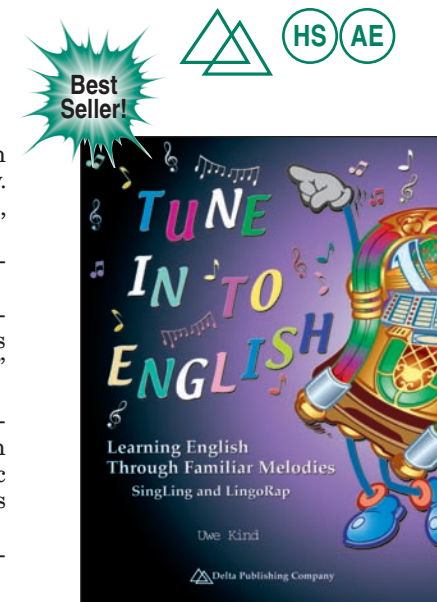

Tune In to English can be used at the beginning of a class to create a relaxed atmosphere. It can also be used for self-instruction.

Research finds the "audio-singual method" has a powerful effect. It uses familiar tunes to teach language and satisfy feelings of recognition, which helps overcome the fear of and resistance to the unknown. The "audio-singual method" is being used in many schools and universities in the United States.

Tune In to English effectively quickens the learning process. Students realize how enjoyable it is to recall a particular tune and overcome obstacles in seconds. Even students who are tone deaf can learn more through rhythmic reciting of the song verses or by merely listening, because the enjoyable melodies and rhythms put them in a receptive mood.

Tune in to this dynamic teaching and learning experience. It's enormous potential creates a natural transition from singing to speaking in these creative exercises. Using music as a teaching tool successfully promotes learning in a relaxing environment.

ROCK TALK Music Creating Language Experience Jenny Redding

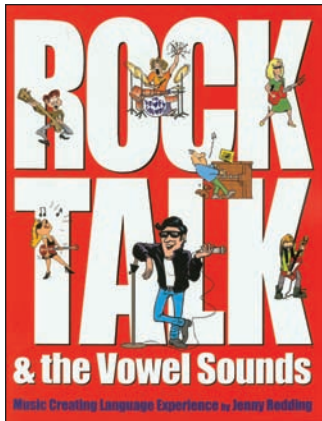

Using top pop/rock hits from the past 20 years, Rock Talk enhances students' ability to acquire intonation and stress patterns...

Rock Talk uses internationally-known top pop hits plus phonics to help ESL students reduce their accents and gain fluency in English.

The recent brain research also supports the use of music. According to the research, when you engage students emotionally, material is more deeply embedded in the brain causing greater retention.

Each lesson is structured with an icebreaker (to warm students up), followed by a medley of two or three top pop hits which contain the relevant vowel sound or consonant blend.

Also included in each chapter are grammar exercises based on the embedded grammar structures found in the songs, as well as appropriate vocabulary and cloze exercises.

REALIZING THE VISION OF TWO-WAY IMMERSION

Fostering Effective Programs and Classrooms

Center for Applied Linguistics
Elizabeth R. Howard and Julie Sugarman

Two-way immersion programs are a distinctive form of dual language education in which native English speakers and speakers of another language (usually Spanish) are integrated for academic content instruction through both English and the partner language. The goals of such programs include the development of bilingualism, biliteracy, and cross-cultural competence in addition to grade-level performance, and a growing body of research indicates that the model is successful in helping students to attain these goals. At the same time, however, the extent to which students achieve these outcomes varies across schools, with many TWI practitioners unsure about the approaches that are likely to yield the best outcomes.

Drawing on a decade of research, this book explores the question of effectiveness in two-way immersion by examining the development of bilingualism and biliteracy in elementary TWI students. Specifically, the authors highlight the importance of fostering cultures of intellectualism, equity, and leadership in order to promote bilingualism and biliteracy among two-way immersion students. These cultures are cultivated by promoting higher order thinking, demonstrating a commitment to ongoing learning, valuing the partner language and cultures, and encouraging initiative and leadership. Through case studies of four exemplary TWI programs, they provide evidence of how these three cultures function as organizing principles for program and classroom practices adopted by effective two-way immersion programs.

