Araldite The Araldite 2000 Epoxy System

Mixes and dispenses adhesive and hardener as a single-component product. The user can easily deliver a measured quantity of adhesive, accurately and with minimum waste. A choice of pneumatic and manual guns is available.

Product features include: Load bearing epoxies - for bonding metals and composites. Resilient and flexible epoxies - for bonding thermoplastics and combinations of materials. Slow and rapid cure epoxies. Epoxies which have high resistance to chemicals or temperatures. Gap filling epoxies - for vertical or gap filling applications on a choice of substrates. Transparent epoxies for bonding glass and other transparent substrates.

2010 - General-Purpose Epoxy - Fast Cure

Room temperature curing, high shear and peel strength. Particularly suitable for applications requiring a tough and resilient bond. Fast cure/ different substrates. Ideal for ferrous metals, aluminium, copper, rubbers, rigid plastics and ceramics etc. Light handling strength at 30 minutes.

Resistance Properties

Chemical - Good. Heat - Good. Water - Good. Impact - Excellent.

Product Number	Size	Order Code ARA-700	Offer Price/1
2010	200ml	-0140L	£42.88

2013 - Metal Coloured Epoxy Paste

Metallic appearance, thixotropic with good gap filling properties. Non-sagging up to 5mm thickness. Suitable also for a variety of substrates, including ceramics, glass, rubbers and rigid plastics. Ideal for vertical applications. Ideal for ferrous metals, aluminium, copper, zinc and galvanised metal etc. Light handling strength at four hours.

Resistance Properties

Chemical - Excellent. Heat - Good. Water - Good.

Product Number	Size	Order Code ARA-700	Offer Price/1
2013	200ml	-0165L	£40.06
	2kg	-0166M	£150.00

2011 - Multi-Purpose Epoxy - Long Working Life

Room temperature curing, high strength and toughness. Versatile and excellent resistance to dynamic loading. Ideal for large areas of bonding and/or a long working time. Ideal for ferrous metals, aluminium, copper, zinc and galvanised metal, polyamides, polystyrene foams, PU foams, ceramics, wood etc. Light handling strength at seven hours.

Resistance Properties

Impact - Excellent.

Product Number	Size	Order Code ARA-700	Offer Price/1
2011	50ml	-0149B	£18.36
	200ml	-0151E	£42.88
	2kg	-0152F	£139.16
Product Number	Size	Order Code ARD-700	Offer Price/1
2011	2 x 100ml	-2011M	£30.02

2014 - High Chemical & Temperature Resistance Epoxy Paste

Gap filling properties. Non-sagging up to 5mm thickness. Low out gassing/ volatile loss. Temperature resistant to 120°C. Ideal for metals, electronic components, GRP structures etc. Light handling strength at 3½ hours.

Resistance Properties

Chemical - Excellent. Heat - Excellent. Water - Excellent. Very resistant to water and chemicals.

Product Number	Size	Order Code ARA-700	Offer Price/1
2014	50ml	-0169Q	£16.00
	200ml	-0170R	£40.06
	2kg	-0172T	£126.16

2012 - Multi Purpose Epoxy - Very Fast Cure

Room temperature curing, high strength and peel strength. Multi-purpose, versatile with rapid cure. Ideal for ferrous metals, aluminium, copper, zinc and galvanised metal, rubbers and wood etc. Light handling 20 minutes.

Resistance Properties

Chemical - Good. Heat - Good.

Product Number	Size	Order Code ARA-700	Offer Price/1
2012	50ml	-0161T	£15.56
	200ml	-0163F	£40.44
	2kg	-0164G	£139.16

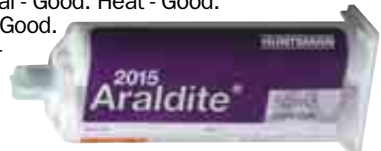

Product Number	Size	Order Code ARD-700	Offer Price/1
2012	2 x 100ml	-2012M	£36.58

2015 - Toughened Epoxy Paste

Thixotropic with good gap filling properties. Non-sagging up to 10mm thickness. Toughened, high shear and peel strength. Ideal for bonding dissimilar substrates. Particularly suitable for SMC and GRP bonding. Also ferrous metals, aluminium, copper etc. Light handling strength at four hours.

Resistance Properties

Chemical - Good. Heat - Good. Water - Good. Impact - Good.

Product Number	Size	Order Code ARA-700	Offer Price/1
2015	50ml	-0177C	£15.56

Economy Applicator Guns

For all Araldite 200ml cartridges except 2014.

Product Number	Size	Order Code ARA-700	Offer Price/1
145409100	50ml	-0123D	£22.62
145408000	200ml	-0124E	£74.88

2018 - Flexible Polyurethane

Room temperature curing. Very flexible. Lightly thixotropic liquid PU. Ideal for large areas of bonding and/or a long working time. Bonds well to most thermoplastics, including GRP/SMC/GRE/ thermoset composites/ABS/PVC/acrylics/ -polycarbonates etc. Light handling strength four hours.

Resistance Properties

Impact - Excellent.

Product Number	Size	Order Code ARA-700	Offer Price/1
2018	200ml	-0218M	£38.96

2021 - Rapid Curing, Toughened Multi-Purpose Methacrylate

High shear and peel strengths. Very fast curing, good gap filling properties. Suitable for service at temperatures up to 100°C. Ideal for ferrous metals, aluminium, ABS/PVC, acrylics, polycarbonates, polyamides, polystyrene foams, PU foams etc. Light handling four minutes.

Resistance Properties

Chemical - Good. Heat - Excellent. Water - Good. Impact - Excellent.

Product Number	Size	Order Code ARA-700	Offer Price/1
2021	50ml	-0226Q	£18.08
	400ml	-0228R	£91.00

2022 - Toughened, Resilient Methacrylate for Thermoplastics

Versatile, excellent for a wide range of plastics, composites and metals. Excellent resistance to petrol and oils. Tolerant to less pre-treatment. Rapid cure. Ideal for GRP/SMC/GRE/ thermoset composites, ABS/PVC, acrylics, polycarbonate, polyamides, polystyrene foams, PU foams etc. Light handling strength at 18 minutes. Gap filling up to 4mm thickness.

Resistance Properties

Chemical - Excellent. Heat - Good. Water - Good. Impact - Excellent.

Product Number	Size	Order Code ARA-700	Offer Price/1
2022	50ml	-0238W	£20.14
	400ml	-0240X	£81.40

Manual Applicator Guns

For all Araldite 200ml cartridges.

Product Number	Size	Order Code ARA-700	Offer Price/1
115457100	50ml	-0125F	£76.70
139675700	200ml	-0126G	£184.90

Lubricants & Chemical Products

LOCTITE Clear Epoxy

Hysol 3430
Fast cure.
Ultra clear.
Toughened.
Water resistant.
Fixture time 12mins.
Size: 24ml.

2 PART

Part Number	Order Code	List Price/1	Offer Price/1
	LOC-725		
Hysol 3430	-4215E	£8.66	£6.75

Toughened Epoxy

Hysol 9461
Good gap fill.
High peel strength.
Fixture time 4hrs.
Size: 50ml.

2 PART

Part Number	Order Code	List Price/1	Offer Price/1
	LOC-725		
Hysol 9461	-8310J	£12.73	£9.93

Double Bubble Epoxy Adhesive

Will bond to a wide variety of materials (i.e. wood, metal, plastic and ceramic) and cures rapidly to give handling strength in approximately five minutes. Packed into a handy sachet, and supplied complete with a mixing stick and pallet for fast and effective repair work.

Pack size: 50 x 3g.

2 PART

Description	Order Code	List Price/1	Offer Price/1
	LOC-725		
Double Bubble	-4100K	£49.00	£38.22

Metal Set Syringe 3450

A two-part filled epoxy resin supplied in a small handheld dual syringe giving accurate dispensing for small scale repairs.

Size	Order Code	Offer Price/1
	LOC-725	
25ml	-5911B	£9.81

Devcon '5 Minute' Epoxy Adhesive

Clear, permanent non-shrinking bonds. Bonds metals, glass, ceramics, concrete and wood. Works down to -40°C when cured.

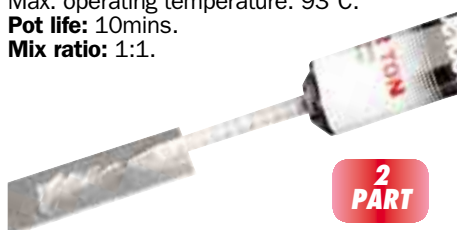

Max. operating temperature: 93°C.
Pot life: 4mins.
Mix ratio: 1:1.

2 PART

Size	Order Code	List Price/1	Offer Price/1
	DEV-711		
500g	-2070N	£45.77	£40.28
70g	-2071P	£12.11	£10.66
28g	-2073R	£6.69	£5.89

'2 Ton' Epoxy

Extremely powerful and water-resistant. Permanent non-shrinking bonds. Bonds metals, wood, concrete, glass and ceramics. Max. operating temperature: 93°C. **Pot life:** 10mins. **Mix ratio:** 1:1.

2 PART

Size	Order Code	List Price/1	Offer Price/1
	DEV-711		
28g	-2076V	£6.68	£5.88
56g	-2077X	£11.20	£9.86

Bostik 100 SA Acrylic Adhesive

A two-part acrylic adhesive to provide a tough, impact resistant bond on a wide range of materials. Temperature and chemical resistant. Low in odour.

2 PART

Product Number	Size	Order Code	List Price/1	Offer Price/1
		BST-705		
AX10M	80ml	-0644K	£21.40	£19.26

Araldite Two-Part Adhesive

Fast Cure

30ml fast cure two-part epoxy adhesive. DIY blister pack (2 x 15ml). Sets in minutes.

Slow Cure

Repositionable for 2hrs. Ideal for large areas.

2 PART

Cure	Size	Order Code	List Price/1	Offer Price/1
		ARD-700		
Fast	2x 15ml	-7820B	£5.19	£4.41
Slow		-7350E	£4.23	£3.60
Fast	2x 24ml	-7810A	£6.20	£5.27
Slow		-7340D	£5.25	£4.46

Two-Part Epoxy Adhesives

Two component, high strength adhesives that cure at room temperature. Suitable for bonding a wide variety of metals, ceramics, glass, rubber, rigid plastics and most other materials in common use. Versatile adhesives for the craftsman as well as most industrial applications.

2011 provides a **slow cure**, 2012 provides a **fast cure**.

Lubricants & Chemical Products

ADHAESIUM Machine Mounting Adhesive - Roll Form

ADHAESIUM is a unique mounting system, which does not rely on bolting and grouting, and can be applied and used without destroying surface and floor slab integrity. Used to site and secure medium and heavy engineering machinery such as lathes, presses, punches etc. Equipment can be easily removed and re-sited, without detriment to either floor or machine base.

No pre-mixing or substantial preparation is needed prior to installation. Does not require special tools or skills for installation. No drilling or grouting required. Positive machinery alignment with minimum effort. Scientifically shown to reduce vibration and noise transmission, reducing operator fatigue. Water based, non-toxic, low hazard. Can withstand high operating temperature without detriment - suitable where floor heating is installed.

Typical uses: The setting and stabilisation of heavy manufacturing equipment.

Shelf life: 24 months.

Used by: chemical engineering, electrical engineering.

Size	Weight each	Order Code	Offer Price/1

KENNEDY Protective Coating Red-Hot-Dip

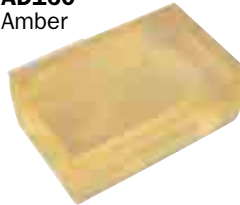

Hot dip strippable plastic coating moulds itself around the component or tool being coated to provide 100% coverage and protects against corrosion and impacts, for up to ten years. The component protected can be easily identified through the translucent coating. Simply removed by peeling it off, leaves behind a thin oil film to provide short term protection against corrosion. The removed protective dip can be reused. Never directly apply heat to melt the protective dip, always use with a suitable melting pot. Working temperature 130°C to 160°C (for optimum results 140°C to 145°C).

Industrial Melting Pots

A range of melting pots which have been designed for industrial melting of waxes, glues and plastics etc. for coating, casting, protecting etc. The pots are electrically heated and thermostatically temperature controlled from 50°C to 200°C. Constructed from anodised aluminium with ceramic fibre insulation. Pots supplied with 2m cable and fused plug, lifting handle, double-wall heat-conserving lid, on/off switch and safety thermal cut-out. 220/240V as standard.

SH25 (60)	15.0kg	-1030D	£116.36

ANGLO Epoxy Repair Mortar

Multi-use epoxy resin to repair damaged concrete floors, steps and ramps. fast setting (3 - 6 hours) to a granite hard finish. For use where fillers or normal mortars would fail. Ideal for thin screeds (5mm+) on concrete, stone, steps, floors and sills. No priming necessary.

Coverage: 1kg covers approximately 0.12m² at 5mm thick.

Size each	Order Code	List Price/1	Offer Price/1
5.0kg	-1200D	£48.59	£41.79
25.0kg	-1210E	£177.02	£152.24

Speed Patch

The special polymeric formula provides excellent bonding power on worn or cracked floors. Cures in approximately one hour and is suitable to repair holes 10mm and above. Suitable for the floors of storage areas, steps, ramps etc.

Coverage: 10kg covers 0.5m² at 10mm depth.

Size each	Order Code	List Price/1	Offer Price/1
10.0kg	-1750L	£41.09	£35.34
20.0kg	-1760M	£71.77	£61.72

Speed Screed

Pourable, self-smoothing material for levelling damaged or uneven concrete floors. Rapidly cures to a durable, hard wearing, anti-slip, grey finish. Epoxy resin coatings can be applied when dry. Ideal for workshops, garages, factory and warehouse floors. Usually applied 3 - 5mm thick.

Coverage: 3.7m² per 25kg pack at 3mm thick.

Size each	Order Code	List Price/1	Offer Price/1
25.0kg	-1810Q	£68.58	£58.98

Asphalt Restorer

A single application, black refurbishing coating for car parks, driveways and footpaths. Anglo Asphalt Restorer provides an 'as new' appearance that will mask old line markings and repairs and will hide ingrained dust from building works etc. Upgrades drab, grey, stained asphalt. Covers old line markings and repairs. Avoids costly resurfacing. Usage rate: Up to 10m² per five litres. Size available: five litres.

Size	Order Code	List Price/1	Offer Price/1
5ltr	-0890L	£30.32	£26.08

Speed Patch Pourable

Quick setting, pourable patch repairs for heavily trafficked floors. A quick and easy way to fill holes in heavily used concrete floors inside and outside. No primer is required just mix the powder with water and pour into the hole. This rapid setting concrete repair bonds to damp or dry surfaces and can be applied at thicknesses from feather edge to 100mm. Sets for foot traffic after 30 minutes and heavy traffic after 2 hours. Usage rate: 10kg covers 1m² at 5mm thickness.

Size	Order Code	List Price/1	Offer Price/1
25kg	-1740K	£73.10	£62.87

EVER BUILD 5ltr Waterseal

Waterseal is a high performance transparent water repellent specially formulated to prevent water penetration on all mineral substrates such as brick, stone, concrete, pebble-dashed and rendering. Based on the latest technology in silicone resins, Waterseal does not contain solvents harmful to the user or the environment and is non-flammable.

Size each	Order Code	List Price/1	Offer Price/1
5ltr	-8080R	£20.33	£13.62

Devcon Floor Patch

Bonds to new or old concrete producing a walkable surface in eight hours. Resistant to chemicals and heat up to 120°C.

Size each	Order Code	List Price/1	Offer Price/1
5.0kg	-2066J	£79.91	£70.32

LOCTITE Metal Set

2K-Epoxy adhesive, for emergency repairing and rebuilding worn metal parts. Ideal for repairing pipes and castings as well as cracks in housings and machine parts.

General Properties:

Mix ratio by volume: 1:1.
Mix ratio by weight: 100:100.
Colour: Grey. **Viscosity:** Putty.
Operating temperature: up to 120°C.

Hysol® 3473 A&B - Metal Set

S3 - Fast Cure

Steel filled.
Pot life: 6mins.
Fixture time: 15mins.
Shear strength (GBMS) (N/mm²): 20.
Compressive strength (N/mm²): 60.

Hysol® 3475 A&B - Metal Set A1 - Slow Cure

Aluminium filled. **Pot life:** 45mins. **Fixture time:** 180mins.
Shear strength (GBMS) (N/mm²): 20.
Compressive strength (N/mm²): 70.

