

A person in a dark, protective suit with grey accents on the back and arms stands with their back to the camera. They are holding a black helmet with a white logo in their right hand. The background is a dark blue space filled with numerous bright, star-like points of light and several sharp, radiating beams of light that create a sense of depth and focus on the person.

PREMIUM PROTECTION

Troy Lee Designs®

CP 5955 CHEST PROTECTOR

THE ULTIMATE CHEST PROTECTOR SPECIFICALLY DEVELOPED TO INTEGRATE WITH INDUSTRY LEADING LEATT NECK BRACES without compromising fit, protection or rider safety. Exclusively designed to allow Leatt neck braces to nest properly against a rider's chest and back. Tested by top pros and elite amateurs, our innovative patent pending design gives riders the power to choose from multiple configurations for customized comfort and fit, unobstructed motion, and unprecedented protection. In other words, the 5955 sets a new standard in the Moto industry.

NECK BRACE INTEGRATION patent-pending design is compatible with leading neck braces without compromising fit and protection

VENT-TRAK circulates air through flexible channel over the skin surface to cool the rider

VENTED SOFT-YOKE CONNECTION between front and back plates offers unprecedented fit and comfort

- **OVER 50 CONFIGURATIONS** adapt to rider preference for custom fit and protection
- **LOW PROFILE DESIGN** eliminates bulk to fit under or over jersey
- **HINGED CHEST PLATES** provide extended rib coverage, better fit and maintains proper positioning in crash situations
- Covers the chest, ribs, back, clavicle, shoulders and upper arms
- Convenient strap locations and integrated fast-lock buckles for easy function
- **PATENT PENDING**

TLD SPORTBRACE CARBON FIBER

Troy Lee Designs was built on the notion that standing out in a crowd does more than boost your confidence, it intimidates the competition. We took the standard Moto GPX Sport Brace, and added our own flare to give you a custom look that's not available anywhere else.

Silver bio-foam wraps the candy-apple red glass-reinforced nylon. Carbon fiber upper supports add strength and reduce weight. TLD logo accents on front and rear supports.

CLUB BRACE

ADVENTURE BRACE

CP 5900 CHEST PROTECTOR

THE CONTOURED FIT MAKES WEARING THE CP5900 UNDER THE JERSEY VIRTUALLY UNNOTICEABLE. THE DESIGN OF THE CP5900 PROVIDES PROTECTION IN A COMFORTABLE ERGONOMIC DESIGN.

NECK BRACE INTEGRATION patent-pending design is compatible with leading neck braces without compromising fit and protection

VENT-TRAK circulates air through flexible channel over the skin surface to cool the rider

BODYGUARD 2

Shatterproof plastic

Removable shoulder cups to allow use as an under-protector

- Adjustable shoulder straps allow a custom fit for everyone
- Heavy-duty buckles and side straps for easy entry and removal
- Color-matched bio-foam padding redesigned for the Bodyguard2
- Bio-foam is removable to allow for washing or replacement
- Improved snaps on the Bodyguard2 bio-foam

BODYGUARD LITE

Shatterproof plastic

- Adjustable shoulder straps allow a custom fit for everyone
- Heavy-duty buckles and side straps for easy entry and removal
- Bio-foam is removable to allow for washing or replacement

BP 7855-HW (HOT WEATHER) LONG SLEEVE BASE PROTECTIVE SHIRT

- VENTED FOAM FOR EXTENDED COVERAGE** in the lower abdomen, lower ribs/sides & lower back/kidney/sides. All of these extended areas were done with key flex points maintained, so that while there's more coverage than the 5850, the comfort while riding isn't compromised.
- NECK BRACE INTEGRATION** patent-pending design is compatible with leading neck braces without compromising fit and protection (removable upper chest / spine and clavicle pads accommodate ideal fit with brace)
- STRATA-FOAM** articulates with complex body zones while providing impact protection (removable, rib and biceps pads for coverage preferences)
- VENT-TRAK** moves air through flexible channels over skin surface to cool the athlete
- HEX-MESH** disperses impact with a dimensional mesh construction that allows air to flow freely
- REMOVABLE ARMOR**
 - **OPEN ARMPIT DESIGN** and wide neck opening for comfort
 - Anatomical design provides a close fit while integrated zones protect the chest, ribs, back/spine, clavicle, shoulders and biceps.
 - **PATENTS PENDING**