ACCESS AND ENGAGEMENT

Program Design and Instructional Approaches for Immigrant Students in Secondary School

Center for Applied Linguistics with Aida Walqui

Many immigrant students in secondary school have problems succeeding because of the structures of the schools themselves. Problematic school structures include fragmented school days, fragmented instructional programs (with ESL and content teachers working in separate departments and rarely interacting), a complex system of courses and of graduation and college entrance requirements, the common practice of placing students in grades according to their age, and traditional methods of documenting student achievement. In this book, the author details the challenges faced by immigrant students and the schools they attend. She profiles six immigrant high school students (from Brazil, El Salvador, Haiti, Mexico, Russia, and Vietnam), describing their language and cultural backgrounds, frustrations and successes. She also profiles four programs attempting to develop responsive instructional philosophies and approaches (in California, Iowa, and New York). Finally, she identifies ten characteristics of schools and programs that can foster effective teaching and learning for immigrant youth.

CREATING ACCESS

Language and Academic Programs for Secondary School Newcomers

Center for Applied Linguistics
Deborah J. Short and Beverly Boyson

Students from non-English-speaking backgrounds are the fastest growing segment of the K-12 student population in the United States. An increasing number of these students are newcomers—recent immigrants with limited English proficiency and often limited experience in schools. Newcomer programs offer school districts a progressive approach to meeting the unique language and academic needs of these newcomers, while also meeting the demand for high standards and accountability for all students.

This book is designed to help district personnel create a newcomer program or enhance an existing program. It reports on a 4-year study of 115 middle and high school newcomer programs. The authors identify important implementation features and offer a checklist for developing a new program, practical advice for existing programs, and in-depth case studies of three successful long-term newcomer programs.

LITERACY AND LANGUAGE DIVERSITY IN THE UNITED STATES

Second Edition

Center for Applied Linguistics
Terrence G. Wiley

The U.S. population is diverse. With nearly 20% of children and adults in the United States speaking a native language other than English, the need for information about language and literacy skills has never been greater. In this second edition of **Literacy and Language Diversity in the United States**, the author takes a fresh look at the issues related to the differences between the literacy performance and educational achievement of language minorities and native speakers of English in this country and the social and educational policy debates that surround literacy in the 21st century.

Based on the most recent national data, this edition examines language diversity in the United States; outlines what we know about the development of English literacy, native language literacy, and literacy in two languages; and explores how to make informed national policy decisions. **Literacy and Language Diversity** is written for linguists, scholars, policy makers, educators, and students in teacher preparation programs.

THROUGH THE GOLDEN DOOR

Educational Approaches for Immigrant Adolescents with Limited Schooling

Center for Applied Linguistics
Betty J. Mace-Matluck, Rosalind Alexander-Kasparik
and Robin M. Queen

A growing number of recent immigrant students enter middle school and high school with little or no prior formal schooling and with low literacy skills. Often referred to as “late entrant” or “low-literacy” students, they may be three or more years below their age-appropriate grade level in their school-related knowledge and skills. As a result, they often have difficulty in secondary school and do not have time to fulfill high school graduation requirements before they reach the maximum age for high school attendance.

This book provides guidelines for school administrators and teachers with these students in their programs. The authors describe the backgrounds, educational experiences, and needs of five such students (from Haiti, El Salvador, and Vietnam), profile four programs designed to serve them (in Illinois, Texas, and Virginia), and identify the critical features of secondary school programs for these students. Program contacts and resources are provided.