Lubricants & Chemical Products

Devcon Tooling & Production Epoxies

Devcon high performance tooling and production epoxies provide a fast and economical method of manufacturing moulds, patterns and tools. They may be machined, drilled and tapping using conventional machine tools, while their properties allow accurate and detailed reproduction when cast over existing models.

Plastic Steel Liquid (B)
Fast-curing, self-levelling for low-cost moulds and dies. Reproduces fine detail. Excellent surface finish. Machinable to close tolerances.

Max operating temperature: 121°C.

Pot life: 45mins.

Mix ratio: 9.0:1.

Product Number	Size	Order Code	List Price/1	Offer Price/1
10211	500g	DEV-711 -2016G	£30.05	£26.44

Emergency Repairs

Emergency repair products offer a method of making fast, permanent repairs in minutes. Easy to use, they are ideal for making repairs to a wide variety of materials with minimum surface preparation and offer a solution of returning vital equipment to service with minimum downtime.

High Speed Emergency Repairs Zip Patch™

Adhesive impregnated patch. For repairs to pipes, tanks, containers, etc. Hardens at room temperature to form a tough waterproof finish in minutes. Bonds to most common substrates.

Max operating temperature: 93°C.

Pot life: 5mins.

Product Number	Size	Order Code	List Price/1	Offer Price/1
11500	500g	DEV-711 -2068C	£41.24	£36.29

Magic Bond

A two colour stick which seals leaks and repairs gouges in steel, aluminium, wood, fibreglass, concrete and ceramics. Works on wet surfaces, can be painted, sanded, machined, tapped or drilled and is ready for use in 1 hour.

Max operating temperature: 121°C.

Pot life: 10mins.

Product Number	Size	Order Code	List Price/1	Offer Price/1
11600	4oz Stick	DEV-711 -2058K	£9.15	£8.05

LOCTITE Quick Metal

660

Ideal for keeping machinery running by repairing worn coaxial parts without the need for total dismantling and re-machining. Allows the re-use of worn bearing seats, key ways, splines, tapes or retaining shims.

(Use with Activator 7240 or 7649).

Size	Order Code	List Price/1	Offer Price/1
50ml	LOC-725 -5445A	£31.31	£24.42

Devcon Maintenance & Repair Epoxies

Devcon precision maintenance and repair epoxies allow fast, durable repairs to critical equipment. These are an economical way to repair and maintain a wide range of industrial equipment, improving its performance and extending service life.

Titanium Putty (HP)

Machinable. Repairs damaged equipment in hours. Resists rust, abrasion, high temperatures and chemicals. High compression strength.

Compressive strength (N/mm²): 130.

Max operating temperature: 177°C.

Pot life: 21mins.

Mix ratio: 4.30:1.

Lubricants & Chemical Products

ULTIMEX

The Ultimex range of fire extinguishers from Fixfire is **BAFE Approved**, certified to **BSEN3** and **CE** marked in accordance with the new **PED** regulations. All refillable, supplied pre-charged and individually inspected with service labels endorsed prior to despatch. Kitemark approved with five year guarantee and colour coded labels to help identification of correct extinguisher.

Fixfire

Powder extinguishers are suitable for use on **Class A, B & C fires**.

Powder is also highly effective for electrical hazards. The multi-purpose powder interferes with the combustion process and provides rapid fire knock-down.

INDUSTRIAL COMMERCIAL

Model Number	Size	Fire Rating	Order Code FXF-714	Offer Price/1
X/P1	1kg	8A/55B	-1000A	£28.40
X/P2	2kg	13A/70B	-1010B	£32.80

X/C2	2kg	34B	-1060F	£59.95
X/C5	5kg	70B	-1070G	£99.95

INDUSTRIAL COMMERCIAL

Water extinguishers are suitable for **Class A** fires. Water is a fast and efficient extinguishant and works by having a rapid cooling effect so that insufficient heat remains to sustain burning and continuous ignition ceases. Not safe for use on electrical fires.

Water

INDUSTRIAL COMMERCIAL

Model No.	Size	Fire Rating	Order Code FXF-714	Offer Price/1
X/W9	9ltr	21A	-1300M	£43.90

Foam spray extinguishers (AFFF-Aqueous Film Forming Foam) are ideal for multi-risk situations where both **Class A & B** risks exist. The blanketing effect of foam spray gives rapid flame knock-down which smothers the flame and on fires involving flammable liquids seals the surface of the burning liquid. Safe for accidental use on fires involving electrical equipment.

Supafoam

AFFF Foam Spray

INDUSTRIAL COMMERCIAL

Model No.	Size	Fire Rating	Order Code FXF-714	Offer Price/1

Fixfire Safety Products

The exclusive range of Identi products have been designed for warehouse and factory applications to maximise the visual impact of extinguisher positions and to make it obvious when equipment has been removed. All versions are based on a standard design for consistency whether extinguishers are wall mounted, mounted on stanchions/mezzanine barriers or on free standing versions. The statutory European fire extinguisher symbol is incorporated with a separate blank section for the Identi extinguishant identification label.

Note: remember to order labels and brackets separately.

INDUSTRIAL COMMERCIAL

IDENTIPlate™

The IdentiPlate is constructed from high visibility red 'foamex' rigid plastic and is pre-drilled at the corners for fixing.

X/SBP

Identi single fire extinguisher back plate.
Size (H x W):
900 x 300mm.

X/DBP

Identi double fire extinguisher back plate.
Size (H x W):
900 x 600mm.

Extinguisher(s) supplied separately. Remember to order labels and brackets separately.

Lubricants & Chemical Products

Bond-Flex Silicone Sealants

200 LMA - Low Modulus

Single part low modulus, acetox curing silicone sealant that forms a highly elastic seal which maintains flexibility over a temperature range of -50°C to +180°C. Strong adhesion to most building surfaces and suitable for internal and external applications. Safe for use in food environments. Conforms to the technical requirements of **ISO 11600-F&G-20LM**.

Size: 290ml.

Colour	Order Code	Offer Price/1
White	BST-705 -0539L	£4.16
Clear	-0540M	£4.16

400 LMN - Low Modulus

Single part, low modulus, neutral curing silicone rubber sealant. It cures on exposure to atmospheric moisture to form a resilient highly elastic seal which maintains flexibility over a wide range of temperatures. Unlike many silicone sealants Bondflex 400LMN has a low odour when curing. The sealant is extremely resistant to weathering, ageing and water. Conforms to **BS 5889 (A)**, **ISO 11.600 25LM** and **US Food and Drugs Administration regulation No 21CFR 17726 00 brickwork**.

Size: 290ml.

Colour	Order Code	Offer Price/1
White	BST-705 -0541Q	£3.82
Clear	-0543C	£3.82

100HMA - High Modulus

Single part, high modulus, acetox type silicone rubber sealant. It cures on exposure to atmospheric moisture to form a resilient, highly elastic seal which maintains flexibility over a wide range of temperatures. Extremely resistant to weathering and is suitable for general-purpose applications in glazing and where adhesion to non-porous surfaces is required. Conforms to **ISO 11600-F&G-20LM**.

Size: 290ml.

Colour	Order Code	Offer Price/1
Clear	BST-705 -0520G	£3.24
White	-0522J	£3.24

Polyurethane Sealants

Matrix 600FC

Sealant is a faster curing, single part, polyurethane-based sealing compound which cures at a fast rate by reaction with atmospheric moisture. The cured sealant is rubbery, highly elastic, sandable and in general can be overpainted.

Size: 310ml.

KENNEDY P.T.F.E. Tape

Gas Type: 12mm x 5m roll. For gas and hot water pipes (not for potable water). Made to **BS EN 751:3**.

Water Type: 12mm x 12m roll. For hot and cold water pipes. Made to **BS 6920 & BS 7786**.

PTFE Thread Sealing Tape: 25mm x 12m roll. Made to **EN571**.

Description	Order Code KEN-983	List Price/1	Offer Price/1
Gas	-8000K	£1.50	£0.99
Water	-9000K	£0.69	£0.46
Thread Sealing Tape	-9010K	£3.35	£2.21

542 - Hydraulic Thread Sealant

Conforms with DVGW approval (gas).

Medium strength, medium viscosity. Impervious to all common hydraulic fluids including fire resistant synthetics. Will not clog valves or fine filters. Replaces tapes, pastes and self-sealing compression joints.

Size	Order Code LOC-725	List Price/1	Offer Price/1
10ml	-5342L	£7.01	£5.47
50ml	-5343P	£31.31	£24.42
250ml	-5344S	£134.98	£105.28

561 - Low Strength Pipe Sealant

Low strength pipe sealant in a convenient clean and easy to use stick form. It gives an instant seal on taper/parallel threads and locks the fittings in place.

Product Number	Size each	Order Code LOC-725	List Price/1	Offer Price/1
561	19g	-5349M	£8.64	£6.74

567 - Pipe Sealant

Low strength thread sealant with high lubricity to prevent galling on stainless steel fittings. With Teflon® (should be used with Activator 7649).

Size	Order Code LOC-725	List Price/1	Offer Price/1
50ml	-5350A	£22.54	£17.58
250ml	-5350L	£91.44	£71.32

572 - Thread Sealant

Coarse Threads - Slow Cure

Recommended for all coarse threads where slow cure is required to allow final adjustment before sealing. Meets **BS 6956**
Type A for sealing gas fittings.

Size	Order Code LOC-725	List Price/1	Offer Price/1
50ml	-5352C	£16.45	£12.83
250ml	-5353F	£49.87	£38.90

577 - Thread Sealant

Thread Sealant - Coarse Threads

Conforms with BS 6920 (potable water) and BS 6956 : 7 (gas). DVGW approval (gas).

Medium strength sealant for coarse threads. Suitable for copper, mild steel, cast iron, stainless steel, galvanised pipes and fittings.

Size	Order Code LOC-725	List Price/1	Offer Price/1
50ml	-5370B	£21.49	£16.76
250ml	-5371E	£87.23	£68.04

Activators

For Thread & Gasket Sealants

7649 'N'

Recommended for use when a very fast cure of anaerobic products is required. WRC approved.

7471 'T'

Recommended for use when cure temperatures are below 10°C.

Type	Size	Order Code LOC-725	List Price/1	Offer Price/1
7649 'N'	150ml	-5608J	£7.80	£6.08
7649 'N'	500ml	-5609C	£21.50	£16.77

7471 'T'	500ml	-5613H	£21.50	£16.77

5331 - Threadsealer

Recommended for use on threaded plastic or plastic/metal fittings carrying hot or cold water e.g. industrial and agricultural plastic water pipe systems, or drainage systems.

WRC approved for use with potable water up to 85°C.

P1 NSF Reg. No.123620.

Product Number	Size	Order Code LOC-725	List Price/1	Offer Price/1
5331	100ml	-5340L	£17.14	£13.37

5900 - Silicone Gasket

High Performance Silicone Gasket

Typical applications include stamped sheet metal covers. It withstands on line, low pressure tests carried out before product begins to cure. The thixotropic nature reduces the migration of liquid product after application to the substrate and has an excellent adhesion profile to an outstanding wide variety of plastic substrates. **Registered to NSF Category P1** for use as a sealant where there is no possibility of food contact in and around food processing areas.

Foliac Graphited

Designed for a wide range of pipe, flange and face joints, mainly for industrial applications concerned with high and low pressure, steam, air, water, gas and air mixtures.

Product Number	Size each	Order Code	List Price/1	Offer Price/1
30022	300g	-6299M	£7.34	£6.31

SOLENT MAINTENANCE Floor Paint

Attractive and hard wearing, transforms drab, stained or scuffed concrete and similar surfaces. Suitable for floors in warehouses, workshops, shop floors, garages, basements, etc.

Storage and Use

Store at temperatures above 12°C. Apply in warm (above 15°C) well ventilated conditions. Easy to use, oil resistant and easy to clean. No primer required. Ideal for garages, workshops and laundry rooms.

Coverage: up to 8m² per litre (two coats recommended).

Please note, colours are for guidance only.

Anti-Slip Floor Paint

Tuffgrip
Solvent free industrial quality floor paint. Applied by roller as a one-coat system, to provide traction in areas of slip hazard. Hard wearing, epoxy resin anti-slip coating suitable for use on heavy trafficked concrete, stone, steel and wooden floor surfaces.

Coverage: 5m² per pack.

For Rollers & Paint Trays

GROUP 725 RETAINERS & THREADLOCKERS

LOCTITE® 2400/2700 - Medium & High Strength Threadlocker

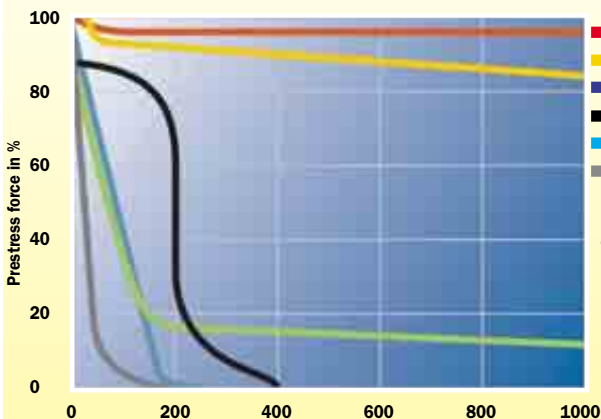

- No hazard symbols, no risk phrase & no safety phrases
- No need for a company COSHH assessment

Continuously striving to improve the health & safety of our products, we break new ground with **LOCTITE®** 2400 & 2700. These medium and high strength threadlockers have some major benefits for your company COSHH assessments and each possess a “white” material safety data sheet.

- One drop completely fills the threads
- Locks and seals

NEW

LOCTITE®
Threadlockers clearly out-perform others

Product Number	Size	Strength	Order Code LOC-725	List Price/1	Offer Price/1
2400	50ml	Medium	-5108C	£35.13	£27.40
2700	50ml	High	-5118Z	£36.18	£28.22

225 - Low strength, Threadlocking Compound

Low strength, high viscosity threadlocking compound.

Product Number	Size	Order Code LOC-725	Offer Price/1
225	50ml	-5106G	£21.81

270 - High Strength Threadlocker

Improved temperature resistance (+180°C) and heat aging, improved oil tolerance. High strength locking of studs/bolts where removal is not required.

Product Number	Size	Order Code LOC-725	Offer Price/1
270	10ml	-5116S	£5.63
	50ml	-5117T	£25.09
	250ml	-5118V	£108.39

248 - Threadlock Adhesive Stick

Medium strength thread locking compound in a convenient clean and easy to use stick form. As with other Loctite medium strength thread locking products, it locks the threads to resist vibration and also completely seals the threads against most industrial fluids.

Product Number	Size	Order Code LOC-725	Offer Price/1
248	19g	-5115W	£10.41

268 - High Strength Thread Locking Compound

High strength thread locking compound in a convenient clean and easy to use stick form. As with other Loctite high strength thread locking products, it locks the threads to resist vibration and also completely seals the threads against most industrial fluids.

Product Number	Size	Order Code LOC-725	Offer Price/1
268	19g	-5116P	£10.41

278 - High Strength Oil Tolerant Threadlocker

High strength threadlocker which can be used on as received parts and on applications where operating temperatures can reach 200°C. It is also ideal for use on plated bolts including the new zinc/trivalent chrome finishes.

Size	Order Code LOC-725	List Price/1	Offer Price/1
50ml	-5120M	£32.90	£25.66

290 - Penetrating Threadlocker

High strength, post application with very low viscosity. Vibration-proof. **WRC approved.**

Size	Order Code LOC-725	List Price/1	Offer Price/1
10ml	-5121Y	£7.01	£5.47
50ml	-5122Z	£31.31	£24.42
250ml	-5124A	£134.99	£105.29

222 - Screwlock Threadlocker

Low strength, replaces nylon/star/spring washers on screws and threaded fitting where easy dismantling is required, e.g. with a screwdriver. **NSF P1 registered.**

Size	Order Code LOC-725	List Price/1	Offer Price/1
10ml	-5103D	£7.01	£5.47

Lubricants & Chemical Products

British Standard 'O' Rings

NBR70 Rubber 'O' Rings

The most common and simplest types of seal with excellent sealing properties and durability. Used in engines and gearboxes, also found in anything from shower heads to an aircraft, garden hoses and pumps etc., They can be used as face gasket style seals or as shaft seals and allow both rotary and linear movement. They have a 70 Shore hardness and an operating temperature range of -30°C to +120°C.

