

## HI-TECH Crate Engines

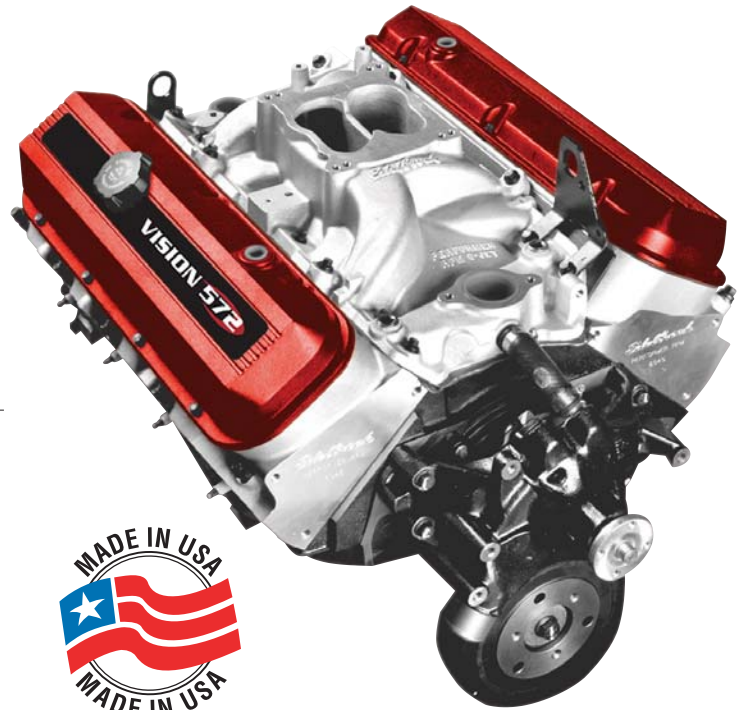

Hi-Tech manufactures some of the highest quality aftermarket engines in the world today. Computer controlled manufacturing processes are utilized extensively in the production phase of our products, generating amazing RA tolerances from .5 to 1.2 microns! This translates into increased life span, durability, and overall reliability of the engine performance. All engines are 100% live tested before receiving the stamp of approval.

### VISION PERFORMANCE CRATE ENGINES

- Built to specifications you only dreamed possible with total CNC capability..
- .4 to 1.2 micron RA smooth peak deck honing
- Up to 1 micron bore center correction
- Blue printed and balanced
- 100% live tested
- Direct current fastener torquing
- No core charge