ENGLISH LANGUAGE LEARNERS WITH SPECIAL EDUCATION NEEDS

Identification, Placement and Instruction

Center for Applied Linguistics

Alfredo J. Artiles and Alba A. Ortiz, Editors

Because procedures are not in place in many schools and school districts to successfully determine academic placement of English language learners, many of these learners are placed inappropriately. Some who don't need special services (other than English as a second language) may find themselves in special education classes. Others who need special services may be placed in regular classes without the extra support and services that they need. Working with English language learners and with students requiring special education services requires collaboration among teachers, school psychologists, speech pathologists, and assessment personnel with expertise in general, bilingual, and special education.

This book describes the challenges involved in identifying, placing, and teaching English language learners with special education needs. It describes model programs and approaches, including early intervention programs, assessment methods, parent/school collaboration, and native and dual language instruction. All students deserve the best possible education, one that meets their individual needs and capitalizes on their strengths. This book will take us a long way toward achieving that goal.

NECESSARY CONVERSATIONS ABOUT ENGLISH LANGUAGE LEARNERS

Templates for Success

Helene Grossman

The time for talking about English language learners is NOW. School class photos do not look the same as they looked twenty years ago. Faces of different colors fill the seats; smiling faces of children who are learning to speak English look towards the teachers and paraprofessionals with hope and expectation. In addition, the parents come to school, often cautiously, with faith that the school, the principal and the teachers will help their child to learn English and to succeed in their new country.

Conversations about English language learners are not always easy. There are complex cultural issues to consider. How was school regarded in the native country? Were teachers' opinions respected and taken without question? How was the former school experience? Were there issues regarding attendance or behavior? How much formal education has the child had? Were there concerns about a disability? And on and on...

Necessary Conversations About English Language Learners will support school administrators and teachers in the effort to communicate effectively about issues related to educating English language learners. In workbook format, the reader will unpack the most challenging issues and will be offered an opportunity to plan how to communicate with success.

The *workbook* format will be easy to follow. Planning formats will be provided that may be replicated in a variety of situations. The format for each chapter with accompanying icons will make it easy to find those spots that an educator will want to reference repeatedly. In addition, the content of this *book* is unique in its marriage of communication skills and issues related to English language learners.

The *book* is intended for administrators, ELL/ESL Program Coordinators, ELL/ESL Teachers, Welcome Center Staff, pre-service teacher instructors and community agency staff. The scenarios address elementary, secondary and adult education levels.

Having worked with all levels, this *book* connects to educators with little or no experience as well as those who have worked with English language learners and their families over time. Everyone needs to build their skill at communicating with newcomers. The *book* will supplement courses addressing speaking, listening, school administration and program management. New teachers and those new to ESL will also find it helpful.

ENRICHING CONTENT CLASSES FOR SECONDARY ESOL STUDENTS

Complete Inservice Training Materials for Middle and High School Content Teachers (National Edition)

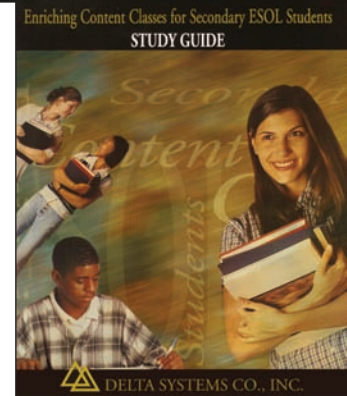

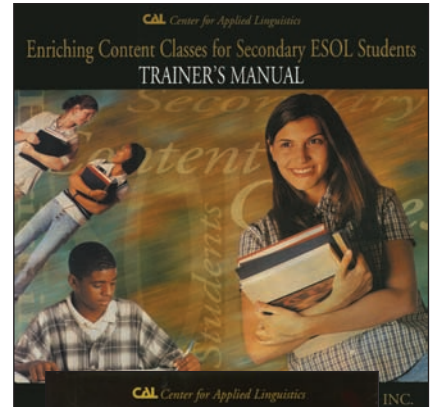

Center for Applied Linguistics
Judith H. Jameson

Across the country, teachers are being asked to adapt their curriculums and instructional strategies for students learning English as a new language. Secondary teachers, in particular, are faced with a difficult situation since their classes assume a high degree of prior knowledge in the subject area and proficiency in academic, subject-specific language. Furthermore, many of the techniques that elementary teachers use to increase comprehensibility seem childish to secondary teachers and students.