Highly resistant to many chemicals, petroleum, diesel, LPG etc.

All sizes to **BS1806**.

Many other sizes and materials in stock.

Quad Ring Selection Kits

Quad rings - provide lower friction and eliminate the tendency of standard 'O' rings to 'roll' in the groove. Can also be used on slow rotational applications. Kit contains a selection of the most popular 30 sizes of Quad rings (X-Rings). Ideal for repair or maintenance use.

NEW

30 SIZES

Product Number	Material	Number of Pieces	Order Code DTM-726	List Price/1	Offer Price/1
Quad Kit Q - NBR	Nitrile	377	-9920X	£240.00	£180.00

LOCTITE 'O' Ring Splicing Kits

NEW

Saves the need for complete disassembly. Eliminates the need for an inventory of different sized 'O' rings. Joints resist water/oil and are as strong as the rubber itself.

Kit contains: seven standard diameter sizes of nitrile cord in 1200mm lengths, splicing jig, safety knife and Loctite® 406 instant adhesive (one or two bottles).

Bottles Included	Cord Diameter Range	Order Code LOC-725	List Price/1	Offer Price/1
1x 20ml	1.6 to 8.4mm	-5815R	£49.14	£38.33
2x 20ml		-5816S	£72.64	£56.66

Cordbox 'O' Ring Splicing Kits

NEW

Each kit is supplied in a fitted and highly durable blow moulded case. Includes a cutting and gluing jig, retractable snap-off safety knife, 3m/10ft tape measure, one bottle of instant adhesive and all popular and metric and inch sizes from 1.78 - 8mm in two metre lengths.

If further instant adhesive is required, we recommend the use of Loctite 406 Rapid cure adhesive for rubber - see page 1242 of this catalogue.

Nitrile Rubber (NBR):

For most applications. Operating range -30°C to +120°C.

Viton Rubber:

For high temperature applications and where greater tolerance to fuel oils is required. Operating range -20°C to +200°C.

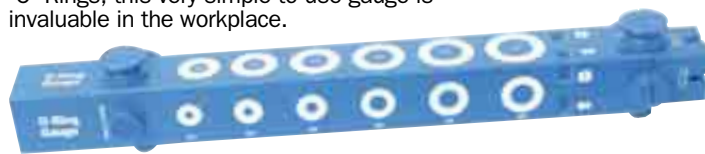

Cord Type	Cord Range	Order Code DTM-726	List Price/1	Offer Price/1
Nitrile	1.78 to 8mm	-9996G	£32.38	£25.90
Viton		-9994E	£100.00	£79.99

'O' Ring Measuring Gauge

NEW

GROUP 726 SHAFT SEALS & GLAND PACKING

Rotary Shaft Seals

Rotary Shaft Seals are used in a wide range of applications and are excellent for sealing high speed rotating shafts. We offer a complete range of metric and inch sizes with various sealing lip styles and materials. Used in conjunction with the shaft repair kits can improve the overall sealing efficiency of the application.

NEW

Shaft Repair Sleeves

NEW

Quickly and economically repair grooved and worn shafts for rotary oil seals. Fitting new seals on already worn shafts can result in repeat replacement of the seals. Grooving wear on a shaft can require expensive re-machining or even result in the shaft having to be replaced. Repair sleeves are simply pushed over the worn running surface. No special equipment is required - a standard depth installation tool is supplied with the sleeve. A mallet and a pair of pliers are all that are required for the repair job. The surface is machined without directionality, wear resistant often a better finish than that of the original shaft.

Other Sizes also available from stock

... use with 638 Retainer to help solve any lateral shaft scoring

Pan Fibre Gland Packing

NEW

Type VT2

VT2 is braided from pure Poly Acrylic Nitrile (PAN) impregnated with PTFE, further treated with special lubricants. Gives enhanced performance without shaft wear problems or high costs of traditional synthetic fibre packing. Extended life even at high shaft speeds and pressures within a wide pH and temperature range.

Applications: pumps, valves, mixers, reactor vessels and reciprocating applications. Resistant to general chemicals, solvents, oils, water and steam. For use in arduous conditions in process applications where alternative packing causes excessive wear or require frequent maintenance and replacement. Does not contaminate or stain - suitable for use in the food, water and paper industries.

Operational limits

Pressure rating: 100bar.
Rotary speed: 18m/s.
Temperature: -40°C +250°C.
pH range: 2 - 14.
Roll length: 8m.

Product Number	Section	Order Code VCN-726	List Price/1	Offer Price/1
VT2.1/4	1/4"	-8500C	£28.44	£27.02

VT2.3/4	3/4"	-8500K	£178.64	£169.71

Type VG2

Composite construction of PAN fibres combined with pure carbon fibres. Self-lubricating with superior packing properties - enhanced by graphite impregnation and high temperature lubricants, practically eliminates shaft scoring. Conformable packing, with a square, inter-braid, lattice construction, improves sealing with less gland pressure.

Operational limits

Pressure rating: 80bar.
Rotary speed: 10m/s.
Temperature: -50°C + 250°C.
pH range: 4 - 12.
Roll length: 8m.

Lubricants & Chemical Products

SOLVENT DEGREASERS

SOLENT MAINTENANCE™ *Just Orange*

Citrus-Based Solvent Degreaser
Just Orange is a safe but powerful, citrus-based solvent degreaser. For the cleaning and degreasing of engineering components and equipment. Safely removes heavy oils, greases, bitumen, wet paints, adhesives and sealants from virtually all hard surfaces. Non-toxic, contains no CFCs. Reduced VOC. Inflammable. Non-hazardous for waste disposal. Can be used as a safer, environmentally friendly alternative to hazardous solvents such as acetone, benzene, butyl cellulose, CFCs, freon, glycol ethers, HCFCs, isopropyl alcohol, methyl ethyl, ketone, mineral spirits, toluene, trichloroethylene, xylene etc.

Orange Plus
Citrus-Based Water Rinseable Degreaser

Orange Plus is a safe but powerful, citrus-based solvent degreaser. For the cleaning and degreasing of engineering components and equipment. Safely removes heavy oils, greases, bitumen, wet paints, adhesives and sealants from all metals, including plant and machinery, and some plastics. Non-toxic, contains no CFCs. Reduced VOC. Non-flammable. Non-hazardous for waste disposal. Can be used as a safer, environmentally friendly alternative to hazardous solvents such as Xylene, Toluene, Acetone etc.

Aqueous Orange
Citrus-Based Aqueous Cleaner

Aqueous Orange is a highly concentrated citrus-based blend of solvents and powerful surfactants will safely remove oils, greases etc from many hard surfaces. Designed to replace hazardous solvents such as white spirit and paraffin. It can be diluted with water for maximum economy and its micro-emulsion formula offers the benefits of both water-based economy with solvent based efficiency. Contains biodegradable surfactants which enable it to break down naturally after disposal. Non-toxic, contains no CFCs. Negligible VOC. Non-flammable. Non-hazardous for easy waste disposal. Can be used as a safer, environmentally friendly alternative.

GROUP 727 CLEANING BATHS

SOLENT MAINTENANCE Degreasing Station/Parts Washer

Air operated, strong and durable mild steel degreasing station. Ideal for use as a soaking bath and air agitation facility aids the degreasing process by removing heaviest oil and grime from small parts. Also comes with a flow through brush to deal with caked on grime. Designed to sit on 100L barrel.

Dimensions:

Length: 760mm (30").

Width: 510mm (20").

Height: 200mm (8").

Weight: 20.8kg.

Working height:

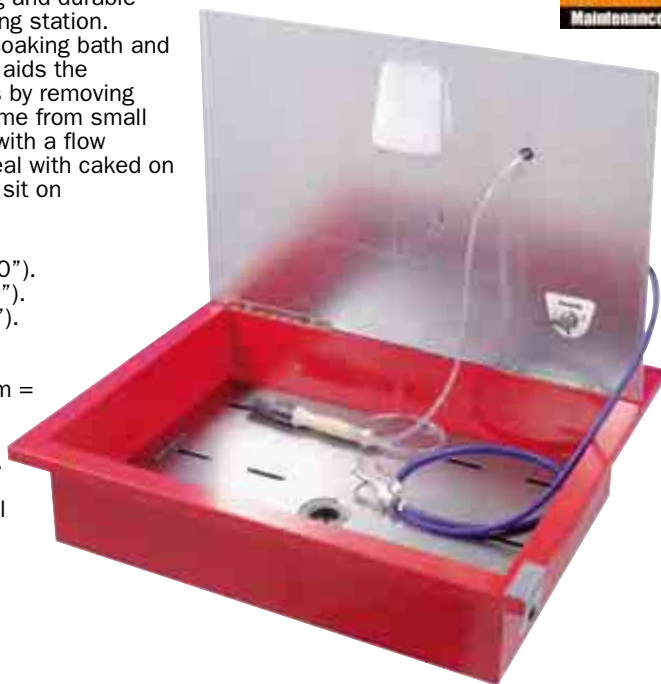

When on 100L drum = 890mm (35").

Solvent delivery:

Flow through brush.

General:

Powder coated bowl and galvanised splashback sheet. Tray is mild steel.

Ultrawave Ultrasonic Micro-Cleaning Bath

The ultrawave U100H ultrasonic bath is a heated, analogue controlled bench-top ultrasonic cleaner for use in medical, healthcare, veterinary, dental and many other applications.

Specifications:

Capacity: 1.5ltr.

Temperature: heated 0 - 70°C.

Tank dimensions: 150 x 140 x 100mm.

Internal basket dimensions:

120 x 96 x 56mm.

Power: 35W.

Please allow 3 - 5 days for delivery

Ultrawave Q-Series Ultrasonic Bench-Top Cleaning Baths

The Q-Series from Ultrawave combines new technology with ease of operation and a modern design to re-invent ultrasonic cleaning. Medical, laboratory and other industry professionals can now command excellent, repeatable and traceable cleaning results from the Q-Series of ultrasonic bench-top cleaners.

- Reduced dead spots and minimal standing waves increase ultrasonic activity.
- More homogeneous cavitation activity throughout the tank means a more consistent cleaning action.
- Improved instrument and component cleaning cycle after cycle.
- Faster, more effective cleaning results.

All this means consistently cleaner instruments in a quicker cycle time.

Q-Series models are supplied with the following features as standard:

- Basket and lid/drip tray.
- Digital control panel.
- Heated 0 - 80°C.
- Frequency leap technology.
- Timer (0 - 99 mins).
- Drain outlet.
- SD card slot for digital validation.

KENNEDY Parts Washer - Bench Standing
QUALITY INDUSTRIAL TOOLING

Used in garage, workshop and industrial applications for degreasing components for inspection and prior to assembly. Recirculated cleaning fluid is filtered before entering the pump and being directed over the work piece. Flexible chrome finish metal delivery hose. Heavy duty non-welded one piece tank. Fully enclosed electric nylon pump. Self-latching fusible linked lid closes in the event of a fire. Triple baked enamel finish. Accepts all common degreasing agents. Shelf keeps parts out of solvent during inspection and drying. Immersion soaking when the parts shelf is removed. Fitted with a 3 pin moulded plug and a 1.6m power cable. Minimum agent capacity 9ltr. Maximum agent capacity 13ltr. Rubber feet. 240V.

Overall size (L x W x H): 470 x 340 x 250mm.
Tank size (L x W x H): 400 x 310 x 230mm.

GROUP 727 CLEANER SPRAYS

SOLENT MAINTENANCE Cleaner Spray

SC2-500C Electrical Contact Cleaner Spray - Trike-free
An effective solvent based cleaner. The product is formulated to remove oil, grease and carbon dust from electrical switch gear and electronic components. It is safe on most common plastic parts, but will attack lacquer finishes and coatings. If in doubt about suitability, trial the product on a scrap sample first before general application. The product is propelled from the aerosol by CO₂ carbon dioxide gas (non-flammable). Electrical Switch Cleaner fluid is flammable. Always ensure power is switched off before applying this product to electrical equipment.

Product Number	Size	Order Code	List Price/1	Offer Price/1
SC2-500C	500ml	SOL-732	£13.05	£10.44

LPS Electro Contact Cleaner

NEW

Fast drying CFC free, cleans and degreases delicate precision mechanisms with its fast penetrating action to remove oil, grease, dirt, flux and other contaminants. CFC free is safe on metal and plastic, is fast evaporating, does not leave a residue and does not contain HCFCs. **NSF K2 registration #059813 (aerosol).**

Size	Order Code	List Price/1	Offer Price/1
300ml Aerosol	LPS-727	£7.92	£6.65

SITESAFE Trike-free Contact Cleaner

CCA500C Electrical Contact Cleaner Spray - Trike-free
Suitable for cleaning and degreasing delicate components such as those used in electrical equipment. It can be used on most surfaces and will not effect PCBs, delicate plastics or painted surfaces. Non-corrosive. It contains only solvents which are permitted under the Montreal Protocol.

Product Number	Size	Order Code	List Price/1	Offer Price/1
CCA500C	500ml	SSF-732	£5.45	£4.25

EVO-STIK Cleaner 3 Cleaner/Thinner

Bostik Cleaner 3 is used for thinning solvent-borne adhesives based on polychloroprene rubber and, to a limited extent, nitrile rubber and polyurethane based adhesives (up to 10-15% addition). It is also used for cleaning brushes and other application equipment used with these adhesive types and as a surface cleaner prior to adhesive application.

ACTION CAN Electronic Cleaner Plastic Safe

IPA
An effective formula for removing dirt and tape oxides from audio and video recording heads. Suitable for removal of carbon deposits from photocopy equipment. Effectively absorbs moisture from electronic component PCBs. Meets the following approval **BS1595, ASTM D 770, DIM53245.**

Size	Order Code	List Price/1	Offer Price/1
500ml	ACN-732	£7.77	£6.22

LPS Solvent/Degreaser

F-104° Fast Dry
Excellent for cleaning grease and oil on machines and equipment. With a high flash point of 104°F (40°C), F-104° is an excellent alternative to extremely flammable cleaners. It removes contaminants in seconds without leaving a residue. It does not contain chlorinated solvents, is safe to use on most surfaces and is non-conductive.

Size	Order Code	List Price/1	Offer Price/1
538ml Aerosol	LPS-727	£11.64	£9.78

Heavy-Duty Solvent - ME20

Highly effective, heavy-duty cleaner/degreaser. Suitable for use in all industrial, aviation, automotive and engineering applications requiring a stronger degreaser with a longer contact time. Heavy-duty cleaner for extra stubborn stains and soiling. Removes heavy deposits of oil and grease, waxes and silicones. Controlled evaporation. Leaves a clean, dry surface. Safe for use on ferrous and non-ferrous metals and some plastics. High flash point +41°C.

Product Number	Size	Order Code	List Price/1	Offer Price/1
ME20	400ml	-0060P	£6.46	£5.81

Label Remover

For self-adhesive labels and stickers. Unique, speciality product that provides the instant answer to the problem of removing old labels and unsightly label residues from a wide variety of surfaces. Fast and effective removal of self-adhesive paper labels. Quickly breaks down adhesive residues. Controlled evaporation enables time for solvent to penetrate label. Pleasant citrus smell. No need to scratch and scrape. Safe on most surfaces. Also an effective cleaner for the removal of some inks and dyes.

Size	Order Code	List Price/1	Offer Price/1
200ml	-1133A	£5.24	£4.72

Precision Clean

Formulated to remove heavy soiling. Water-based, easily wiped or rinsed. Meets McDonnell-Douglas and Boeing specifications. **USDA approved.**

Ready to use spray:
(590ml aerosol) **LPS-727-1308F**
(800ml trigger) **LPS-727-1308H**

GROUP 732 MAINTENANCE SPRAYS & LUBRICANTS

Ambersil Lec-Klene Solvent Degreaser

High Flash Point Solvent Degreaser

A highly refined, ultra low odour solvent cleaner which has been formulated to satisfy the exact requirements of military, aerospace and defence related industries. High flash point degreaser - safer in use. Ideal for use in confined areas.

Powerful solvent cleaner which rapidly removes oil, grease, wax, tar, bitumen, brake block dust and other general soiling. No detrimental effect on painted surfaces, ferrous and non-ferrous metals, and epoxy based composites, acrylic sheet, plastics and rubbers.

