BOLD MOVES

There's a reason every kid
longs to drive it.
In this case,
it's a 500-hp V8.

'07 Mustang Shelby Cobra GT500

The legend lives.

Coupe or convertible,

V6 or V8.

There's nothing like a Mustang.

Which is why every generation
falls in love with one.

Keep up the tradition.

'07 Mustang GT

Serious power calls for backup. And, of course, Mustang delivers. With a performance-driven chassis. MacPherson strut front suspension and solid-axle rear suspension. Standard 4-channel anti-lock braking system. And an almost 50/50 weight distribution. The result is tight handling, excellent brake performance and stick-to-the-road grip. Was that your right foot that just twitched?

Technically, it's called
the Interior Upgrade Package,
but "Have to Have That"
works for us too.

'07 Mustang GT

fordvehicles.com

Package includes leather-trimmed steering wheel and shifter. Here, the look is Charcoal. Want to shake things up a bit? Then add on the available Shaker 1000 Audio System with trunk-mounted dual subwoofers and 1,000 watts of peak power. Or, the MyColor™ instrument panel lighting with over 100 color combinations.

Go on-line to get all the
specs, options and colors available for
Mustang.

Or, better yet, stop by a dealer
to see everything firsthand.

Mustang's 4.0L V6 offers 210 hp, while the 4.6L V8 (shown here and standard on every Mustang GT) matches 300 horses with 320 lb.-ft. of torque. Things get a bit more serious with the Shelby Cobra, though. Like 500 horses and 480 lb.-ft. of torque serious on its supercharged 5.4L V8.