These comprehensive, inservice training materials are designed for middle and high school content teachers (teachers of math, science, social studies, and language arts) whose mainstream classes include ESOL students. The training shows teachers how to teach both content and related academic language to all students, including English language learners, using techniques such as graphic organizers, scaffolded lessons, cooperative learning, alternative assessment, and multicultural activities. The training includes: Academic Competence (two sections), Language Learning, Culture (two sections), Literacy Development and Study Skills, and Assessment. Structured in-class and outside assignments support teachers in applying new skills to their specific situations. The materials were developed in collaboration with the Florida Department of Education and revised for national distribution.

The ready-to-use set of materials consists of a *trainer's manual* (trainer's transcript and transparency masters), a participants' *study guide* (handouts and materials for participants), and a 34-minute *video*, **Communicative Math and Science Teaching**, which provides video observations of exemplary secondary content classrooms. The complete training requires 60 hours (54 in-class hours and 6 hours of structured, outside assignments). Additional *study guides* are available for use by inservice participants.

WHAT TEACHERS NEED TO KNOW ABOUT LANGUAGE

Center for Applied Linguistics
Carolyn Temple Adger, Catherine Snow
and Donna Christian—Editors

The title of this book derives from its central chapter, written by Lily Wong Fillmore and Catherine E. Snow, demonstrating that all teachers need deep, broad knowledge about language to support their students' language and literacy development. Five commentaries on that chapter from the perspective of early childhood education, teacher certification, and teacher preparation and professional development point out the value and the challenges of improving educators' understanding about language.

This volume is intended for educators in teacher preparation and professional development, for administrators and policy makers, and for teachers wanting to know more about the role that language plays in linguistically and culturally diverse schools.

ENHANCING ENGLISH LANGUAGE LEARNING IN ELEMENTARY CLASSROOMS

A Comprehensive Professional Development Program for Elementary Teachers of Limited English Proficient Students

Center for Applied Linguistics—Allene Grognet, Maria Derrick-Mescua, Lynda Franco, and Judith H. Jameson

Most elementary schools in the United States now serve students learning English as a new language. This professional development program prepares teachers who work with limited English proficient students, to use strategies that develop students' social and academic English and support their transition to US culture and schools. This professional development program is appropriate for teachers in a variety of program models: mainstream classrooms, self-contained ESL classrooms, bilingual programs, and others.

The *complete program* requires 45 hours (40 in-class hours and 5 hours of structured, outside assignments), but is easily adapted to local needs and time frames. The contents include chapters on reading, first and second language acquisition, culture, writing, math, other content areas, assessment, parent involvement, putting it all together, and additional resources. The highly interactive program uses a variety of learning methods: trainer presentation; video observation; participant readings; and pair and small group work. Throughout the program, participants apply what they are learning to their own curriculums and materials.

The ready-to-use set of materials consists of a *trainer's manual* (trainer's transcript and transparency masters), a participants' *study guide* (handouts and materials for participants), and a *video* which provides observations of the strategies in use in classrooms.

HOW TO DESIGN AND IMPLEMENT A NEWCOMER PROGRAM

Brenda Custodio

While the atmosphere and focus of education has changed to center strongly on standards and assessment, there is still room for programs that focus on meeting the needs of beginning level ELLs. In fact, it can be argued that this sense of desperation and frustration adds urgency to the creation of programs that help these students build academic skills and move into the mainstream as quickly as possible. Most schools can't afford to have students sitting in classes, lost and confused while they slowly develop language proficiency. Time has become the enemy and well-developed newcomer programs can help students adjust to their new surroundings and find academic success faster than traditional pullout classes. These programs can help insure that students do not become the victims of this current educational atmosphere and end up being "left behind."