BP 7850-HW (HOT WEATHER) BASE PROTECTIVE SHIRT

RINCON PROTECTOR

- Stretch mesh fabric is form fitting and gives maximum ventilation
- Injection molded spine protection is **LEATT BRACE COMPATIBLE**
- Built in injection molded shoulder, elbow and forearm guards
 - Hard plastic breast plate under the Bio-Foam for chest protection
 - Adjustable velcro strap around forearm
 - Multiple tension straps for secure fit
 - Adjustable built in kidney belt

VICTORY GUARD

- Specifically designed to work with leatt brace
- Protective bio-foam padding on chest and back
- Breathable stretch mesh on side panels for maximum ventilation
 - Form fitting, comfortable lycra body material
 - Lightweight TPR for logos

BP 5705-HW (HOT WEATHER) BASE PROTECTIVE PANTS

- **X-FIT™** integrates a wraparound external supporter for unparalleled comfort and fit
- **LIGHTWEIGHT 4-WAY STRETCH MATERIAL** breathes for maximum ventilation in hot weather.
- **OUTER THIGH PADS**
- **INNER THIGH PADS**
- **INTEGRATED CROTCH CHAMOIS PAD**
- **FULL LENGTH LEG** eliminates need for knee sleeves used with knee braces and knee guards
- **PATENTS:** D548,928 (USA), 115952 (CAN) & 6,161,222

BP 7705 SHORTS

Same features as BP 7705 pants.

BP 5605 SHORTS

Same features as BP 5705 pants.

BP 3600 BASE PROTECTIVE SHORTS

- **X-FIT™** integrates a wraparound external supporter for unparalleled comfort and fit
- **OUTER THIGH PADS**
- **NO-SLIP LEG HEM**
- **PATENTS:** D548,928 (USA) & 115952 (CAN)

BP 4600-HW (HOT WEATHER) BASE PROTECTIVE SHORTS

- **LIGHTWEIGHT 4-WAY STRETCH MATERIAL** breathes for maximum ventilation in hot weather.
- **RELAXED-FIT DESIGN**
- **ANATOMICAL FOAM PATTERN**
- **TAPERED LEG**
- **INTEGRATED IMPACT ZONES**

BP 1600 BASE PROTECTIVE SHORTS

- **X-FIT™** integrates a wraparound external supporter for unparalleled comfort and fit
- Designed for comfort and unrestricted motion in the riding position. Constructed with premium Lycra® 4-way stretch anti-microbial material for compression and moisture wicking. Includes flatlock seams and comfort fit waistband.

BP 1600 BASE PROTECTIVE SHORTS

- **LOW RISE CUT** designed with comfort fit waist band and a 7" inseam specifically for women riders
- **LEG GRIPPERS** stretch and adjust to keep short from riding up
- Constructed with premium Lycra® 4-way stretch anti-microbial material

INNER SHORTS

- 4-way stretch, highly durable 82% polyester 18% D2 span mesh
- 9cm long soft lycra panel on thigh for comfort
- Integrated chamois
- Loops on both sides
- Seamless stitching

KNEE BRACE

- Medical grade knee brace
- Sticker / Decal graphics
- Constrasting black comfort pads
- White powder coated aluminum main frame
- Domed graphic decal in plastic center cap
- Sizing and CE woven label inside padded liner

LOPES KNEE GUARDS

TLD WAS PRIVILEGED TO WORK WITH 9-TIME NORBA CHAMP BRIAN LOPES TO DEVELOP THIS UNIQUE KNEE GUARD SYSTEM CREATED FROM LOPES' PERSONAL HANDMADE KNEE GUARD WHICH HE USED WITH GREAT SUCCESS.