Description	Aerosol Size	Order Code	List Price/1	Offer Price/1
Lec Klene	400ml	AMB-701	£7.59	£6.83
	5ltr	-0803W	£35.71	£32.14
	25ltr	-0804A	£154.90	£139.41

Aquasafe Biodegradable Cleaner Degreaser

Water-based detergent cleaner that exhibits high solvency power. An ideal alternative to traditional solvents, suitable for use in industrial, automotive, engineering, transport, aviation, marine and electronics applications. Biodegradable. Removes tough and stubborn soiling such as oil, grease, grime, silicone, wax, nicotine, soot, ink and coffee. Super industrial strength, can be diluted 1:40 with water. Safe on most plastics, rubber and painted surfaces. Contains a highly effective corrosion inhibitor to help prevent flash rusting. Multi use by spraying, soaking, brushing, immersion, wiping or ultrasonic.

Ambersolv Citrus Solvent Cleaner

High performance citrus-based cleaning solvent. An ideal alternative to traditional chlorinated or highly volatile solvent cleaners, suitable for use in aerospace, industrial and general engineering applications. Natural based, high performance cleaner/degreaser. Biodegradable. Deep penetrating action. Classified as non-flammable. Effective on a wide range of soiling such as oil, grease, tar, bitumen, silicones, rubber-based adhesives, oil-based paints, inks and dyes. Safe on metals and most plastics. Multi-use by spraying, soaking, immersion, wiping or ultrasonic.

Description	Aerosol Size	Order Code	List Price/1	Offer Price/1
Ambersolv SB1	400ml	-1860A	£6.51	£5.86

	25ltr	-1880C	£151.11	£136.00

Corrosion Inhibitor

Anti-corrosion treatment. A clear protective coating that provides long lasting protection against rust and corrosion on internal and external metallic components. Film will not harden or crack. Suitable for protection of ferrous metals in conditions of high humidity. Film allows for subsequent handling and resists acid finger printing. Forms a continuous homogeneous film. Will not stain or mark components. Removes surface moisture on application. Suitable as anti-seize coating on bolts, hinges, fixings and moving parts. Meets **MIL-PRF 16173E (Class I, Grade 2)**. Passes **IP 178, Method B**. 250 hours minimum protection (**ASTMB117**) in salt spray tests.

GROUP 732 MAINTENANCE SPRAYS & LUBRICANTS

Maintenance Spray

SM4-500C 'M4 Plus' Lubricates:

High performance mineral oil based lubricant with PTFE.

Displaces Water:

Helps start damp engines.

Penetrates:

Releases rusty fixings.

Cleans & Protects:

Cleans metal surfaces and prevents rusting of treated parts. Does not contain naphtha, kerosene or paraffin which are all associated with operator skin dryness, cracking or dermatitis. CO₂ non-flammable propellant.

Does not contain silicone.

Electrically non-conductive at normal ranges found in the home. Care must be taken if used on some electrical plastic components where 'crazing' may occur.

Product Number	Size	Order Code SOL-732	List Price/1	Offer Price/1
SM4-500C	500ml	-0460K	£3.71	£2.97

Ambersil 40+ Protective Lubricant Spray

Provides a waterproof coating protects against moisture attack, humidity and oxidation.

Dampproofs and protects ignition systems and all electrical equipment.

TKX® All-Purpose Penetrant, Lubricant and Protectant

Excellent all-purpose lubricant. Displaces moisture, loosens rusted or frozen parts. Protects against corrosion. High flash point of 79°C. Does not contain chlorinated solvents or silicones. Non-conductive. Safe on most surfaces. Inverta spray valve.

Size	Order Code LPS-727	List Price/1	Offer Price/1
368ml	-1590H	£3.36	£2.82

Maintenance Liquid

AC-90

Displaces water, helps start damp engines, penetrates rust, protects from corrosion, lubricates and stops squeaks. Silicone free, electrically non-conductive and can be used on or near electrical components, motor circuits etc, without affecting insulation or causing short circuits. Supplied in aerosols that use no CFCs and are ozone friendly or in screw top metal cans and drums.

Does Not Contain Kerosene*, Paraffin* or Naphtha*.

(*These products are used by some other maintenance sprays or water displacing sprays but are associated with skin drying and irritations.)

Smart Straw	420ml	-2420A	£5.87	£4.93

Anti-Rust Protection Spray

SP1-500B - Green
Solent green moisture guard is a soft thin film moisture/corrosion protective coating. Packed in a large 500ml aerosol. The coating has a slight green colouring which clearly indicates treated areas. Ideal for longer term moisture/corrosion protection of machined components/moulding dies and tools. Removed easily with Solent Industrial Cleaner, part number SC1-500B.

Product Number	Size	Order Code	List Price/1	Offer Price/1
SP1-500B	500ml	SOL-732 -0600K	£14.32	£11.46

Heavy-Duty Anti-Rust Protection Spray

SP2-500B
Solent heavy-duty anti-rust protection spray is a high performance corrosion inhibitor. The product is sprayed directly onto the surface to be protected. Clear in colour with a faint yellow trace to identify treated surfaces. The film has self-healing properties and is easily removed with solvent cleaners. The coating will resist moisture, acid and alkali fumes. The film does not contain silicone or halogens. Corrosion protection periods vary with environmental conditions. Typical interior protection in the UK in excess of two years. Product can be re-applied should conditions require it.

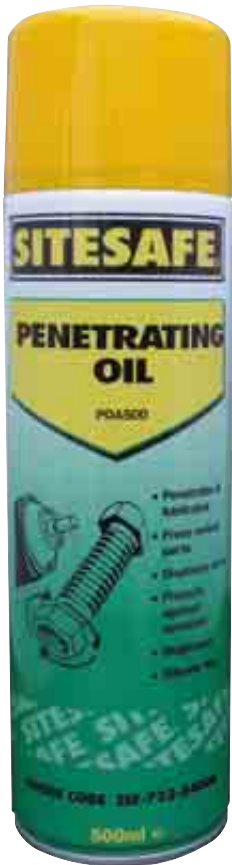

Product Number	Size	Order Code	List Price/1	Offer Price/1
SP2-500B	500ml	SOL-732 -0620K	£18.60	£14.88

Penetrating Spray

POA500
Penetrating oil for dismantling, lubricating and cleaning. This oil displaces water leaving a hydrophobic coating to protect surfaces from corrosion. It penetrates threads and crevices to release and lubricate delicate mechanisms, pivot points and sliding surfaces whilst degreasing hard surfaces.

Container Type	Size	Order Code	List Price/1	Offer Price/1
Aerosol	500ml	SSF-732 -3400K	£4.36	£3.40

Ravel LG & SG Rust Preventative

Q8 Ravel LG & SG are water displacement fluids that deposit a rust-preventing soft waxy film onto treated surfaces. They are a very effective treatment for all wet parts, damp conditions and are easy to apply. The formulation also includes powerful rust and corrosion inhibitors and film strength improvers. Low surface tension, viscosity and a strong attraction to metal surfaces. Spreads rapidly to displace all water and completely covers all complex shapes, and even penetrate porous components. After evaporation, a protective soft waxy film remains clinging to the surfaces protecting them from further water and rust.

Type	Size	Order Code	List Price/1	Offer Price/1
Ravel LG	25ltr Drum	HUN-740 -3042G	£99.97	£91.97
Ravel SG	25ltr Drum	-3048W	£94.72	£87.14

LPS3
The long term, heavy-duty corrosion inhibitor. Protects and lubricates in even the harshest environments. CFC-free, non-flammable and non-conductive with a transparent waxy film. Protects up to two years. Approved by Boeing, McDonnell Douglas, Airbus Industries and Gulfstream. **USDA approved.**

Size	Order Code	List Price/1	Offer Price/1
377ml	LPS-727 -1170P	£9.58	£8.05

Silicone Release Spray

SR1-500B - for Plastics & Rubber

Heavy-duty silicone lubricant and release agent. Formulated with a high silicone content. The product is suitable for a wide range of uses. SR1-500B is a dry non-oily, non-greasy product. Water clear with no odour.

Product Number	Size	Order Code	List Price/1	Offer Price/1
SR1-500B	500ml	SOL-732	£9.84	£7.87

Mould Release Dry Film PTFE Lubricant

SR3-500B

Provides a micro-thin surface coating for the inner surfaces of injection moulding tools/dies, thus enabling easy component release. The coating will not bridge complex mould profiles and will not interfere with precision fits. The applied PTFE film will not transfer to the moulded item & can be used where a dry slip surface is required such as production line slides, tracks or tables.

Product Number	Size	Order Code	List Price/1	Offer Price/1
SR3-500B	500ml	SOL-732	£14.63	£11.70

LOCTITE

Freeze & Release Aerosol

8040

Releases seized and corroded parts by shock freezing (-43°C). Released parts remain lubricated and protected from corrosion.

Size	Order Code	List Price/1	Offer Price/1
400ml	LOC-725	£6.79	£5.30

Ambersil Non-Silicone Release Agent

Formula 5 - Medium-Duty

A medium-duty, dry film non-silicone mould release agent. Provides excellent release for all types of thermoplastics, some thermosetting plastics, silicone rubber and many other types of rubber. Will not interfere with post-moulding treatments, such as painting, printing or gluing. Will not build up in the mould. Operational up to 150°C. Recognised by Underwriters Laboratories Inc.

Size	Order Code	List Price/1	Offer Price/1
400ml	AMB-701	£8.13	£7.32

Medium-Duty Release Agent

Formula 6

A medium-duty, silicone mould release agent. A general-purpose release agent for all thermoplastics and many types of rubber. Improves surface finish, will not build up in the mould. Operational up to 200°C. Fitted with 360° spray system for all angle use. Recognised by Underwriters Laboratories Inc.

Size	Order Code	List Price/1	Offer Price/1
400ml	AMB-701	£8.13	£7.32

Minimal Transfer Non-Silicone Release Agent

Formula 11

A minimal transfer, dry film, non-silicone release agent. Provides an ultra thin, dry film, especially effective on 'electronic' grade polymers such as polycarbonate and ABS, particularly suitable for the release of HIPS (High Impact Styrene). Will not interfere with post-moulding operations, such as painting, printing or gluing. Operational to 1200°C continuous, and intermittent to 2100°C. (Although multiple release properties are reduced).

Size	Order Code	List Price/1	Offer Price/1
400ml	AMB-701	£8.84	£7.96

Non-Silicone Mould Release Agent

Formula Seven/2

Heavy-duty - the non silicone formula will not interfere with post moulding treatments such as bonding. Heavy duty film for the release of plastic and rubber mouldings. Operational up to 170°C.

Size	Order Code	List Price/1	Offer Price/1
400ml	AMB-701	£8.75	£7.88

High Temperature Silicone Mould Release Agent

Formula 1/HT

High temperature, multi-purpose, heavy-duty silicone mould release agent. It is based on silicones dissolved in a blend of solvents and has been formulated for injection moulding, but is also effective for use in a wide range of other moulding processes. Also useful as an anti-stick agent in the food, textiles, sewing, foam converting, printing and shoe industries. Operational to 288°C continuous, and 300°C intermittent.

Size	Order Code	List Price/1	Offer Price/1
400ml	AMB-701	£13.13	£11.82

Ambersil Silicone Mould Release Agents

Formula 1

Heavy-duty - easy and economical to use, enhances surface finishes on mouldings and increases output by reducing rejects. Operational up to 200°C. Heavy-duty - for difficult mouldings.

Size	Order Code	List Price/1	Offer Price/1
400ml	AMB-701	£10.29	£9.26

Pipe Freezer

PF-90 Pipe Freezer

Non-flammable non-toxic pipe freezing formula. Use in conjunction with a foam freezing jacket. Rapidly freezes water in pipes allowing maintenance work without draining down the system. Large 650g aerosol for economy in use. Can be used to super cool electronic components prior to repair work.

Product Number	Aerosol Size	Order Code	List Price/1	Offer Price/1
PF-90	650g	ACN-732	£11.43	£9.14

Silicone Release Spray

SP-90

Silicone dry lubricant. Non-staining. Ideal for use as a mould release or dry lubricant on any steel, plastic, glass, rubber, or wooden surfaces. Equivalent to Rocol SL spray and Ambersil silicone.

Product Number	Size	Order Code	List Price/1	Offer Price/1
SP-90	500ml	ACN-732	£9.42	£7.54

Lubricants & Chemical Products

Ambersil Fault Detection Freezer

A rapid cooling agent for instant fault-finding on electronic equipment. Reduces component temperature to -50°C. Non-flammable, low toxicity and odourless in use. Ideal fault finder for use on PCBs, transistors, resistors, condensers and intermittent dry joints. Cools thermally sensitive parts during soldering or calibration. Can be used as a 'shrink fit' on close tolerance metal assemblies.

Product Name	Aerosol Size	Order Code	List Price/1	Offer Price/1
Freezer	400ml	AMB-701	£12.52	£11.27

ACTION CAN Leak Detector Spray

LD-90
White fluid, designed to identify even the smallest gaseous leak. Bubbles in the applied film indicate location of the leak. Suitable for use with most common industrial gases.

NOW also available! **NEW**

LD-90 Gel
A brush on non-drip gel for detecting leaks on vertical pipework.

Description	Size	Order Code	List Price/1	Offer Price/1
LD-90 Spray	400ml	ACN-732	£8.27	£6.62
LD90 Gel	250ml	-6190K	£5.35	£4.28

Anti-Spatter Spray

AS-90
Prevents build up of weld spatter on work, nozzles, jigs and fixtures. Fast acting. Silicone and CFC-free.

NEW

Product Number	Aerosol Size	Order Code	List Price/1	Offer Price/1
AS-90	400ml	ACN-732	£8.14	£6.51

Ambersil Bioweld Weld Anti-Spatter

Water-based, with no harmful solvents, silicones or mineral oils. Odourless, non-flammable and safe in use. Fine spray ensures total control and economical coverage. Film is easily wiped away and leaves no residues. Allows post welding operations, painting, plating, galvanising etc to be undertaken without interference. Contains a rust inhibiting agent.

Size	Order Code	List Price/1	Offer Price/1
400ml	AMB-701	£3.20	£2.88

SOLENT MAINTENANCE

Leak Detector Spray

SL1-400A
A specially formulated, performance white fluid, designed to identify even the smallest gaseous leak. Applies a thin uniform film of surface active agents which identifies any leak or bleeding of joints, bubbles in the film indicate the location of the leak. Will not give a false reading if mechanical sensing equipment is used. Suitable for use with most common gases including compressed air, acetylene, butane, propane, chlorine, hydrogen and natural gas.

Product Number	Size	Order Code	List Price/1	Offer Price/1
SL1-400A	400ml	SOL-732	£10.75	£8.60

ROCOL Leak Detector Spray

Specially formulated for the rapid detection of positive pressure gas leaks. Tested to ensure plastic and copper pipe compatibility. Suitable for use with most positive pressure gas systems. For use on pipework carrying natural gas and LPG. Non-corrosive 360°C valve for use in difficult to reach areas. Meets the requirements of **EN14291:2004**.

Product Number	Aerosol Size	Order Code	List Price/1	Offer Price/1
32030	300ml	ROC-770	£11.24	£9.67

SITESAFE Leak Detector Spray

LDA500
For checking for the most minute leaks in any gas or air pressurised systems including commercial vehicle air brakes and pressure vessels. Contains no alcohols or solvents, is not caustic and contains a rust inhibitor. Spray directly onto the suspect area using the extension tube and examine for bubbling which will indicate leakage.

Size: 500ml aerosol.

Container Type	Size	Order Code	List Price/1	Offer Price/1
Aerosol	500ml	SSF-732	£5.45	£4.25

SOLENT MAINTENANCE

Welders' Anti-Spatter Spray

Solvent-based coating applied to metal before welding. During welding small blobs of molten metal fall either side of the weld. Blobs are called spatter, this coating is applied before welding to prevent spatter from sticking to the metal. CO₂ propelled aerosol. Non-flammable. Silicone-free and removable with solvents prior to galvanising or painting.

Product Number	Size	Order Code	List Price/1	Offer Price/1
SW1-400C	400ml	SOL-732	£5.66	£4.53

3-Part Flaw Inspection System

Fast reliable method for visually inspecting and spot-checking surfaces of welds, exotic alloys or standard metals, highly stressed structural members, critical castings, shafts, gears, spindles, and any other hard part where identification of surface flaws is essential. Detects flaws such as cracks, pin holes, welding laps and porosity either during manufacture or on-site.