In this unique, first-of-its-kind look at an increasingly popular educational model—the newcomer program—author Brenda Custodio brings over 25 years of ESL experience and nine years of newcomer program development to this practical resource. In it she shows what's needed to design and implement the program, prepare the site, develop the curriculum, interview and hire staff, and continually build a constantly evolving, successful newcomer program based on learners' needs.

KEYS TO TEACHING GRAMMAR TO ENGLISH LANGUAGE LEARNERS

A Practical Handbook

Keith S. Folse

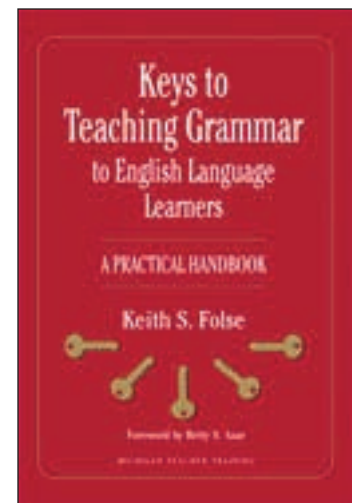

Keys to Teaching Grammar to English Language Learners is not intended to be an exhaustive reference book about ELL grammar. Written for classroom teachers (K-12, ESL, EFL), this book teaches the most common ELL grammar points in an accessible way through real ELL errors with suggested teaching techniques. Relevant grammar terminology is explained where practical.

The four objectives of the book are to help teachers: (1) identify common ELL grammar points and understand the details associated with each one; (2) improve their ability to answer any grammar question on the spot (when on the "hot seat"); (3) anticipate common ELL errors by grammar point, by first language, and by proficiency level; and (4) develop more effective grammar/language learning lessons.

The presentation of each of the 15 keys (grammar points) features information on typical ELL errors, an accessible grammar explanation including examples of mistakes, a native language interference chart, and ideas for teaching the grammar point.

The *workbook* has exercises that carefully follow the sequence of material in the *handbook*. To facilitate use of the *workbook* with the *handbook*, each exercise is coded with the corresponding pages for the material in the *handbook*. Reflecting the different learning styles in any given class, the exercises practice identifying grammatical features in a variety of different ways, including many charts, matching activities, and short answer questions. In addition, the *workbook* has a variety of exercises consisting of sentences typical of English language learners so that teachers can become familiar with specific types of errors that ELLs make with certain grammar points.

The *workbook* also features some action research projects to guide teachers in collecting small samples of data from their target student populations.

ADAPTING CONTENT TO EMPOWER ENGLISH LANGUAGE LEARNING STUDENTS (ACEES)

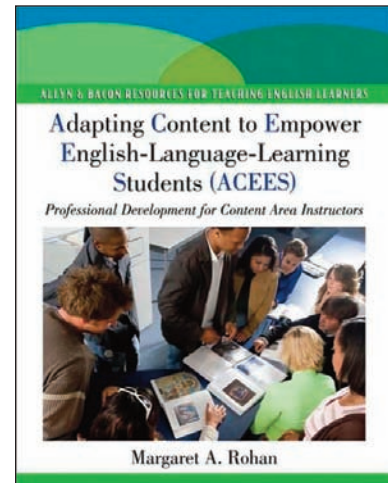

Professional Development for content area Instructors,
Grades 6–12

Margaret A. Rohan

Aimed at 6–12 grade content area instructors that work with ELLs, this book emphasizes the importance of developing and enhancing teachers' abilities to work with linguistically and culturally diverse students using their districts' adopted text materials.