- Custom molded outer polycarbonate guard with ventilation foam sewn in
- Breathable, ergonomic fit
- Red colorway for 2011 - red plastic with black contrast padding and large signature logo
- Unique two-piece system combining an inner neoprene sleeve
- Short version suits riders who are under 6' tall
- Standard version suits riders who are over 6' tall

KG 5450 KNEE / SHIN GUARDS

- **X-FIT™** integrates a wraparound supporter on elastic mesh sleeve for unparalleled comfort and fit
- **STRATA-FOAM** articulates with complex body zones while providing impact protection
- **VENT-TRAK** moves air through flexible channels over skin surface to cool the athlete
- **MESH CONSTRUCTION**
- **INTERNAL KNEE CAP**
- **SHIN GUARD** extends protection from the internal high-impact knee cap for enhanced low profile protection
- **INTEGRATED LYCRA® LOW-COMPRESSION ZONES** in a strapless, tapered elastic sleeve with no-slip internal grip zones. Constructed with rugged woven Aramid material to resist abrasion.

KG 5400 KNEE GUARDS

Same features as KG 5450 except SHIN GUARD.

COMBAT KNEE GUARDS

- Polycarbonate plastics sewn to ventilation foam for the best protection and breathability
- Solid middle strap to keep guards in place
- Short version suits riders under 6' tall
- Standard version suits riders over 6' tall

KNEE GUARDS

- Polycarbonate plastic backed with ventilated foam ergonomically designed for better fit and protection

T-BONE KNEE GUARDS

- Breathable air-prene construction
- Streamline fit
- Flexible

EG 5550

ELBOW / FOREARM GUARDS

- **X-FIT™** integrates a wraparound supporter on elastic mesh sleeve for unparalleled comfort and fit without bulky straps
- **STRATA-FOAM** articulates with complex body zones while providing impact protection
- **VENT-TRAK** moves air through flexible channels over skin surface to cool the athlete
- **MESH CONSTRUCTION**
- **INTERNAL ELBOW CAP**
- **INTEGRATED LYCRA® LOW-COMPRESSION ZONES**

SE ELBOW GUARDS

- Polycarbonate elbow and forearm guard
- Tapered Lycra Sleeve
- Perforated bio-foam padding

ELBOW GUARDS

- Polycarbonate plastic backed with ventilated foam
- ergonomically designed for better fit and protection

WS 5250

WRIST SUPPORT

- **STABILITY SYSTEM** supports wrist with an adjustable internal stay system for customized support & protection
- **EXTENDED WRIST SUPPORT** enhances flex limits and load dispersion zone for increased protection and control
- **ADJUSTABLE 3-STRAP CLOSURE** ensures personal fit and multi-zone compression
- **GLOVE COMPATIBLE** design for unobstructed grip

WS 3250

WRIST SUPPORT

- **STABILITY SYSTEM** supports wrist with an adjustable internal stay system for customized support & protection
- **EXTENDED WRIST SUPPORT** enhances flex limits and load dispersion zone for increased protection and control
- **GLOVE COMPATIBLE** design for unobstructed grip

KB 3305

KIDNEY BELT

- **HEX-MESH** disperses impact with a dimensional mesh construction that allows air to flow freely
- **TPR RUBBER AND MOLDED FOAM** integration provides comfortable support and impact protection
- **ANATOMICAL DESIGN** supports lower back and kidney area without inhibiting movement
- **PROGRESSIVELY TAPERED WRAP** minimizes material in the abdominal area
- **3 STRAP RETENTION SYSTEM** ensures ideal rider fit
- Lightweight and low-profile to fit comfortably over Moto pant waist.

SE KIDNEY BELT

- Open mesh rear panel is lightweight and cool
- Double elastic closure system for outstanding comfort and support
- Soft thermal plastic rubber Troy Lee Designs logo on the back

BLITZ KIDNEY BELT

- Ventilated TRP design for superior air flow
- BioFoam backing adds comfort and protection
- Stiffeners inside for added support and safety
- Fully adjustable kidney belt for most sizes