BIG VALUE 500ml Cans!

Flaw Detector Cleaner Spray

SF1-500B
Quick drying, powerful solvent for cleaning surfaces prior to testing. Removes contaminants including oils, greases and grime.

Product Number	Size	Order Code	List Price/1	Offer Price/1
SF1-500B	500ml	SOL-732	£14.32	£11.46

Flaw Detector Dye Penetrant

SF2-500B
Highly sensitive red dye, for use when detecting flaws on metal components under normal lighting conditions.

Product Number	Size	Order Code	List Price/1	Offer Price/1
SF2-500B	500ml	SOL-732	£18.26	£14.61

Flaw Detector Developer

SF3-500B
White film to highlight any faults which have been detected when using Flaw Detector Penetrant. The product should be removed using Flaw Detector Cleaner Spray once cracks have been found and marked.

Product Number	Size	Order Code	List Price/1	Offer Price/1
SF3-500B	500ml	SOL-732	£16.01	£12.81

Maintenance Welders' Anti-Spatter Fluid

Reduces the risk of joint puddling and greatly reduces preparation time prior to final painting. Does not affect any subsequent galvanising or painting operations. Evaporates under normal weld temperatures. Dichloromethane and silicone-free. Non-flammable, non-toxic, non-corrosive and biodegradable.

Size	Order Code	List Price/1	Offer Price/1
5ltr	SOL-732	£6.44	£5.15
20ltr	-9310K	£22.79	£18.23

Lubricants & Chemical Products

Drive Belt Dressing Spray

SB1-500B

Reduces slip on drive belts and helps to stop belt squeal. Can be used on drive belts exposed to weather, ideal for farm machines, alternator drive belts and fan belts. Helps to stop cracking and extends belt life. Can be used on rubber, leather, canvas and most types of synthetic belts.

Product Number	Size	Order Code	List Price/1	Offer Price/1
SB1-500B	500ml	SOL-732-0060K	£10.13	£8.10

Chain & Drive Spray Lubricant

SM6-500B

Formulated to have a wide range of operating uses. Ideal lubricant for moving chains under extreme load and for chains not fitted with automatic lubrication nor running in oil baths. Formulated with a 'tacky additive' to resist 'throw off' on rapidly moving chains and drives. Ideal for fork trucks/conveyer systems/motorcycle chains. Can be used as a general-purpose lubricant for items subjected to extreme weather conditions. Can be used as a slideway lubricant for machine tools. Strong anti-rust qualities. Does not contain silicone or CFCs.

Product Number	Size	Order Code	List Price/1	Offer Price/1
SM6-500B	500ml	SOL-732-0500K	£12.61	£10.09

EP Open Gear Spray

SM8-500B - With Molybdenum

Solent EP Open Gear Spray lubricant is a premium extreme pressure lubricant packed in a 500ml aerosol. Based on molybdenum disulphide anti-wear additives. Suitable for lubricating all open gears where a thin film is specified. Suitable for temperatures as low as -40°C to +100°C.

Product Number	Size	Order Code	List Price/1	Offer Price/1
SM8-500B	500ml	SOL-732-0540K	£13.15	£10.52

Lubricants & Chemical Products

Anti-Seize 1000 Paste

Solid lubricant paste for bolted metal joints, contains no lead or nickel. Suitable for high temperatures up to 650°C and to corrosive impacts, and which, after assembling and the initial operation have to be re-tightened or disconnected. Used successfully for cylinder head bolts, nozzle head screws of plastic injection moulding machines, bolted joints in the chemical industry and also for the tension rings in centrifuges.

1kg	MLK-703-1020W	£27.63

Chain & Drive Spray

NEW

CD-90

Ideal for all types of driving chains, bearings, conveyor systems and fast moving load-bearing parts. Can also be used as a heavy-duty lubricant or slideway lubricant.

Container Type	Size	Order Code	List Price/1	Offer Price/1
Aerosol	500ml	ACN-732-02250K	£11.57	£9.26

Copper Spray Grease

CS90

Thick copper spray grease, perfect for anti-seize lubrication of screw threads, brake pins, studs and all types of fixings. Effective to 1100°C. Lead free. Waterproof. CFC-free.

Container Type	Size	Order Code	List Price/1	Offer Price/1
Aerosol	400ml	ACN-732-0300K	£6.20	£4.96
Tub	500ml	ACN-732-03010K	£7.00	£5.60

Wire Rope Lube Spray

WRS500

This spray lubricant has been formulated to lubricate and protect wire ropes from corrosion. It has good penetrative qualities to lubricate deep into the core of ropes, displacing water and increasing the life of the rope. 'Hi Tack' additives provide excellent adhesion to metal and reduced 'fling off' during use.

Container Type	Size	Order Code	List Price/1	Offer Price/1
Aerosol	500ml	SSF-732-03450K	£8.73	£6.81

Chain & Drive Spray

CCA500

This product is a special blend of quality oils, greases and solvents, designed to lubricate and protect all types of cables and slow moving chains. It penetrates quickly into the centre of cables providing excellent protection to the core. It will not sling off, drip or dry out even in adverse conditions. It will also penetrate chain rollers and links enabling smoother working and reduce friction, wear and the possibility of seizure.

Container Type	Size	Order Code	List Price/1	Offer Price/1
Aerosol	500ml	SSF-732-03500K	£6.01	£4.69

LOCTITE Copper Anti-Seize Stick

8065 C5A

All the benefits of C5A copper anti-seize but in a clean and easy to use stick form. Withstands temperatures up to 980°C.

Product Number	Size	Order Code	List Price/1	Offer Price/1
8065 C5A	20g	LOC-725-8065N	£6.78	£5.29

MAINTENANCE SPRAYS & LUBRICANTS

SOLENT MAINTENANCE *Copper Grease Spray*

SM7 500B - With Graphite
Components subjected to great heat and pressure during their operating life can easily be dismantled if Copper Grease Spray is applied during assembly. Grease melts at high temperatures and disappears, but copper stays put. e.g. to lubricate the threads on exhaust assemblies etc. Copper grease spray is particularly effective on commercial/passenger vehicle braking systems. Extra heavy-duty copper grease with graphite. High copper content - effective up to 1100°C. No lead content/no CFCs/no Silicone/no Chlorinated content. Fitted with directional spray button for precision application. Also ideal for boiler fittings that are subjected to high temperatures.

Product Number	Size	Order Code	List Price/1	Offer Price/1
SM7-500B	500ml	SOL-732	£6.60	£5.28

Dry Moly Spray

SD1-500B
Premium grade dry molybdenum particle lubricant. The molybdenum particles adhere to the smallest surface irregularities. The dry coating can be polished (if required) to a high shine finish that provides excellent dry lubricant/slip/slide capabilities. Fast drying at room temperature. Ideal for fastener lubrication where it will prevent galling. Effective on all grades of steel, copper, brass, stainless steel and foundry equipment where high temperatures are common. Also for open gear lubrication and any location where a wet coating is not acceptable or would burn off. Works at up to load rates of 100,000 psi. No silicone content.

Product Number	Size	Order Code	List Price/1	Offer Price/1
SD1-500B	500ml	SOL-732	£20.19	£16.15

Ambersil Silicone Grease Spray

AMS4
Multi-purpose silicone grease. XG250 silicone grease in easy to apply form.

Product Number	Size	Order Code	List Price/1	Offer Price/1
AMS4	400ml	AMB-701	£9.97	£8.97

Bostik *Never-Seez Regular Grade*

Lubricating Compound
Protects metal parts against seizure, rust and fretting under extreme temperatures, -180°C to +120°C, pressure and corrosive environments.

Standard
A copper formula which meets most industrial requirements.

Product Number	Size	Order Code	List Price/1	Offer Price/1
NS-160	1lb	BST-705	£24.37	£21.93

Never-Seez Pure Nickel Special

A special grade compound for extremely high temperatures and extreme pressure. Recommended for use where applications prohibit the pressure of copper especially where resistance to acidic and caustic solutions is required.

Product Number	Size	Order Code	List Price/1	Offer Price/1
NS-165	1lb	BST-705	£38.30	£34.47

Ambersil Copper Anti-Seize Paste PF

High temperature anti-seize lubricant. Based on micronised copper powder and synergistic anti-oxidant, anti-corrosion and anti-wear additives suspended in a premium grade stable oil. Effective anti-seize formulation, preventing metal-to-metal contact, seizing, galling and fretting corrosion.

Size	Order Code	List Price/1	Offer Price/1
400ml	AMB-701	£6.67	£6.00

LOCTITE *Heavy-Duty Anti-Seize Grease*

767
A heavy-duty, high temperature anti-seize thread compound applicable for heavy pressure applications in temperatures up to 870°C (1600°F).

Product Number	Size	Order Code	List Price/1	Offer Price/1
767	510g	LOC-725	£19.35	£15.09

MOLYSLIP *Copaslip Anti-Seize*

High and low temperature assembly compound protects against seizure, rust and corrosion in extreme conditions. Reduces wear and torque in areas of high friction. Prevents galling and pitting.

Container Type	Size	Order Code	Offer Price/1
Aerosol	400ml	MLY-703	£6.80
Tube	100gm	-3400B	£3.02

Lead Free Copaslip

High and low temperature assembly compound. Formulated to protect against seizure of metal parts, even under extreme conditions of pressure and temperature.

Lubricants & Chemical Products

GROUP 732 AUTOMOTIVE MAINTENANCE & REPAIR

Supertrol Rust Proofing Fluid **NEW**

Rapidly penetrates into welded seams and metal to metal joints. Displaces water and seals the surface to prevent corrosion. Used to protect all internal sections including door panels and sill section. Does not harden or crack. Spreads by capillary action forming an even unbroken coat. Flexible water repellent coat gives all weather protection. Protects any metal structure in weather exposure sites. Protects goods in storage or shipment.

Product Number	Size	Order Code	List Price/1	Offer Price/1
001	400ml	ACN-732	£5.50	£4.40

U-POL Copper Rich Weld Through Primer

Weld 2
High adhesion, super conductive primer. Offers the best rust protection for SPOT, MIG and TIG welding applications. High purity copper provides excellent conductivity and adhesion to metals. Fast drying formulation speeds up the welding process.

Product Number	Size	Order Code	Offer Price/1
Weld 2	450ml	CTL-750	£19.14

SIMONIZ Spray Putty

SIMB90B
Easy to apply, high-build filler/primer. Covers light scratches and pin holes prior to painting. Leaves a super smooth finish, covers all surface imperfections.

For Panel Beating Tools

See Group 503

Product Number	Size	Order Code	List Price/1	Offer Price/1
SIMB90B	500ml	-0910D	£5.52	£4.64

HAMMERITE Stone Chip Shield

Protects sills and lower body panels against stone chip damage. Tough and durable coating. Protects against stones, salt, damp and rust. Remains flexible, will not crack or peel. Overpaintable with most top coats. **Colour:** black. **Coverage:** 1.5m². **Drying time:** two hours.

For Engine Oil

See Group 740

Size	Order Code	List Price/1	Offer Price/1
600ml	HAM-721	£6.33	£5.19

High Build Primer Filler

High 5
A high build grey primer for the rapid repair of surface defects in painted panels. May be used for small spot repairs or complete coating of new panel. Ready for use single pack acrylic super high build primer filler. Capable of producing a similar film build to that of a 2K spray gun applied primer. Fast drying, easy sanding and economical. Ideal for spot and smart repair.

Product Number	Size	Order Code	Offer Price/1
High 5	450ml	CTL-750	£14.78

LOCTITE Plastic Padding Chemical Metal

(Two Part)
Fills, joins, seals and replaces most materials permanently, including metal, wood, stone and concrete. Easy to use, sets hard in 10 minutes, water and oil-resistant.

Product	Size	Order Code	List Price/1	Offer Price/1
Mini	85g	-5010A	£3.49	£3.14
Giant	920g	-5013D	£11.50	£10.35

U-POL ON/1 Onion Multi Layered Mixing Pallet

ON/1
A novel tool for mixing body filler and other pastes.

Benefits:
Clean solution for mixing pastes and materials. Reduces pin-holing. Throw-away sheets - specially formulated paper avoids soaking up resins and solvents.

Product Number	Quantity Sheets	Order Code	Offer Price/1
ON/1	100	CTL-750	£6.68

Etch Primer

Acid 8
Promotes paint adhesion to difficult substrates such as galvanised steel and aluminium. Available in fast, convenient aerosol and ready for use. One litre tin for larger applications. Ideal for small rubthroughs to bare metal in primer prior to application of colour or the complete coating of new panels. Fast drying formulation that does not require sanding. Grey acidic primer for the promotion of adhesion to metal surfaces.

Product Number	Size	Order Code	Offer Price/1
Acid 8	450ml	CTL-750	£17.64

STAG Kwikfill Resin Filler

General-purpose two-part polyester resin filler. Adheres to most clean, abraded metals and to dry porous surfaces. Easy to shape, suitable for applications such as car body repair, concrete pipe joint, mould repair and pattern making. Once cured can be sanded and overpainted.

Product	Weight each	Order Code	List Price/1	Offer Price/1
Kwikfill	454g	HRM-720	£8.94	£8.22

Lubricants & Chemical Products

ISOPON P38 Polyester Filler

(Two Part) Chemical paste for filling rust holes and dents in steel, glass fibre etc. Can be sanded after only 20 minutes and painted over with most paint systems.

STD Tapping & Drilling Non-Soluble Foam Lubricant

Foam aerosol penetrates and is able to cling to normally inaccessible areas and moving cutting edges. Can be used on yellow metals without the risk of staining.

Lubricant Type	Size	Order Code	List Price/1	Offer Price/1
Foam	400ml	-4210K	£8.04	£6.43

Pistol Grip Can Holder & Sprayer

For use with standard diameter 300 - 415ml aerosol containers. Protects hands from cold cans and chemical contact.

For Aerosol Size	Weight each	Order Code	List Price/1	Offer Price/1
300 - 415ml	55g	-9500K	£2.63	£2.10

TAPMATIC Cutting Fluid

#1 Gold:

Great for steel and aluminium. Excellent for low speed, high pressure applications. Minimises torque increases. Does not contain chlorinated paraffins, water, solvents or inactive fillers. Safe on all metals.

Dual Action Plus #2

Provides superior extreme pressure lubricity in machining aluminium and its alloys. Reduces friction and eliminates chip welding. Improves surface finish and extends tool life.

TriCut®:

Excellent for stainless steel and other hard to machine metals. Not recommended for aluminium. Provides smooth, accurate cutting action. Flows directly to cutting edge. Extends tool life. Improves surface finish. Allows increased removal rates. Reduces friction. Suitable for high and low speed applications. Non-corrosive to steel.

Product Number	Size	Order Code	List Price/1	Offer Price/1
#1 Gold	470ml	-1550A	£9.24	£7.76
#2 Gold	470ml	-1555C	£7.00	£5.88

Ambersil Tufcut Metal Cutting Lubricant

Instant ready-to-use metal cutting lubricant, for faster production and improved surface finish. A must use product where right first time results are essential. Dissipates heat and allows heavier close tolerance cuts. Excellent resistance to extreme pressure prevents chip welding and extends tool life. Excellent results across a wide range of metals including stainless steel, high tensile steel, high speed and high carbon steels. Ideal for turning, drilling, reaming, tapping and thread cutting. Can be used in automatic applicators.

KENNEDY Industrial Paint Markers
QUALITY INDUSTRIAL TOOLING

Designed for countless metal marking applications. Can be used for marking greasy, rusty, or new metal surfaces. Also suitable for marking glass, plastic, wood, ceramics etc. Ballpoint nozzle cap will only allow ink flow when applied and pressed to the workpiece - ink cannot be spilt from the cap unintentionally.

One head can be interchanged from differing inks and bottles. Can be refilled from one litre bulk refills of the specially formulated ink.

Please note, colours are for guidance only.

Lubricants & Chemical Products

GROUP 734 MARKERS - PAINT

Markal Paint Markers

Type B: All-purpose cold surface marker which has the widest spread of applications. Timber, brick, metal surfaces and rubber. Temp marking range -45°C to +65°C.

Type H: Yellow hot surface marker for applications like colour coding foundry risers and runners and non-ferrous metals whilst hot, coils, billets, bars, ingots etc. Temp marking range 65°C to 650°C.

Type K: White marks extremely hot rough surfaces, castings, forgings, ingots, billets without burning or running off. Temp marking range 760°C to 1200°C.