Adapting Content to Empower English–Language–Learning Students (ACEES) is designed to provide a resource for professional development to assist secondary teachers in meeting achievement standards for teaching English Language Learner (ELL) students. There remains a stark mismatch between adequate professional development to help teachers work with ELLs and what is actually delivered. With added pressures on teachers to ensure that standardized test strategies are covered, teachers need to reach out to ELL students who have achieved varying degrees of English language proficiency. This book emphasizes the importance of developing and enhancing all subject area teachers' abilities to work with linguistically and culturally diverse students, using their districts' adopted text materials. To facilitate instructional approaches that intend to foster success for ELL students, the **ACEES** text was specifically designed for secondary content–area instructors. **ACEES** focuses on principles of effective practice and resource material analysis, equitable assessment of ELLs, second language acquisition, reading, writing and literacy, specific accommodations in math, science and social studies, instructional technology and cross-cultural dimensions.

The book was written to provide a resource for both instructors and teacher–trainers in developing best practice instructional approaches to teach ELL students at the secondary level.

SHELTERED CONTENT INSTRUCTION Teaching English Language Learners with Diverse Abilities, Fourth Edition

Jana L. Echevarria and Anne Graves

This book clearly defines, “sheltered instruction,” or Specially Designed Academic Instruction in English (SDAIE), and provides strategies for its successful implementation in the K–12 classroom.

This popular resource focuses on using sheltered instruction with students of varying abilities, making it a unique tool for teachers. The authors address the important overlap between sheltered instruction and special education adaptations. This new edition captures the vitality of modern classrooms by speaking specifically to instruction in the content areas and confronting the fact that students learning English might struggle in those subjects. The authors provide practical methods that demonstrate how to implement this type of instruction with a full range of learners.

This edition of Sheltered Content Instruction is comprehensively revised and updated in a new, full workbook–size format. One important function of the Fourth Edition is to provide teachers with the support and direction needed to undertake the sheltered approach. Specific examples of sheltered content instruction and scenarios depicting classroom interaction during this type of instruction provide models for teachers and those preparing to teach. Case studies and vignettes illustrate this interaction for the reader.

50 STRATEGIES FOR TEACHING ENGLISH LANGUAGE LEARNERS Third Edition

Adrienne L. Herrell and Michael Jordan

This practical, hands-on book provides teachers with 50 carefully chosen strategies to help ELL pupils understand content materials while perfecting their skill at speaking, reading, writing and listening in English. All of the strategies are aligned to the TESOL standards and have been field-tested in diverse classrooms. Each strategy includes a brief explanation, step-by-step instructions on how to plan and use it, and two classroom scenarios demonstrating how the strategy can be adapted for different grade levels and content areas. The book includes a thorough summary of relevant research from Krashen, Cummins, Terrell, Swain, Asher and others. It provides a repertoire of non-traditional assessment ideas such as anecdotal records, performance samples, and portfolios and integrates material on the use of educational technology such as the internet, visual aids, etc.

An accompanying DVD illustrates select strategies being used in a classroom dominated by English learners. After the demonstration lesson, one of the authors interviews the teacher for insights into how the lesson was planned and the teacher's reasons for choosing the strategy.

WORDS THEIR WAY WITH ENGLISH LEARNERS

Word Study for Spelling, Phonics, and Vocabulary Instruction

Donald R. Bear, Lori Helman, Marcia Invernizzi, Shane R. Templeton, and Francine Johnston

Word study can be a powerful instructional method for teachers and their English learning students. With this text, you can evaluate students' language needs. Empower your students to grasp this new language at the word level, building skills to understand how English differs from their primary language, and providing them with the skills to predict word meaning through spelling. Words Their Way with English Learners will help you build vocabulary, spelling, and word recognition skills in your English learners, giving them the foundation to master their new language.

One reality of today's classrooms is the limited help available to teachers trying to support English learners' literacy skills. The authors understand this challenge. Based on the same solid research, Words Their Way with English Learners helps you determine what your students bring with them from their home languages, where their instruction in English orthography should begin, and how best to move these students through their development.