Type P: White for marking steel prior to galvanising process. Marks are completely removed in the pickling bath and will not interfere with galvanising process. Temp marking range -45°C to +65°C.

Type HT: Marks red hot metal surfaces e.g. steel blooms, bars, coils of strip etc. The mark is highly visible on surfaces that must be stored outside. Temp marking range 120°C to 870°C.

HYDRAULIC OILS/ENGINE OILS

SOLENT LUBRICANTS High Performance Hydraulic Oil

So-Hydra 'Plus' VG
Excellent demulsifying properties (water and water containing fluids are rapidly separated). Very good corrosion protection to steel. Good corrosion protection to copper. High ageing stability/high oxidation stability. Good anti-wear protection. Very good hydrolytic stability. Excellent filtration behaviour. Low foaming. Excellent air release.

Grade	Size	Order Code SOL-740	List Price/1	Offer Price/1
VG32	20ltr	-4032B	£46.67	£41.07
	205ltr	-4032G	£444.00	£390.72

SOLENT LUBRICANTS Very High Viscosity Index Hydraulic Oil

So-Hydra 'Plus' VHVI
Low foaming tendency. Good air release properties. High ageing stability/high oxidation stability. Good corrosion protection. Very good viscosity/temperature behaviour. Very good wear protection. High viscosity index. Wide service temperature range. Good shear stability.

Grade	Size	Order Code SOL-740	List Price/1	Offer Price/1
VG68	20ltr	-4168B	£51.10	£44.97

SOLENT LUBRICANTS Supergrade FS2™ Engine Oil

Semi-Synthetic 10W/40
Refined mineral oil with special multifunctional synthetic additives: For all petrol, diesel and LPG cars, vans and lorries. For multi valve, fuel injected and turbo charged performance vehicles. Can be mixed with other oils. Assists easy engine starting in cold weather. Assists in reducing fuel consumption. Gives far greater protection against engine wear than non-synthetic oil. Excellent lubricity in all conditions. Excellent sludge control in 'stop-start' urban motoring conditions. Affords high protection at motorway speeds. Increased oil change intervals - change your oil less often. Meets the performance level requirements for: **API/SL/CH-4; Mercedes Benz 227.5; 229.1; 228.0/1; VW 501:01; 505.00, MAN 270/271.**

GROUP 740 METAL WORKING LUBRICANTS

Soluble Cutting Oil - Multipurpose

So-Cool 'Plus' GP

Environmentally improved - does NOT contain phenols, boron, triazene, PTBBA or chlorinated additives. Based on highly refined mineral oils. High degree of machine tool lubrication. Ideal for a wide range of machining operations. Low odour. Low unit cost. Specially formulated for use in both hard and soft waters.

Recommended concentrations:

General machining 7% (dilution of 14 to 1). Grinding (surface, cylindrical centreless) 2 - 3% (dilution of 50 to 1 or 33 to 1). Supplied in 20 litre stacking poly container or a 205 litre barrel.

NEW

Grade	Size	Order Code	List Price/1	Offer Price/1
SC-GP	20ltr	-4508B	£61.56	£54.17
	205ltr	-4508G	£599.00	£527.12

Soluble Cutting Oil - Stainless

So-Cool 'Plus' Stainless Steel

Environmentally improved - does NOT contain phenols, boron, triazene, PTBBA or chlorinated additives. Based on highly refined mineral oils. High degree of machine tool lubrication. Ideal for a wide range of machining operations. Low odour. Low unit cost. Stable emulsions in very soft and very hard water.

Recommended concentrations:

General machining 7% (dilution of 14 to 1). Heavy machining 10% (dilution of 10 to 1). Supplied in 20 litre stacking poly container or a 205 litre barrel.

NEW

Lubricants & Chemical Products

Soluble Cutting Oil - Aluminium

So-Cool 'Plus' Aluminium

Semi-synthetic, environmentally improved — does not contain sodium nitrite, phenols, triazene, PTBBA or chlorinated additives. Enhanced sump life and excellent anti-foam characteristics. Optimum tool life on the most arduous jobs. Excellent corrosion protection and lubrication to cutting areas, machine fixtures, slides etc. Low emulsion odour. Low drag out losses. Easily removed in splash areas. Resists the formation of aluminium soaps - Improves filtration and machine cleanliness.

Recommended concentrations:

General machining 7% or (a dilution of 14 to 1). Heavy-duty machining 10% or (a dilution of 10 to 1).

Supplied in 20 litre stacking poly container or a 205 litre barrel.

Grade	Size	Order Code SOL-740	List Price/1	Offer Price/1
SC-ALU	20ltr	-4533B	£102.00	£89.76
	205ltr	-4533G	£1013.00	£891.44

Soluble Cutting Oil - Cast Iron

So-Cool 'Plus' Iron

Semi-synthetic formulation. Excellent anti-foam characteristics. Environmentally improved - does NOT contain sodium nitrite, phenols or chlorinated additives. Excellent sump life and corrosion protection. Superb tramp oil rejection characteristics. Enhanced tool tip life. Low drag-out loss - highly cost effective in use. Based on highly refined mineral oil. Increased detergency.

Recommended concentrations:

General machining 5% or (a dilution of 20 to 1). Arduous operations/difficult materials 7% or (a dilution of 14 to 1). Grinding 3% or (a dilution of 33 to 1).

Supplied in 20 litre stacking poly container or a 205 litre barrel.

Soluble Cutting Oil - Aerospace

So-Cool 'Plus' Aerospace

Sophisticated lubricant chemistry. Excellent rust/staining protection. Low residue and good mix stability. Controls foam in high pressure fluid delivery applications. Outstanding bio-resistance. Excellent surface finishes and extended tool life. Preserves parts and equipment. Clean running operation. Specially formulated for use in both hard and soft waters. Extended service life/lower treatment costs.

Recommended concentrations:

General Machining 5% or (a dilution of 20 to 1). Heavy-duty machining 10% or (a dilution of 10 to 1).

Supplied in 20 litre stacking poly container or a 205 litre barrel.

Castrol Syntilo Synthetic Oils

Syntilo 22

A fully synthetic soluble cutting fluid, intended for grinding ferrous metals. Has excellent health and safety characteristics, containing no mineral oil, phenols or sodium nitrite. Combines outstanding grinding characteristics with good operator acceptability and wide application in general machining. In general grinding operations, it permits a high surface finish to be achieved while ensuring long wheel life. It has good anti-corrosion properties in soft and hard waters and is compatible with all metals.

Syntilo 81BF

A nitrite and phenol-free synthetic grinding and general-purpose metalworking fluid, which has been specially formulated for use with hard water. This hard water stability prevents the de-stabilising effects of the build-up of salts. Offers excellent resistance to all types of corrosion including electrolytic corrosion caused by iron/copper or iron/aluminium combinations. A long life coolant formulated to control the growth of bacteria and fungi. It is equally suited to both central and individual systems, providing rapid swarf settling properties, and complete acceptability and safety in use. Particularly suited to those areas with hard water (typically over 200ppm calcium hardness) and can be used for a wide range of operations including grinding, milling, drilling and turning.

Castrol Machining & Grinding Fluids

Carecut ES-1

A biodegradable, low misting, chlorine-free cutting fluid and has been formulated using specially selected advanced biodegradable esters. Primarily designed for heavy-duty machining applications where the highest quality surface finish is required and has also been successfully used to improve productivity by increasing machine feeds. On selected applications, productivity increases have been improved by over 70% compared with traditional products without any loss of tool-life.

Carecut ES-2

Advanced biodegradable ester-based technology it can be used for all types of grinding, especially effective with CBN grinding. It is suitable for severe grinding, form grinding and gear grinding of all ferrous and non-ferrous metal. Particular suitable for general deep hole drilling, boring and trepanning where pressurised coolant systems are used to clear swarf quickly. Very high lubricity, chlorine-free, pale colour and low odour, low misting.

Hysol Cutting Oils

T15

Formulated to ensure exceptional steel cutting characteristics. Can be used on a variety of other metals including stainless steel. The product has a natural tendency to reject tramp oil which overcomes problems associated with its ingress into soluble cutting fluids.

Excel

Long life, semi-synthetic soluble cutting fluid. Multi-purpose machining applications: milling, drilling, tapping, grinding, etc. Multi-metal machining applications: ferrous and non-ferrous metals, aluminium, stainless steel, etc. Excellent tool life. Biostable properties which provide resistance to bacterial and fungal growth. Stable in hard and soft water. Chlorine free.

Hysol G100 Metalworking Fluid

A low oil semi-synthetic specialist grinding fluid for the majority of grinding applications, especially formulated from the latest technology high performance additives, for grinding and light-duty machining applications on most materials. It has been specifically designed to combine the benefits of synthetic grinding fluids without the associated drawbacks. Suitable for use on all ferrous and non-ferrous materials. Long life coolant with inherently low foam characteristic which makes it ideal for use in large centralised coolant systems and single sump machines.

Features:

- Optimised lubricity additives.
- Advanced surfactant package.
- Low foam.
- Advanced bio-stability package.
- Enhanced component quality and reduced wheel dressings.
- Keeps grinding wheels clean and open, thereby maintaining dimensional accuracy.
- Eliminates the use of expensive anti-foams and reduces maintenance.
- Long sump life and reduced machine downtime.

Shell Lubricants Slideway Oil

Tonna S68
Tonna S68 is a high performance machine tool slideway lubricant that provides excellent lubrication and full compatibility with virtually all water-extensible metalworking fluids. Tonna S has hydraulic and anti-wear gear lubricant properties, making grade rationalisation possible.

Product	Size	Order Code SHL-740	List Price/1	Offer Price/1
Tonna S68	20ltr	-8380H	£68.95	£63.43
Tonna S68	209ltr	-8381J	£890.75	£819.49

Castrol Rustilo Rust Preventatives

Solvent deposited rust preventive with excellent dewatering properties, leaves a soft greasy protective film. Rapidly removes water from components subsequent to metal treatment processes such as electroplating processes after machining, using soluble cutting fluids or parts that have been washed. Can be removed by using a petroleum solvent or alkaline process cleaner. Forms even film, Fingerprint suppressant. High stability against acidic and alkaline contaminations.

Rustilo DWX 30
Very thin film provides protection during intermediate storage or transportation. Can also be used as a lubricant for mild press working. Protection rating: indoors - 9mth; outdoors - 3mth.

Rustilo DWX 31
For use on cylinder liners, spiral springs, hand tools and bars etc. Stable film characteristics reduce run-off losses. Protection rating: indoors - 12mth; outdoors - 6mth.

Rustilo DWX 32
For medium to long term protective for use in severe conditions where a high degree of protection is required. It is ideal for protection of machine tools and components prior to storage or transportation.

Rustilo DWX 33
For medium to long term protection. For the treatment prior to storage of machine tools for factory stores or shops, for camshafts, crankshafts, gears, lathe beds, etc. Protection rating: indoors - 18mth; outdoors - 12mth.

Protection times assume primary protection from a tarpaulin or other cover.

SOLENT LUBRICANTS Corrosion Protection Wax

Grade SP-CPW
Excellent hollow corrosion protection for use in the automotive, agricultural and construction industries. Ideal for use on unfinished parts, press tools and moulds. Easily applied by spraying, rolling or brushing.

Thixotropic product, doesn't run off. Thermally stable film that can be easily removed using solvents. 36 months protection indoors and 24 months protection out of doors. 20ltr stacking poly container.

Grade	Size	Order Code SOL-740	List Price/1	Offer Price/1
SP-CPW	20ltr	-4250B	£109.00	£95.92

Solvent Dewatering Short Term Protective Oil

Grade SP-DWO
Used for inter-process protection of bright metal components which have been subject to water washing or have been in contact with water soluble machining fluids. No need to remove prior to further machining, assembly or the application of a longer lasting protective. Useful for applying to electrical contacts, plugs, points etc. to expel moisture. Solvent deposited. Excellent dewatering characteristics. Lubricates and penetrates. 20ltr stacking poly container.

Grade	Size	Order Code SOL-740	List Price/1	Offer Price/1
SP-DWO	20ltr	-4260B	£71.06	£62.53

Universal Dewatering Fluid

Grade SP-DWF
Used for the drying of metal parts and tools. Resistance to acid and alkaline migration makes this suitable following galvanic coating and washing processing e.g. gear boxes, motors and their components. Ideally used in immersion baths at room temperature but is also suited to spraying. Excellent dewatering. No film. Barium-free. 20ltr stacking poly container.

Grade	Size	Order Code SOL-740	List Price/1	Offer Price/1
SP-DWF	20ltr	-4270B	£85.69	£75.41

Solent 'Plus' Slideway And General-Purpose Lubricant Oil

Grade VG68
Excellent lubricating properties under high pressure working conditions. Anti-wear additives to maximise machine tool life. Lubricates and flows freely even at very low temperatures. Eliminates slip stick and judder. Eliminates pick up and scoring. Supplied in 20ltr stacking poly container or 205ltr barrels.

Lubricants & Chemical Products

GROUP 740 PROCESS & SYSTEM CLEANERS

SOLENT LUBRICANTS Heavy-Duty System Cleaner

Grade SC-SYSTEM

For use in cleaning water-based operating fluids and coolants from central systems or individual machines. Free of secondary alkanolamines, heavy metal compounds, phenols, hexahydrotriazine and nitrite. Excellent cleaning action. Storage temperature of 5 to +40°C. NOTE: So-Clean System at 1- 2% is added to the used operating fluid about eight to twelve hours before draining. The complete cleaning effect is only achieved if the operating fluid circulates through all working parts of the system. Neither pH value nor foaming of the operating fluid change significantly when So-Clean System is added. Soil in machines, tubes and reservoirs of the system are loosened and re-emulsified. For heavily soiled systems, increasing the dwell time to 24 hours is recommended. Thick sediment deposits are best removed mechanically and rinsed off with clean water. Supplied in 20ltr stacking poly container.

Grade	Size	Order Code	List Price/1	Offer Price/1
SC-SYSTEM	20ltr	SOL-740	£107.00	£94.16

Multi-Metal Process Cleaner and Degreasers

Gives excellent separation properties and low foam tendency (even with low temperature and high pressures). Surfaces cleaned with this product have minimal organic and inorganic residues. Has passivation properties, affording good protection against corrosion (depending on water quality) even during the tempering process. Can be used in high pressure systems up to 400bar. Gives extraordinarily long life. Available in grades SC-FE and SC-MULTI. Supplied in 20ltr stacking poly containers.

Grade	Size	Order Code	List Price/1	Offer Price/1
SC-FE	20ltr	-4200D	£96.56	£84.97
SC-Multi	20ltr	-4210D	£77.75	£68.42

Sump Emptier

With stainless steel Venturi pump. Screws into 205 litre oil drums. Uses compressed air to create a powerful vacuum. Empties liquid and suspended solids from tanks and can fill a drum in as little as 90 seconds, making it ready for appropriate disposal. Shuts off automatically when done.

Product Number	Order Code	List Price/1	Offer Price/1
PM175K	-8940G	£375.00	£330.00

Water Mixer

Water and chemical mixing equipment system that is approved for use by the water regulation authority (WRA) to prevent the possibility of back flow. This is to safeguard against the possibility of chemicals finding their way into the mains water supply. Mixes water and chemicals to metered concentrations with approved air gap back flow prevention incorporated into the unit. Offers an economical way of blending chemicals directly from the mains water system without the requirement for any additional pipe-work, non-return valves or back flow prevention systems.

Product Number	Order Code	List Price/1	Offer Price/1
SM9100	-9100K	£161.00	£141.68

Tramp Oil Belt Skimmers

Designed to effectively and simply remove tramp oil floating on the surface of cutting fluid. Prevents the 'Monday morning smell', extends coolant life and reduces the risk of dermatitis. Compact units fit to the side or above the tank. 240V. Supplied with plug. Product FT400 can be run continuously. **Overall length:** 440mm (from top of bracket to bottom of belt). **Maximum insertion depth:** 150mm. **Case dimension (L x W x D):** 80 x 80 x 502mm. **Belt width:** FT300 = 30mm; FT400 = 40mm.

Product Number	Removal Rate	Order Code	List Price/1	Offer Price/1

FT400	4ltrs per hr	-8880D	£324.00	£285.12

Castrol Flexiclean Cleaner

Aqueous alkaline cleaner which can be used over a wide range of temperatures and operations. Nitrite and phosphate-free, as well as being suitable for virtually all ferrous and non-ferrous metals including aluminium.

Can be used as:

- A machine tool cleaner.
- A general-purpose maintenance cleaner on floors, walls and other hard surfaces.
- A deburring, smoothing and deflashing medium in conjunction with abrasive stones.
- A dip tank cleaner for removal of light contamination.
- Eliminates the need to stock a wide variety of cleaners.
- Does not affect painted surfaces and industrial surfaces including cement and plastics.
- Can be used at concentrations as low as 1%.
- Multi-metal use.
- Can be used with all types of industrial spray washing machines.

Lubricants & Chemical Products

perma Industries Around The World Rely On Perma® Lubrication Systems

Perma® manufactures and sells single and multi-point lubrication systems for all types of applications. Today, Perma lubrication systems are used in every industry worldwide. In order to provide the best solution for each individual application, we involve our customers in the development process from start to finish. Customers from mining, steel, power plants, machine building, automotive industry, food industry, plastic and chemical industry trust automatic lubrication systems from Perma.

Applicator Selection

Product	Lubricants	Discharge periods	Max lube-points	Max pressure (bar)	Operating temp	Drive/Power Supply	Certifications
CLASSIC	Oil and grease (1)	1, 3, 6, 12 months (2)	1	4	0°C to +40°C	Electro-chemical	CE EX
FROST	Oil and grease (1)	1 to 26 weeks (2)	1	4	-25°C to +10°C	Electro-chemical	CE EX
FUTURA	Oil and grease (1)	1, 3, 6, 12 months (2)	1	4	0°C to +40°C	Electro-chemical	CE EX
NOVA	Oil and grease (1)	1, 2, 3, ..,K, 12 months (3)	1	6	-20°C to +60°C	Gas cell battery	CE EX

Notes: (1) Up to NLGI 2; (2) Depending on ambient temperature and on back pressure; (3) Depending on back pressure

To select the perfect automated lubrication system, check the right applicator type from the table on the right. Then select the ideal lubricant grade from the table below. Popular variations are listed below the table, but if the lubricant you need is not shown please contact us for further details.

Perma® CLASSIC Lubricators - 120cc

A single-point lubrication system for roller and sliding bearings, sliding guides, open gears, gear racks, spindles, shaft seals, chains, etc. operated at ambient temperatures that reach from 0°C up to +40°C. Typical applications can be found in mining, steel, automotive and mechanical engineering.

Perma® FUTURA Lubricators - 100cc

Suitable for single-point lubrication of roller and sliding bearings, sliding guides, open gears, gear racks, spindles, shaft seals and chains. This lubrication system is ideal for areas that must be kept hygienically clean. Due to its resistance to corrosion it is especially suited for applications in the food industry.

LM Grease

Castrol LM is a smooth lithium-based grease. It contains hydroxystearate soaps which combine properties of good low temperature pumpability, good resistance to mechanical shear, ability to operate at moderately high temperatures and excellent water and corrosion resistance.

Application:

Castrol LM is well proven as a chassis grease. It is also a good wheel bearing grease for use over a wide range of temperatures. It is suitable for most other automotive grease applications within its specified operating temperature range.

MOLYKOTE Valve Lubricant & Sealant

Molykote 111

Provides lubrication for control and pressure plug valves, water softener and tap valves. An ideal sealant for vacuum and pressure systems and also for outdoor equipment subject to washing and harsh environmental exposure i.e. meters, electrical service entrances and underground connections. Chemical barrier coating gives good resistance to most chemicals.

Features: wide temperature range -40°C to 200°C. Low vapour pressure. Low volatility. Excellent water resistance.

ROCOL Fomblin Grease

RT15

Perfluoropolyether-based grease used for its chemical resistance, oxygen compatibility and high temperature suitability. It will generally greatly reduce the need for frequent relubrication. Used most successfully in anti-friction bearings and gearboxes, but may also be used to lubricate any sliding surface such as valves, pins, screws and bushes.

Temperature range: -20°C to +200°C.

LPS ThermaPlex™ Multi-Purpose

M70614 Bearing Grease

Developed to outperform conventional bearing greases and extend relubrication periods. Multi-purpose is ideal for lubricating all types of bearings and will prolong bearing life, reduce maintenance costs and grease consumption. Excellent load carrying properties. **NLGI Grade: 2.**

Product Number	Size	Order Code	List Price/1	Offer Price/1
M70614	400g	LPS-727	£5.08	£4.27

ThermaPlex™ Hi-Load

M70414 Bearing Grease

Extreme load lubrication. Hi-Load provides long lasting lubrication for heavily loaded bearings. Moly-fortified formulation prevents wear and damage caused by shock loading and constant vibrations. Excellent anti-wear properties and good corrosion resistance. Contains 3% moly. **NLGI Grade: 2.**

Product Number	Size	Order Code	List Price/1	Offer Price/1
M70414	400g	LPS-727	£8.06	£6.77

ThermaPlex™ Aqua

M70514 Bearing Grease

Resists water washout with excellent resistance to fresh and salt water. Good adhesion properties. Excellent corrosion resistance. Significant load carrying capability. Reduces grease consumption. Greater degree of bearing protection.

Product Number	Size	Order Code	List Price/1	Offer Price/1
M70514	400g	LPS-727	£7.46	£6.27

ThermaPlex™ Hi-Temp

M70214 Bearing Grease

Designed to reduce the risk of bearing failure at high temperatures. Hi-Temp extends relubrication intervals and has excellent high temperature performance. It has a very high dropping point 536°F (280°C) and excellent vibration resistance. It reduces grease consumption, maintenance costs and the need for multiple greases. **NLGI Grade: 2.**

SOLENT LUBRICANTS Lithium Grease

So-Grease EP2

High load lead-free lithium grease. Contains extreme pressure additives to allow use in heavy load conditions. Contains anti-rust additives to protect against corrosion. Anti-oxidants included to prolong product life. High ageing stability/high oxidation stability. Supplied in 400g, 5kg, 12.5kg or 50kg containers.

Pack Type	Size	Order Code	List Price/1	Offer Price/1

GROUP 740 FOOD SAFE GREASES & SPRAYS

Synthetic Grease

The latest generation food-safe grease. Constructed using pure non-toxic synthetic base oils, combined with PTFE and a complex mix of antioxidant and EP packages, making it a versatile tool for use in many applications for many industries. Completely resistant to salt water and high humidity environments. Dielectric and can be used to protect electrical equipment from ingress of water. Lubricates bearings, chains and sliding surfaces including plastic bearings and runners. Has a wide temperature operating range -40°C to 340°C. Grease clean food safe lubricant. Non-melting.

Size	Order Code	List Price/1	Offer Price/1
100ml	SOL-740 -6200A	£3.71	£3.26
400ml	-6210B	£9.50	£8.36

MOLYSLIP EP Grease For Food Machinery

Suitable for commercial and industrial applications. Approved for use where incidental contact with foodstuffs may occur. Specially compounded from U.S. **FDA** listed, acceptable ingredients and **NSF H1 registered**. It meets **USDA, 1998 H1** guidelines for the lubrication and protection of machinery used for the processing and packaging of foodstuffs. Non-melt, non-toxic, waterproof, high performance EP grease. The special properties of FMG make it suitable for a wide range of applications including anti-friction bearings, slides, gears and guides etc.

Product Number	Size	Order Code	Offer Price/1
FMG	400g	-3780N	£6.60

Ambersil Amberclens FG - Foam Cleaner

A heavy-duty, biodegradable, water-based all-purpose foam cleaner/degreaser. Specially formulated for use on food processing and packaging equipment. The non-dripping foam ensures longer contact time and improved performance, especially on vertical surfaces. **NSF A1 registered** meets **USDA 1998**. Readily biodegradable as per OECD 301B. Quickly penetrates, removes grease, oil, grime and tough stains from any washable surface. Stable, non-dripping foam formula limits over-application. Safe on all metals and on plastics if rinsed after application.

Size	Order Code	List Price/1	Offer Price/1
500ml	AMB-701 -0066F	£5.05	£4.54

Food Safe White Grease

Intended use for lubrication of bearings, slides and all delicate mechanisms used in the food manufacturing/processing industry. Maximum operating temperature 150°C with excellent load carrying capacity and water resistance. FDA Compliant. **INS H1 registered**. Non-toxic.

Size	Order Code	List Price/1	Offer Price/1
400ml	SOL-740 -5900A	£4.96	£4.36

Food Safe Silicone Grease

A versatile silicone grease for operation in extremes of high and low temperature. Can also be used on food product applications or where water repellent properties are of prime importance as it offers excellent physical performance and is **INS H1 registered**. Non-melting, water repellent, odourless, resistant to oxidation. Thermally stable ozone resistant. Minimal effects on rubbers, plastics and metals. Unaltered by UV light.

For Grease Guns
See Group 540

ROCOL Foodlube Universal 2

A white non-toxic bearing grease designed for lubrication and protection of all types of ball, roller and plain bearings operating in the food and other clean industries. Suitable for operating at low or high temperatures, high loads and those which require high water resistance.

Size	Order Code	List Price/1	Offer Price/1
380g	ROC-770 -6287C	£20.67	£17.78

Ambersil Amberklene FG

Heavy-duty, biodegradable industrial cleaner/degreaser. Specially designed for use on food processing and packaging equipment. Authorised for use in inedible product processing, non-processing and exterior areas. The controlled evaporation rate ensures maximum contact time with contamination. **NSF C1** registered. Meets **USDA 1998 C1** guidelines for use in food industry. High flash point of 40°C. Neutral product, non-staining. Does not contain water. Non-corrosive to metals. May be harmful to some plastics and will soften some paints. Fitted with a 360° spray system for all angle use, even upside down.

Size	Order Code	List Price/1	Offer Price/1
500ml	AMB-701 -0056A	£7.48	£6.73

Stainless Steel Cleaner FG

Water-based, foaming cleaner for degreasing and cleaning of stainless steel surfaces. **Registered NSF C1 (No.138212)** for use in the food industry. Eliminates fingerprints, watermarks, dust and dirt from stainless steel. Provides metal surfaces with a long term protective coating which inhibits staining and contamination. Fitted with a 360° spray system for all angle use, even upside down. Suitable for cleaning and protection of metal surfaces against staining and contamination.

Size	Order Code	List Price/1	Offer Price/1
500ml	AMB-701 -3860A	£6.93	£6.24

Silicone Anti-Stick

A high purity, highly concentrated silicone lubricant based upon silicones approved by the **FDA** and considered safe for applications where incidental food contact may occur. Lubricant is odourless, tasteless, colourless and chemically inert. Ideal for use where high standards of purity are essential. Suitable as an anti-stick agent on conveyors, labellers, heat sealers and packaging applications. Helps prevent line jams, inhibits adhesive build-up on blades and sealers.

Size	Order Code	List Price/1	Offer Price/1
400ml	AMB-701 -1156P	£11.16	£10.04

Food Grade Multi-Purpose Lubricant

AC90-FG H1

Food grade multi-purpose maintenance liquid lubricant is industrial strength, holds **H1** approval from **NSF** and **INS** and therefore can be used safely in all food processing locations. Does not contain silicone or CFCs. Tasteless and odourless.

Size	Order Code	List Price/1	Offer Price/1
425ml	ACN-732 -0260K	£6.51	£5.08

Food Grade Chain & Drive Lubricant

CD90-FG H1

Holds **H1** approval from **NSF** and **INS**. Clear viscous oil with a flashpoint 240°C. Viscosity 20°C at 238 mm²/s. Density at 15°C .865kgm³. Boiling point 370°C. No taste or smell.

Size	Order Code	List Price/1	Offer Price/1
500ml	ACN-732 -2260K	£11.19	£8.95

Food Grade Silicone Release Agent

SP90-FG H1

Superior silicone dry lubricant formulated to provide extra performance and maximum silicone release. Temperature range -65°C to +315°C. Holds **H1** approval from **NSF** and **INS**. Odourless, tasteless, chemically inert.

Size	Order Code	List Price/1	Offer Price/1
500ml	ACN-732 -9010K	£9.28	£7.42

Food Grade PTFE Release Agent

PTFE-FG H1

Temperature range -40°C to +260°C. PTFE is a fine grade powder carried in fast evaporating solvent. Clean non-toxic, no odour, also suitable as anti-galling agent on fasteners and fixings. Can be used as a general lubricant in all food preparation areas. Holds **H1** approval from **INS**.

Size	Order Code	List Price/1	Offer Price/1
500ml	ACN-732 -8020K	£9.87	£7.90

Food Grade Clear Grease + PTFE

CG90-FG H1

High temperature clear grease with PTFE has a wide temperature operating range rated to -45°C to +350°C. Holds **H1** approval from **NSF** and **INS**. Non-toxic, no odour, multi-viscosity, water and steam resistant and with added corrosion inhibitor.

Size	Order Code	List Price/1	Offer Price/1
500ml	ACN-732 -2290K	£6.24	£4.99

Ambersil Machine Oil FG - General-Purpose

A general-purpose lubricant and penetrating oil, for use on food processing equipment where incidental food contact may occur. Based on pharmaceutical grade highly refined white oils. **NSF H1 registered**. Meets **USDA 1998 H1**, to be used as a lubricant with incidental food contact. Creates an effective water-repellent film. Prevents corrosion. Reduces friction and wear. Contains no silicone. Colourless film. Safe for use on metals, most plastics, painted surfaces and wood. 360° spray for all angle use, even upside down.

Size: 400ml aerosol.

Size	Order Code	List Price/1	Offer Price/1
400ml	AMB-701 -0840L	£8.20	£7.38

ROCOL Foodlube Spray

High performance versatile lubricant spray for all round light to medium lubrication of most moving parts including small bearings and slides. Temperature range -10°C to +100°C. **NSF H1 registered**.

Size	Order Code	List Price/1	Offer Price/1
300ml	ROC-770 -6715W	£15.12	£13.00

Chain Lubricant FG - With PTFE

A foaming chain lubricant with added PTFE. Specifically designed to provide convenient, effective lubrication and protection in applications where incidental food contact may occur or in applications where a clean lubricant is preferred. The gentle foaming action assures an excellent penetration and prevents against dripping. **NSF H1 registered**. Meets **USDA 1998 H1** guidelines for use as a lubricant with incidental food contact. Operating temperature from -15°C to +175°C. Contains PTFE, which helps reduce friction and wear. Virtually odourless and colourless. Controlled application with gentle foaming action.

Size	Order Code	List Price/1	Offer Price/1
400ml	AMB-701 -0540N	£11.26	£10.13

Food Safe Penetrating Oil

For dismantling, lubricating and cleaning. This odourless oil is tasteless and displaces water leaving a hydrophobic coating to protect surfaces from corrosion. It penetrates threads and crevices to release and lubricate delicate mechanisms, pivot points and sliding surfaces whilst degreasing hard surfaces. Can be used as a light lubricant.

FDA Compliant. INS H1 registered. Food safe. Synthetic translucent. Tasteless water white fluid. Non-toxic. Anti-corrosive.

Size	Order Code	List Price/1	Offer Price/1
500ml	SOL-740 -5930D	£6.56	£5.77

Food Safe Lubricating Oil

This lubricant is completely clear, odourless and food safe, it contains no mineral hydrocarbons and meets with **FDA** and is **INS H1 registered**. It is a hydrophobic oil and therefore does not take in water, providing a barrier between water condensation and metal surfaces. This versatile lubricant can be used on sliding and rolling element bearing surfaces, metal, wood and plastics. Non-flammable. Non-toxic. Anti-corrosive. Safe for use at temperatures from -60° to +260°C.

Size	Order Code	List Price/1	Offer Price/1
500ml	SOL-740 -5960G	£7.21	£6.34
5ltr	SOL-740 -5970H	£41.26	£36.31

Food Safe High Tech Grease

Food safe synthetic PTFE grease is a fully synthetic translucent non-melting grease that allows fluid to penetrate into machine parts before setting to a No. 2 rated grease. Protects and lubricates with a non-toxic anti-corrosive shield for use on sliding and rolling element bearing surfaces, metal, wood and plastics. Non-toxic lubricant ingredients listed by the **FDA** and is **INS H1 registered**. Totally salt or fresh water-resistant to be used inside and out on machinery in temperatures ranging from -40°C to +340°C.

Size	Order Code	List Price/1	Offer Price/1
500ml	SOL-740 -6220C	£7.16	£6.30

Lubricants & Chemical Products

GROUP 741 SECONDARY CONTAINMENT STORAGE

SOLENT SPILL CONTROL 2-Drum Spill Pallet

100% polyethylene construction is resistant to corrosion and the knocks and scrapes of the industrial environment. Fully compliant with all current regulations.

Product Number	Dimensions (cm)	Sump (ltrs)	Order Code SOL-741	Offer Price/1
SDP-2	122 x 82 x 33	240	-5110A	£201.00

4-Drum In-Line Spill Pallet

Use this spill pallet where space is at a premium. The unique design allows for the drums to be stored length wise along a wall while still complying with the regulations. Tough 100% polyethylene construction.

Product Number	Dimensions (cm)	Sump (ltrs)	Order Code SOL-741	Offer Price/1
SDP-4L	249 x 64 x 30	250	-5120L	£414.00

Drum Racker & Stacker

For safe storage and dispensing applications put one or more of these units in place. The base unit can be used on its own for two drums, or up to two levels of stackers can be used for a maximum storage of six drums. Corrosion resistant 100% polyethylene construction.

Product Number	Dimensions (cm)	Sump (ltrs)	Order Code SOL-741	Offer Price/1
SDS-B2	139 x 125 x 49	400	-5420B	£521.00
SDS-R2	124 x 79.5 x 37	-	-5420R	£201.00

2-Drum Workfloor

Workfloors are a viable alternative to spill pallets where a lower working height is required for easier access. A bunded storage and dispensing area can easily be created by making use of a selection of the three different sizes. All polyethylene construction. All three models of workflow, SW-2, SW-4 (right) and SW-4IL (next page) have the same 15cm height for easier loading and unloading.

Product Number	Dimensions (cm)	Sump (ltrs)	Order Code SOL-741	Offer Price/1
SW-2	126 x 86 x 15	150	-6410A	£201.00

4-Drum Spill Pallet

Compact 4-drum pallet with a low loading height of only 28cm. The sump capacity of 230 litres is large enough to comply with the regulations. 100% polyethylene construction.

Product Number	Dimensions (cm)	Sump (ltrs)	Order Code SOL-741	Offer Price/1
SDP-4	128 x 128 x 28	230	-5120A	£239.00

4-Drum Spill Pallet with Frame & Cover

A spill pallet full of rain water does not offer much protection should a drum leak. Where pallets are not kept under a shelter make use of this design complete with an integral frame and cover.

Product Number	Dimensions (cm)	Sump (ltrs)	Order Code SOL-741	Offer Price/1
SDP-FC	142 x 132 x 270	410	-5180F	£962.00

Drum Trolley

This easy to use unit combines safe transport, storage and dispensing from drums all in one. Any spills that occur during dispensing are safely stored in the sump. Simple to use one person operation.

Product Number	Dimensions (cm)	Sump (ltrs)	Order Code SOL-741	Offer Price/1
SDT-230	160 x 74 x 64	230	-5500T	£481.00

4-Drum Workfloor

All three models of workflow, SW-2 (left), SW-4 and SW-4IL (next page) have the same 15cm height for easier loading and unloading. The grates are easily removed for cleaning.

Product Number	Dimensions (cm)	Sump (ltrs)	Order Code SOL-741	Offer Price/1
SW-4	166 x 126 x 15	300	-6420B	£254.00

SOLENT™ SPILL CONTROL™ 4-Drum In-Line Workflow

All three models of workflow, SW-4IL, SW-2 and SW-4 (both previous page) have the same 15cm height for easier loading and unloading. The grates are easily removed for cleaning.

Product Number	Dimensions (cm)	Sump (ltr)	Order Code SOL-741	Offer Price/1
SW-4IL	260 x 90 x 15	300	-6421C	£381.00

Workflow Ramp

This ramp is designed to be safe to use with any size of workflow, with an integral joining strip to ensure that it stays in position and a ribbed surface for better grip. At only 80cm wide it can be fitted to any edge of each of the work floors. 100% polyethylene.

Product Number	Dimensions (cm)	Sump (ltr)	Order Code SOL-741	Offer Price/1
SWR-1	65 x 80 x 16	-	-6520R	£147.00

Bench Tray

For use in a laboratory or other areas where small containers are in use and it is essential that any spills are contained. Removable grate for easy cleaning.

Product Number	Dimensions (cm)	Sump (ltr)	Order Code SOL-741	Offer Price/1
SW-T1	63 x 55 x 7	9.5	-6530T	£70.02

Salvage Container

Where a drum is damaged or leaking UN transport regulations require that it is transported in a leakproof container. This container fully meets these regulations. The 100% polyethylene construction ensures compatibility to a broad band of chemicals and oils. The lid is fully threaded and can be tightened using a bar or piece of timber across the slots. The moulded design externally allows for lifting by a fork-lift or sling.

Product Number	Dimensions (cm)	Sump (ltr)	Order Code SOL-741	Offer Price/1
SSD-360	81 dia x 105	360	-6020B	£236.00

Drum Funnel

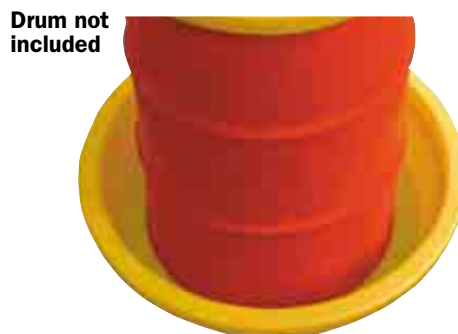

An essential item when filling either a drum or IBC, particularly with waste fluids. Designed to ensure that there are no spills with an integral lid so that the funnel can be left in place when not in use. Fits over the top of a 205ltr drum. Does not rust or corrode.

Product Number	Dimensions (cm)	Sump (ltr)	Order Code SOL-741	Offer Price/1
SF-20L	61 dia x 23	250	-5650X	£63.00

Circular Drum Tray

Where there is only one drum in use in an area, the Oil Storage Regulations state that a drum tray with a capacity that is 25% of the size of the drum is sufficient. This 100% polyethylene circular tray meets the requirement. It is also ideal as a temporary bund for smaller items during maintenance operations, including batteries.

Product Number	Dimensions (cm)	Sump (ltr)	Order Code SOL-741	Offer Price/1
SOT-8	87 dia x 19	50	-5840T	£70.02

Small Container Trays

Small drums are just as likely to leak or spill as large ones. These three different sizes cope with drums up to 25ltr. 100% polyethylene resists corrosion.

Product Number	Dimensions (cm)	Sump (ltr)	Order Code SOL-741	Offer Price/1
SWB1	55 x 55 x 11	27.5	-6810A	£93.42
SWB2	72 x 46 x 11	27.5	-6820B	£101.00
SWB4	92 X 72 x 18	100	-6840D	£181.00

GROUP 741 SECONDARY CONTAINMENT STORAGE

SOLENT SPILL CONTROL Double IBC Spill Pallet

This is the largest polyethylene spill pallet available, and can be used for a variety of applications including the regulation compliant storage of two 1000ltr IBCs or up to eight 205ltr drums. The strong polyethylene rotationally moulded design ensures that there is no distortion of the side walls when under load.

Product Number	Dimensions (cm)	Sump (ltr)	Order Code	Offer Price/1
SSP114	256 x 135 x 51	1140	SOL-741	£1035.00

Single IBC Spill Pallet

This unique design is complete with a bucket space for the splash-proof dispensing of fluids from the IBC. Any type of IBC with an integral pallet can be used.

Product Number	Dimensions (cm)	Sump (ltr)	Order Code	Offer Price/1
SSP110	140 x 195 x 73	1100	SOL-741	£735.00

Drain Covers

When a spill occurs outside, the most likely outlet for fluids to run away to are the drains. It is a legislative requirement that sufficient protection is in place for all at-risk drains. This is best met with one or more drain covers, of which three types are available. The clay drain covers are only for use in an emergency, as once moulded to the drain they cannot be reused. Where ongoing use is anticipated, such as each time a bulk delivery is made, a polyurethane cover should be used. The neoprene cover (not illustrated) is for occasional use only.

Polyurethane

Product Number	Dimensions (cm)	Sump (ltr)	Order Code	Offer Price/1

Lubricants & Chemical Products

'Natural' Absorbents From Sustainable Resources

Rather than relying on a non-renewable resource such as polypropylene for their construction, this all new range of absorbent pads, rolls and socks from Solent Plus™ utilises raw materials that are constituted 80% cellulose fibre in their manufacture. Cellulose fibres are one of the most widely available sustainable resources and have a low dependence on fossil fuels. All of the products are available in either maintenance or oil-only grades, and represent a viable, cost-effective alternative to traditional melt-blown absorbents. The performance is equal to, if not better in some cases than conventional absorbents. Of particular note here is the oil pad, which has a class-beating absorbency rating of up to 1.4ltr per pad.

'Natural' Pads

PACK OF 100

Dimensions (cm x cm)	Format	Pack Quantity	Absorbs (ltr)	Order Code SOL-742	Offer Price/1
48 x 38	Maintenance	100	0.8	-4510K	£51.84
48 x 38	Oil only	100	1.4	-4550P	£48.60

'Natural' Socks

PACK OF 20

Dimensions (cm x m)	Format	Pack Quantity	Absorbs (ltr)	Order Code SOL-742	Offer Price/1
7.5 x 1.2	Maintenance	20	4.0	-4530M	£48.60
7.5 x 1.2	Oil only	20	4.0	-4570R	£48.60

'Natural' Rolls

Dimensions (cm x m)	Format	Pack Quantity	Absorbs (ltr)	Order Code SOL-742	Offer Price/1
37 x 38	Maintenance	1	62.0	-4520L	£47.52
37 x 38	Oil only	1	108.0	-4560Q	£44.28

Absorbent Socks

Make use of socks where liquids need to be contained. Particularly useful for putting round the base of machinery and in food stores around the base of freezers (use the maintenance grade). Colour-coded for ease of selection. Oil-only socks repel water and only absorb oil and fuels.

Product Number	Dimensions (cm x m)	Format	Pack Quantity	Absorbs (ltr)	Order Code SOL-742	Offer Price/1
SMS810	7.5 x 1.0	Maintenance	50	3.7	-2960M	£99.35

PCS830	7.5 x 3.0		8	10.0	-4780K	£58.32

Absorbent Booms

Use to contain oil or fuel spills on water. The fill is hydrophobic, which means that they repel water while absorbing oils and fuels. Will stay afloat on water even when saturated with oil. Use the clips and rings to join more than one boom together for larger spills. Convenient 3m length for ease of handling.

PACK OF 4

Product Number	Dimensions (cm x m)	Format	Pack Quantity	Absorbs (ltr)	Order Code SOL-742	Offer Price/1
SB0123	13 x 3	Oil only	4	29.5	-0820J	£89.10
SB0203	20 x 3	Oil only	4	79.0	-0840L	£115.00

Absorbent Pillows

These absorbent pillows are particularly useful for coping with persistent leaks that require more than the absorbent capacity offered by pads. Can be left in place under machinery.

PACK OF 16

Product Number	Dimensions (cm x cm)	Format	Pack Quantity	Absorbs (ltr)	Order Code SOL-742	Offer Price/1
SMC303	38 x 23	Maintenance	16	4.0	-2610F	£52.27
SOC303	38 x 23	Oil only	16	3.5	-2620G	£52.27
SCC303	38 x 23	Chemical	16	3.5	-2600E	£56.16

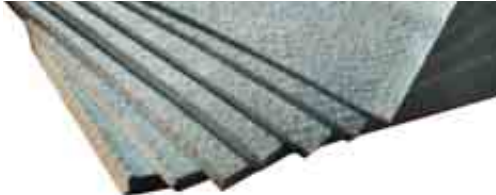

Absorbent Pads

Solent Plus™ absorbent pads are available in two thicknesses, medium or light and are suitable for use anywhere that fluids have leaked or spilt. Simple colour coding makes selection easy. For most indoor applications use grey/black. These will absorb most fluids, including oils, fuels, solvents, coolants, water and foodstuffs such as milk or wine. If there's a possibility of aggressive fluids such as acids or alkalis being spilt, use the yellow ones. Where an oil or fuel spill is likely outdoors, it's best to put the white ones in place. These repel water while absorbing the oils and fuels.

Maintenance Absorbent Pads

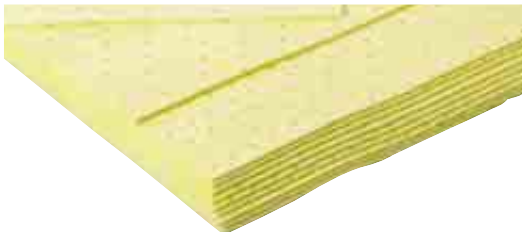

Product Number	Dimensions (cm x cm)	Format	Pack Quantity	Absorbs (ltr)	Order Code SOL-742	Offer Price/1

Lubetech 'Superior' Absorbent Pads

'Superior' pads from Lubetech utilise the latest manufacturing techniques to provide outstanding performance in all industrial environments. They feature a 'high loft' construction that combines more material with more space between the fibres for that extra thickness that not only absorbs but retains - very important when selecting pads for real-life applications.

Maintenance Absorbent Pads

Oil Only Absorbent Pads

Chemical Absorbent Pads

Product Number	Dimensions (cm x cm)	Format	Pack Quantity	Absorbs (ltr)	Order Code LUT-742	Offer Price/1

UXT Universal Pads & Rolls

Make use of this unique range where there is a requirement for a low-lint absorbent that copes with virtually any fluids. The combination of a fast absorbing inner with a spunbond coverstock to both faces make these pads and rolls the absorbent of choice for many applications. Particularly useful as a wipe-down product or for lining benches when stripping down machinery.

Product Number	Dimensions (cm x cm)	Format	Pack Quantity	Absorbs (ltr)	Order Code LUT-742	Offer Price/1
11-1000	51cm x 41cm	Pad	100	0.8	-0900A	£71.50

11-1003	38cm x 46m	Roll	1	70	-0920C	£66.17

Multi-Roll

Unique 3-ply construction. Tough coverstock layer top and bottom with absorbent centre. Endless applications - use it as a pad, a roll or a sock. Absorbs most fluids except aggressives.

Product Number	Dimensions (cm x m)	Format	Pack Quantity	Absorbs (ltr)	Order Code LUT-742	Offer Price/1
12-1028	38 x 46	Maintenance	1	89	-1480B	£63.00

Roll'n'Box

This small roll in it's own box is ideal for the workshop or the back of the van to cope with those small incidental spills that happen from time to time. It absorbs most fluids found in industry apart from aggressive. Each roll yields as many as 200 pieces 23 x 19cm.

Lubetech Spill Response Kits

In addition to daily use absorbents, there is often a requirement in the workplace for a larger volume of absorbent material to be held in one location for use in an emergency - a spill response kit. This may be small, capable of absorbing up to seven litres - or large, with an absorption capacity of 1000ltr or more. Whatever the size, the same basic requirements will apply. The container that the absorbents are packed in needs to be durable - and readily visible. The absorbents need to be capable of coping with any liquid that might be spilled in the area the kit's intended for - not just the predominant fluid. Suitable personal protection equipment will need to be included - as well as a generous supply of easily identifiable disposal bags to put used absorbents in. Three types of spill response kits are available in several capacities depending on your requirements - 'Maintenance', 'Oil-only' and 'Chemical'.

Clear Carrier Spill Kits

Contents

15ltr
10x pads, 1x sock, 1x gloves, 1x disposal bags.

Size	Order Code SOL-780	List Price/1	Offer Price/1
240g	-2540D	£2.93	£2.40

Lemon™ Beaded Hand Cleaner

Naturally powerful citrus-based beaded hand cleaner. Contains thousands of poly beads that produce a micro-pumice cleaning action that easily removes stubborn grime, without damaging the skin. Combined with a citrus-based degreaser, that is environmentally friendly, and contains no harsh chemicals. Removes oil, tar, grease, paint, ink, glue etc. A deodorising lemon formulation leaves a pleasant lemon scent that eliminates oil and swarf odours, leaving the skin feeling fresh after use. Water rinsable - leaves no oily residue.

Natural Beaded Hand Cleaner

Natural beaded hand cleaner uses two types of scrubbing additives, wood flour to absorb grease/grime and poly beads to remove more stubborn soiling like tar, inks and paints. These combine to produce a dense cleansing lather to deliver a powerful solvent-free natural cleaning action that is gentle on your skin.
